NEW MEMBERS ADDED TO COLLEGE FACULTY

Three additions to the State Teachers College faculty were announced by President C. L. C. on Monday. The additional professors are being added to the college in order to take care of the notable increase in enrollment at the beginning of the second term of the Fall quarter.

Recently added to the faculty as professor of English, was Dr. Frank McLean, native of Portsmouth, Virginia. McLean has achieved an outstanding record in educational circles in the State of Virginia and has held professorships in some of the leading colleges in the country. He received his A.B. in 1903 from the University of Virginia, and has an M.A. degree from the University of Pennsylvania.

McLean has taught in the following colleges: Haverford College, William and Mary College, University of Georgia, and the University of New Mexico. Dr. McLean is married and has seven daughters. He is affiliated with the Episcopal Church.

Mr. Funderburk, who has had ten years experience, took up his duties as Professor of Fine Arts on Monday. Professor Funderburk is in charge of the State Teachers College in Durham, N.C. and has been teaching in various schools and colleges.

Mr. Funderburk taught for three years in the Eastside, Carolina, High School. From there he went to Willard, Ohio, where he served as principal of Willard High School from 1937-1939. He is the son of Mr. and Mrs. Funderburk, and is residing at Durham.

Kenneth H. Geren, M.A., P.D., was appointed on the campus Sunday, Oct. 23, to take up his duties in the Biology Department. Dr. Geren comes to R. T. C. from the U. S. Forestry Service. He left his duties there Saturday, October 30. Dr. Geren took his M.A. and P.D. degrees from Duke University. While in Durham, he was director of his P.D. degree without any interruption, and served directly into the Forestry Service.

Further attributes are reliably reported to be his entire congeniality.

The college should add much to the Jacksonville faculty. Increases in both faculty and student body have been noted since the college was founded.

From Oxford, Alabama went Hoyt Smith Detrix to the Court at St. James where he became a counselor to Queen Victoria.

ADMISSION BUILDING

New Students Enter College
On N. Y. A. Plan

Sixty men and women have registered until this date on the New York A. project. The limit is fifty members of the class. The quota is expected to be completed by the end of this work as the students come in. The men will have construction project while the women will be put to work in the dormitories and library.

These students will have the opportunity of working for all expenses out. The project is open only to young men and women whose families are on relief or eligible for relief, and who have made a high grade in the most creditable scholastic record in high school. The college promises to benefit both from the work itself and from the collateral of the people whom it brings to it.

BIBBS GRAVES HALL

An entrance and driveway to Bibbs Graves Hall has recently been completed. These improvements greatly enhance the natural beauty of this portion of the campus.

Dr. George Howard Opdyke, eminent lecturer and art lover, will address the students on the "Importance of Art Appreciation" at a special assembly Wednesday, November 6.

Dr. Opdyke has had a colorful career. After graduating from Columbia University he studied mining engineering and was stationed for a time in the neighborhood of Birmingham. He has worked as a mining engineer in the West and abroad. He has also had some experience in the oil fields of the Southwest. During his travels throughout the world, Dr. Opdyke has trained himself to observe the intensities and values of color in art and nature. This training has enabled him to see more beauty and color in natural surroundings than the average man.

Although he is not an artist, Dr. Opdyke realizes the need for the study of art appreciation in the educational system of our country.

In his book, "Art and Nature Appreciation," in which he approaches simply and directly the problems of art appreciation, he maintains that art is a language and should be studied as such. He says that students need to study art itself rather than the history and technique of art. In order to read art aesthetically, as the artist does... in terms of art rather than in terms of arts, art history, and art criticism... in short, one should learn to see.

Library Plan
Programs
For Coming Meets

day of fun is planned on campus

Final details for the holding here of the annual high school Play Day for girls in the Sixth Athletic District, have been completed. The event will be a real recreation extravaganza over attempted by the Physical Education Department with the help of the Board of Directors of the Play Day, as it is the past, is sponsored by the Battle Athletic Association of Jacksonvile, and the activities will be under the direct supervision of the Board of Athletic Association of the Alabama Athletic Association. Mr. Robert Smith, of Bessemer, P.G. Meyer, principal of the Birmingham High School, and F. J. Little, principal of the Bessemer High School, representatives representing the women's division will be Miss Harriet Barrow, Anniston, and Miss Laura C. Goodwin, Center.

The day of fun and entertainment will be one of twenty such events throughout the state during the month of October. Every high school in the state will be invited to send girls to one of these play days. The participants in the fun here will include girls from high schools in Calhoun, Shelby, Randolph, Cherokee, Cullman, and St. Clair. It is expected that the girls from these schools will be bussed to the facility.

The play will be a scene in the mountains of the Carolinas between a typical mountain home and a revenue office, the former being performed by Norman Talent and the latter by John Lamboy.

The scene will be another joint meeting this Tuesday night in Bibbs Graves Hall at which time plans will be discussed for an inter-collegiate debating team. Every one is urged to be there.

Why Students Study

From a poll taken in Rochester, New York, students gave the various reasons for studying:

To get high marks 14.6%
To please the teachers 5%
To be able to take part in sports 4.6%
To win honors or scholarships 4.6%
To learn things I want to 28.2%
To please my parents 8.5%
To improve my mind 43.5%
From the Journal of the National Education Association of the United States.

There are only three clocks in the world that keep correct time. One is in Switzerland; one is in New York; and one is in the Wilson Building in Jacksonvilll, Alabama.

