J. S. T. C. PLANS TO CELEBRATE 50TH BIRTHDAY

Many Prominent People Are Invited To Attend on August 10

Plans are being made for the centennial celebration at the Jacksonville Teacher's College on Friday, August 10. This date will mark the close of the academic session at which time more than one hundred people will receive normal school diplomas and college degrees.

An effort is being made to have all ex-superintendents of education and many other prominent people present. Arrangements are being planned showing the growth of the school from its beginning through the period as a normal school to its present position as a State Teacher's College with a grade A rating by the American Association of Teacher's Colleges. Several prominent people from the state and a barbecue dinner will be served to all invited guests. Efforts are being made to have as many of the alumni present as possible. It is expected that representatives of all colleges in the state, county superintendents, city superintendents, high school principals, and others of the teaching profession will be present. Invitations should have been appointed to work out plans for all the occasions. Those plans will be announced at a later time.

The celebration will perhaps be the largest event of its kind ever held in northeast Alabama.

CHAMBERS, COOSA, TALLAPOSA PUPILS WILL HAVE PICNIC

The students from Chambers, Coosa, and Tallapoosa counties have organized a club. They are going on a picnic to a nearby place on Saturday, August 7th. Mr. Robert Smith, of Coosa, is president of the club. Mr. Smith is a member of the Wallace-Jefferson group which met at Mr. Hendrix's residence for dinner on August 8th. It will be in charge of the club.

WALKER-JEFFERSON STUDENTS ORGANIZE

On June 19 the Walker-Jefferson county group met at Mr. Hendrix's room for the election of officers. The following officers were elected:

"Denny" Bush, of Walker, President; Kathleen Franklin, of Jefferson, Secretary; Mildred Varro, of Walker, treasurer. The first meeting of the program committee and this committee is composed of Miss Nola Dool, of Walker, Miss Nola Dool, and Mr. Neil Garner.

Professor Lame J. Hendrix who has charge of Walker-Jefferson is faculty adviser.

FORMER STUDENTS ARE URGED TO SEND CONTRIBUTIONS TO TEACOLA

All former students are urged to send news items to the Teacola for publication. If a former student expects to get married, has gotten married, or does anything else of interest to his or her friends, it will be printed in the Teacola. It will be printed whenever there is something to be printed in the Teacola.
ALABAMA HISTORY SHOULD BE TAUGHT

An article by Arnold Thompson appeared in a recent issue of The Teacola suggesting that a course in Alabama History be given in the Tallapoosa County High School. The statement is very timely and we hope the curriculum committees will include such a course in each grade. It is reasonable to expect people to know something of the history of the state where they live. It is surprising how many can name five characters more than John Melish Pemberton, General Joe Wheeler, General William Crawford Georgia, Admiral Raphael Semmes, and others. Our boys and girls should learn more about their state. A few years ago every teacher who went from another state to Georgia to teach was required to pass an examination on the history and geography of Georgia before he was permitted to stay. How many of our teachers in Alabama, even those who were born and reared in this state, do you suppose can enumerate the names of our Governors since 1850? Is it not the fact of the teachers but we should give them an opportunity to learn more about our state.

While the history and geography of Alabama is more intensive courses should be given to the children in the grades and high schools. At the present time we find history stories of Alabama taught in the grades and these constitute the only knowledge of Alabama which a student has an opportunity to learn.

Many of the college history teachers have come from other states, and do not feel prepared to teach Alabama History. Professor R. E. Poigniard, head of the History Department at Tuskegee Institute, was appointed as an examiner as well as a course, as such, as was in State and National government. Both courses should be taught in the colleges and also in the elementary and high schools.

COUNTY BOUNDARY LINES

It is to be regretted that so many county boards of education have passed regulations against the employment of teachers from another county. A large part of the board members in trying to take care of all of the local people in their wards try to be as reasonable as possible in the interest of the local people. The danger is that the rule will spread throughout the state and make it so difficult for the poorest people to be able to obtain promotions by going to the more prosperous counties.

