Plains are being perfected for the entertainment of the largest crowd ever assembled in the Teacoma State Teachers College. The Teacoma State Teachers College is located on Friday, August 15. The State Teachers College has already had a large number of men at work on the streets to have the town looking as clean and as pretty as possible. This is cleaning up their places of business and getting everything in readiness to greet the visitors. It is expected that the gates will be displayed at all business places in the town.

The Teacoma State Teachers College has been allotted 85 students who are to receive federal aid during next year. Actually hundreds of applications for this aid have been received. Special forms are being prepared for applicants to furnish the necessary information. A committee is to be appointed by President Dooling to select the students who are to receive the aid.

THE OUTLOOK FOR THE FULL SCHOOL TERM

Many people are wondering what the incoming administration will do for the schools next year. It is an undoubted fact that something must be done if we are to have a minimum school term of seven months for elementary and high schools. It is also certain that the Federal Government will again come to the rescue of the Alabama School System. Alabama must take care of her own schools.

FEDERAL AID FOR STUDENTS

With the Federal government providing employment to any type of people is quite appropriate that aid should be given to college students. It is true that some college students are not in a position, as a general rule, to be unemployed or will be on the government paying payroll. There are many colleges scattered over the state that are becoming better qualified to fill their respective places in the world.

Jacksonville State Teachers College has at least 36 students who are to receive Federal aid. This is the largest number allotted to any teachers college in the state. Already several hundred applications have been received for this aid. Many of the students who fail to receive aid still are able to get work.

The committee will attempt to point out ways and means to all who apply to attend school, and many will find it possible to get their education who otherwise would feel that they had no chance.

Jacksonville with her allotment of 36 students is quite fortunate but the number should be larger. The apportionment is made on the basis of the number of students in October, and it is possible that the allotment had been made on the basis of the attendance during the winter, spring, or summer quarters, anyway. While school appropriations are not expected to have increased more than twice the number of students who are to receive aid.

THE WHOLE-HEARTED COOPERATION

The whole-hearted cooperation of the people of Jacksonville and Calhoun county in working toward the success of the semi-annual celebration is commended to every body. Those people who have been asked to serve on committees have responded in a splendid way. They are taking the responsible attitude that the semi-annual celebration is not only a school but is county and state affair. Let us pour into the office daily from people in all walks of life that they will sign for the benefit of those in their part in making the semi-annual celebration a great success.

This occasion should prove to be of an enormous value to the State Teachers Colleges. Those people who know of the work that is being done by this and other similar institutions feel that the colleges are doing a splendid job and are an important part of the educational institutions of the country.

Without the help of the public the colleges would not be able to provide schools for our younger ones.

THE CONNECTING ROAD SHOULD BE PAVED

Now that the highway is being paved between Gadsden and Anniston it is expected that the people living from Jacksonville onward to this highway should also be paved. This road is traveled by people from all sections of the county and at present is rough and bumpy in some places. People would love to travel this road every week in coming to and from Jacksonville. Members of the city council have recently made a trip to Montgomery in the interest of the extension of the limits. Gurney, one of the most prominent men in the Jacksonville and in the State Teachers College should do everything possible toward getting a good highway leading to the school. It is not a local project but a project of interest to all of the people in Northeast Alabama. A plan should be devised immediately for going forward with this movement.

HORSE-SHOE GAMES ENJOYED BY LARGE GROUP OF STUDENTS

Coath Stephenson's Physical Education class played a county horse-shoe tournament Thursday evening, July 26, at 6 p.m. The counties were represented with one boy and one girl each. The best pitchers from each county were selected in former contests that were held.

The counties entering were represented by the following:

      Randolph—Myrtle Taylor, R. C.
      Hester—Jefferson—Kathleen
      Ilkin, John Baker; Calhoun—Hilde
      gard Leidert, Ernest Minif, Max
      Rial, Mary Neil Gaddis, Paul
      Robinson; DeKalb—Audrey Dobbs,
      Robert Gilbert, Dirks; Madison—
      W. J. Hawk, Robert Mason; Blount—Ver
      ro Rogers, Billie Weaver; Cherokee
      —W. W. Wesson, Gene Hall; Etowha
      —Vern-Stephenson, John

Randolph county won by a margin of 31 points, Taylor and Hester are all permanent on August 15. The boys received the beautiful blue ribbons.

