J. S. T. C. STUDENTS GO TO AFRICA

Mr. and Mrs. Hale Accept Positions

Mr. and Mrs. Carl Hale sailed this week for Old Umtali, in Southern Rhodesia, Africa, where they will teach in the public school systems.

Both Mr. and Mrs. Hale have been educated in Alabama, all their college work having been done at J. S. T. C. They hold two-year diplomas and expect to return after three years and work toward the B. S. degree.

Mr. Hale, the son of Mr. and Mrs. J. W. Hale, of Oneonta, has taught at Antioch, near Oneonta, in Blount County, for the past six years, and Mrs. Hale has taught in the same school for five years.

They were married in the summer in Blount County, and before her marriage she was Miss Velma McWaters, daughter of Mr. and Mrs. T. L. McWaters, of Oneonta.

Interesting to Alabamians is the fact that the superintendent of education in Old Umtali is a former Blount County resident, J. M. Marquardt, who lived for a number of years in Oneonta.

WINTER QUARTER OPENS MONDAY

New Classes Formed For Freshmen

According to Prof. A. C. Stratton, registrar, Winter Quarter registration will begin Monday evening. The schedule has been completed and provided for new classes for freshmen entering this time, also for entrance of underclassmen whose college work has been interrupted. Indications now are that the number of new students who will enter at this time will exceed early expectations.

Due to increasing registration each quarter, this year the registration system has been revised in order that the new student can be registered with greater ease.

A number of boarding clubs have been organized for the first grade, and by special arrangement a plan has been made for room and board whereby expenses are kept to a minimum by splitting bills and frequently by living on a cooperative basis.

Dr. Carl Weinberg motored to Tennessee Friday and joined friends from Ohio State University for a week-end visit.

ONE CRITERION WAS PROPOSED

At the State Curriculum Conference held at J. S. T. C. recently it was pointed out that the curriculum study is a state-wide project with a singleness of effort and co-operation in the school-room, a program that does not consist of deferred beliefs, but one that can begin here and now.

Dr. Doak S. Campbell, visiting consultant, said that the program does not reside in the limbs of theory, but by giving a great deal of latitude inexplicable results can be gained.

The plan may be made, and by the highly technical on the one hand, and the plain-speaking on the other, all may be brought together into some thing that is usable.

Experiences of educators in Alabama along this line are to be written up, and in that process one or two conclusions were drawn for a tentative course of study, a manual for helping teachers to do better work, but one criterion was proposed: No teacher should be asked to give up a cure of studied writing.

“A philosophy of the program cannot be written now,” said Dr. Campbell, expressing a common desire, and as is a part of the job of getting teachers to understand and rest, two years from now a philosophy may be written.

NOSEBAG

By Thad Barrow

Your column wrote “fines” as well as the epilogue to his season’s football last Thursday by watching the Crimson Tide barely surge over the heavily swimming Commodores—that is, we took in an occasional play between shivers. From there we ran up to the top row of the stadium and some of us were able to see the glory line, we concluded that whether or not Bama went to the Bowl, it would be a pretty sight of the nation. Vandy played the Tide off its water feet the first two quarters, and then the Tide’s two were even more decidedly total.

The discussion sometime ago as to whether not personality improves after grammar school may be of no use in our question with the mind. We have in mind a student who, last year, was as generally disliked as anyone in school. Whether by conscious effort on this person’s part or not, because of the adversity of agony from friends, love from arches or an acid stomach, I can’t say, but a complete personality has taken place and the person is as generally liked as formerly disliked. Yes, we have a student with the faculty discussion committee that personality is, to a very large extent, dependent on the will of the person.

In a full-page splurge in The Birmingham News-Alert-Age we read about Mr. Paul Kelly, member of the Alabama Anti-Sale Tax Association of Alabama and a quintessential Quincy-er, is recipes levies for the aid of the schools. Not that the splurge qualified the mention that the proposed levy is for the schools. That would qualify the greater part of the argument they present here.

