French Students To Arrive On JSTC Campus In August

We welcome the new students. Every year many faces appear at Jacksonville, but it is rare that we are blessed with as many new ones as we have been this time. J. S. T. C. is a friendly school. Jacksonville is a friendly town and it is the desire of the student body as well as the faculty that you, the new students, get into the swing of college life immediately. We want you to become a part of the pattern and participate in college activities to the fullest extent. It is hoped that all of you, by this time, are completely at home in Jacksonville.

At this time we would like to send a greeting to the students of J. S. T. C. who are home for the summer. Assuming that a copy of the Necrola will find its way to your home, we shall endeavor to paint a verbal picture of summer school.

We have a large enrollment, and many of the classes are filled to overflowing. As many as seventy-five students pack some of the classrooms. Between the classes the halls are crowded, and one is fortunate indeed if he is able to push his way into the grab for a quick "coke." Many students may be seen outside under the shade trees, as it is now very hot "up on the hill." Many of the students are veterans and teachers in the field who have returned for the summer. The result—more serious students; competition much keener.

The swimming pool is far the most popular spot on the campus at this time of year. The hot summer months make swimming the number one pastime and number one pastime and number one pastime and number one pastime and number one pastime. Almost any time one passes the pool a large group of people may be seen swimming, diving, splashing water and in general "muddling on." There, too, many students have returned for the summer.

Kappa Delta Pi Holds
Initiation For Pledges

The Kappa Delta Pi chapter at Bibb Graves Hall held its initiation ceremony for new members on May 23, 6:30 p.m. in the student lounge at Bibb Graves Hall for the purpose of meeting and discussing the future of membership in the organization. The event was attended by students from several universities, including Professor Louise Waters, Wedewelt, M. L. Roberts, Altona; Jackie Cobb, Macon; and Delcie M. Hart, President-elect. The meeting was opened by Dean John A. Vanderfield, President of the college, followed by Gilliland, Kevel Identity, and Dorothy Tripplett, Gadsden.

Following the initiation ceremony, a formal banquet was held in honor of the new members at the Recreation Center. Kathleen Miller, Crossville, Tennessee, toasted the new chapter of Kappa Delta Pi, while Mr. Ernest Stone, Dean of Students, addressed the gathering. Mr. Stone discussed the importance of the chapter in the student body and the need for its continued growth.

In conclusion, students who have been initiated into the Kappa Delta Pi chapter of the college will be expected to attend the next meeting on October 4. The chapter will continue to provide opportunities for its members to grow academically and professionally.

Mile Oddie Michel

In this issue of Mile Oddie Michel, we present a feature on the opportunities available to students at Bibb Graves Hall. The college offers a wide range of programs and activities, which provide students with the tools they need to succeed both in and out of the classroom. Whether you are interested in pursuing a degree in arts, sciences, or business, Bibb Graves Hall has something for you.

French novels as homemakers

Fernandy Martard

French novels as homemakers have been a popular genre in recent years, offering readers a glimpse into the lives of homemakers and their daily challenges. These novels often explore themes such as marriage, family, and the struggle to maintain a household.

In her latest book, Le Jour de la Fête, author Sophie Martin takes on the subject of homemakers and their lives. The novel follows the story of Marie, a stay-at-home mother who is struggling to balance her duties as a wife and mother with her own personal desires.

The novel is a powerful reminder that being a homemaker is not an easy task. It requires a great deal of patience, dedication, and resilience. But it is also a way of life that offers unique opportunities for personal growth and self-discovery.

In the words of the author, "This book is about the strength and beauty of homemakers. It is about the love and sacrifice they make every day. It is about the challenges they face and the triumphs they achieve."

The novel is available at local bookstores and online retailers. It is a must-read for anyone interested in the lives of homemakers and the complexities of modern relationships.

Two-Hour Exams

Now that they have passed, the two-hour examinations were not so bad after all. The fact that they were to be two hours long scared most of us; but actually they were not anymore difficult, because we didn’t have to worry about meeting classes during examination week. Most of the professors didn’t make the examinations any longer than usual; so during the two hours we had plenty of time to finish and could improve the quality of our work.

There was only one complaint to offer. Some found themselves burdened with three or four examinations in one day, but we have been assured by the schedule committee that this will be corrected by examination time this quarter. On the whole, the two-hour examinations were very agreeable to us, students, and students feel that this change is a milestone in the progress of the school.

4th Of July

In the last issue an editorial entitled “July 4th Holiday” was published in the TRACOLA. It was the purpose of this editorial to express the sentiment that the day is declared for faculty members and students, beginning July 3 and ending July 8. It was pointed out by the writer that the transportation problem, the only barrier to a holiday, will be abated with the disappearance of gas rationing and that peace time conditions now justify such action.

