HIGHLIGHTS OF WORLD NEWS

Christmas Clubs throughout the country will distribute \$370,000,000 to 7,500,000 members during the next two weeks, it was announced Monday by Herbert F. Bawl, president and founder of the Christmas Club, a corporation.

Plans for a regular trans-Pacific air service carrying passengers and mail between Australia, Canada and the United States were revealed Saturday by Charles T. P. Ulm, Australian airman, as he sailed from England for Canada.

President Roosevelt plans to visit the Hermitage, historic home of Andrew Jackson near Nashville, Tenn., about Nov. 15, on his way to the "little Whitehouse" at Warm Springs, Ga., where he plans to spend his Thanksgiving vacation.

The Board of Directors for the Home Owners' Loan Corporation on Tuesday voted to stop accepting applications for loans until further notice, explaining that applications now in the hands of the corporation are "far in excess" of the present resources of the organization.

Making good his promise of quick action, Relief Administrator Harry L. Hopkins Saturday ordered a "prompt and searching inquiry" into assertions by Senator Borah that "shameful waste" has attended distribution of federal cash to the needy, made Friday during a newspaper interview.

Christmas cheer for the unemployed in the form of temporary jobs with the Postoffice Department will provide a \$2,500,000 payroll for the destitute this year. The amount spent last year for emergency workers was \$2,346,000, when 4,289,000 hours of work was supplied for the needy.

A growing movement to make a Century of Progress Exposition a permanent Chicago Fair gained substance Friday as Mayor Edward J. Kelley undertook organization of a planning committee at direction of the city council. The council resolution outlined a plan of cooperation by the city and its Park Board with the state and a committee of citizens, at no cost to taxpayers.

Clyde Pangborn, American aviator said in Sydney, Australia, Monday, that he is planning to fly around the world in 104 hours, and will use a plane designed by Vincent Burnelli, an Italian-American designer, now under construction. Pangborn and Colonel Turner finished third in the recent London-to-Melbourne air race.

The much debated question as to where in this country and the rest of the world, the best English is spoken, has taken a new turn, with Guillermo Hall, professor of social science at Boston University, handing the laurels to Virginia and the Irish. "The center of American culture may be Boston" he said, "but the best English is pronounced and enunciated by educated Virginians. And on the other side of the Atlantic, the best speakers of the English language are not found in London or at the seat of the great universities, but on the contrary, in Ireland, among the educated Irish."

POPULAR

REUBEN SELF
Jacksonville's High School Principal

Mr. Self, one of the most popular and beloved faculty members of the State Teachers College because of his ability as a teacher as well as an administrator, is congenial and never failing in his attitude toward aiding students and cooperating with officials of the college.

Mr. Self received his elementary and high school education in the schools of St. Clair county. From here he entered the University of Alabama, where he received his B. S. degree in 1920. He also received the M. A. degree from Peabody College in 1924. Since this time he has been constantly connected with high schools and the State Teachers College. He was principal of the Butler County High School located at Greenville. Since this time he has been connected with the Jacksonville State Teachers College as principal of the High School.

Along with his educational interests he finds time to take an active part in the Masonic and Shrine organizations. He is an active member of the American Legion, having seen service in the World War as Second Lieutenant. He is also Scout Master of the local Boy Scout troop. His influence for good is felt at the local Methodist Church, of which he is a member and the present Sunday School superintendent. In addition to these interests he is a great lover of sports, his favorite being football. (Interviewed by Jasper Buckner)

Tournaments Of Athletic Club Cause Friendly Rivalry

Every Tuesday and Thursday afternoon is set aside for practices. The Club that had the highest total per cent present at the practices was the Achaean Club. This entitled them to five points toward the cup to be given at the end of the year to the club having the most points. The Ionian and Dorian Clubs tied for next place with 27 per cent. These clubs will get 2½ points toward the cup, and the Aeolian Club came in last with 25 per cent, giving them one point toward the cup.

School Subject Contests Will Be Conducted Soon

Contests in Spelling, Arithmetic, Language, and Silent Reading will be conducted this year on a large scale, by the Extension Division of the State Teachers College according to A. C. Shelton, Director of Extension. The contests have been conducted during the past several years with a few school systems taking part. Indications are that many new entries will be seen this year.

Monroe county and Talladega county contestants took away most of the honors last year with several outstanding contestants from other school systems.