Many of the county boards of education in passing such regulations now feel that they are not in a position to employ any more teachers. The teachers themselves urge that the county board should give opportunity to the most qualified. It is an undisputed fact that many teachers can do better work away from home as the general tendency is for the young people to come to the larger cities to think of the younger people in the same way. That more teachers should be employed as teachers in the county and more teachers that are ready to teach the boys and girls that have grown up in the local communities. We have only to look about us in the field of education to see that many of our important positions throughout the state are held by people out of the state. The old saying that an "expert is an ordinary person away from home" seems to be true in most cases.

Sometimes it is not convenient for a teacher to teach away from home in the most cases the teacher can do better work where he or she is placed on her own account and he or she is exposed to support of friends and relatives at home. We feel that it will be in the interest of the teaching profession and to the students to urge county boards to pass rules against the employment of teachers from other counties.

THE TEACHER A SALESMAN

The salesman who calls on his customers in a bad humor and with an off his face will not likely prove to be very successful. The energies of a city are not to be wasted by advertising your wares unless the salesman is able to get them in a happy frame of mind. Every teacher is much more important to monks than it is to the student. He is not so much the men with a person with a certain amount of knowledge to inspire the children with a desire for knowledge. The parents who come in contact with the school are interested in the high school education and the power of the teacher's knowledge of what constitutes the essentials of an education.

On the other hand the teacher who is bright and cheerful can inspire his students with better results. He should not be one that will show off their work so serious that it will show on their faces. They should know how to smile and be able to scatter sunshine wherever he goes.

Jacksonville Faces Forward

(By Jim Frank Clark)

A few days ago the newspapers carried stories of Diane leading the nation in liberating the NIA. We have further discussion of this in John Temple Gravett's II column. On June 19 Mr. Graves points out that in recent Literary Digest poll, Alabama owes President Roosevelt a bigger vote of confidence than almost any other state. He next shows in a section of an article recently published in Collier magazine--Collins representative, Representative T. B. Yarber, has toured the entire country in an effort to sustain the religious and moral values. Mr. Yarber praises Alabama as ranking comparatively; he is quoted: "Alabama, in fact, seems to be actually enjoying a comfortable climate, and the outlook for the next few years. Both there and in the neighboring territory, is higher than at any time in the past.

It is exceedingly gratifying to know that Jacksonville is doing her part, probably setting the pace for other towns, in fostering this little civic spirit. The railway station men no longer do idle wandering through the station; there is a feeling of purpose. "The Profile Cotton Mill, now under management, is back at work, and, as a result, trade is more generally stimulated. Most of the merchants are doing better business and sales, and face each new week with optimism. A new theatre is to be opened soon. A new grocery store is ready to open its doors..."

Another indication that the people of Alabama are looking forward to a brighter day is the marked increase in enrollment at the college. The enrollment is larger than it was at the beginning of the year. It may not be a boom, but Jacksonville is having an underlying current that goes to prosperity.

MARSHALL-CULLMAN STUDENTS ORGANIZE

The students of Marshall and Cullman counties recently held a joint meet to protest a federal organization for the summer quarter. A program of activities was planned almost entirely by this group on July 2, and plans are being formed for the future.

The officers of the organization are: Herndon M. Dozier, president; Monroe Prueitt, vice president; Lois Moad, secretary and treasurer. The Social Committee consists of: Harry Haney, Roy Jo Dyer, Gladys Haney, Horace Beard and Marvin Glenn. The Program Committee consists of Evelyn Bailey, Reece McElheny, Mary Alice Lovern, and Julia Hill. A.C. Shilton head of the Extension Department is office advisor for this group.

Durrett-Garner

News has been received of the recent marriage of Mrs. Clay B. Durrett, Gordo, and Miss Dorothy Gar- nett of Mobile. Miss. Mrs. Durrett is a graduate of the two-year course and has many friends throughout the state. He is now a successful business man of Gordo.
