

HIGHLIGHTS OF WORLD NEWS

Representative Joe Byrns of Tennessee, who was speaker of the United States House of Representatives, died recently and was succeeded by Representative William B. Bankhead of Alabama. Bankhead had been serving as Democratic Floor Leader.

The Republicans have nominated Alf. M. Landon, Governor of Kansas, as candidate for president and Frank Knox of Chicago as his running mate. Landon has been governor of Kansas since 1932, and Knox is a newspaper man.

R. O. T. C. PLAYS HAVOC

The Fort McClellan training units of the R. O. T. C. are about to drive the unattached boys of the towns of Jacksonville and Anniston to suicide. The program of three dances a week, to which only the cadets are allowed to go, places the poor boys in a queer position. Not only are they unable to act independent any longer, but the gals are prone to fall out of line with little or no provocation. "Well, go ahead and see if I care. There's always an R. O. T. C. boy ready to step with me, and they have cars and dough!"

Friday night those debonair young recruits sent a bus down here and rolled away with the pick of the eligibles. Not only did they lug away the gals, but also a number of the mothers. The first thing we know we'll be confronted with mother-chaperones on all dates, and all because of those cadets!

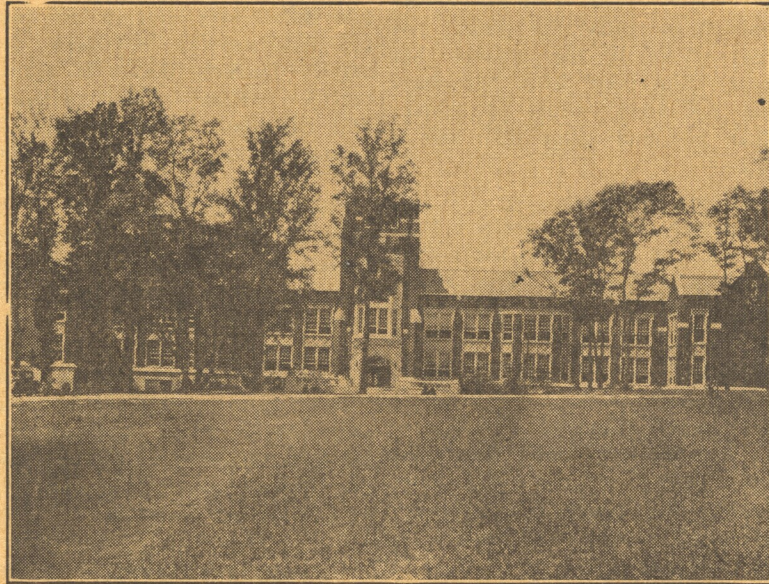

It is said that the Anniston boys are considering attacking the military menace in the old Indian manner. Any cadets caught on the make will be summarily tomahawked! At that, one can hardly blame them. In fact, with the present Government policy of compensating persons for the loss of anything from cotton to peanuts, the boys are eminently justified in any protest at any Governmental injury. Someone should plead their case through Congress.

Well, we have something to be thankful for. The dorm. girls can't go, bless God.

Instructions For Renewal of Certificates

Many teachers are finding it necessary to renew their certificates this year, who have not had this to do during the past several years.

A. C. Shelton, Director of Extension, states that those who wish renewal of certificates on the basis of two extension courses should send a \$2.00 fee with the old certificate and the credit will be entered on proper blanks and sent to Montgomery. Mr. Shelton states that many teachers are returning report cards, but it is not necessary to return these cards as the record of the work is on file here. The college is willing to serve as a clearing house to assist the teachers in getting their certificates renewed.

During the business meeting plans were discussed for the forthcoming social. Final arrangements were referred to a special committee who will have a report in this issue of the paper.

Members are urged and visitors cordially invited to attend the next meeting of the History Club.

NEW COMMITTEE MEMBERS APPOINTED

Wilfred Self and Bennet Browning were appointed by Dr. Daugette to serve as senior representatives, and Hannah King Waldrip, to serve as junior representative on the social committee. Catherine Cayley, a junior representative, will still retain her position as secretary.

Freshman and Sophomore representatives have not yet been appointed to take the place of those who left at the end of the spring quarter.

