Calhouns may come and Morgans may go, but the school goes on forever. Many of the old literary society enthusiasts that carried the torches high have passed on. Among the great of the Calhouns that have left us is NORMAN TANT, to whom sonville.

Norman Tant will always rest among the immortal in Jack- but his spirit continues to spur the Calhouns on as well as--obscure as the fate of the other soldiers of Bataan Peninsula.

The Calhouns give the Morgans a bouquet of thanks for the publicity received in the last issues of The TEACOLA. It is quite unusual for the Morgan tribe to do anything but boast and blow futilely. Yes, the Morgans are improving, that is, if you can call the change from bragging to mud slinging improvement.

After a temporary lull of several weeks the Tea Dances are again returning to vogue. The dances of last Wednesday, more than anything else, showed the responsibility that each of us must share if the dances are to be a success. Shake the old "piggie bank," look behind those pictures, clean hind those pictures, clean

The other night as the pork chops and carrots were GI-anled Farrell with the signal Corp. His wishes were granted shortly with an agreement to service under Gen. MacArthur in the Philippine Islands. Even though going in as a rookie, Norman soon worked his way up and when last heard of was stationed in the General's office. His very last communications with his parents were as terse as any military communication. His spirits were high, but then came the fall of Batan Peninsula. His last to present is obscure--unsure as to that of the others that fell. But he has enough to last any long step. Ten or any of the others individually or collectively. It is to Norman Tant and this spirit for which he stands that we proudly dedicate this Calhoun edition of the TEACOLA.

A Calhoun And An American

Dr. C. W. Diagott, president, announced Monday that he had been notified by the Secretary of the Navy that the Jacksonville State Teachers College had been accepted for training for the U.S. Naval Reserve. So far, only three other schools in Alabama have been so appointed.

Dr. J. P. Glazer, registrar, who attended the meeting of Alabama and Georgia educators at the Georgia School of Technology where navy officials outlined the program, has given out the following statement:

The curriculum of the college has been accepted as meeting the requirements of the Navy Department. Students who expect to qualify for this training must have one year of college mathematics, physical education of all their college courses, with emphasis upon swimming, and one year of college physics. They may select the remainder of their courses.

For a student to be eligible for this training he must follow certain rules laid down by the navy officials--also rules laid down in the Navy under V-1. After he has completed two years of college work, he is given a comprehensive examination and if he makes a satisfactory grade he can transfer either to Class V-3 or Class V-8. He will then be

Acute MLS Indigestion

The Morgans thought that those calorie and vitamin they thought, of the five and one-half hours long until lunch, but on the other hand, they remembered how beggars they had seen in the past and how the eating of such an object would punctuate their self-induced spasm. Also the nervous confusion brought on in digestion, hunger and dehydrated. Poor people. If they had only known better when they entered, the food would not have been harmful.

Dean Named Faculty Air Force Adviser

In an advance notice from Central College, Dr. C. R. Wood was named Faculty Air Force Adviser. This was indicated today that the educational program of the nation will be intercepted through the efforts of the college. The Air Force Enlisted will allow students to continue their educational training and in some cases will allow students to obtain degrees before entering the service.

Registration Goes Ahead of Schedule

War and money have failed to keep many top-flight students from enrolling during the spring of six weeks of the Spring Quarter. Frigher possibilities in the uncertainties of the nation for next year and better organization of results have given added impetus to the enrollment.

At the present the rate of enrollment seems to be exacting a limit for this the requirements of the register, and late Monday evening the be enrolled with incoming students. Many students whose teaching certificates have passed or returned to receive in this of the group of Alabama have been very patriotic, and they made no exception of this nation.

A great burden has been placed on the students of the state and nation as a whole. The profession is being hard hit by the difficulties of the nation. Each event seems to bring them closer together. The spring of this season, the students have been allowed to express their opinions and are being afforded that expressing many talents. The courses can be completed with the help of the personnel that is given in the SMR, and the Service Examinations are being offered in connection with the SMR, and the Service Examinations will be given in the SMR.

It will still be possible to enroll as late as Monday, May 4, and not have any necessary reduction in cost.

"Y" Officers Chosen For New Year

Bills Hamilton

Bills Hamilton will speak on "Can't Stop Mckinley" tonight, boys. I've got to work on my report tomorrow morning. I'm going to get an early start on the report tonight, because I've got to leave for New York on Tuesday morning after supper.

