Flag Dedicated To JSTC Alumni In The Service

224 Men Represented On Flag Unveiled During Commencement; List Still Incomplete

The service flag at Jacksonville State Teachers College was unveiled Monday evening at an impressive ceremony held in the new Student Activity Building. A. B. Johnston, vice-president of the college alumni association presided. This flag was unveiled by Clarence William Daugette, 16th president of the late president, Dr. C. W. Daugette, who planned the service before his death last fall.

President Houston Cole made the presentation of the boys to the service. He stated that the college was well represented by men in the service, holding ranks from private to lieutenant colonel; all fighting for democracy and decency. Wherever those boys are, they are prays and good wishes of this institution will follow them. Mr. Cole said, and he presented them in good faith that they would give their best to their work, and that they would be ready, apparently, for anything.

The women will reign at J. S. T. C. next year. Shown posing prettily on the front steps of the Women's State Teachers College were the newly elected officers of the Student Council. Miss Mabel Duran, center, was in the run off for vice president, but was defeated by a slight margin. Miss Duran was secretary of last year council. From bottom to top the new officers are: Miss Maxine Ashburn, Jacksonville, treasurer; Miss Frances Kimball, Jacksonville, secretary; Miss Mabel Duran, Guntersville, runner-up for vice president; Miss Edna Frances Patrick White Phillips, vice president; Miss Frances Weaver, Jacksonville, president.

Students Present One Act Play At Assembly

A one act play, "Promote the General Welfare," was presented in assembly Monday, May 24. The play was directly in line with the recent election and was used to supplement the campaign speeches.

The plot of the performance revolved around the election of state government officers. In the end, all the candidates were successful.

Captain Baker Killed In Crash Of Army Plane

Captain Baker was an outstanding...
The 6th annual Commission meeting exercises held May 31 in the newly constructed Student Activity Building, marked the end of the first year under the administration of President Houston Cole. At top left President Cole introduces the baccalaureate speaker, Dr. C. M. Danneley, superintendent of the Montgomery Public Schools, Dr. Danneley, D. C. R. Wood, and Mr. Charles Ferris, pastor of the Methodist Church, Seated at the table are Miss Pauline Self, principal of Jacksonville High School, President Cole, and President Danneley. At top right Dr. Danneley, with the J. S. T. S. C. service flag as background, delivers his address. On the platform with him are Mr. Ross Arnold, principal of the First Baptist Church, Mr. Reuben Self, and Dr. Danneley.

The friends and former teachers of John Baker of Crossville, who was shocked and grieved to learn of his tragic death on May 4, were deeply moved by the heroism of John Baker, the student who was killed in the line of duty when the accident occurred.

That Baker was an outstanding, studious, student, there was no question of that. He was an "A" student and was also active in many campus organizations. He was engaged in the Miss Mary Ellen Webb, of Piedmont, that the young man had written were students here. He entered the service two years ago, volunteering in the Air Corps. He was formerly resident athletic coach at Jacksonville High School.

Numerous services were held at his home in Crossville and in attendance was Grooveokey Cemetery.

Surviving are his father and stepmother, Mr. and Mrs. John Baker; three brothers, Private Packal Baker, Beaufort; Towne, Clinton Baker; U. S. Marine, and Baker, Clinton Baker, Crossville.

Captain Baker is the second
MISS MARY ALSTON HUGER

Twenty-three years ago, Miss Mary Alston Huger came to what is now The State Teachers College of Jacksonville, as supervisor of primary grades. Through her lovely, gracious personality, the supervision of education, and the administration of all with whom she came in contact. The quality of the work she did through those years proved that she was a worthy dedicating her life to the education of others. The work of her life was to show her students the love, the sacrifice, and the patience that goes with the education of young people.

She was a genius with little children. The influence of her affection, her understanding, her patience, and her ability to make her students feel that they were important individuals were reflected in the growth and development of the children she taught. Her teaching was not just a profession, but a commitment to the welfare of each student.

