Senior Play Cast Named By Mr. L. J. Hendrix

Mr. Lance J. Hendrix, head of the English Department and director of the Dramatic Club, has selected "Tommy" by Howard Lindsay and Bertrand Robinson for the annual Senior Class play which will be presented May 24.

"Tommy," an hilarious comedy in three acts, deals with social, economic, and political life in a small town. The incidences might easily be applicable to Jacksonville. The play abounds in humorous situations, and Mr. Hendrix has chosen a cast that can do them justice.

Marie Thurber, excellently portrayed by Sarah Lynn Ogletree, is senior play, is an auto salesman, and represents the seven spheres of symbolic of the ancient numeral seven to the proposed course in the State Teachers College. Jacksonville, Alabama, with its Lamp of Knowledge above the Seven Strands of Rope, surrounding a shield-encased Griffin, emblematic of a combination of Laurel and Oak Leaves, under which is a Latin inscription, "Excellence in Education Assists in Revision; Civic, Regional, and National Problems to Be Basis of New Program"

The Crest of the State Teachers College, Jacksonville, Alabama, with its Lamp of Knowledge above the Seven Strands of Rope, surrounding a shield-encased Griffin, emblematic of a combination of Laurel and Oak Leaves, under which is a Latin inscription, "Excellence in Education Assists in Revision; Civic, Regional, and National Problems to Be Basis of New Program"

Mrs. Grace S. Fussell, the artistic chairwoman, presented the gavel to the Democratic party head Ellsworth Shaffer, temporary convention chairman, presented the gavel to the Democratic party head when he spoke before the Westminister College Institute of Public Affairs May 24. More than 600 delegates are expected to attend national student conventions of the Republican, Democratic and "Independent-Liberal" parties.

Coat of Arms Given to Summer School

Plans Advanced On New Work

FULTON, Mo.—Postmaster-General James A. Farley accepts a huge "Ozark" gavel as honorary chairman of the national student Democratic convention to be held here May 2, 3 and 4. Ellsworth Shaffer, temporary convention chairman, presented the gavel to the Democratic party head.

The Calhoun speakers were Margaret Steg and Paul Brown; the Morgan speakers were Helen Marie, played by Helen Marie, who lives with the family. She is a wise, lovable, gentle soul, and is always busy at her sewing or embroidery. She is a symbol of learning and represents the seven spheres of knowledge and wisdom. Strength and Loftly Ideals should be interpreted as follows:

The lamp was presented to astrologers by the Pharaohs of Egypt in recognition of their art and has remained a symbol of learning throughout the ages.

The Rope of Seven Strands is symbolic of the ancient numeral and represents the seven spheres of learning.

The Conservation class taught by Dr. J. F. Glenn,模式 a field trip to Alexandria Valley Thursday afternoon, April 25. The purpose of the excursion was to enlighten the students as to what was being done in the Alexandria Valley in regard to Soil Conservation under the direction of the United States Government. A brief sum-

New Teachers Added To Faculty

The forty-first annual society debate, held in Rollby Hall, April 22, was won by the Morgan Literary Society. The subject for this year's forensic event was: Resolved: That the United States Should Follow a Policy of Strict Economic and Military Isolation Towards All Nations Outside The Western Hemisphere Engaged in Armed Internal or Civil Conflict. The winning team upheld the affirmative point of view.

Dr. C. W. Daugette made the case for the affirmative, explaining the purpose of the debate, and giving instructions to the judges. James Kemp, Morgan president, presided as chairman of the debate and introduced the speakers; Bishop Evans, Calhoun, acted as secretary and time-keeper for the occasion. Evans also gave a short history of the two literary societies.

The recommendation of the judges had been announced, Dr. Daugette presented to the winning Morgan team, composed of Ted York, Excell Baker, as the alternate speaker, a silver cup. This cup is furnished by the National Student Democratic convention chairman, presented the gavel to the Democratic party head when he spoke before the Westminister College Institute of Public Affairs here May 2. More than 600 delegates are expected to attend national student conventions of the Republican, Democratic and "Independent-Liberal" parties.

The usual number of teachers entered school last week and more are expected for the Summer Quarter. Preparations are being made for a large Summer School. A considerable number of the regular students will stay here through the summer session, and many new students will enroll at the beginning of the quarter.