MISS INEZ SMITHERMAN TAKES TVA POSITION

The entire school was both overjoyed at her good fortune and disappointed at the parting with such a vital member of the student-body when Miss Smitherman left for her new position in Knoxville.

Inez was editor of the Teacola for the past year, and secretary to Mr. Shelton in addition to her regular school work. She is well known on the campus, and we sincerely hope to have her back with us again when the TVA is finally declared unconstitutional!

Due to the large enrollment for the Summer session and the fifth quarter, the regular college faculty has been retained and fourteen members added. The splendid qualifications of the faculty and other requirements of the college for recent entrance to the Southern Association of Colleges and Secondary Schools place the institution among the best for teacher training.

CLEAN HABITS FOR SCHOOL TEACHERS

In a talk in chapel Friday, President Daugette scored the prevalence of drinking among school teachers. In a clear, concise manner, he illustrated the results of drinking and smoking directly on the career of the teacher. Practically all of the calls for teacher replacements, he said, specify a clean living person and especially abstinence from tobacco and liquor.

The superintendents have ample cause to bar the dissipator from employment openings. Besides setting a bad example for the children, his efficiency suffers.

He gave an amusing illustration of his meaning. Several years ago, a call came for a young man to fill a particularly desirable position. Dr. Daugette named a man who filled all the requirements admirably save one—he smoked. For such a job, the superintendent was assured, the boy would be glad to quit smoking. The employer, however, had a different point of view. He could take no one on such a short notice reformation.

If a man does not feel a moral urge to live clean, he should at least heed economic reasoning. Who can sensibly let a half pack of cigarettes or an occasional week-end spree stand between him and a remunerative and agreeable job?

Another grave shortcoming in some school teachers, the president emphasized, is the failure to keep up his personal appearance. Expensive clothes are not requisite, but neatness is imperative.

There is no reason why a person with ability, a degree of personality and clean habits should not go far in the teaching profession. And there is no reason why a person lacking any one of these should never ENTER the profession.

THE FUTURE OF JACKSONVILLE

We only wish that our personal future might look as bright as that of the Jacksonville State Teachers College. From the point of view of getting help from the state the future is still dark, but in a continual growth, it is very bright. The residence enrollment for the regular session was 1476 college students and over 800 extension students. The summer school enrollment runs considerably above a thousand. Many of those who are enrolled have attended other colleges and have transferred their credits to Jacksonville. Officials of the school are quite optimistic over the prospects, and indications are that Jacksonville will soon take its place among the most outstanding Teachers Colleges of the United States. But why should not Alabama have one such Teachers College as may be found in many other states? With the present prospects Jacksonville can easily be the one to fill this place. It takes the full cooperation of the faculty and students to build a great college. We feel that we have that at the present time and we believe that every student on the campus will do his part to help get at least one student to take his place when he leaves. Many will do more.

MEETING MINIMUM REQUIREMENTS

It is unfortunate for the children of Alabama that so many teachers are not in the profession to stay but are merely teaching from one year to the next with the idea of leaving the profession at the first possible chance. These are the people who are meeting minimum requirements and who attend school only when forced to renew a certificate. It will be difficult to convince the taxpayers that more money is necessary for teachers' salaries with this type of teacher in the profession. We do not hesitate to make the assertion that those who are merely teaching for the small amount of money which is gotten from it should hunt something else to do.

When we have a profession of teachers who are interested in teaching children to develop into outstanding citizens, we may expect more for our services. It is time for the uncertainty of tenure to end and for all teachers to begin raising their qualifications to the minimum requirements prescribed throughout the nation. The thought of keeping certificates alive should be a secondary consideration and those who are using teaching as a side-line only to supply more money to the family income should be replaced by those who expect to make teaching a profession.

WHAT WOMEN!

(In answer to an "Ideal Girl" questionnaire, the following answers are quoted:)

Thad Barrow:

"Hit don't differ none, but she must be blonde, brunette, or crimson-haired—anything but a dirty blonde. She must be extremely personable. She must dance well enough to teach me how. She may smoke, IF she smokes her own. She may drink her share but not mine. Must be shorter than me, and taller than she is wide."

