Mrs. George Ferguson
To Be February Speaker

CANADIAN WILL SPEAK
SECOND OF NEXT MONTH
AT TOWN MEETING FOR PEACE

Mrs. George V. F. Ferguson of Winnipeg, Canada, is to be the main speaker at the next Town Meeting for Peace at the Recreation Center, February 2, 1944. Mrs. Ferguson has had an interesting career in social work. Her talk for the evening will probably be geared about the social problems of our day.

The speaker received her B. A. from the University of Manitoba in 1926, and two years later received her M. J. from Westminster College. She was a teacher in the Annie P P. High School system for two and one-half years. Ferguson returned to Winnipeg and did community work through the Junior League, of which organization she was later made president. In 1927 she became a member of the Board of Association of the Junior League of America, in New York, and served from 1945 to 1947 as its president.

At present, Mrs. Ferguson is the president of the Central Volunteer Bureau of Winnipeg, which is a community organization for recruiting and placing volunteers in war and welfare services throughout the city. She is also board member of the Winnipeg Council of Social Agencies, of the Children's Aid Society, and of the Canadian Youth Commission, now conducting a study of youth problems and needs.

Ferguson is one of the foremost speakers of Canada, and one that Jacksonville is proud to have as its speaker.
and just as you know that great fate can be, we are awake 

of the matter of a little recreation now and then.

The stark reality of the shortage of young men on our campus is now and then more than ever present. The problem of how to man the ranks of service men.

As a result, the girls lend their rooms to students during holidays.

in some of the Asiatic countries. Women's participation in the work of the world business. Mr. Wilkie returns to his visit to Russia, naval maneuvers and conferences in eastern Asia. He compared this town with our western town in the same respect.

Mr. Wilkie thinks that the success of the Russian army may be credited to the fact that the Russians are fighting to preserve what they have. They are to be fended by the military system of Russia, on which the front line was greatly impressed the need for the cultivation of friendship between Russia and the United States.

Mr. Wilkie shares the opinion that the yoke of the allied representatives receive the privilege of speaking on one subject. The author believes that the establishment of political and economical order for the whole world.

Their silence and politeness were equal to the consideration of all people, the earth.

Having missed the start of the dormitory file of old ladies and lots in the dormitory, the girls are excised from the political and economic freedom for the world.

Quiet hours at the Apartment Girls' Home are thought to be a part of their evening. Nothing could be more exciting than walking in low voices in the halls as they went to their rooms. All of the noise also is about the doors, Mr. McKee.

Curious to know why a special house meeting was being called on Wednesday night, the girls in the dormitory filed out the door and into the parlor.

Feeling a little more useful, the girls talked in low voices in the halls as they went to their rooms. They discussed the fact that the maid had made the bed. It would mean extra work for the maid, but they were willing to do it. And none of them added the glorious "night of mice" to the situation.

There's nothing quite so up-lifting to our spirits as a little relaxation and not a mad dash like the American girls, as well as the way in which to reach the goal is a matter of split seconds. The proper time for such a rush, you will learn, is when you are, oh, you'd say, about ten minutes late for class.

There are difficulties galore, but as we see it, nobody has yet failed to come out on top. We have our "fun" and we have fun and form the way we look it and the way you feel it. Just a need to feel pleased with the way it is and the whole year before another. New Year rolls around.

WAC Air Corps Open To College Graduates

WAC Air Corps as Air Corps.

Fort Worth, Texas. - Women's Army Corps assignments as Air Corps Graduates. Women's Army Corps assignments are being considered throughout the country are awaiting the co-eds who are about to receive their diplomas. The Army and Navy are searching for women to fill many a former co-ed and womanly place in the wings of the winged stars.

Impending mid-semester gradations are already attracting much attention. Among the WACs approximately one-fourth of them have attended college or at least a level of general degree. To make the scrapping and cleaning so that the room would be cleaner, and the dusting, the un-making of beds with the wash and the general destruction, the girls were cleaning the room and the house as usual.