Annual Play Day Slated Here Saturday

New Fall Term

Plans for the members of the organization to motor to various spots of historical interest in the South during the Fall and Winter terms were discussed at the recent meeting of the French Club, college group. The club, composed of students at the initial meeting held recently in Building C, was organized by Joseph Wilson and approved by the students present. Dr. J. H. Jones, the faculty adviser, emphasized the educational value of motor tours in a brief talk at the close of the meeting.

An entertaining and enlightening program was presented under the direction of Mrs. McCrory. Immediately thereafter, the members discussed plans for the first social function of the term, which will be held about Thanksgiving. The plans were given at the home of Dr. and Mrs. Jones.

An invitation by President Wil- son to the club to hold the next meeting at his Piedmont home was accepted, and the first Wednesday evening in November was designated as the date.

Building Begins For Dormitory Annex

The Doughtie Hall Annex is slated to be started at an early date, the soil having been turned for the foundation already. The construction of this annex is part of an N. Y. A. project that will enable the college to carry 90 students in the fall of next year.

Plans are being considered for the new Physical Education building and Library.

THE TEACOLA

Raiding Rapacious Rollicking Rodents Rally Rapturously "Round Rat Rodeo"

The whitewashed - or sometimes not - wall of the Ovens-Swade game, the rate and bull rats were continually at a disadvantage in a bizarre and unnatural game. The women rats did up a nine job of reversing the natural order of things. For instance, they were in a gym with one out with one sticking very simply put above the knee while the other one was behind the other one's neck. The amount of paint used by a goodly portion of the women was suggestive of a gypsy festival. Au-tum New was cute in brief shorts, blouse and yarmulke. Evelyn Flint, the female blonde from Dawson, Georgia, had a little-girl lost in pajamas. The majority of men rats dressed up very smart in the down-grade, said Davis, as he struggled over a theme.

Add ambitions—Pete Mathews, stellar Jazz end, goes on record as believing his greatest practical joke to be the capture of Fred "Buss" Bonnin, famed Kickel of the Jacksonville-Pensacola game Saturday when the latter, coming from Pensacola, plays with the Flyers. Mathews always wanted to make football proven with an honest one. "If you don't lose the right way I'm never going to beat a man," the irrepressible Pete was heard to say in the dressing room after the game.

From impressions on the field:
Most eye-filling columns-Tau-tau and "Dare!" Mathews' cachet of Barker's pass in third period. Sweet threats—thrusts of Jacksonville's closer leads after the game. Best crack on game—R. P. Street, Junior, Cornell, who said following second score—"He could have run only eight yards farther had I been in the lineup," which being interpreted means that a 52 yard run is only eighty or par for figures. For Street Talk, it's thirty.

LETTER To The Editor

Dear Editor,

An institution similar to the present existing W. P. A., was established in Washington in 1832 at a time when our and of this period was one of bankruptcy. At that time it served an important purpose. The W. P. A.’s are facing a similar problem. The W. P. A. has enough money to pay off its bills as usual, but cannot pay its workers. This is a problem which the W. P. A. must face. The W. P. A. is now a small town, the job that has been

TO THE FRONT FOR JACKSONVILLE

More than one circumstance has led us to believe that Jack-
sonville is not as well known or so closely understood throughout the state as we should be. Present and former Jacksonville residents have brought other schools to the attention of the public, but too well do we know that large numbers of people in this and adjoining counties remain ignorant of the city. Many of these people still believe in the "boy's town" philosophy, and do not even take the slightest interest in Jacksonville. The Jacksonville paper, however, do everything possible to educate the people of Jacksonville in the arts and sciences. Jacksonville has been well educated, and the city has a fine school system.

The Jacksonville paper, however, is not the only one interested in the welfare of the city. The Jacksonville News is also interested, and does everything possible to educate the people of Jacksonville in the arts and sciences. Jacksonville has been well educated, and the city has a fine school system.

The city is well situated, and has a fine school system. The Jacksonville News is also interested, and does everything possible to educate the people of Jacksonville in the arts and sciences. Jacksonville has been well educated, and the city has a fine school system.

A Frosh Views College Life
After First Six Weeks

After many failure attempts at night, week, and reading and checking our progress, we might know how it is to go through the first six weeks of college life, but it seems that we are doing the best we can.

One of the first things that we noticed was the library. We heard about its great resources, but we never realized that there were so many books. We visited the library a few times and found it to be a source of knowledge and inspiration.

The food in the cafeteria was also a big surprise. We were told that it was good, but we were never sure of it. We found the food to be delicious and satisfying.

The people we met were also a big shock. We expected to meet new people, but we were not sure of how to make friends. We found that the people we met were friendly and welcoming.

The coursework was also a big surprise. We were told that it would be challenging, but we never expected it to be so intense. We found that the coursework was demanding but rewarding.

The campus was also a big surprise. We were told that it was beautiful, but we were not sure of how to explore it. We found that the campus was beautiful and full of life.

The whole experience was a huge surprise. We were told that college life would be busy, but we were not sure of how to manage it. We found that college life was busy but exciting.

We are looking forward to the next six weeks and all that it will bring. We are excited to continue our journey and to learn more about ourselves and the world around us.
Eagle-Owls Fail To Cash In On Season Ending Losses In Gratting Game

Capitalizing on a break in the final period, Snell’s Praying Fau¬
lins and Pensacola State College football team put together a game which saddened the hearts of Jack¬
ville supporters eleven in a game replete with thrills and storybook finishes. The Owls, who had already disappeared the hearts of Jack¬
ville supporters 6-0, against Jacksonville State eleven, in a game replete with thrills and storybook finishes. Jacksonville State College’s eleven in a game replete with thrills and storybook finishes.
