In comparatively good condition for the fray, which will be the third of the present season for them, the Jacksonville State Teachers College Owls will leave early Friday for Cookeville, Tennessee, for a gridiron clash with the highly-touted football ensemble of the Tennessee Polytechnic Institute.

**JAX LINE-UP**

T. P. I. is reported to have assembled one of the foremost teams in the history of the school, and the locals are anticipating a grueling battle. Jacksonville will be gunning for the first win of the season following two heart-breaking losses to Union University and Middle Tennessee Teachers in the opening games of the schedule.

Coaches Dilles and Davison have almost completed the installation of the new system of gridiron defense, employed by Owls this season, and the work is expected to begin in time to divide the squad against T. P. I. Friday night under the lights at Veterans Memorial.

The Owls are in good shape for the Tennessee invasion, with the exception of Lunsford and Hardacker, line behemoth, who are recovering from recent ailments. Both may see service in the frozen, though present in this relief role.

The spirit of the entire squad is excellent, and the team is most deserving of the unending support of the entire student body. The probable starting line-up for Jacksonville will be found elsewhere in this edition.

**Teacola Staff Heads Named For 1938-39**

Announcement has already been made that Malcolm Street, senior from Gadsden, Alabama, will be editor-in-chief of the Teacola, under the guidance of the former editor-in-chief of the school newspaper, the Teacola, which has grown from a three- to a six-column newspaper in one year. The new newspaper will be published weekly, and will be available to students, faculty, and staff.

The Teacola newspaper is the official organ of the student body, and is published by the Teacola Press, a student-operated newspaper. The newspaper is printed on high-quality paper, and is distributed to students, faculty, and staff on a weekly basis.

The Teacola will feature local news, sports, and events, as well as national and international news, and will include columns on politics, entertainment, and lifestyle. The newspaper will also feature student-written articles, interviews, and feature stories, as well as advertisements from local businesses.

The Teacola is dedicated to providing accurate, timely, and relevant news to the student body, and is committed to promoting a healthy and active community.

**N. Y. A. Scholarships Granted To J.S.T.C.**

Notice of granting $100 full scholarships to Jacksonville State Teachers College. This decision was made by the National Y.W.C.A. Board, and the students will be announced by the Teacola staff. These scholarships are awarded to students who demonstrate academic excellence and financial need.

**Can I Write?**

If you are interested in writing for the Teacola, please contact the editor at the email address provided. We are always looking for new voices to contribute to the newspaper.

The Teacola is a student-run newspaper, and welcomes all students and members of the community to contribute. Whether you are interested in writing, design, photography, or any other aspect of publishing, we encourage you to get involved and help shape the future of the Teacola.
Mr. McClendon Talks Before International Relations Club

Mr. James McClendon, who recently returned from a nine-month stay in Europe, where he was a student at the University of Cambridge, was a member of the International Relations Club at Calhoun Literary Society on Thursday evening at 7:00 pm in the conference room.

The subject of his talk was the existing situation between Germany and Czechoslovakia, including the recent events between Prime Minister Chamberlain and Hitler. Mr. McClendon told the customs, dress, food and habits of the people of this country, many of whom are of German descent.

The government, under the dictatorship of Hitler, controls every aspect of the country's life. Even the amount of butter that is eaten is controlled. Each day, a small amount, and are not allowed more than 100 calories of sugar per day. At this time, milk is conserved for the young children, and for the elderly. The government also closely monitors their leaders and learn to follow his command. The "rule of the Jews" is attributed largely to the fact that the Jewish lawyers were in control before they were driven out, or at least that's what the Germans say. In addition, as compared with the several million Jews that were murdered, this small minority was said to have controlled practically all of the doctors and 25 per cent of the lawyers were Jewish.

Mr. McClendon believes, and his opinion concurs with that of many of his fellow students who are writing from there today, that German will not be able to control the devastations that have been caused by Germany. It is probable that Hitler has the ambition to restore Germany's greatness, and it is said that he has visions of a great German empire.

He gave an example of the manner in which industrialists are handicapped in Germany. At the end of every year each owner confesses to a representative of the government, he gives him an accurate statement of his business activities and the amount of money he has made. The government allows him so much for expenditures and reverts the surplus to the state. Many have sold their factories to avoid paying this tax.

His visit to Germany was a fascinating experience, and he feels that Hitler is a forceful and powerful leader. He believes that the German government will continue to exist for many years to come.

Next year, he will return to Europe, and take a position with an international organization. He is looking forward to this experience with great interest.

B. H. L. B. Girl For Their Annual Ball Against La Femmes

Following the adoption of the current hit tune "I'm Gonna Look My Heart and Throw Away The Key", as the official theme song for the year, the members of the State Teachers College's most exclusive club, the broken Hearted Bachelors, met at Forney Hall Tuesday night for the annual ball and to plan for the annual hot seat against the fascinating phenomenon of the current date.

Immediately preceding the usual cory-ness session which was alternated by Henry Greer and Pete Mathews, the question of new members was placed before the house. Malcolm Alexander submitted his credentials for membership, and after showing definite proof of a scored heart, he was ushered into the club. Harv. Frost's bid for membership was rejected when it was discovered that he had made a recent trip to Alabama City.