Since Saturday school begins the week of July 8, the secretary and a great number of students supported the writer’s claim. But an extra Saturday to make up the extra day of vacation would be approved by the majority. The administration in this matter, and a great number of students supported the writer’s claim. It is felt that an extra Saturday to make up the extra day of vacation would be approved by the majority. The administration in this matter, and a great number of students supported the writer’s claim.

The student body approved the proposal, and the administration answered in the affirmative. The students were delighted when President Cole announced July 4 as the beginning of the holidays. Classes will be resumed Monday, July 8.

Students are eagerly anticipating a planning committee for a week-long vacation on the campus at the present time of the summer. It is believed that the volunteer committee will refresh and prepare students for the last quarter. To you, Saturday school classes are not necessary if the quarter ends August 19 as scheduled. The student body appreciates the thoughtfulness and cooperativeness of the college administration in this matter, making possible a mid-summer vacation just when it’s needed most.

Book Review

FATHER MEETS SON

By Nan Davis

Some people’s lives are any like waste baskets, so cluttered up that nobody can find anything except waste which should have been disposed of long ago.” Mr. McEvoy in his book has said those things which everyone already knows, yet, in all his fussin’ and fitnin’ that he calls living, he never quite realizes that he has so much philosophy of life. In Father Meets Son you read what anyone of us may have thought, yet Mr. McEvoy has put it on paper in such a way that he holds our attention and we never realize that it is a book of philosophy that might otherwise be dry and boring.

Father Meets Son is a father’s letter to his son who had just finished college and was about to make up the extra college work. His son is interesting as well as worth-while. To learn him to take care of yourself, and second not to fancy yourself a super-literate champion. The advice the father gives his son is interesting as well as worth-while. To learn him to take care of yourself, and second not to fancy yourself a super-literate champion.

VISIT TO TRAILER CITY

By Donald McClelland

One day last week, having an 8:45-hour on my hands, I decided to walk over in the general direction of Hames Hall, having in mind to awaken to the shadow of that stately old building and meditate on its past glory. I walked around the familiar structure, noticing the broken windows, the setting cornices, and the general run-down condition of the place. Finally I sat down, my back against one of the huge pillars that typify Hames Hall, and stared westward.

Below me, sprawled in a hot summer sun, was a city of trailers. They were turned a hulidred miles away from the student body. Many of the trailers were on the west end of the old campus and extended in three rows parallel to the sidewalk that cuts a diagonal path across the green hillside. There were a few shade trees scattered among the trailers, but the view was mostly unobstructed. I was thinking of the fact that he, for the first time in my life, was suffering from diaphanous haze. Another told about making a dozen trips to town and staynly searching for pots and pans.

Everyone agreed that the greatest need in trailer city today was for a vegetarian. Everyone was concerned over the fact that the community had no real service. There were a million-or better—little grubs. I listened to the strokes and decided that the boys did not like trailer city to well. So I asked them if they had rather be back in the dormitory. Almost in unison I got a real big “yes,” and they all agreed that trailer city was neat dormitory life in every way. They had more privacy and no chores to “sweat out.”

I remained awhile longer and observed the life around the town. I could small good cooking in some of the trailers. I noticed that the popular dress, both male and female, was shorts. Everyone wore shorts, and my long trousers were taking the full effect of the heat.

A PROPOSAL

A PROPOSAL is a growing feature of our paper. It is printed in the interest of those interested in original contributions and all students are welcome. The A. C. Scott is made up of students who are in the school with their poetry or their comments.

MYSELF

I have to live with myself, and so I want myself to be free, as I know. I want to keep on the things I have done. I don't want to keep on the things I have done.

I never have to keep on the things I have done.

I am a bluffer and a bluffer and an empty show.

I can't hide myself from me.

I see what others may never see.

I know what I can know.

I can't fool myself, and so back these proposals and work for the" proposal.

Anon

A PROPOSAL

I WANT A LETTER

Well, why don't we receive a letter. From a soldier over the sea?

Oh, I'll never get better.

I'll come home too soon.

You are going to go with my heart.

A painless thousand cannot ease.

A brown-eyed soldier took my heart.

And carried it with him across the seas.

He carried it to the land of Calypso, Salpan, and dozens of other places.

From Alabama to Japan.

It has been among many races.

My brown-eyed, my love, will you, as long as I have been, bring you home on the morning tide Which took you away long ago?

Be it days, months, or a year,

But you won't bring me back.

Then I'll still be waiting here.

But now I want a letter. See?