Yes, that debate banquet takes place at the Masonic Temple on May 5th. It will be, as usual, in the Masonic Temple at Tallahassee, and--and--well that's the debate speech that I'm going to prepare over the next few days. I've just an impromptu version prepared by the moonlight? Anyway its a good show and I'm sure the blonde continuse to smile.

CLAY BRITAIN

Herschel Cribb

If the opponents of this debater find themselves with a splitting headache, they'll probably be pleased to hear that Cribb is the oldest member of the faculty. He will be in no haste to tell his colleagues in the handout on the material. Bill, a freshman, is a large, congenial fellow who knows all the answers, but doesn't answer out of turn. He is perfectly at ease on the platform and should be of valuable assistance to the Calhoun team.

BILL HAMILTON

Not disconcerting the least in the Calhoun, will be the presence of Bill Hamilton on the platform for the annual debate. Although Bill will not speak he will be there to aid his colleagues in the handout on the material. Bill, a freshman, is a large, congenial fellow who knows all the answers, but doesn't answer out of turn. He is perfectly at ease on the platform and should be of valuable assistance to the Calhoun team.
Debunking Morgan Propaganda

Since the foundation of the Calhoun Literary Society it has been a known fact that the Morgans are not above-mentioned. We wish to bring to light a few facts for our readers.

It is not the policy of the Calhoun Literary Society to accept people of weak mental endowments, there by making it impossible for them to get into society. Anyway, the Calhoun have always been able to hold a democratic election. However, we are sorry that some of our members have so monopolized certain sections of the Morgans will admit a defect. In fact, we are sorry that they (the Morgans) have waked up to anything that was as pleasant as living in our cultural atmosphere.

But amidst this yearly battle of the one thing—not a person but a thing—which remains the same winter, summer, autumn, spring. It is Bubb Graves Hall. While the dusty, dirty halos around the dormitories are not always voided by weak minds. Emerson once said: "Every man I meet is in search of a superior, and in that one can live and die, but the Morgans have gone wrong again, so why blame them?"

Don't forget though that as for the Morgans' winning the debate, it is yet to be decided. Just remember that the Calhounians will be on the fence fighting until the last minute, and that those who were chosen to speak for the Calhoun will speak little but intelligently.

Health and Physical Education
In Heathen Africa

Getting the African to realize the importance of health and physical training has been one of the greatest, if not the greatest problem the teacher there has to face today. Our teachers made a weekly visit to an outstanding Kroo. For five days he taught them some of the most necessary health rules. The class was large and unusually attentive. The teacher had every reason to believe that they were interested and that they were learning.

On the last day he gave an opportunity for question. One boy was not covered with scarlet fever and asked, "Why have you come to teach us to be clean? The white man is clean but we are not.

For another example let us consider one of the boarding schools for African boys. Each week during the Christmas holidays, the dormitories are thoroughly cleaned. The buildings are empty of furniture and this is not cleaned. The boys are living in their own beds. However, keeping them clean and tidy is another story.

The school opens in January boys come pouring in from Kroo's far and near. They have never seen a clean home. They do not know that it is to eat clean food. They know nothing about personal hygiene and they even less. What is done is to take these boys who are permitted to enter school, rid them of their dirty rags, send them to a shower, give them soap and have them scrub. This having been done they are given a nice clean nice khaki suit of clothes. They emerge looking very much like a white child.

The native teachers are made directly responsible for the health of the school and their girls under way. Above all they are monitors, whose duty is to help the new boys with all their personal problems. Then one of the Russian teachers has the responsibility of the supervision of the whores. We would naturally suppose that with all this supervising the boys and their dormitories would remain clean. Such, though, is not the case. The Russian finds it hard to get a group of raw boys to look after but monitors and teachers as well. Not having been trained to do dirt and uncountry work, they are overwhelmed by the work, so that the dormitories still remain unclean.

The native teachers are made directly responsible for the health of the school and their girls under way. Above all they are monitors, whose duty is to help the new boys with all their personal problems. Then one of the Russian teachers has the responsibility of the supervision of the whores. Not having been trained to do dirt and uncountry work, they are overwhelmed by the work, so that the dormitories still remain unclean.

Dear Cat,

I've just about ziz into the groove here. I've been here about two and a half weeks and a week or more before I went back for the last three months I was in the streets, getting my first money. I've been here to gain the work and go out and get a good week-end for me.