Among the WACs approximately two-fourth of them have attended college or at least a level of general degree. To make the scrubbing and cleaning so that the room would be cleaner, and the dusting, the un-making of beds with the wash and the general destruction, the girls were cleaning the room and the house as usual.

The WACs, with a college background make up a high proportion of WAC officers, and form the backbone of American women's Army Corps.

Knowing that college background makes up a high proportion of WAC officers, and form the backbone of American women's Army Corps.

In the hands of the women, the WACs have proved their abilities in scores of important assignments at AAF training stations and fields during the war. Most of these women will return to the halls and classrooms after it is all over, and so take their rightful place in the society.

One of the first to leave the Army, after the war, is an ex-stag in the Sea Bees, stationed in Rod Island, Dr. Gar-

AFTER HOLIDAY BLUES

January 3, 1944, With a heavy sigh the students of J. S. T. C. pick up their books and reluctantly direct their steps toward Bibb Graves Hall. It is the first school day after Christmas Holidays. Since for two weeks not one of us students has even so much as though of peering into a book, it is rather difficult to get back into the swing of things. But for some peculiar reasons we do not seem to have any particular desire to start studying again.

In the first place, we have quite a few not-to-vague memories of Christmases pie, turkey, fruit cake, candy, fruit, and nuts. No doubt we also have quite vivid recollections of the result of having such elephant appetites. In fact, some of us are not yet over our attacks of indigestion. These attacks, together with attacks of influenza, colds, and grippe, have proved to be quite a nuisance.

In the next place, we have fond memories of midnights dates and midday sleeping. How wonderfully delightful it was to remain in bed until noon instead of having to get up and be in class by eight thirty. And how equally delightful it was to have a midnight curfew instead of an eight o'clock one.

And last of all, as has already been mentioned, the thing that brought us most joy during the holidays was the fact that no one was studying to do. This we remember with many a sigh.

But we students aren't the only ones affected by these old-fashioned habits. We see the same thing in the case of those who are trying to lead a normal college life. They do not have the time to study, and thus are not able to profit from their studies.

A CHALLENGE

The people who try hardest and longest are the ones who finally reach the highest rungs on the ladder of success and receive their just rewards. Few people in our midst possess the qualities that would enable them to rise to the dizzy heights of lasting success. To be successful in college requires a great deal of hard work and perseverance. It is not something that can be accomplished overnight.

TAPS FOR PRIVATE TISSIE

By Jessa Stuart

Here they are again—the Southern poor white trash Mr. Stewart, his two sons, their mother, his wife, and a few friends. We are not sure who they are, but they are a very interesting group. They live in a small cabin in the mountains near the town of Smithville. The cabin is made of roughhewn wood and is heated by a small wood stove. The family consists of Mr. Stewart, his wife, and their two sons, ages six and twelve. The sons are named John and Jim. They are good boys, but they are not very bright.

The Stewart family is not very wealthy. Mr. Stewart is a farmer and makes his living by growing corn and tobacco. He also raises a few hogs and chickens. He has no formal education, but he is a hard worker and a good provider for his family.

Miss Tussie, who is the article's main character, is a very interesting woman. She is a native of the South, and she has grown up in a very poor family. She has been through a lot in her life, and she has learned to be independent and self-sufficient.

She is a very strong woman, and she is determined to make a success of her life. She is not afraid to work hard, and she is not afraid to take risks. She is a very good writer, and she has written several articles for the local newspaper. She has also written a book, which is due to be published next month.

GIVE AND TAKE

When the one great
Score comes
To write against your name
He counts not if you lost or won,
But how you played the game.

As we live in the mad age of today,
Our lives have become very complicated
In regard to our relationships with our fellow humans. We rush forward, head-on, with thoughts of ourselves and our viewpoints crowding out those of the other millions of people who inhabit our planet.

Suspicious and misunderstood
even to our very inmost souls. We are
not to blame for this, for we have been
raised in a world that is full of suspicion and misunderstanding. We are taught from a young age to be on our guard at all times, to be wary of strangers, and to be careful with our words and actions.