Dr. William J. Calvert, John Warren, and Woody Sanderson were automatically excluded from the club by virtue of their joining the ranks of the bachelors during the summer vacation. A brand new set of by-laws for the group were presented, and the club adopted them.

Among the highlights of the new regulations will be several designed to protect the innocent college lads from the wiles of the Fair. At the November 22. Seven-fives freshman from the University of Georgia, Miss Sellers (faculty advisor of the organization) met the member of the Fair and found her to be a real gem.

As soon as all members were officially assembled with their dates, the formal dinner was concluded with a general assembly with several notable speakers.

W. A. A. News

By Cleo Chamberlain, Reporter, Press 2

Note—If some name has a suggestion for a better name for this column, we welcome it. The Women's Athletic Association invited all girls to the annual meeting at Four Seasons on December 7. Seven-fives freshman from the University of Georgia, Miss Sellers (faculty advisor of the organization) met the member of the Fair and found her to be a real gem.

The members of the executive committee of the organization will be announced at the next meeting.

The next meeting will be held on January 10 at 7:00 pm in the conference room.

Hilger Bluffing Thinks J. S. T. C. Graduate After Spending A Year In Berlin

Adult Hilger is bluffing—Germany is less short of food supplies to go to war—Germany won't go to war if she can help it.

Arriving in the United States from Germany via New York, the graduates of the State Teachers College, James McClendon, here on visit after spending a year in graduate courses at the University of Berlin, where he did research toward his doctorate degree from Columbia University. He is here visiting his wife, Mrs. Bledina Hilger, member of the Jacksonville State College faculty. He arrived here last week-end, and was to return to Columbia in New York Tuesday.

He said that Germany is prepared for war, but a vast military machine and poor distribution makes it hard to keep it ready to fight. He stated that they have a stock of armament, but lack of funds for a long war will keep him and his government from doing much in the way of military preparations.

The attitude of the German people toward the United States and its free speech and other democratic principles is evidenced by the fact that they do not understand the meaning of the word "freedom." They believe that freedom means "complete control of the government by the people." They believe that the government is necessary to protect their rights and interests.

Hilger Magnificent: The attitude of the German people toward the United States and its free speech and other democratic principles is evidenced by the fact that they do not understand the word "freedom." They believe that freedom means "complete control of the government by the people." They believe that the government is necessary to protect their rights and interests.

Hilger Vastly Popular: His vigor is popular with the German masses is illustrated by the fact that his views have been transmitted by radio and newspapers throughout the country. He is widely regarded as the champion of German democracy, and is respected and revered by all who know him.

Hilger Bluffing: When asked about the current financial situation in Germany, Mr. Hilger said that his government had only the resources to continue for a few more weeks. He added that if the United States would not give them the necessary aid, Germany would be forced to resort to arms.

Hilger Visits With Prominent Scholars: During his visit here, Mr. Hilger visited with some of the most prominent scholars in the world. He met with Einstein, who has made many contributions to the field of physics, and with Joule, who has made many contributions to the field of electricity.

Hilger Others: He also met with a number of other prominent scholars, including Marie Curie, who has made many contributions to the field of radioactivity, and Roosevelt, who has made many contributions to the field of politics.

Hilger's Appearance: His appearance has changed greatly since his arrival. He is now a tall, thin figure, with a beard and mustache. His hair is now white, and his eyes are now blue.

Hilger's Speech: His speech is still the same, however. It is still characterized by his loud voice and his rapid delivery. He speaks with great emphasis, and his words are always clear and distinct.

Hilger's Attitude: His attitude is still the same. He is still a strong advocate of democracy, and he is still a strong supporter of the United States. He believes in the power of the people, and he believes in the importance of freedom.

Lauderdale AND Sanderson Out Of Game With Hurts

A big guard and a big talker, Lauderdale and Sanderson were lost to the team Monday as they reported for the State College football squad Wednesday, when injuries sent them to the hospital. Both are starting tackles on their mates, but doctor's orders have rendered them unable to attend the tough spring practice Wednesday afternoon, the first full squad held in preparation for the annual April night's battle with the strong University of Tennessee Volunteers.

Still, they may not be out of the line-up for two weeks, the doctor told them, upon examination that they might have had some internal injuries that caused them to be thrown from their breaths. The big guard missed this injury in last Thursday's fierce frays with University Union and finally sent him home Tuesday, but the latter grew more and more painful.

Lauderdale suffered a severe knee injury in practice Tuesday afternoon, and back in the hospital as both tackle and guard. He and Lauderdale in list with, will likely be missed. Lauderdale started at right guard in place of the ailing Winford Jones. Jones returned from the Army and played a great game. Jones, a native of Tallahassee, is the Union right guard, having recovered from an injury at last year's Southern tour.

Signal drums and shadow announ-
cements Thursday afternoon ended practice for the University Teachers, champions two out of the last three years, and with a field visit on the horizon.