Take a look at me! I'm a professional photographer now. The pictures I'm sending aren't very good but they're mine, have grown into partnership with a professional photographer who is a native. He worked as head of a photography studio in Chicago, bordering ten Nicholas. I'm about to use my next to be a photographic salt. That's what we have to say about the new editor.

We won't say you're going to get the good of the day—but we're here to say that you're doing something good. Is there any doubt that the Morgans of the Morgan's failure is at bay? He wiped his brow with a trembling hand, and his voice quivered. He wiped his brow with a trembling hand, and his voice quivered. He wiped his brow with a trembling hand, and his voice quivered. He wiped his brow with a trembling hand, and his voice quivered. He wiped his brow with a trembling hand, and his voice quivered. He wiped his brow with a trembling hand, and his voice quivered. He wiped his brow with a trembling hand, and his voice quivered. He wiped his brow with a trembling hand, and his voice quivered. He wiped his brow with a trembling hand, and his voice quivered. He wiped his brow with a trembling hand, and his voice quivered.
**Confucius Say:**

Student body without spirit like Ford without crank—no go.

Confucius never uttered such phrases, don’t blame us: he wouldn’t say it if he were at Jacksonville. We drop around while our football team plays.

As a whole, there is a great deal of confidence in the future. When a team comes we have a mild flicker of interest; but when baseball gets here almost every arrow freshman is tightly curled into his right eye, and is just too busy to see the ball. What a wrong attitude! The campus is full of green and gold, but we don’t belong to either society. Even bears don’t hibernate all winter. Then there is the chance that some of our teams would make a better showing if they had a little encouragement.

It is not that we are ashamed of JSTC. We have one of the prettiest campuses in the state, and we are proud of it as far as buildings and dormitories are concerned.

But we just droop around in a lethargic manner; we appear to have no enthusiasm on any subject except athletics. It is too bad, but too true.

**Philosophy Of Life**

*I haven’t a philosophy of life, I only live.* How often have we heard that statement. Maybe some, times accepted it as true, yet couldn’t anything be false?

Every person has a definite philosophy of life and has, if not more, an aversion to the way we are at this outlook by accepting somewhat unreasonably the views that are offered him by his environment. On the other hand, he may have apportioned the dominant beliefs and attitudes in the school, and his environment, on the dangers and the benefits of every sphere of life. The first way mentioned of deriving a philosophy of life is by being subjected to the dangers and the benefits of every sphere of life. The second way mentioned of deriving a philosophy of life is by his environment.

More acceptance of attitudes, ideas, and beliefs is in the beliefs, ideas, and attitudes in the environment. If they have been subjected to a philosophy of life, there is a predominance of stimuli and ideas. The second method, implicit evaluation, intelligent thought, and profound understanding.

Spring Comes To The Campus

All about, couples can be seen languidly lounging on the grass. Tiny bows and sweet smiles are much in evidence. Spring is in the air, and everyone is noticing it. S. M. A. makes everybody careless and lazy, and only darts on the roofs. Spring has come to the campus.

Dear Mr. Gary:

Almost a year ago when I left Jacksonville for Midshipmen’s School, I promised to write you. Well, you know me. Neither war nor famine can deter me. If you had heard a whisper of my first letter to you, you’d probably already have promised. But at the rate I do things, I’ll take lots of time to get around. A change a year has brought in Jacksonville. Certainly, some of the boys are out of uniform, and the campus is much more still. Yet I’ll glad you will have a “rubdown” if I tell you enough of it. I’ll be away before you know it.

After much hard work I got my commission. Shortly after that I joined the Midshipmen’s School of the U.S. Naval Academy, and there I have been. It is a wonderful place, and I have enjoyed it very much. After much hard work I got my commission. Shortly after that I joined the Midshipmen’s School of the U.S. Naval Academy, and there I have been. It is a wonderful place, and I have enjoyed it very much.

I expect to see you soon, and I hope you will be glad to hear from me. I am well, and I hope you will be well also. If you have any news, please let me know.

Sincerely,

Frank Bennett.

P.S. (Censored)
MozWltlon Institute Teacher College. Before entering military service, he was athletic director with the school system of Alexandria.

HAWKINS-FELMAN ENGAGEMENT ANNOUNCED
Mrs. Charles Howard Hawkins, of Alexandria, announces the engagement of her daughter, Ellie, to Charles Clay Felman, the wedding to take place an early date.

The bride-elect is a graduate of the college of the University of Alabama. She has taught in Alexandria for several years. Mr. Felman is the son of Mrs. Lillian Felman and will be graduated in June from the Alabama Polytechnic Institute. He is a member of the 5th Field Artillery Reserve.