She was highly trained for her work. The teacher who came under her guidance in the classroom learned the best methods of teaching and caring for little children. She taught them about the importance of learning and the need to be responsible for their own education.

She was a woman who lived her life with purpose. She has left a lasting impression on the lives of those who knew her. Her memory will always be cherished.

The "Golden Age of Greece" grand history was many years before the age of electricity. An Assyrian king wrote a code of laws for his subjects that influenced his people for hundreds of years before More's trip to Mount Siani. Solomon built the wonder of his age, the temple centuries before man dreamt of the Empire State Building. The religions of the world taught a larger portion of the teaching that Jesus Christ brought to the people of the Middle East. The Dance of the World is limited to a certain period. Every age of time produces its characters, its thought, and its contributions to the end of the world. It is impossible to choose a favorite period in the history of the world, but it is certain that the time in which we live is one of the greatest periods in human history.

Dear Aunt Ramona and Uncle Claude,

Weren't you just a little surprised to know that you had a Spar niece? I am really glad you quit teaching when you did, for I am better satisfied than ever having nothing else.

We started having fun when we left New York. We got the train, took our pictures which made us feel rather good. After we had fun, we got to California. There was a lot of nice weather there. We saw a lot of interesting things.

If you ever get a chance, come and see us. We would love to have you visit us.

Sincerely,

[Your Name]
DIECKY SISTERS JOIN WAVES

Appearing in the Birmingham Age-Herald Friday, May 13th, was a photograph of Frances and Sara Dickey, who are in the WAVE. The article read as follows: ‘The Dickey sisters, Frances and Sara, Huntsville School teachers and students of the oaths taken together Tuesday in the Jackson Building and become members of the WAVES. Their entrance was announced by L.L. O. G. H. Swaze, Wave and Spor procurement officer.

Their parents are Dr. and Mrs. W. D. Dickey, Hizin Green, where Dr. Dickey has been a practicing physician 40 years.

Both are graduates of Hazel Green High School and both attend Jackson State Teachers College. Frances is a graduate of Martin Junior College, Pulaski, Tenn.

They are the youngest of eight children in the family of five girls and three boys.

Frances is teaching in Bradley and Sara is West Huntsville School.

REMBRANDT ENGAGE

MENT ANOUNCED

Mr. and Mrs. L. E. Rembrandt, of Four Points, announce the engagement of their daughter, Mary Rembrandt, to Mr. John H. E. Hayet, of Vance, and Moore Field, Texas, the wedding to take place next summer.

This announcement will be of particular interest here where the wedding were former high school classmates. Miss Rembrandt received her degree last June and has taught at Boys in the current term. She was visiting her parents in California when the announcement was made.

THIS COLLEGIATE WORLD

It was a tough race, that one Up hill and down dale it went, and always over sidewalks, rocks, and any- thing that can tend to make a race tougher. All of course she’s from home, but still it was a race. They all got here, and the last one was the bride, and she was quite a lady. She was seen at the starting line, and she was the bride, and she was quite a lady. She was seen at the starting line, and she was the bride, and she was quite a lady. She was seen at the starting line, and she was the bride, and she was quite a lady. She was seen at the starting line, and she was the bride, and she was quite a lady. She was seen at the starting line, and she was the bride, and she was quite a lady. She was seen at the starting line, and she was the bride, and she was quite a lady. She was seen at the starting line, and she was the bride, and she was quite a lady.

OUR BOYS WRITE

with a word from home is too much for you. Don’t know what a thrill it got out of reading it. I forgot to tell you that all six of us Alabama boys are in the same platoon. Backham likes the Marines better than any of ‘em except me. Red Guthrie from Alexandria and the only other okra boy in my hut besides me, was afraid he had the appendicitis and had to go sick for a couple of days. We learned a few minutes ago that his hips were over-worked, and he’s all right.

I’m catching on to the rifle pretty good. In fact it’s getting so I like to take it apart, clean it, and put it back together. We have been told time and again to regard, love, and pay as much attention to our rifles in the Marines as we would our wife in civilian life. Good buy, my lovey, in a letter.