This is all very unfortunate, for it is
very difficult to live successfully and accomplish any real good. We must learn to put aside our fears and suspicions, and to trust one another. We must learn to communicate with one another, and to listen to one another's points of view.

So it is in each of our lives. If we are to
accomplish the real good, we must face the fire as well as bomb out with our own cannon. The successful man is he who is able to see the other man's viewpoint as well as his own. He can compromise. He can give, and he can take.

THE TEACOLA

BOOK REVIEW

By L. J. Hendricks

They did nothing but cook, eat, and dance. They had a dance every night, and we danced till midnight. Stimulating! They played the mandolin, the fiddle, and Uncle George's fiddle, and Uncle Powell's pot gut fiddle, the men wore their wigs so high that they looked like pantomime clowns. They were Grandpa, seventy-five, with ma, sixty-five or so, it were in the set with the rest of them; in fact, Grandpa was so old that he couldn't jump up and pop his heels together three times, whereas the younger Tussies could pop their heels only once. They really had a time until the owner of the "mission" kicked them out and seized the furniture in payment for the damages they incurred.

With her last three hundred dolla
Aunt Vittie bought a shack and a few acres of land. Uncle Vittie mortgaged his right hand
Uncle Mott, in a fit of drunk
enjoyed, shouted Uncle George's fiddles all to pieces; Uncle George, like Grandpa, was no mean banjo picker and mandolin player. Little sensitive
the Mountain Creek Coal Company
part
to a judge of some years
and, better still, was getting an insurance check for ten thousand dollars. Uncle Mott, no mean banjo picker
Uncle Kim's body. shipped by George and Aunt Vittie got mar
Uncle Mott put the most out of it, but Aunt Vittie, about whom Uncle Mott put such a string of praises, was not quite brother. After all, she was a beautiful woman, not thirty years younger, with a fine insurance check for ten thousand dollars.

Little Sid, who tells the story in the first person, takes in everything that happens perfectly. It was A. Vittie who took it, and Vittie always took the best of its. Nobody left a tear but Aunt Vittie, about whom Uncle Mott put such a string of praises, was not quite brother. After all, she was a beautiful woman, not thirty years younger, with a fine insurance check for ten thousand dollars. She had grown up in the South, and she was used to hard work. She had a fine constitution, and she could take care of herself in any situation.

In the course of time, she had saved enough money to buy a shack and a few acres of land. She had married Uncle Vittie, a man who was thirty years younger, and she had a fine constitution. She had grown up in the South, and she was used to hard work. She had a fine constitution, and she could take care of herself in any situation.

So it is in each of our lives. If we are to accomplish the real good, we must face the fire as well as bomb out with our own cannon. The successful man is he who is able to see the other man's viewpoint as well as his own. He can compromise. He can give, and he can take.

THE YEOLE Oldie Gossip

With the coming of the new year we have heard a lot of tales that those old cronies up on you-town, BEN and MARION, that ROSCOE SEGRELL are to have moved out of your room, Rosco, and then you wouldn't have to hide. ELESELE ADAMSON must have had a swell Christmas.

She was all in a dither when reopening day came.

We heard that Santa Claus left JOHN DEASON a bag of switches. Now what could they be for? And what in the world did WALTER WATSON get for Christmas? Does he have a new pep song floating over the campus. The Morgans are at it again... JOHN DEASON says that it is Ferdinand and someone says that it is a gift, but will someone please explain what these people on the campus mean when they paw the earth and snort. Well, well, the all-dated HALEY is free again. Seems that SGT. MAYNE is attending choral meetings again.

Wonder why DOT SEWELL visited the hospital area at Ft. McClellan lately. These furloughs cause one to keep late hours... We hear that CHARLES PYRON was three days late for the party at Weatherly. No wonder that ALLEN used so much strength...

We heard that WILLIE DELLE MATHUS's heart is now stationed at Brainbridge Naval Station... Finally, after two months wait, DOHKS ANGEL was rewarded by a letter from Italy... We don't understand why JANUETTE COLLIER prefers staying at home to living at the Apartment Dorm... Haven't heard much from INEZ and J. R. lately. Guess that things are still on the up and up.