Tommy Barnes:

"Brown eyes, light hair, 5 ft. 5 inches, 118 lbs. on the hoof—Personality? Plenty of 'Wim, Wigor and Witality'. She has to be a graceful dancer. She must be a good sport which includes drinking."

"Popeye" Woodfin:

"Blue eyes, blonde. She must have plenty of pep. She must dance. She must not smoke—above all things, not drink."

Westbrook:

"Color of hair like Evelyn's, color of eyes like Evelyn's, personality like Evelyn's. She doesn't drink 'cause Evelyn does not. She must be as graceful as Evelyn while dancing."

Paul Dodd:

"Eyes dark brown or yellow, hair black or white and slightly curly. Personality? It doesn't differ; just so it's amorous. Dancing? Yes, she's gotta scuntch like the dickens. Smoke? It costs too much for us both to smoke. Drink? A thousand times NO! That's a personal item."

Thomas Crowe:

"If I ever have an ideal girl, she must have brown eyes and black hair. She must be a brunette. Personality? Plenty of pick-up—something like a V-8. She may smoke but not drink. I kinda like these girls who dance—if they dance well!" We hope you grow up and find her. (Age 14).

"Pank" Love:

"Eyes, Blue; Hair, Blonde; Personality? Anything from warm to hot. Smoke? NO! Drink? NO! Must keep in good condition. Dance? Lord, yes, hasta have that rhythm in her feet, etcetera. Size: 5 ft. 5 in., 120 lbs.—a big armfull!"

The Janitor:

"Must be brunette—you know! Personality: Just another chocolate drop. Smoke, drink, dance? Anything she can do and not get CAUGHT."

SCOUTS GO ON ALL NIGHT OUTING

The scouts of the Sitting Bull Patrol of Troop 19, B. S. A., went to the mountains for an all-night outing last Friday night. The Scouts were led by assistant Scoutmaster Harold Carpenter. Much is being done to promote interest in Scout work at the present. The Scouts will attend camp at Camp Zinn beginning June 28.

CARPENTER'S CHIPS AND SHAVINGS

Our soft ball teams seem to be doing right well, but A. Butler and I need some skates strapped on different parts of our anatomy to do our sliding on.

Speaking of sliding, wonder how Butler ever slides a ball over the plate anyway; he says the umpire distracts him. It seems that a "willow" pole swinging over the plate would do worse—maybe it's the "ump's" face!

Wonder if the boys with "records" will go to the term dance. Just in case you wonder about it ask some of the boys from Sand Mountain.

I certainly am glad we have a pool of water to cool off in these warm days. If it were not for the water some of us would probably melt or shrivel up—all depending on our make-up.

SOLITUDE

By Ella Wheeler Wilcox

Laugh, and the world laughs with you;

Weep, and you weep alone

For the sad old earth must bor-
row its mirth,

But has trouble enough of its
own.

Sing, and the hills will answer;

Sigh, and it is lost on the air.

The echoes bound to a joyful
sound,

But shrnk from a voicing care.

Rejoice, and men will seek you;

Grieve, and they turn and go.

They want full measure of all
your pleasure,

But they do not need your woe.

Be glad, and your friends are
many;

Be sad, and you lose them all.

There are none to decline your
nectared wine,

But alone you must drink life's
gall.

Feast, and your halls are crowd-
ed;

Fast, and the world goes by,

Succeed and give, and it helps you
live.

But no man can help you die.

There is room in the halls of
pleasure

For a long and lordly train,

But one by one, we must all file
on

Through the narrow aisles of
pain.

More Homes Needed in Jacksonville

The greatly increased enrollment at State Teachers College during fifth quarter and the summer quarter has stimulated an interest in real estate but not to a sufficient extent to provide adequate housing accommodations for students who wish to come to Jacksonville.

A. C. Shelton, Director of Extension, says that a special invitation will be extended to residents of the Tennessee Valley at an early date to investigate possibilities of moving to Jacksonville. Many homes and farms are available in this section.

DeKalb Club

The DeKalb Club held a business meeting Thursday morning for the purpose of organizing a baseball team to compete with the various counties. John Baker was elected manager of the boys and Reba Black manager of the girls.

Plans were discussed for an outing during the quarter.