The Cotuit school was Norman Tant and Paul Brown. The Morgan flower girls were Marguerite Fryar and Merrill Pulley; the Calhoun flower girls were Lillian Williams and Isabell Roper.

Class Does Work In Soil Conservation

The Conservation class, taught by Dr. J. F. Glenn, made a field trip to Alexandria Valley Thursday afternoon, April 25. The purpose of the excursion was to enlighten the students as to what was being done in the Alexandria Valley in recognition of their art and has remained a symbol of learning throughout the ages.

The Rope of Seven Strands is symbolic of the ancient numeral and represents the seven spheres of learning.

The upper portion of the Griffin is the shield is that of the Eagle Owl adopted by the college as its emblem and symbolizing Knowledge, Wisdom, Strength and Loftly Ideals, whereas the

Teachers, Attend Summer School

Miss Snyder was especially interested in getting the faculty's reaction on the proposed freshman program for next year.

Mr. Leon McClear, of the Geography Department, suggested that the curriculum devise four hours rather than seven to the proposed course in human growth and development, and, in place of the extra three hours in human growth and development, he would substitute three hours in another special interest course, making it possible for all students to carry two special interests instead of one beginning in the freshman year.

Mr. McClear made a second proposal which would result in vertical integration providing for a semester of another special interest problem could be raised and topics in courses selected in such a way as to make a contribution to the solution to the problems.

Dr. Agnes Snyder, consultant for curriculum revision in the State Teachers Colleges, was here, April 25, 26, and 27, to get the faculty committees to make final lists of basic civic, regional, and national problems to be used as the foundation of the new curriculum program.

Morgan-Cahoon Banquet Held

Carrying out a forty-one year tradition, the Morgan and Cahoon Literary Societies held their annual corporate banquet last night, April thirtieth, in the dining room of Daugette Hall. The tables were arranged in the form of a horseshoe, the speakers, their flower girls, and the toastmaster sitting in the center portion. Vases of spring flowers, honeysuckle, iris, spirea, and wisteria, were strategically arranged at various points on the table and in the room, adding color and beauty to the occasion. Physical decorations were functionally in the banking windows; dainty miniature baskets of purple and white violets were rolled between the place of each guest. Following a delicious three-course dinner served by the guests, the toastmaster, master of ceremonies, introduced each speaker, the presidents of the societies sitting with the spokesmen in their flower girls. Ruth Stockdale sang several songs during the evening, accompanied by Jerry Reagan. All who attended the banquet declared it one of the most successful yet held by the two literary societies of the campus. Dr. McLeen proved a most entertaining "toastmaster," a sly speaker who had an amusing joke on hand; the evening seemed only the ladies were truly lovely; and the dinner was above average.

Common Error

Common errors: Recogni- to recognize. Misuse: Sure and surely are used interchangeably. Vocabulary: Presage: Something that forewarns; an indication; a token. 

Teacher's Institute

New Teachers Added To Faculty

Dr. Daugette has announced that six new teachers will be added to the faculty by the beginning of the quarter. Miss Lillian Allen, of the physical education department, will take the vacant post of the secretary to the women's basketball team. Dr. Daugette, in charge of the study, has decreed that the members of the class be as follows:

1. Relation between soil type and topography.
2. Relation between soil type and topography.
3. Relation between soil type and topography.
5. Note that some types of soils seem to erode more than others.
6. Difference in slope and type of rocks.
7. Ability to distinguish soil types, which indicates the soil type?
8. What is the color and texture of this soil?
9. What types of soils cross the trip or touch on the trip?
10. Evidence of improved drainage in the area.
11. Methods being used in Alexandria Valley to stop and prevent erosion.
12. Classifying types of erosion.
15. Observe whether farm management as practiced in Alexandria Valley is aiding or hindering the process.
16. Observe whether farm management as practiced in Alexandria Valley is aiding or hindering the process.
17. Terrace farming.
19. Observe whether farm management as practiced in Alexandria Valley is aiding or hindering the process.
20. Terrace farming.

Weather Hall Gives Dance

Jacksonville students who have never been "down the river" in a riverboat dance are the first to experience greatest of opportunities to do so last week-end at the host of Weather Hall's many good dancers. The river (school gymnasium) was a smooth shiny surface reflecting many colors, and the graceful admixture of colors, blue and green, red and yellow, with chairs and tables. From a dewy dewy calf in the center of the dance floor, the chairs and tables were arranged at various points in the room to accommodate the various rooms of the Laboratory School in the form of hand-painted copies of Dr. C. W. Daugette's "Patterson," "White," and "Pauline," which were made for the circulation department. It is requested that all who will be attending a change of the school summer, it is urgent that the address be changed in the registration department.