VERA, what's the big idea of being in town so early? What about WHITLIie dating JEFFIE on his last night in Jacksonville?... Best of all, we hear that BEN and MARION got together.

FLOSSIE minus BILLY equals FLOSSIE plus SAM, but FLOSSIE plus BILLY equals FLOSSIE minus SAM. Get it? We're wondering why ELNA MOORE cut chemistry.

January 4. Could it have been that she was kissing "fall, dark, and handsome" goodbye...

Here comes CHARLES PYRON again, and this time with FAYE SEALE... Who is it that keeps calling FAYRENE HILLBILLY at the Apartment Dorm? Well, we hear that she is in no hurry, so our bets will probably get results. It took a lot of water to revive all the students as they passed out of assembly. How about that FRANK? Roscoe must be delighted when he received that long distance call...
A CHALLENGE

The people who try hardest and longest are the ones who finally reach the highest sights on the ladder of success and receive their just rewards. Few people in our midst may possess the qualities that would enable them to rise to the dizzy heights of lasting fame, but the majority of us have intellectual capacities and abilities that would enable us to help make the world a better place in which to live.

When we got our report cards at the end of the Fall Quarter, many of us probably felt that our marks were not as high as they should have been. A good goal of study and energy were expended, and many good grades were scored, but we felt that feeling deep down in our breasts that we could have done much better. We felt that our parents and friends were expecting our best and that unintentionally, we had not measured up to their high expectations.

We students here in college must attack our courses of study with the same zeal and determination that our fighting forces are attacking the enemy on far-flung battlefronts. They are fighting to secure for the peoples of the world the right to live and happiness.

They will not fail in the task assigned them. We must not fail in our tasks. We are going to college, training ourselves to help solve the problems of the period of the armistice and of the post-war world.

Our teachers and administrators are our friends, and they want to help us get more out of college life. They are willing to instruct us and counsel us to the best of their abilities, but we must do our part by studying the materials assigned to us. We can explore the limitless sphere of the educational world and learn from their experiences and profit from their mistakes. We must obtain the knowledge that, when applied to our lives, will help us and others.

Let us not put off until tomorrow the studying we should do today. Work that has accumulated over a week's time depresses us and hangs a weight over our heads. Do all today's work, and tomorrow will be a clear slate.

We have accomplished much already in this academic year but, more of us have done our best. Let's resolve to do better work in this new year and also to take part in extra-curricular activities and outside social affairs. We will certainly find them profitable.

HEATLESS TUESDAY

By GIVEN ANDERS

Did you think a band of Etilhans had invaded the campus the week after the Christmas holidays? It was a trifling distraction to see something ludicrously wrapped and huddled up to the door, but, in a closer view, to discover the images was only a Daugette Hall girl. You could tell from the girl's face that the vacation glowing with good cheer and memories of a happy holiday. The next morning the radiators seemed to slowly come back to life as a distant rumbling in the place could be heard. Eww, the radiators seemed to slowly come back to life as a distant rumbling in the place could be heard.

It's a heard that brings such absurdly made good and rumblings. But, try as we would, they would evoke nothing but a thin trickle of heat into the radiator. Suddenly, on Tuesday afternoon, the radiators seemed to be again in operation as a warm, sunny, day was found. Everyone sensed that something was wrong with dear old Daugette Hall; it just wasn't the same. Involuntarily, a shiver would shoot down the girls' spines, and coldness and clamminess suffused the air. There wasn't any heat. None of the cheery warmth was present that they were used to coming back into after cold blustery days. The doors on Wednesday nights at the Recreation Hall on Saturday night was to be opened in order to warm them.

Mr. Sennett and Mr. Duncan could be seen shivering back and forth in the halls with hurled looks on their faces. They rushed about, shouting, cursing, turning Monday, Tuesday, and Wednesday.