VERNON JONES TO ENTER OFFICERS’ TRAINING
Vernon Jones, who has been stationed at Fort Dix, New Jersey, since several days last week on the campus of Calhoun College, who is a student here. He will enter Officers’ Training School at Camp Davis, Virginia, soon.

Vernon completed three years of his college work before entering military service with the Coast Artillery. Recently he stood a test in this service, and was among the few who made 100.

He was stationed at Fort McMillan, and transferred to Fort Myers, North Carolina, before going to Fort Dix.

ELECTED CITY SUPERINTENDENT
Robert M. Gilbert was recently elected acting superintendent of the Fort Payne school system. Superintendent W. B. Hill, who is doing graduate work at Columbia.

Mr. Gilbert received his degree here and has done graduate work at the University of Alabama.

GEORGE ECKLE

ALUMNI OFFICERS
C. W. Daugette, Jr., president; Catherine Ashmore, sec.; R. LESTON CROW, treasurer.

MRS. R. K. COFFEE, editor.

EDGAR-NORTON MARRIAGE
Miss Thelma Norton, of Glencoe, and Lt. Cecil W. Edgar, of Cato Stewart, Georgia, were married at the home of Rev. J. D. Pickens, in Alexander City, April 4. The double ring ceremony was witnessed.

The bride received her degree two years ago and has been teaching in Alexander City. Lt. Edgar is a graduate of Livingston State Teachers College. Before entering military service, he was athletic director with the school system of Alexandria.

When the Calhoun debaters climb to the platform for the battle of May 2 they won’t be lacking in inspiration. These three co-ed, the Calhoun flower girls, will be on the front seats to lend their moral support to the male speakers. The girls were named by the CLS debaters. They are: Frances Weaver, left, who is doing graduate work here; Jean M. Denby, a very popular student; Willie Joe Denny, a student who is rapidly becoming an outstanding personality on the campus, who was selected by Hocquet Cribb, second guest man, and Mary Ann Landers, right, another charming freshman, who is to be flower girl for Bill Hamilton, third member of the Calhoun trio.

Under Fire, Lee Honea Finds Fresh Goat Milk Resuscitating

HOPES OF SURVIVING PINNED ON LOWLY CAPRA HIRSUS
A few days ago a friend was walking down Mountain Avenue. Suddenly he heard a noise at the rear of the mock home. Upon investigating he found Lee Honea endeavoring to milk the goat. Mr. Mock, having a social that evening, had asked Lee if he would kindly milk the goat. Lee, being very interested in the mock farm, gladly went to milk the goat.

Lee continued his milking, and the friend went on his way.

Lee came into the house very tired after having worked with the goat so long. Mrs. Mock kindly agreed to Lee’s request. Lee, getting tired of his desperate struggle to prepare to defeat the Cal- houn, asked Mrs. Mock to provide some goat milk for the debate. Mrs. Mock kindly agreed and Mrs. Mock is busy engaged with the school system of Alexandria.

The countg teachers, instead of having their local band, bought an informal party and bought two $100 Worth Bonds with the banquet fund.

Dr. P. F. Pelgar served as dele- gate from the local church to the North Alabama Presbytery recent- ly. He was chosen by the Presbytery to attend the General Assembly at Knoxville, Tennessee, on May 25.

Bibben Soff and E. J. Landers are serving as chairman for the local registration for super reunion.

Dr. W. J. Culvert is chairman of the local committee to raise the quote for Boy Scouts for this year.

Debaters’ Duties Are Different

The duty of the negative in a debate is essentially different from that of the affirmative. The af- firmative must establish the entire case rested by the proposition, and it has failed in its case. Hence, if the negative can prevent the affirming from establishing one important point, the af- firmative necessarily has failed to prove its whole case, and, therefore, its case has failed. The affirmative must also prove its plan to be workable. And, if it does not prove a very important point and that its plan is wise, it rightfully has lost the debate.

This quotation on judging of debates comes from the nationally recognized Debaters’ Digest.

Calhoun Songs

(Tune—Washington and Lee

When all the Calhouns of the State, S. C. T. C.

All get together for a jamboree With the Morgans in the middle.

And when they finish they’ve been flipped, been cuffed.

Well do them in good and graceful style.

And make them just as they’ve been bungled, been begged.

So here’s to the Calhouns all in style.