A bulletin giving full information on how to conduct contests will be printed for distribution at an early date. In summarizing the methods of preparing for the contests Mr. Shelton states that good teaching of the subjects is the best way to prepare. The only thing necessary is for each school within a county to select the best spellers in the elementary grades and the best spellers in the junior school grades for the county spelling contest. The most outstanding pupils in each grade are selected for the contests in reading, language, and arithmetic. In the county contest eliminations are held to select the representatives who are to represent the school system in the final contest at Jacksonville in the late spring.

STUDY OF ALABAMA HISTORY

More attention should be given to the study of Alabama History and the singing of the song "Alabama" according to A. C. Shelton, Director of Extension. Mr. Shelton states that only a small number of people in the state know much about Alabama History and that it is due to the fact that they do not have an opportunity to study it in the schools. Mr. Shelton also states that the song, "Alabama" is rarely sung at teachers institutes and other meetings. In calling attention to this fact he is advocating that an intensive course in Alabama History be taught in the high schools and colleges and that the song "Alabama" be taught to all children in the state.

THE USE OF CORRECT ENGLISH

A national magazine recently carried a full page picture of a beautiful lady with the heading "You Would Think She Was Really 'Somebody'." Underneath the picture was the following statement: "I thought so until I heard her speak, then I knew she was 'nobody'."

This is being called to the attention of the readers of the Teacola as being typical of the way many people are judged. Correct English is always recognized as evidence of an educated and refined person. Poop English is taken as evidence of the opposite. All college students and others should always strive to improve their English. It will mean much to any individual to be capable of using correct English on all occasions. It may mean a great loss to an individual who uses poor English but who may be well prepared otherwise.

CARE OF PUBLIC PROPERTY

A school building or church should be the best protected building in the country. Damage should never be done to any building which belongs to all of the people. Every individual within a community should guard carefully such buildings as they belong to everyone. No mark should ever be made on the walls of a public building, yet as we go through such buildings everywhere we find that some individuals have been so careless as to damage the property which belongs to the public. The students of this institution should feel an individual responsibility in protecting the buildings. We sometimes find where some careless individual strikes matches on the walls and does other things to deface the building. This is done by persons who are unconscious of doing damage. With a student body such as ours it is only necessary to call attention to these things and we are sure that the last mark has been made on the walls of the building which will ever be made by any who are here at the present time.

IDEAL CITIZENSHIP

In this day of modern thought more attention should be given to the development of better citizenship. An education will not mean much to people unless they are developed into better citizens. Every student in elementary, high school and college should have as his aim the doing of something to make the world better. If the educated people do not establish such goals we can not expect much of the others.

My conception of an ideal citizen is one who can live in harmony with other people and one whom all children may imitate. He must not drink whiskey, wine, beer, coffee or any other strong drink which will harm any organ of his body. He should not use tobacco in any form and should be strong enough to resist a temptation to use it. He must not use profanity and should strive to use only the best language possible. His morals should be above reproach, and it should be his purpose to raise the morals of other persons. He should take an active interest in the affairs of the church and state and exercise his rights of citizenship by voting, but should accord others the rights to their opinions. He should be cheerful and should have a word of cheer for everybody. He should protect his body and see that he is neat and clean at all times.

If our schools are not preparing people to meet some of these standards they are falling far short of their purpose. If students are not striving toward some of these standards their education will not be worth much to them.

A person never makes a mistake by being prompt to meet all of his responsibilities.

It has been said that a sure way to ruin a brilliant student is to brag on him. We wonder how many of our students have been ruined.

If you want a thing done call on a busy person. Those who do not have time to do things which they are asked to do are usually those who are always delaying and never getting any thing done.

Letter To Editor

Dear Editor:

It seems if you are the only means by which A. H. and I can get in touch with each other. Wouldn't it be fine if we had a column in our Teacola headed Arguments? A. H. and I would be Webster-Hayne the second. Since my rival never touches on political subjects I'm inclined to believe that he is a "she", therefore you'll pardon me for referring to her as such.