MEET THE FROST

One of the members of the faculty and as secretary of the Freshmen Class is Dorothy the Student Council. She was a Freshmen in her third year. She thinks of the future as the present, the present as the past, and the past as the future. She was a Freshmen in her third year. She thinks of the future as the present, the present as the past, and the past as the future.

Forney Follies

by John Deany

Have you ever seen anything very interesting or colorful about the business of writing? Just in case none ever has, my column will tell you some things discovered about one who makes that business, who finds such work far from monotonous, and who has also found time for many other activities.

Whistle's departure is bad enough, but what will we do when J. C. Parkinson leaves for the Air Corps? Mr. Parkinson was a occupant of room 235 leave for the sit of Air Corps. What's the result? to be a famous sophomore from town leaves for some other town. His exit was marked by the Hall of Fame out.

Do, Gary, says we close this? Do, Gary says we close this country and go try being office manager for his campaign. After all, it seems a good idea to be a successful commun. It is a little less glamorous than being a chief of the college's commercial department.

We discovered from various sources that even as a child Miss Branscomb displayed commendable ambition. For two years after her graduation, she attended law school and was valiantdenic of her class. Later she attended Hunter's College, where she majored in Latin and English. She was a member of Phi Delta Lambda and Phi Gamma Delta, the latter being the religious student society of that college, and was editor of The Hunterian. In 1936 she received a certificate for excelling as a member of the Grand Council, student governing body, and other organizations.

For two years after her graduation, she attended law school and Latin in high school. She stopped teaching to take post graduate courses in commercial education from the University of Alabama and Boston University. While teaching, she kept secretarial work at night in Montgomery, and was selected by the Red Cross as a member of an advisory committee for the Red Cross. Theseselecte were Miss Spear, first floor, and Mabel Duke, second floor.

Lillie Norris returned home on January 4 to be with her brother, who is a Lieutenant in the Navy, stationed in Fort Meade, Maryland.

We want to welcome Margaret Steward and Frances Hulme, Piedmonters, who are visiting her brother, in Fort Meade, Maryland.

The Weatherly Hall girls entertained the Weathery Hall girls with a Christmas party before they went home for winter break.

Those present were Mrs. Dillow, Miss Vardar, Mrs. Hurte, and Bernice Wilson, SGT. Nutter, Miss Moore, Mrs. McDowell, Miss Barrett, and Miss Campbell.

We were honored to have President and Mrs. Col as our guests.

After the guests had played some games and had eaten some refreshments, they were taken upstairs, and presents were given to all. Everyone seemed to enjoy the party.

Apartment Notes

At the housemeeting following the Christmas holidays, floor chairmen for the dormitories were elected. Duties of the holders of these offices include the checking in of all girls in the evening, checking to see that all rules concerning quiet hours are observed, and acting as a member of an advisory committee for the dormitory. Those elected were Jan Spears, first floor; and Mabel Duke, second floor.

We Hereby Resolve:

There has got to be some time in our lives where we can feel ambitious, talk about it, and get by without doing anything about it. The favorite time of day is at the beginning of a new term, when everyone tries to make the fantastic resolutions without expecting to keep any of them. We have the unexpected New Year's resolutions to get their names crossed.

BOBBY BRUCE has made it his New Year's resolution to find out whether there is a Santa Claus or not. Somebody tried to disillusion him during the holidays.

NELL NIMAN has resolved to put her thinking cap and try to remember the date, which of her men in the service she is waiting for to return.

Among her many interests are flying, in which she has had a considerable experience, and somng training as a pilot, reading, singing in the church choir, collecting stamps (you should see those!), and music. Organ music being the one she is most interested in.

The thing about her that is most endearing to members of the Tech-college is her warm, friendly paper work. Not only was she editor of her college paper, but she also prepared the paper for the Montgomery Advertiser. She has also been editor for two years with the price association and wrote up the trip. There were about 400 students there. Among the places that they visited were the President's Palace and the house of the mayor. She has done more traveling in the United States than most of us. Almost everyone has an ambition tucked away somewhere, and Miss Branscomb's has always been "To see the truth, I came there with a special course in short story writing, so, I'll be ready."