Betty to Burrow

Social Calendar

June 2 — Big Little Sister Reception
June 3 — Theatre Party for Little Sisters
June 5 — Social Committee Reception
June 6 — Big Sisters entertain Little Sisters at Rec

June 11 — Social Committee Square Dance
June 13 — Recorded Music Hour (4:30 p.m.)
June 19 — Physical Education Dept., sponsors square dance practice.

VETERANS COMPLIANCE ASKED ON RULES

Taking advantage of campus rumors that some veterans who are in training under Public 366 have disposed of books and equipment of the War Department, many of these books and equipment have been disposed of by the War Department. The annual Summer Carnival is scheduled for July 25.

The annual Summer Carnival is scheduled for July 25.

The annual Summer Carnival is scheduled for July 25.
College Secures Training Plane for Civil Air Patrol Group

Wood, Jacksonville, is trained in aircraft structure and mechanics. Curval. Trippet, Gadden, as assistant, does a splendid job handling the records and correspondence necessary to the efficient functioning of the organization.

**FLIGHT TRAINING A CERTAINTY**

President Herbert C. House has cooperated fully from the beginning with the efforts of the CAP to make their flight successful and attractive to the military students on the campus. Through his generosity, Miss Branscomb was able to secure from the War Assets Administration the BT-13 Vultee aircraft "Valiant" shown in the illustration. and together they have secured a landing field from one of Jacksonville's leading civic officials, details of which will be announced as soon as the field is approved by the Alabama Aviation Commission, at which time the full-fledged training will be opened. Dean C. R. Wood has also cooperated by making it possible for CAP members to secure six hours of college credits.

Entitled Elementary Aeronautics 151, 2, 3, the course includes the following ground and pre-flight subjects: theory of flight, structure of aircraft, instruments, navigation, meteorology, communications (radio and Morse code), first-aid, sport operation, and civil aeronautics. The class meets two hours every Tuesday evening from 6:30 to 8:30 and one additional laboratory hour, 3:45 on Tuesdays, for the period of approximately one semester. Miss Branscomb in instruction, besides the student officers mentioned above, Dr. Clara Washings, in meteorology. In addition to pre-solo instruction, a plan will be carried out whereby CAP members who have already soloed may be given additional solo time. A Veteran's Flight Program will be approved for Jacksonville by the State Civilian Conservation Corps as soon as the Jacksonville State Teachers College is approved, enabling veterans to secure flight training without cost.

Commander Branscomb informs us that all training texts, reference books, and training films are furnished without cost by the Alabama Wing Headquarters. CAP officers are trained through the Anit stringWith Squadron, of which the Jacksonville Flying Club is a part. This is made possible through the cooperation of the Civil Air Patrol, which is a voluntary auxiliary.

CAP Wing Officers Complement Jacksonville Unit

Recently Colonel Howard Bon, Alabama Wing Commander, Major L. E. Gobons, Assistant Wing Commander, Lieut. Earl Brinkley, Jr., Commander of the Anit stringWith Squadron, and Captain Theodore C. House, CAP and the Army Air Corps, respectively, were in Jacksonville.

**DIGIT-MORE**

**DIGIT-MORE**

Of special interest to students and faculty members were the marriages of the former Sarah B. Morehouse, and of the former Frances Digcy, to Fred McCall. The double wedding was solemnized at the MacDill Memorial Methodist Church in Jacksonville at 1 o'clock on Sunday, June 1. The Reverend J. W. C. Cheston officiated, using the double ring ceremony.

The brides are the attractive daughter of Dr. and Mrs. E. E. Digcy of Hazel Green, Alabama; Mr. Morris is the son of Mr. and Mrs. A. B. Morris, Hazel Green, and Mr. McCane is from Lineville, Alabama, son of Mr. and Mrs. H. L. McCane.

The brides wore white suits with white accessories. Each had a corsage of purple orchids.

Guests at the wedding were Mr. and Mrs. Louis Morris, Ruth Digcy, Mrs. Pauline McCorf, Webb, Mrs. and Mrs. Mary Dade McCane, Aaron Hall, and others.

The two couples are students at the State Teachers College and are making their home in that city. Mrs. McCane received her degree from the State Teachers College on May 31 and is doing special work this summer. Mr. McCane is studying pre-engineering and will transfer to Auburn after the summer quarter. Dr. and Mrs. Morris now receive their degrees at the end of the fall quarter.

During the war, both brides served in the WAVES, and the bridesmaids were active in various theatre organizations with the Army.