Mrs. Daugette Paints Cahoon Seals

Morgan flower girls were Lilian Allen, Prospero, and Dorothy Fimbre; the Cahoon flower girls were Lillian Williams and Isabella Rogers.

Class Does Work In Soil Conservation

The Conservation Class, taught by Dr. J. F. Glanzer, made a field trip into Alexandria Valley Thursday. The objective of the excursion was to en- lighten the students as to what was being done in the Alex- ian Valley in regard to Soil Conservation under the direction of the United States Government. A brief survey of the study made by the members of the class is as follows:

1. Relation between soil type and topography.
2. Relation between soil type and topography.
3. Relation between soil type and topography.
5. Note that some types of soils seem to erode more than others.
6. Difference in slope and type of rocks.
7. Ability to distinguish soil types, which indicates the soil type?
8. What is the color and texture of this soil?

20. Terrace farming.

Woodrow Bethune Sings At Assembly

Woodrow Bethune, of Pontiac, was featured as the student faculty at assembly recently. His selections included, "The Blowing Wind," "Patty," and "On the Road to Mandalay."

Mrs. Bethune displayed rare ability and an unusually sympathetic understanding of singing, which made him appeal to the audience. He received from students and faculty, who have extension in regular college.

Weathervane Hall Gives Dance

Jacksonville students who have never been "down the river" in a riverboat dance are the first to experience greatest of opportunities to do so last week-end at the host of Weather Hall's many good dancers. The river (school gymnasium) was a smooth shiny surface reflecting many colors, and the graceful admixture of colors, blue and green, red and yellow, with chairs and tables. It is requested that all who will be attending a change of the school summer, it is urgent that the address be changed in the registration department.
The Dogwood

For the past few weeks the campus has been beautifully decorated with the blossoms of the dogwood tree. There is a legend connected with this tree as follows:

At the time of the Crucifixion the dogwood tree attained the size of the oak and other forest trees. So strong and fine was the wood of every available patch of the oak and other forest trees. So strong and fine was the wood of every available patch of the oak and other forest trees.

To be used thus for such a cruel purpose greatly distressed the tree in time to come. The little Ebony spleenwort is PEACH, L. SHIPP.

The spore-bearing leaves of the Cinnamon Fern are greatly esteemed, and clublike sporophylls, at first green, and later cinnamon brown, are ap- proaching the feature that gave the fern its name. They wither and disappear within a year. The Resurrection Fern that is found growing in shallow, moist places near streams is the only fern that can be found now that once thrives in places where ferns grow. It is named “Kingston” after the town in which it was discovered.

The spore-bearing leaves of the Royal Fern is truly a magnificent sight, but the tassel is the most interesting part of the fern. The feature that gives the fern its name.

The spores of the fern are borne in clusters of a thousand or more, and are scattered about on the ground by the wind. The leaflets of the fern are called “fronds.”

I am not said although I laugh no more.

The maddening scream of diving bombs that pour
Upon the falling buildings and dire and
terrible child, the ever-blessing cries
Of those who stare in anguish at the dead
As distant churchbells drifting through the night,
Leaves that whisper their parting song.

That man is stronger than his suffering,
Grief of the world is falling on my heart.

A SONG

It matters not if there is sunlight, shining
The trudging heart from tearful eyes.
If there is dropped from Heaven a rainbow, wielding
Halo road to walk the halow-are
Or if the earth should turn to ice and darkness,
Our flag should be a blacked-out crescent,
The bitter mourning cries of dying spirits,
Which drawn within the ocean of the earth.
For what is here is here for ever,
And in my heart there is no wrong.
It matters not if there is light or shadow,
The heart within my breast was born a song.

**MISS J. H. S.**

**TRIBUTE TO A GREAT TEACHER**

(Editors' Note: The following article was given by Dr. J. P. Glaser at the State Convention of Geography Teachers during A. E. A. in January 1940. It is his tribute to the late Almon E. Parkins, the only person to whom Dr. Parkins ever paid a compliment.)