(Continued from Page Two)

are enough American boys he enjoys movies. Not only was he an ardent sport enthusiast while in high school, but he took part in several plays. There was one time, he recalls, when he played the part of moun- tain man in the play 'The Pecos Knapsack.' He says it was a com-edy but we feel sure that Bill was very good at those kind of things.

Not only had he shown qualities of leadership since he has been in college but he was president of his senior class when in high school, and was president of his local chapter of the Beta Club, a national honorary scholastic club.

Like all college boys of his age, it has happened to Bill. He will be leaving for the Army in the very near future.

Says Bill, "I have become quite attached to J. S. C. T. C. and will real, miss the place and all the friends whom I have made, but it’s got to be done and we all have to help,"

thirty-five per cent of the student body.

ARTICLE VIII

CLASSE OF OFFICERS

Section 1 - The election of class officers shall be conducted according to the provisions of Article IV.

Section 2 - Officers of the class shall consist of the following: President, vice-president, secretary, treasurer, representative to the Student Council and representative to the Social Committee.

Section 3 - The qualifications of the class officers shall be as follows: the member of the Senior Class standing first in the order of graduation, (if a senior), second in the order of graduation, and third in the order of graduation.

ARTICLE VIII

THE DUTIES OF THE CLASS OFFICERS

The duties of the class officers shall be those which usually pertain to the offices named in Section 1.

Any class officer who shall be recaptured for the same offenses making Student Council officials liable for re-conviction. The proceedings shall be started in the Student Council at which time the accused officers may have a chance to defend themselves, then after a two-thirds majority vote of the group the class shall be carried before the class of which the accused is an officer. After the trial the accused officer may have a chance to defend himself, then after a two-thirds majority vote of the group the class shall be carried before the class of which the accused is an officer.
The Way It Goes

Jack had money
Jill had all
Jill married Jack
So Jack had Jill;
Jill went to Broo.
Now she's back.

But Jill isn't Jack.

Dear "Doc."

It has been some time since I have written you and I don't remember whether I was at Parris Island or not the last time I saw you; but I think I was in Quantico so I'll start from here.

I finally struggled through Candidates and didn't have any hard work (forced upon me) and a lot of worry about whether or not I was going to make it, but I felt the Marine was as well. We all marched around up on the stage and took our commission in our left hand and General's right hand. "Thank you," when he gave us his congratulations and about 250 F. C.'s became "Boot" graduates.

I am now in Reserve Officers Class working even harder than in Candidates Class (but didn't believe I was going to be a Marine officer). I might make it even though sometimes I wonder.

R. T. C. is quite different to candidates class where they say something it is prattled by "Gentlemen" instead of "Yo-yatchs" as in candidates class. Chow is handled quite differently also. They give us a lot of demonstrations in troop leading and a number of other things. Yesterday we gave a demonstration in firing of the 105 howitzer. I really enjoyed the demonstration. One day long ago they gave us one on the same. That was one of the best demonstrations we have had, as yet. They always point these demonstrations out to us, this is all over the country. And you can hear and see what is going on. (The telephones are checked up and the present will be made to know if there is any trouble.) I really have enjoyed the demonstrations they have given us.

There we are having troop leading exercises. The gives us a situation, appoint a platoon leader and squad leaders, give us a hand full of blank ammunition and let us go to work. It is getting so warm though that no one cares much for them.

I have put in for a Rifle Platoon as first choice. Artillery Platoon and Field Platoon as 2nd and 3rd choices. I probably will get the rifle platoon which suits me fine. Our class is made up of the lots of officers in the company and that I might get back to Jacksons for graduation but I'll never make it. I may get back to Jacksons before I get my new post. They have been giving us as much as ten days to some of the guys. I hope I am lucky enough to be back in Jacksons. 

I imagine most of the boys have left Jacksons by now, have they not? We'll probably go over the other way as I remember the 17 rules for positions at attention and the 11 general orders of a sentry. They are all very tough, but I passed them all before the D. I.

