GUARD YOUR CONDUCT CAREFULLY

Many students who have been accustomed to the care of their par-
sents at home now find themselves in quarters where more freedom is
permitted. It is good to have freedom and everyone should develop
self-control in this way. The best advice for any person to follow is
that of his parents. If the parents object to anything all young men
and women should do will satisfy to their wishes and desires. Stu-
dents should remember that the college is a consolidation of
those who want to have a good time. Many instances show that
they can think of things here and get by with them. Some may
think that they will escape the regulations of other people but the chances
are that they will be regretted later in life.

THE GOOD WORK OF THE STUDENTS

The students are to be commended for their splendid work on the
Teacola. Practically every member of the staff is a regular contributor
and the work is being done under the direction of a very efficient
editor. Others than staff members are also showing a splendid spirit of co-
operation for which members of the staff should be greatly appreci-ated.
Contrary to the popular belief that only students of the body and every student should
feel it his duty to make a contribution in one way or another during the
year.

The Teacola, now takes its place as one of the best student publica-
tions in this section of the country in spite of the fact that it is only
six months old. Indications now are that it will continue to improve and
will soon be recognized as the outstanding publication of its kind.

EXTENSION COURSES

Wonderful opportunities are available to those teachers who are in-
terested in taking extension courses. By taking one or a few
extension courses, teachers can improve themselves and meet demands
they make. The following are a few of the extension courses that can be
seen.

The six around Jacksonville is now persuaded with a sort of feeling that, after all, this may not be the cold world that it is often taken to be because the 1984 version of the Eagle-Ohio said themselves in a manner when they won the first game of the season. The outcome of the game itself is that the Eagle-Ohio "can take it" and "climb it" too. Now, that we know that the railroad to do it, it is the school's job to get behind them and keep them from their own whole hearted cooperation.

The first home game of the season was played Saturday with a large crowd present. The students gave much of their enthusiasm to the teams with their pep and interest. Sometimes it is said complainated of having overheated himself walking up and down the sidelines keeping up with the teams. Nevertheless they played and it is true that doubt would do the same thing again if they were given the opportunity. For that reason, Coach Shinn and his Eagle-Ohio because they have shown themselves to the best.