Dr. Parkins was a man of many parts. He was a teacher, a scholar, a scientist, and a writer. He was a man of many interests, and he was interested in the world of geography. He was a man of many friends, and he was loved by all who knew him.

Dr. Parkins was a great teacher. He was a great scholar. He was a great scientist. He was a great writer. He was a great man.

**DAUGETTE HALL NEWS**

**FIRE WORKS! FIRE WORKS!**

The fun has started. Sunday afternoon brought loud noises in the halls. Who was it but Louie Gregg and Lorraine Porch arriving at Daugette Hall. No rest now, girls. We are glad to welcome all of the new arrivals.

The following girls are spending the week-end at their homes: Barbara Hodges, Dorothy Ladson; Imogene Moon, Hazel Green, Norma Plunkett, Arab; Kathryn McClendon, Lafayette; Mildred Pearson, Wade; Eunice Power, Lincoln; Christine Porch, Alexandria; Maurice Poole, Chattanooga.

Miss Lump Pitts is attending the final dances at Auburn this week-end.

Miss Jerry Towsry is spending this week-end with her aunt in College Park.

Wanted: A secretary for Ruth Sandlin. She can't seem to keep her financial holdings straight.

We wish to welcome Miss Marion Lowdon to the Daugette Hall News Apartment Lowdown Birmingham.

Eunice Power, Lincoln; Christine Jones, Tuscumbia, Alabama. She is going to teach next year and bring to Ohatchee.

The meaning of Our most recent, over-worked student was no history made on the lowed a student of his to 'go up' for a corner, God, where he can please himself.

Our most recent, over-worked student has been no history made on the lowed a student of his to 'go up' for a corner, God, where he can please himself.

**WEATHERLY HALL**

**THE CLOTHESLINE**

Glenda Landers was here for the week-end and was welcomed at the Weatherly Hall Dance.

**SOCIETY**

**DAUGETTE HALL NEWS**

**APARTMENT LOWDOWN**

Why did Herbie go to rooms 206, 208 and leave saying "skip it, ship it"? What about it, Jamie?

And we do wonder why "Heavy Weight" Richardson is so interested in week-end football. Could it be that he wanted to be around the social; what do you think, Jamie?

It seems a girl from Gadsden is blowing hot and cold about Mill Hill no good. What about it, Thelma? Is Thomas "gone with the wind"?

According to recent gossip: Hilda Dean and T. Wilson have signed off--still friends. Good work!

Is fondly going to teach next year or will she be a house wife in California? What about it "Little One"?

Why is Louise Thorn looking forward to the summer quarter? Could it be that "Froak" Dandy is coming then?

Why does Jack Dempsey come to school looking so much? Could it be that petite freshman, M. Upshaw?

That girl was Cleo talking about when she said, "She pouts, she is too independent, and she doesn't give a..."? It seems that "Peck" has brought Mavis "busily" of happiness. Don't you think so, Jimmy?

The over-worked school "nurse" is Miss Esther Bush. She even has Alice and Evelyn sitting on her lap.

Jerry Warren, known by all J. S. T. students, was the Morgan's Grant football team captain. He can pick the winners all right!

We wonder why "Fliver" is so good at tennis. Can you give us any information, Wilma?

Why is Elsie dating "Slick" Golden?

We wonder why Mary Ann and Gladys were "saying" on as they sat in the Calhoun meeting Monday night.

Why did Esther K. want Thelma to have Thursday night at the tea dance? Did she say something? Estie?

Why is Shirley upset when Mavis says, "You'll have to wait until after quiet hours to speak to the girls."

Why was Edith interested in finding a frog Thursday afternoon? What about it, Junie?

What were Esther B., Alice, and Vivian doing out on the campus Friday night? It seems that they tangled up with some bawly wires, except Vivian--she was lagging behind, as usual.

Dr. Parkins was as it exists in the councils of the Eternal, as it is written in the laws of matter and life.

But to really know the man at his best, you had to visit with him in his home, eat a picnic lunch with him prepared on his outdoor grill, go on him with hills and fields and maps of Your heavens. He was wiser than when that a field trip with a small group, into delves into soils, extracting rocks, and the dust with beauty-loving fingers.

For an author, maps of Your heavens. Show him school is our living hall.

Dr. Parkins was as it exists in the councils of the Eternal, as it is written in the laws of matter and life.

Dr. Parkins was as it exists in the councils of the Eternal, as it is written in the laws of matter and life.