SCREENFARE

Today the scissors for this week have hit the bulletin board for their long intermission. Today we go into cutlery with “Anthony Adverse.” The second of the book series of Alain K. Enault novel makes a movie that is a much better picture than the novel. And Fredric March and Olivia DeHavilland emerge as a great team in this emotional story. We have therefore always given credit for being able to bring in your money’s worth, because the show is one of the longest ever filmed.

“Secret Patrol,” a story of the Mounties, who, we are told, all have a different way to eat their meals for Saturday. If you like this story you should not miss it. Northernly you should be there with your gunholster.

MONDAY AND TUESDAY

“Pollyanna Jim,” following “An- mally,” is the start of something of a new record for Jacksonville by giving two good shows within a short space. The story has to do with a young carthorse, Bob Montgomery, who falls in love with the daughter of a family he has carted to farms, and interesting complications follow. With Robert at his excellent best, and such an interesting plot, one might not be surprised to hear that Franklin Morgan for support, “Polly- anna Jim” merits your “must.”

WEDNESDAY

“Lady for a dollar,” plus the bank.

THURSDAY AND FRIDAY

“His Brother’s Wife,” with Bob- et Ryan, and at the present time this is the worthiest that a Jacksonville co-wants to know about a movie. For the benefit of the benefit, we support this, we humbly beg to inform you that the picture is called “Streetcar Named Desire” and includes in the cast.

SATURDAY

“Yellow Stocking,” western.

MONDAY

“Mystery Pictures,” a “musher” mystery, which Lew Ayers, a photographer, clean up much of the picture work without附注，photography 上面，Gail Patrick and Paul Kelly are also starred.

It must be a real movie instead of faking up, because it’s entitled “Easy To Take.”

WEDNESDAY

“The Adventures,” with Paul Kelly, Robert Cummings and Mantan Moreland, another in the “crime and punishment” series. This one is aimed against capital punishment.

THURSDAY

They’re almost as much together as the Sixtime Twins, are Ginger Rogers and Fred Astaire. The reason they have so much chance at here before the holidays begin is “Swing Time,” and “you’re already heard at least as much about it as your reviewer. Although something is mentioned, living in an urban community, we are supplied with all manner of changes that we would not have before the condition of the rest of the state. Why should we be limited to what is going on in our pockets so that the hinterland shall not have the thrill of the big city. Besides, a mountainous tax of two per cent would cause many to go to the cities, if they would. Finally, the law must be changed so men who must go through life with the limit of the political rid- ing because of the 30 per cent tax on the crust government impose on the states.

We don’t give the sales tax our unqualified approval. We are not against it, but with a little futility to find a tax which may be used, and, with- out hedging, we admit our failure to find any such Utopian source of revenue. But the people’s brain trust will be able to suggest some alternative to the odious thing, but how many can change their letter to the editor

To the Editor:

On the front page of your last issue, November 20, occurs a letter from a friend of ours who is interested in industrialization. We are sure that he is one of the foremost experts on this subject, and we know that he has been much interested in the progress of his predecessor, while next to it rests the “new” Chick-fil-A and that we have all given him to his fingers as being more novel, and if better tones, and longs to represent the student body, he protests against the deprivation of permission to wear one of his rings, or some close friend, or merely any respectable thing to play a better advertisement. Though, of course, not a member of the music department, he is a very fine musician from the use of the new piano, but still hard-wearing under the circumstances, I mean whether the interest of fair play, to suggest that a letter is now being written, we will now settle in the aforementioned letter.