I'm going to take a chance on criticising the Teacola. As yet I've neither heard nor read any thoughts expressed about our school paper. Everyone, like me, thinks it is a wonderful paper, but still nothing is perfect so here are my criticisms:

The local school news in general is O. K. but slightly partial and a wee-bit dry. The "Highlights of the World News" is so "high" that it doesn't furnish much light. Harry Herndon's Brainstorms are marvelous bits of literature, considered from a classical standpoint. The Rambler surely covers ground for a man his size too. Maybe a man with "see-all" eyes like that ought to get a night watchman's job around Forney Hall. Of course the picture gallery thus far has been a series of model masterpieces. I know enough about the "Recreational Exercises" to enjoy them. The personals are so monotonous that I'd rather read the "Demonstration School." The advertisements are perfect.

After this you'll think that I've gone back on my idea that the Teacola is a wonderful paper, but I haven't. Remember Lowell wrote a "Fable for Critics" and still gets praised for it. Who knows but what I'll be a great writer someday?

Yours truly,
R. C. W.

P. S. I'm leaving the "Letter to the Editor" column to be criticised by Miss (Mrs.) A. H.

Dear Editor:

I'm going to start this letter with another lecture. I just can't understand why some students are not taking more interest in the paper. Many have not contributed one item. If every student would "pitch in" one good article, he would be helping the school, the reporters, and himself. It is a wonderful feeling to see something that you have written and composed in print before you with your name in headlines. It gives you a feeling of accomplishment that nothing else will do. In the next few days I feel sure that I will see several young geni begin to really get to work and accomplish something.

The school has shown a lot more pep in the last week. I surely am glad. I hate to see a student body with no "school spirit." The game with Bowden, Ga., was a grand victory for us and I was glad to see so many present. The dance Friday night given by the girls of Weatherly Hall and Daugette Hall was a grand success. All the boys seemed to enjoy getting a rush, it gave the girls a splendid opportunity to "try their wings."

Winter surely is coming fast and furious. I was out the other day and the wind nearly blew me to town. I didn't have to do much walking. But I didn't waste any time in getting there. We will just have to get up a little "steam" and energy to combat Mr. Frost.

I hope to see several contributions in the next paper that will be a little rivalry for me. I hate to have the whole field without even a little competition to make the fight more interesting (of course I generally come out on top.)

I'll be watching you.

Sincerely yours,

A. H.

BRAINSTORMS

(By Harry Herndon)

Folks, Woodrow Hearn drew something in Art class that he calls a flower. Well, maybe it is but I've got to have more definite proof.

I overheard Freeman Dunn discussing his Music class the other day and he said that he was going to learn a little something about Music in spite of himself. How's that for a compliment, Miss Ewing?

I've been wondering why someone hasn't asked me to join the orchestra, but maybe they don't know that I've got a fox-horn at home.

Don't be like Lot's wife (always looking backward).

Premier Mussolini has created a new organization called the "Balice of Wolf" for boys 6 to 8 years of age. Now if he just makes this compulsory he'll be going the ancient Spartans one better. They didn't enforce military training upon their boys until they reached the age of seven.

In my estimation Public Enemy No. 1 is the fellow who sings in the Halls.

Dan Hunter has requested me not to publish anything about his talking to Lynn Little in the halls. Dan seems to be a bit bashful. That's the reason I'm not going to let you readers know about this incident—so just forget that I saw them.

What a man! What a man!
Is Melvin Yates.
He likes fresh fruits,
He just lives on "dates."

Elinor Early in the American Magazine says, baby-faced girls make fat wives, horse-faced girls can't cook, and red-headed girls shouldn't eat onions. I just wanted to pass this bit of worthwhile information on to the boys before they fall for the wiles of some scheming lass.

One night last week I chanced upon Smith Thompson and George Clegg smoking cigars—and do those boys know their "ropes."

For every man on the island of Boli there are 7 beautiful women, tawny as bronze, dark-eyed, and red-lipped. Wait boys, let's don't migrate until warmer weather sets in.

James E. Brown, deputy manager of American Bankers Association reports that bank robberies have fallen off considerably in the past year. That's easy to answer. So many of the banks have failed there aren't as many to rob.

I need an inspiration
I've got to write a 'pome'
And yet the information
Just isn't in my dome.

Stephenson Girls In Who's Who Contest

The girls living in the home of Mr. and Mrs. J. W. Stephenson recently conducted a who's who contest to determine the outstanding persons along certain lines. The results of the contest are as follows:

Prettiest girl, Inez Meadows; best sport, Inez Meadows; biggest flirt, Fay Sherrier; biggest eater, Aluerine Cleland; best worker, Beulah Woody; biggest grumbler, Fay Sherrier; cutest, Inez Meadows; best hoke-cake baker, Goldie Crupp; most content, Beulah Woody; most studious, Fay Sherrier; biggest laughter, Inez Meadows; wittiest, Mary Earle Woody.