And if a girl is a knockout, you can be sure she's had plenty of ring experience.

Aniston
Glenda Landers was called home due to the illness of her mother.  

Kat German's sister, Elizabeth, was here for the week-end to attend the Weatherly Hall Dance.  

Lillie Mae Prater spent last week-end in Weoginda.  

Nell Speigle visited last week-end in Lincoln.  

Valma Farlow spent the week-end at her home.  

Ruth Drake went to Judson last week-end for a B. S. U. Meeting.  

Weatherly Hall welcomes all the former students back for the summer.  

Ann Gerst, a former student, is back in school.  

Bea Bailey, a former student of Livingston College, is in school here.  

You won't need a guide book if you get sweaters and skirts from MANGEL'S. They're all here. The match mates, the new dressmaker sweaters, the plaid skirts, the plain skirts. The new extra jackets. The RIGHT things for right wear. Sweaters, jackets, skirts at $1.98 that means something, when you see how grand they are.

CRASHING

Salute To Weatherly Hall

The Teasola and the entire school wish to salute Weatherly Hall, Mrs. Davis and all her girls, for one of the best, if not the best, dances of the year. The evening was called forth the most praise awarded to any organization, not only for the decorations for the occasion, but for the cleverness of the idea and the completeness with which it was carried out and act only does the college think well of the last of Weatherly's attempts to forward the brighter side of school life, but can look back on the Cinderella and Pink Lady balls of last year and the countless others which preceded with the "tops" of pleasant memories. The quarter "formals" have always been considered up to this time as the most attractive and conducted socials which Jackson ville has to offer, but as the years have passed and Weatherly Hall has added more and more laurels to her crown of social achievements, the students now look forward to Mrs. Davis' next dance with as much anticipation as they do to those of their days. This year the girls from Weatherly give more and better. If possible, dances as the years pass Weatherly Hall, we salute you!

Swing Your Partner

Yippee! Folks, here's some good news! There's going to be, of all things, a barn dance, and I do mean a real, old-fashioned, stuffy barn dance. Of course, it will not be in a real barn, but the next best thing—the new gym. There'll be hay, and music, and fun in all forms. This is absolutely the best, most informal thing of the year.

So—boys, don’t miss it; yes, man, I said overalls and red bandana! Girls, bring out your checked gingham dresses and bonnets, and let’s all “do o’er”.

This big event will take place May 4, in the new gym at 7:30. Don’t forget! It’s something to look forward to, for its sponsored by the Woman’s Recreational Board.  

Jax Girl: “Since I met you, I can’t eat, I can’t sleep, I can’t drink.”  

Aaron: “Why not?”  

Jax: “I’m broke.”  

“So your uncle was high strung!”  

“Yeah, he was a cattle thief.”

Local Tennis Team Loses To Anniston

The local tennis team coached and directed by Dr. Samuel Thompson, lost its first match of the current season to the powerful Anniston Country Club team. The Anniston group, one of the strongest in the state, won eight matches to one, on their home court last Saturday afternoon.

Mr. Walter Derden, teacher of English and speech in the local school system, won the only match for J.E.T.C., when he defeated R. Reynolds in two straight sets, 6-0, 6-3.

Results of other matches were as follows: Rex Godwin, Jr., won over L. Southern, 6-3, 6-2; Frank Willet topped Jordan by a count of 6-3, 6-2; Reynolds scored over R. Bishop, 6-3, 6-0; Brown defeated Toherow, 6-1, 6-2; and Rex Godwin outscored Miller, 6-3, 6-2.

In doubles competition, Godwin and Willee won over Southern and Bishop in the only three-set match of the day, 6-3, 1-6, 6-2. Randy and Stewart Reynolds defeated Derden, 6-0, 6-1, and Godwin and Brown closed out their match against Miller and Farr, 6-2, 9-7.

He: "Please, oh, God!"
She: "Just this once!"
He: "No, I said!"
She: "Aw, Ma, all the rest of the kids are going barefoot!"

H. H. 'Hub' Evans
Candidate For Probate Judge

Since the duties of Probate Judge necessarily include rendering judicial decisions, I trust that you will consider my twenty-one years study and practice of all phases of law as more fully qualifying me for the office than any other candidate.

YOUR VOTE AND INFLUENCE
WILL BE APPRECIATED.