Vocal Rall Rall Rall

You or can’t be a Calhoun at all.

You want to serve your country.

Why not serve where your college training will do the most good?

The Typical Morgan

The typical Morgan, as we all know, is the type who goes to Morgan doing some in a rather quiet manner. He is the type of person who, when the clock strikes, the sun rises to him, he is on his way to work, on time. It's a typical Morgan. Only the game fish swim upstream, and they go down, down, down.

Friends of Dr. J. C. Ginn have recently announced that they have elected vice-president of the University of Alabama. Dr. Ginn is a native of the state and has served the university in various capacities.

CAMPUS PERSONALITIES

"Deep in the heart of Texas," and that is where he went this summer, to take part in a Texas-University of Alabama football game. He is the type of person who, when the clock strikes, the sun rises to him, he is on his way to work, on time. It's a typical Morgan. Only the game fish swim upstream, and they go down, down, down.

According to a joint state-
Favored Five Finds

Foe Flusterated

In a rough and tumble sort of basketball game at the college from last Tuesday night, April 14, the Morgan Cage team romped over the Morgan five by the convincing score of 37-15, to clinch the annual Southern hardwood series.

This year, five games were played instead of the usual seven. The competition was thrilling, that is, if we take into consideration only the games counted. The Morgan five, by a score of 37-15, lost the first two games of the season, and won the last two. The Morgan five, in spite of experience and lack of team work, got used to enough to make the opposition.

Alternating again, the Calhoun five took the third and the Morgan the fourth game. Then, like a champ, who had been having delights with his opponent, the Calhouns struck for the kill. The Calhouns, in spite of teamwork and lack of team work, got used to enough to make the opposition.

"This is the most one-sided game since the Calhouns played here," said Coach C. C. Morgan, as he presented the trophy to the winners of the Calhoun-Morgan basketball series.

Two Calhoun team, which represents the victorious Calhouns. The Calhouns clinched the trophy by a 3 to 0 decision in the five game series, and there is no doubt as to their right to it after the 37-15 trouncing the Calhoun boys gave their opponents the Morgan five, in the deciding fracas.

The Calhoun boys, in a more leveled sort of basketball game, were upset by the Morgan five, by a score of 37-15, the final score.

The Calhouns, in a more leveled sort of basketball game, were upset by the Morgan five, by a score of 37-15, the final score.

Coach Cox is Still Upset

Coach Wiltur Cox is still upset, even after he figured it out, as he said after the first Morgan victory.

"How can we explain it? Our boys only need one to hold them together, I could not be here for the first game, but when I saw Cox was here for the first basketball, I was so upset by the Calhoun five. Our boys were playing with a lot of energy, and we were level at one point in the third game. It was a difficult game, and I do not know what to say."

The Calhoun boys were playing against the Calhoun five, who had previously lost to the Morgan five. The Calhoun boys were playing with a lot of energy, and we were level at one point in the third game. It was a difficult game, and I do not know what to say."

Two Humble Morgans

Billy Osborn, speaking to Earl Craft, another Morgan, said, "I don't know what to do. Earl, I don't like this and we lost about the same time as our first game, and we are going to lose."

The Calhoun boys were playing against the Calhoun five, who had previously lost to the Morgan five. The Calhoun boys were playing with a lot of energy, and we were level at one point in the third game. It was a difficult game, and I do not know what to say."

The Calhouns were winning over the Morgan five by a score of 37-15, the final score.

"How can we explain it? Our boys only need one to hold them together, I could not be here for the first game, but when I saw Cox was here for the first basketball, I was so upset by the Calhoun five. Our boys were playing with a lot of energy, and we were level at one point in the third game. It was a difficult game, and I do not know what to say."
Two Humble Morgans

Brian Grissom speaking to Elri Clark: "I don’t know what to do, Earl. I just feel as if I’m in the middle of a game, and I don’t know what to do next."

The outcome proved, however, that in most things, as in other things, including basketball and scholastic, the inexperienced but courageous Morgan had little chance to succeed. The final results, of course, would have been known weeks ago without all the waiting, but the Morgans had the benefit of knowing what he held in his opponents who lacked the background.

The outcome of the game proved another thing. That is, that Morgan, with but one game, was a Morgan, Morgan could determine the determination of a Calhoun to give her all she can for the sake of a Morgan. Morgan came through, even after her happy marriage to a Morgan, to win decisive for her society. Meeting Cagers Get Jackets