Let me at once agreed with Mr. Frosh that we should “differ- entiate” somehow between a piano and a pipe of gold.” I had never conceived of the similarity before and if ever to a simile, should much prefer comparing a Chick- engraving gold to a glass, and that the price of the finest piccolo is whether or not Mr. Frosh’s father keeps in his office. Mr. Frosh is that cut glass tumbler, attached to his ice cream drinking fountain, not that I ever drink at a dinner table, but that the touchstone of value or chance of being broken. In the same way, as I understand it, no reflection is cast on Mr. Frosh or any other. They are on the same level, as I mentioned before, on cither Mr. Frosh’s fingers or his taste. But it does not take much common sense or knowledge of pianos to realize that constant playing of a piano, badly enough to dance by in a room the size of the auditorium, rapidly driven the piano out of time, with a constant shrinking, and wears off the feel of the hammer, producing that same discordant tone that we have grown accustomed to in our older piano. The best piano repayes being treated with dignity and rever- ence.

Yours sincerely,

Bernard Hall, a sophomore student of The University of Alabama, who enjoyed the novel experience recently of hearing the latest news from home over the airwaves of a short wave radio station owned and operated by his broth- er, Frank Hall, and the president of the station, Arnold Mur- ham Y. M. C. A. building. The older Hall, who is a radio techni- cian for Clark & Jones in the Magic City, had made an appoint- ment beforehand with the young man and the latter heard all the news while he was visiting in the lobby at Forney Hall.

Mr. Hall was more than pleased after a talk with the younger, which he knew nothing about, but then he saw how sincerely they were saying sincerely what they imply, “We’re in the educational cellar; let’s continue evacuation on another at a lower altitude.”

Theoretically, the tests at the end of the quarter should not be such a radical deviation from the regular routine. In general, the casual acceptance of them is like trying to catch the same comet twice in the same moment. For instance, the disturbing knowledge that the grade you get from a test in French is the grade you get from a test in English, and that a proper sexing of some immense object is anything but conducive to peace of mind.

And speaking of this and that, Chris Pirkett says that her musi- cal mind is possessed of such ap-
THANKSGIVING RECREATIONAL PROGRAM ENJOYED

Thanksgiving festivities at J. S. T. C. for students remaining in town began Wednesday evening when groups were formed for theater parties in Aniston and Jacksonville. On Thursday at noon students and joined faculty members in Dalton Hall for a Thanksgiving buffet luncheon. In the afternoon an attendance was held in a narrow little glass house with a complement, self-satisfied smirk on the faces of the enjoying the air of mere ENDURANCE of their fellow beings. Don't try it "cause it can't be done by just going to a meeting everyone a little over half way in his interest of friendship. Another thing—don't ask too much of even your best friends. Their patience can be taxed. Don't put all your eggs in one basket. It can usually get almost anything that the public wants, even a smile, some tact, and a sense of knowing when to stop applying pressure. Try it on your Dad sometime!

The TENNIS CLUB DID NOT MEET

Due to the bad weather, and as there were not enough surgeons, doctors, and veterinarians at the disposal of the club members, the students were unable to attend the Tennis Club meeting. Our next meeting will be held at the next meeting and all work will be transferred to the faculty members. We will meet on, members, and let's get some good lively members in those three fellowships.

STUDENT SOCIAL COMMITTEE ORGANIZED

The Student Social Committee members have recently been elected and appointed and have assumed their duties for the year. Representatives were elected from the classes as follows: Eberle Burge, senior; Tom Barres, junior; Charles Grobe, sophomore; Mary Turner, freshman.

Members appointed by Dr. Daughtery and Miss Millican were Dr. M. S. Daugher, Dean Claude E. Wood, Dr. C. M. Grobes, and Prof. Julian W. Stephens.

FORMER FACULTY MEMBER HOLIDAY GUEST AT COLLEGE

Dr. and Mrs. J. A. Branson, of Defuniak Springs, Florida, were guests of Dr. Wm. J. Calvert during the Thanksgiving holidays.

Dr. Branson and Dr. Walley Grobe, as a member of the Summer school faculty at J. S. T. C., they were guests of Prof. and Mrs. Bason Mook at dinner Friday evening.

TWO DANCES OF INTEREST

Town Girls and Weatherly Hall Entertain

Two recent dances of unusual interest were the Town Girls' Club Low Year dance and the Weatherly dance.