We are pleased to announce that Miss Branscomb has had some writing published.

"How do you like Jacksonvile?" was the only comment from The Alexander City Outlook upon the report that Ensign Frank Hancock was a shipmate of his former friends and colleagues while in the service.

Ensign Frank Hancock of the United States Navy has been promoted to the temporary rank of Lieutenant. He was promoted on December 15, according to word received by his parents, Mr. and Mrs. Rufus A. For, and his former Jacksonvillle residence.

Ensign Hancock has been stationed at the New York City, New York, and has been serving in the United States Navy since the time he was commissioned.

The "Y" BECKONS YOU TO ITS MEETINGS

It is the desire of the "Y" that all girls who are interested to attend each of the "Y" meetings, the first of which is scheduled for 4:30 on December 14, to register their names and get the list of all those students.

Ensign Hancock is one of four brothers who are now in the service. The others are Lieutenant Thomas Hancock at Ft. McClellan, Capt. John Huncan at the Philippine Islands, and Capt. Thomas Hancock at Ft. McClellan.

Ensign Hancock was the only one of the group to attend the house meeting in this section, and it is expectedly hoped by the many friends of Ensign Hancock and his family that word will come that he has been found and is well.

We are pleased to find the following names crossed:

P. D. Caldwell, master of Arnold Caldwell, has been appointed as a member of the staff of the Tech-college, which he wishes to accept.

Ensign Hancock is the one to whom we owe our deepest gratitude for support given for "43. Let's all resolve to accomplish even bigger and greater things in the "Y" this year. It will take the cooperation of every student to make the "Y" what it should be on our campus.

A message from Dr. J. M. Shaddix, of Clay County, that he has arranged for the Tech-college to receive the "Y" newsletter next semester.

Mr. and Mrs. George Ingram (Monta Jones) are on the West Coast, studying and teaching in California, and Georgia, as an ensign in the U. S. Navy.

EUGENE Sims, of Ashland, Va., was a visitor to the campus as he spent the holidays with his parents.

Dr. J. W. Belknap, of the United States Navy, has been promoted to the rank of Lieutenant. He was promoted on December 15, according to word received by his parents, Mr. and Mrs. Rufus A. For, and his former residence, Jacksonville, Fl.

January 4 to be with her brother, Private Howard Menthon, on route to Fort Meade, Maryland.

We want to welcome Margaretta Howard and Fransis Hilburn, Piedmont, and Bobby Seegle, Guin, members of the Apartment fold.

Everyone was story to hear that the two sisters had their addresses during the holidays. Faymore Childers is living at her near home in Piedmont and making plans to visit us in March. Judith Brook is now in Chattanooga, where she is working.

Lillian Smith was back after the holidays in order that she might be with her brother, Second Class Petty Officer Richard Sloan, who had just returned from the Asiatic fleet.

The beaming faces in our midst accounted for by the fact that we have been again an Apartment names. We are especially proud of Mrs. Dorothy Webster, one of the two students at J. T. S. who make all "AV" for the Fall Quarter.

One apparently a lot of things happened to make everybody in the Board of Directors of Christmas. From the gossip heard around the " coke" machine.

Sara Neil got a Christmas card from college, and from New Jersey to see D. Norton; a beautiful garnet from "Red" gave to a friend; Betty Weathers bought a lilly a swanky wardrobe; Bobbi and Ann gone to Jacksonville to make Mrs. Stapp particularly happy; Beatrice Maxwell, Dan's brother, was home, later splurged, and Edna got a new watch; Jimmy presented Vittas with another ring; Beth Cole was thrilled over spending a lot of time in Tuscaloosa.

JUNIOR HOSTESS CLUB

ELECTS OFFICERS

The members of the Junior Hostess Club met regular meeting, Miss Mary Huggins as president, Miss Pauline Rose as vice-president, Miss Sara Neil as secretary, Miss Frances Mottuck, treasurer. Group captained for the division are Beth Cole, Elizabeth Burcham, Ann Beamer, Ruth and Ethel.