Jefferson county won second place. Franklin and Linger received their trophies for "coming and going." Many cheers were given by the girls on the same team that were expected to win the tournament.

I was talking with a group of people the other evening about the advantages and possibilities of attending the World's Fair this summer. A few of the people spoke up and said he had a chance to go this summer but it rains too much. When I mentioned the big meetings in his community he could almost see how he could miss them.

Big meetings are held once a year in this community. The people there are in favor of the "Century of Progress" in Chicago. It will be worth as much to a person as a year in college and it certainly will not cost half as much.

If I could borrow a little money, Maynard Hood and I are going to take a hike to the Fair. If any of you kind Ladies or Gentlemen, who happen to be at this affair, have an extra amount of cash on hand that you would like to put in safe hands just give me a ring, I will give you a mortgage on a mule and wagon and let you have a little time to pay on paper money.

The theme song in Europe seems to be "There'll be a hot time in the old town tonight," each country for their special part and that means something to someone to start them. They speak at peace conference then go off to war and bring upon their army and navy, like Italy, France, Germany and others. The meeting seems to be a battle on another hero.

A boy had a bottle of beer in his dresser, and someone moved it, and what did his roommate do but use it for hair tonic?

Last year I tried to sponsor a "Grey Goose" colored, but I believe it or not, we are going to have one of the largest of its kind ever held in this region. They hope that each and every one of you take a part in this as we hope to be able to pay for the beer we are about to have for the year.

There is no better way of putting the old school spirit into everyone than an election of this kind. I know because I have seen it tried. On the campuses of the larger universities the "Who's Who" elections are one of the most popular elections of the year.

Several articles have appeared in the Teacola recently giving the ex- periences of students in seeking education. Young women in attending the State Teachers College of Tuscawau seem to be finding it easy to get an education. Since these articles have been appearing many students have asked for advice as to what to do in order to get an education. The information in detail should be given in the paper for the guidance of those interested in education.

If a young man or woman wishes to attend the State Teachers College, he must first attend a high school and then go to college. He must also satisfy some conditions.

In the case of probationary students, if their funds will permit, Board and room may be secured in first-rate boarding houses in Jacksonville at $20.00 per month. If a full term's board is paid in advance the cost is $20.00 for three months. If Board is paid one month in advance the cost is $15.00 per month. This should be paid in advance, whether the student has a home or not in the dormitories, and a full term's board is paid in advance, whether the student has a home or not.

For those who do not feel that they can afford to pay Board and room at all, there are many auxiliary schools where Board and room are furnished for less than $2.00 per month. The student may attend these schools from home with no other cost to the student for his living expenses.

The school owns a farm on which is located a house for the use of worthy young men who wish to attend school at a minimum cost. A limited number of young men can

## CORRISING THE BAR

## Sunset and evening star

And bade me call for it.

My car must be parked wrong again

And I must pay my fee.

But such a court as moving seems

And while their stores still I

I slyly do rise out of my seat.

And tickets, oh such tickets.

Twilight and evening bell.

And after that, the fight.

The cop that nabbed me in the day

Caught me again that night.

For though from out our homes of peace

The tide may bear me far,

I hope to meet my sergeant face

When I have crossed the bar.

POSSIBILITIES FOR STUDENTS

Many young people throughout the state are now worrying about their ability to attend college next year. If these students will use all of their resources in the right direction there will be a way for every worthy person to secure a college education. In this issue of the paper the cost of school attendance at Jacksonville is given. This institution provides a way for all. Students are urged to read the articles that have been run giving accounts of experiences of former students. No one should give up all hope until he has taken the matter up with Dr. C. W. Daugette, president of the State Teachers College. As a general thing those with the strongest determination find it possible to get an education.