I've rack my brain,
And my pencil chewed
My mind collapses from the strain
My eyes are weak and crimson-hued.

A poet I will never be
In all this mad confusion
An evident fact, as you can see
Alas! this sad conclusion!

Of all the boys
Who play football,
Rats Baker and Leath
Are 'goofiest' of all.

The boys are aware of a petite blonde "charmer."
This co-ed's name is Steve Anna Farmer.

I write this stuff all by myself
As was my solemn promise,
To your complaints my ears are deaf
So 'pooh' for doubting Thomas.

I'M "THAT WAY"

About MANGEL'S! If I want a sweater—there's just the kind I like. If I need some lingerie—what a grand time I have just trying to choose. Stockings? I have worn Fan Tan hose for three years. And the clothes, well I'll say this campus is Mangel-conscious. So you see, I'm really "that way" about MANGEL'S.

WINTER QUARTER BEGINS DECEMBER 10TH

C. W. DAUGETTE

PRESIDENT

The Sport Parade

(By Gordon Coheley)

The last home game of football was played here last Friday when the Eagle-Owls gave a crushing defeat to Bowden, Ga. The Jacksonville boys really acquitted themselves well and once they had shown the crowd their passing, blocking and running ability there was no doubt as to who would be the winner. So Jacksonville football fans have a decisive victory to discuss this winter when they are "replaying" the game.

The crowd that turned out while not as large as it could have been was a good showing and there was no doubt whatsoever that the team was whole-heartedly supported by the student body. Unfortunately there was a little "roughing it" in the course of the game and while the crowd called for revenge there was never any overt violence.

Golf seems to be losing its popularity now that cold weather is on the full force but every once in a while we see some few playing. One of the most unusual games ever played on the campus took place the other day when "Dusty" Carter and two or three others passed time off

rather amusingly by playing some golf.

Tennis, too, seems to have come in for its share of decline since the beginning of winter but the tennis tournament has been fought to the finals and as soon as the weather permits we will know who is the best player.

The volley ball courts are in use almost constantly now and it seems as if several good players have been brought to the front. Last Tuesday night there was a volley ball game that furnished several thrilling plays in Kilby Hall. Thus, the growing interest in volley ball is being manifest and it will not be surprising to hear of more and better volley ball games in the future.

The basket ball team is fast rounding into shape and it will not be long now until the teams will be having some hotly contested scrimmages. The team's prospects are unusually bright this year and it will not be surprising if the Eagle-Owls march off to many court victories this season.

A scene in the Old Boston Latin School was presented. The participants in this play were Gus Edwards, Elizabeth Weaver, Elizabeth Scarbrough, Felix Rutledge, and Robert Felgar. A scene in a modern school was given to show the improvement in schools of today. Marguerite Posey, Carolyn Robertson, Myrtle Lee Fryar, Helen Waits, Gladys Walker, Sue Nunnally, Clara Mae Jones, Nadine Johnson, Velma Johnson, Nesbit Barton, and Newell Bailey, present-

ed their posters contrasting the old and new schools. Edan Joe Davis and Isaber Roper gave "A Letter to the Old Boston Latin School," and "Secondary Education For the New Day," respectively.

For Thursday, special visitors day, the Senior Two class was in charge of the program. After devotional exercises by Rev. J. Ivey Edwards, the scene in the Old Latin School was presented again for the visitors. Herman Alexander and Frances Greenleaf read their essays on "Financing Our Schools," after a violin solo by Lemaul Glaziner. A catechism on the financial situation of the Alabama school compared with those of other states was given by Martha Norman, Bill Finch, Grace Borders, Herman Alexander, Mildred Jones, Cloyd Van Hook, and Alice Hamric, Bennie Steinberg recited a poem, "The World is Waiting For You." A tap-dance by Martha Jane Felgar concluded the program. After the program refreshments were enjoyed by the visitors.

The program on Friday, after Nell Simpson read her essay, "Enriching Character Through Education," was conducted by Rev. Penny from the Jacksonville-Piedmont Legion Post. His subject was "What Shall It Profit a Nation If It Gain the World and Lose It's Soul?" The message showed that a nation would profit absolutely nothing.

On Thursday the college quartet sang for us during the assembly period.