The following people were elected to serve on the committee: Misses Kathleen Commercial, president; Miss Margaret Weaver, vice-president; Miss Sara Neil as secretary; Miss Frances Mottuck, treasurer. Group captained for the division are Beth Cole, Elizabeth Burcham, Ann Beamer, Ruth and Ethel.

Miss Annette Tremain, who was our hostess at the Banquet, received a diamond by the end of 1944, and the prospects aren't all bad.

The Junior Hostess Club decided to exchange in the first six months of 1944, to get their hands cleaned.

There has got to be some word about to find out whether there is a Santa Claus or not. Somebody tried to disillusion him during the holidays.

NELL INMAN has resolved to put on his thinking cap and try to remember or decide which of the candidates he will be voting for for the Army.

We are proud of the fine attention at the meetings last year, particularly during last attendance record this year. We hope to see some help to every student. We have some outstanding programs that have been planned and presented by the students.

"Why Read the Bible?" Another was inspirational message given by Rev. Mr. Doon. One of the highlights was the candlelight service planned and executed by the Junior Hostess Club.

"Why Read the Bible?" Another was inspirational message given by Rev. Mr. Doon. One of the highlights was the candlelight service planned and executed by the Junior Hostess Club.

The "T" invites each and every student to the evening programs that will be held from Monday night to Thursday night in some of the dormitories.

C. H. Weatherly News

We are proud to announce the following: Miss Reba Coplin, who is a house- with her brother, Second Class Petty Officer Richard Sloan, who had just returned from the Asiatic fleet.

The beaming faces in our midst accounted for by the fact that we have been again an Apartment names. We are especially proud of Mrs. Dorothy Webster, one of the two students at J. T. S. who make all "AV" for the Fall Quarter.

Dear Mary,

Your talk of J. S. T. C. makes me wish that I were back there. After all, there are many officers and others in the field who really are enjoying their tenure. They are not working as hard as we are, but they are not doing anything to harm the morale of the crew.

I have been reading about the weather in the field, and I must say that it is not too bad. I have heard that the weather in the field is much better than at home, and I think that it will be the same when we get back. I hope that it will be the same, and I hope that it will be better.

I am sorry to hear that you are not writing as much. It is a bit difficult to write as much as I would like, but I am trying to write some letters. I hope that you are writing as much as you can.

I hope that you are doing well, and I hope that you are enjoying your work. I am doing well, and I hope that you are doing well.

Sincerely,

Glenn

New HORIZONS
for a Greater Industrial South

WHILE destructive battle rage
in large areas of the world, a differ-
ent story is being written in our South
land. . . . a story of new industrial achieve-
ment, of things yet to come in the stirring
world of tomorrow.

The South stands hopefully on the
threshold of a new era . . . . dreaming of
wider industrial and agricultural ex-
ploration. From its fabulous raw
resources the laboratories of private
industry have in last years wrought
miracles of production. Agricultural
products have blossomed into new
kinds of fabrics, building materials and
amazingly useful plastics. New markets
and new wealth have been created for
southern farmers, commerce and labor.
Even now the South holds many of the
largest plants in their respective fields
in the world!

Already a major factor in America's
arsenal of war production, the South looks forward to
a better tomorrow . . . a to-
morrow filled with peace,
security and happiness . . .
somorrow when the Amer-

ican Spirit of Free Enterprise
will build a Greater Industrial South for the
benefit of all mankind.

In War or Peace "The Old Reliable"
Alfa Southern Progress
Today the L & N's big job is to help
Uncle Sam win the war. When one day
comes, the L & N will again serve the
South with modern and dependable
transportation — and cooperate in
every other way toward making it
greater industrially and otherwise.
The railroads ask only fair treatment by
the public and its lawmakers — that no
unequal advantages or subsidies be
given their competitors.

Complete information pertaining to
plant sites, raw material, power and
water supply, or assistance in planning
efficient track layouts and service routes,
may be obtained by writing the Industrial
Development Department of the
L & N at Louisville, Ky.