Lease Maxmie killed many of the Town Girls of the Little Club entertained. Dr. Clara Weis- haupt, faculty advisor, was the chaperon.

A festive background was formed in Graves Hall for the Weatherly Hall dance by the suggestion of unapologetic ballroom dancers, produced by hoisting the lights in bright colors. Chaperons were Mrs. J. A. Branson, Mrs. M. C. Grobes, Miss Minnie V. Sellers, Mrs. W. A. Frest and Mrs. Frances McCandless.

No letters were forthcoming, so I was pushed as a joke and made an old and experienced college student to go serious on my readers and overlook a number of advices.

On all campuses there are basic major problems that confront students, no matter who they are. One problem is more serious than another.

One, however, that confronts all students, coming from the embryonic teacher, is that of being a good role model—and as it is an art.

To have friends, one must be able to relate to the fling of attending football games, groups gathered around the dormitory radios listening in to the Alabama-Vander game.

Thursday, Friday and Saturday evenings were parties in the parlors at Weatherly Hall. At the "book talk" party Thursday evening, the Woodall pewter dinner in the book contest. Its Mac- James made top score in the com- petition at the "Trip Around the World" party Friday evening. The "trip" on Saturday evening was a tacky party followed by a square dance where Mayor Rees was winner of the prize. Ogden Woodall was chairman of the com- mittee which made this party enjoyable for fifty people.

Students residing at Forsay Hall and other dormitories were invited to join in the fun every evening.

INTERNATIONAL RELATIONS CLUB MEETS

When the International Relations Club met November 19 at Bible Graves Hall two talks were given by members of the club. These talks were of particular interest since they had a distinct graduating point.

Mr. Lee Jones talked on the Geography of a N P F yz pension Features of the Hawaiian Islands. The other member was Malcolm Woodall, who gave a very interesting account of The Political Connections and the Relations of the Hawaiian Islands with the United States.

After the program, officers for the latter part of the quarter were nominated. They are to be voted on at the next meeting of the club.

The I. R. C. is one of the most worthwhile clubs on the campus, giving students a real educational value. It extends to everyone who is eligible for membership a hearty invitation to attend its meetings. All visitors are always welcome.

I FEEL FULFIL

I feel fulfilled; Like a book without a reader Like a taxi less a meter Like a quilt without a cover, I feel fulfilled.

I feel like: Like a sale without commissions Like a boat without oars Like Diomos with more additions, I feel fulfilled.

Like a legs man with bone

Like an arrow without bow, I feel fulfilled.

I feel fulfilled; Though I never smoke or drink;

And I have both pan and ink, be a help to me, I feel.

FOUR TEACHER COLLEGE GIRLS ARE RECIPIENTS OF HIGH HONOR

The Misses Johnston, Austin, Johnson and Woodall are the recipients of "high honors" in connection with the Teachers' College awards.

"I do not know that we realize unless we think about it a little, how much color adds to our pleasures and to our life. It is claimed that beauty is in the beholder and that there is no fixed standard, but I downtown that when the architects created the buildings which blend so beautifully with the road, not north and south, but facing a mountain on the east side and looking out facing a mountain on the west side, they had accorded the eye of every beholder who could see, and regarding of standards of beauty, I believe that one who would look out on either side of the building who would not be charmed with the wonderous colors of yellow, red, green and brown and all the shades in between.

"As I look out upon this group, it presents to me a pleasing picture. I see red and green and brown and white and purple, and I guess every color of the rainbow. Color plays such a part in the life of a woman today, and the college girls who adopt colors to live by in peace and to fight under in times of war. The "United States flag has these colors in it. It has stripes of red, white and blue.

"Every college girl in the country has adopted colors as something her own. She has a meaning in life—concrete repre- resentations of its ideals. This college, some years ago, adopted purple and white as its colors although white of course is not a real color, but purple is a color, and the letter "F" stands for Jacksonville, which is the name by which the college is known.