French Club Meets

The French Club met Thursday night, May 12. Plans were made for the social for the summer quarter and the following new officers were elected:

Robert Felgar, President; Hester Hall, Vice-President; Vera Mae Driscoll, Secretary and Treasurer.

A very interesting program was given. Robert Felgar discussed the life and works of Pasteur, Mrs. Jones discussed The World Influence of Pastuer, Miss Weis-haupt discussed Pasteur the Scientist, and Madamoiselle Buhler read in French.

Soft Ball Gets Under Way

By
Steele and Barnes

The intra-mural soft-ball leagues' schedule opened Thursday afternoon with the fast number three team of the western division getting off to an auspicious start by humbling the number one team 3 to 1. The official time of the game was 33 minutes (page Mr. Ripley!) This must be a record. Both teams played airtight ball with number three showing an edge in the pinches.

In the other game of Thursday number one of the eastern division won over the number three team. This defeat came in spite of the constant chatter and wonderful pitching of Butler. The support furnished Butler was erratic and spotty. John Baker's hitting was the bright spot for number one. The final score was number one, 13; number three, 8.

Monday afternoon the western division saw the class of the league, the high-stepping number three team, spot the number two team six runs and came from behind in a dazzling burst of base hits to beat them 8 to 6. Manager Eulon Hill starred for the two's by hitting two home runs and driving in five of his team's six runs. The entire three team

played good ball with Manager Westbrook hitting a terrific double down the left field grove scoring two men. In the sixth inning Thomas Barnes knocked a home run, scoring one man in front of him. This victory placed Manager Westbrook's team in front with two wins and no losses.

Number three in the eastern division conquered the number two team behind the flawless south-paw pitching of A. Butler. The three's were undoubtedly inspired by the presence of their manager, Pink Love, who came out for the first time. Collier played a sensational game at third base, accepting several difficult chances. Carpenter played a steady game at first and hit well to lead the two's.

Swimming at Training School

The swimming pool at the Training School has been opened for children who go to school there this summer. The entire morning is devoted to the forwarding of swimming in the elementary grades under the supervision of Miss Minnie Sellers and Harold Carpenter. Each grade has swimming privileges for thirty minutes per day, with about fifteen minutes of special instructions on the art of swimming. The pool is open in the afternoon for college people.

SOFT BALL LEAGUE FORMED

Managers of the teams in the soft ball league met with Coach Stephenson Monday night for the purpose of electing officers and officials of the league. Coach Stephenson was elected president and faculty adviser and Pink Love was elected secretary. The constitution and by-laws were drawn up and adopted. Officials for the games will be the managers aided by Butler, Barnes, and Carter. Meetings of the league officials will be held from time to time to discuss changes and thrash out difficulties.

The team standings will be posted on the bulletin board every day. Follow your team on the field and bulletin board.

FORNEY HALL DOESN'T SEEM THE SAME WITHOUT—

THE HIGH COST OF DATING

The average date about town seems to cost a bit more than one of the dorm dates. In town, the cost begins with a pack of cigarettes—two with some dates—costing from 16 to 32 cents. The dimpled pet can't resist a bit of pop-corn before going to the show, which adds some 10 cents. Popcorn is a notorious thirst-maker, which adds another dime. A brace of show tickets, as all boys know to their sorrow, costs exactly twice as much as one, or 50 cents. During the show, at least 5 cents worth of chewing gum should be produced. After the show you're lucky if you have a "hamburger gal", because most girls order combination sandwiches at 15 cents per; add your own inexpensive 'burger and a pair of dopes and enter another item of 30 cents (20c if you're the lucky egg who drew a 'burger-eater). Then, if you have a town girl who can ride about, if the girl WILL ride around, and if a friend comes around with something TO ride around IN, add 20 cents for a gallon of gas. We'll concede that any further liquid refreshments will consist of nothing more than coca-colas for the party of four, with perhaps some potato chips, say two packs, bringing another item to 30c.

You go home eventually, and while you wonder how you are going to pay your room-rent, you add up a column something like this:

Paid Out	Collected
Cigarettes	.32
Popcorn	.10
Drinks	.14
Tickets	.50
Gum	.05
After	
Show "snack"	.30
Gas	.20
Dopes and	
Spud-Chips	.30
Total	\$1.87