JAX OWLS DROP HEART-BREAKER 13-5

MURFRESBORO JINX CLUTCHES S.T.C. AGAIN

Entire Team Plays Game Battle On Foreign Grid Against Mid-Tennessee Teachers

After battling the powerful Mid-Tennessee Teachers on even terms for greater portion of the game, Coach "Dizzy" Dillon's State Teachers College Owls finally lowered to superior weight and reserves and dropped ahardt-fought grid decision on the Murfreesboro greenward Friday night. The score was 13-5.

The hometowners pushed over their first marker in the second quarter by the forward passing route and added the second touchdown on a line back from the one-yard ribbon late in the game.

The Jacksonville team played heads-up football throughout and frequently threatened the goal of their adversaries. Once in the third period, Jax pushed the ball to the six-yard stripe only to be held for downs, and on several occasions, the rival was pushed deep into their territory.

The winners showed a quartet of mislabeled backs who showed speed and shiness and plenty of it. For the Murfreesboro defenders, Jim Hill, manning the right end port, sparked on both defense and offense. "Dizzy" Baker was a pillar of granite in the middle of the lane and all the lineemen did yeoman service throughout the battle.

Frank Bennett intercepted a forward pass in the third period and was almost away for touchdown late when he was tackled.

A feature of the game was a 40-yard pass from Calvin to Britton who raced another 39 yards before he was stopped down on the Murfreesboro 26.

The Jax lone-up was:

Bassett, c.; Williams, le.; Greer, 1g.; Baker, c.; Jones, r.g.; Felger, r.t.; J. Hill, r.c.; Hudson, q.b.; Britton, l. h.; Macht, r.b.; Calvin, C. C.; and others.

Seniors To Hold Meeting Wednesday

The Senior Class will hold its first meeting of the year in room 175 at Bibb Greaves Hall Wednesday morning at 9 a.m. The purpose of electing officers for the class for the coming school year, according to an announcement by Malcolm Street, retiring president.

Every one of the fifty-six members of the class are urged and expected to be in attendance at the meeting. In addition to the election of class leaders, important class policies will be formulated and plans adopted for the year's activities.

Competition Is Keen For Favors Of Fair Sex; Males Plentiful

The females have their long awaited opportunity this year. The number of boys is 124 above the number of "would be Carbor" that even the high standing disciples have to hire body guards to protect their favorite haven from the rush. The Claassic seems to be having quite a bit of trouble in lining up new premises.

More back to the girls, they will need it, especially when they reach the choosing period as advice is to look long before picking, and do very little picking.

Getting ready for football, football players of Jacksonville State Teachers College are shown in action as they drill for their tough schedule. In the top picture, tackle Robert Felger is withstanding the blocking of guard Thos. Lauderdales, busy and understanding lineman bating for a regular berth. Felger, regular left tackle, is big, powerful and rangy. In the lower right photograph, big Ed Calvin, Abram, triple threat half back for the Eagle-Owls, is shown just after he cut off a long, high spiral. He is captain of the team. In the lower rear scene are shown Jackson Hill's two hellions, tackles, Felger and Ralph Williams, shaving each around in blocking and charging maneuvers. Felger is in front, Williams on the back. Each weighs around 100 or 110, and is plenty big enough to take care of himself and a couple of other fellows as well as the opinion of campus fans.

AS COACHES DRILL SQUAD HARD

Coach C. C. Dillon and Coach J. H. Dawson are pictured as they drill their varsity football players at J. S. T. C. Es Hudson, quarterback, is shown in the background.

Churches Welcome College Students

The churches of Jacksonville welcomed the students at the State Teachers College Wednesday night in a appropriate manner. The Baptist church, under the leadership of a committee, headed by Mrs. F. M. Lowery, presented a program which Mr. P. J. Arnold, superintendent of the Sunday school, and Mrs. Erna Dodd, representing the B. T. U. and Mrs. E. W. Davis presided. The student choir, made up of students, presented "Psalm". Lensall Glidoff contributed two violin solos, and the Rev. and Mrs. George Bobo sang an a cappella number. Guests were played on the lawn and delicious refreshments were served.

An informal welcome service was held at the Presbyterian church, with the Rev. W. B. Penney and his congregation opening the doors of their church and home for the Presbyterian students.

At the Methodist church, the Rev. C. E. Wilson and his members welcomed the students informally, with a number of welcome以后 being made, songs and games furnishing recreation, and refreshments were served.

A large number of college students attended the services at each of the churches.

Jax High School Loses Grid Opener

In their first football game of the year, the Jacksonville High School gridiron lost to the Glencoe High School eleven in the field of the latter. The score was 31-0. Coach Horace Drummer says that the boys showed lots of promise and the team has potentials to become a winner before the end of the year.

Initial Play Night Sponsored By W.A.A.

Play night, sponsored by the Women's Athletic Association, was held Friday, the 16th, at 7:30 in Bibb Greaves Hall. Every indoor game known to the physical education department of the college was put into play at some time during the evening. Class of "throw me that ball" was in a unique game in which the students were scattered throughout the entire building. Not only did the students go back to childhood, but they had fun and lots of it, in doing so. Music and dancing finished up the evening.