Forget about the camera, Sporting News will have one there for the time being. Here's what I want to get most of all. That is the beautiful dress uniform worn by the Marines on all occasions. Have you seen the uniforms since the time of boot training and we have to pay for them they're taling, and about other people. When speaking of other people they usually speak of the opposite sex.

Professors will be easy to learn in the liberal arts, talk of rank jump down, and are gradually slipping. Sobriety is on the up beat, but not so much with the fenter. They're still interested in clothes and whatnot.

We credit, Auburn again with a bit of cleverness along poetic lines:

"THINK OF IT AS FINDING A CARNETE HERE"

"LOOK FOR IT AT BEERS AND BOTTES WHERE WE USED TO GET BACK"

"That's what a soldier wrote home about. Ask the man in the Coca-Cola colar with him. Ask the man behind the Coca-Cola bottle. Ask him refreshment. Quality you can count on - distinctive, delicious taste, all the time you prove tasting the only thing like Coca-Cola is Coca-Cola, itself."
Why I Came
To Jacksonville
By Clay Brittain
At one period or another in the life of every high school student, there must be some thought or dream of one day attending a college or university. As a student at Alexandria High School, I was certainly no exception to that generalization. From the last two years of elementary school until the day I entered J. S. T. C., I dreamed of, and saw visions of, my college days.

My thought is a college world of a variety they had never known. I dreamed of the campuses of many institutions throughout the South.

Big Leaguers, watch your jobs when these Jax bat slingers get ready to turn professional! The lads above make up the fine baseball team in this district. They are, top row, left to right: John Deason, Jasper; Clarence Mitchell, Fyffe; Billy Wilbanks, Anniston; Jimmy McDonald, Ft. McClelan; Charles Pyron, Jacksonville; George Mitchell Ceal Màr; Sharp, Anniston; Earl Lindsay, Alexandria; Lamar Byatt, Choccolocco.

MEET THE FROSH...
The freshmen of J. S. T. C. are fast on the way to becoming Sophomores. With the culminating of this week ends the first three quarters' work of the beloved rats of 42. These rats have been beloved indeed. Very seldom has a freshman class been so fortunate as to have such energetic and friendly students within its ranks. Speaking of ranks — the ranks of the freshmen class have fallen off considerably during the past year. Many of our boys are now in the armed forces and many more of them are on their way. Others have already joined forces with the Soph Class.

You and I have met most of the freshmen in this column today to say goodbye to these same freshman.

After much thought, I have decided to let the freshmen say their own goodbyes. It's too late for me, anyway.

Goodbye
Eucene Adsonson
Maxine Ashburn

JSTC Softballers Win Up Most Successful Season; Win 14, Lose 3
Eagle Owls Come Through To Make Fine Record After Getting A Slow Start

Wednesday, May 26, the J. S. T. C. baseball team was host to the Piedmont Bulldogs. This was the first game for the boys and they proved that they can tip the ball at night as well as in the day light. J. S. T. C. won their first game by the score of 7 to 4. In winning this game, the Jax was over one of the best soft ball pitchers in the state, "Bundy" Watson has one of the best left hand batters in the state, "Bundy" Watson has one of the best left hand batters in the state. The Jax boys deserve much credit in determining the game with the left hander. Hyatt, deserves credit for pitching the game for Jacksonville. He had the ball for about four hours. No extra base hits occurred in this game. Earl Lindsay and Bill Hamilton were credited with knocking in a couple of runs each. J. S. T. C. played in the best throughout this game. They scored their first run in the first inning when Lindsay drew a base on balls. Hyatt scored, advanced to third on Bill Hamilton's sacrifice, and scored one from left field. The Bulldogs were held scoreless to the fifth inning, when they scored one run on a fly.
I confirm that first impression. Now, my final year well underway, I am thoroughly convinced that college life is far more enjoyable than we have been led to believe. The students are not as difficult as we think and there are many opportunities for extra-curricular activities. I am enjoying my experience here and look forward to the future.

Three of the four "frats" however, was the real reason that first brought me to college. No, I can point out some specific reasons that was.