**SCALE-WHITE**

The Methodist parishioners of the Jacksonville church were the scene of the marriage of Miss Days LaVerne Scale to Mr. Vernon Lamar Whites, Jr., a Birmingham, Ala., Rev. Moody performing the ceremony in the presence of relatives and friends.

The bride was lovely in a aqua blue dress with white accessories. Her corsage was of white orchids.

The bridegroom was the talented young and attractive John Vincent, Alas. While at the State Teachers College, Miss Rollins was the active in all campus activities and was one of those representing Jacksonville in American Colleges this spring.

The bridegroom, who was recently discharged from the Army Air Force, is the son of Mr. and Mrs. H. W. White of Jacksonville. He is a former student of J. T. C. Hall.

Mr. and Mrs. W. H. White of Jacksonville, Georgia, where the bridegroom expects to continue his education at the Georgia School of Technology.

**KNIGHT-CAMP**

At the home of Reverend J. F. Camp in Montvale, on the evening of May 17, Leta Knight was married to Arthur Camp, with Mr. and Mrs. J. H. White of Jacksonville, Georgia, as witnesses.

The bride is the daughter of Mr. and Mrs. Leon Hudson of Leader. The bridesmaids were Mrs. Mary Duke McCane, Aaron Hall, and others.

Both the bride and bridegroom are students at the State Teachers College and while attending school will be residing at Weatherly Hall.

**BRITAIN-VOSS**

The marriage of Miss Eleanor Britain, daughter of Mr. and Mrs. J. W. Voss of Wellington, and Alfred Roy Voss was celebrated in the Alexander Methodist Church, Saturday, June 1, with the Rev. Justice officiating.

The bride's dress was of aqua blue and white with accessories. The bride's gown was of white orchids.

The bride and bridegroom reside in Montgomery. They are managing their own home.

**SGA SEeks Name For 1946 Annual**

The TEACOLA is sponsoring a contest beginning June 20 to select a name for the school annual which will be published during the 1946-47 school year.

During the spring quarter, students voted to amend the Student Government Constitution, authorizing the publication of an annual. This was the first action taken regarding a school annual since publication was discontinued in 1943. Before that date, the school annual was issued instead of the TEACOLA; never the two were published at the same time.

Before that amendment to the Student Government Constitution, the publication had been discontinued. Now that the amendment to the Student Government Constitution, the publication has been approved, it will be possible to have both publications available for students, the TEACOLA monthly and the annual for distribution at the end of the school year.

The Student Council is offering a prize to the author of the title of the annual publication. The contest, which opens June 20 and closes July 12, is open to all students and faculty members. All manuscripts will be judged by a group of judges, two of whom are teachers.

More and better square dances have been planned for the summer by the Social Committee and other organizations. These dances are usually held in the college gymnasium, which has ample space to accommodate large groups. Faculty members as well as students have been invited to attend these dances and agree with the students that the square dance is really an art form which, when performed with skill and gracefulness, is both beautiful and enjoyable.

Colleges are now beginning to have a group of musicians interested in appropriate music for these dances. Next year we can expect to hear the sounds of square dancing with more variety and with more precision.
The sound of a 450-horsepower engine announced the arrival in Jacksonville last Saturday of a hard-nosed training plane, "Valiant", the best shining silver in the sunlight, piloted by CAP Flight Officer John Morrow, and destined to bring to the campus the realization of a real flight school for the Jacksonville State Council, sponsored by the college Civil Air Patrol. Under the leadership of the CAP, the unit has grown from a small group of members working out plans and ideas, to a streamlined organization of 14 officers, all volunteers. The CAP now offers services in all phases of ground training, and plans to extend its operations to all types of training planes.

The flight school at Jacksonville State University is open to all students. There are several preflight subjects, and the students are required to attend these classes before being able to engage in flight training. The CAP school consists of various preflight subjects, and the students are required to attend these classes before being able to engage in flight training.

John Morrow, a captain with the CAP, has been a pilot for 15 years. He is a graduate of the University of Alabama. He was instrumental in the organization of the CAP at Jacksonville State University.

The CAP is an organization that provides cadet training for students who are interested in aviation. The CAP is also a part of the Civil Air Patrol, a branch of the U.S. Air Force.

The CAP flight school at Jacksonville State University is open to all students. Students who complete the preflight subjects are eligible to enroll in flight training. The CAP flight school is located in the old hangar of the Jacksonville State University aviation department. The hangar was originally used for the Jackson State College aviation program, but has been adapted for use by the CAP.

The CAP flight school offers several preflight subjects, including the following:

1. Introduction to Flight
2. Aircraft Systems
3. Weather
4. Flight Planning
5. Radio Communication
6. Regulations and Procedures
7. Crew Resource Management

The beginning of the summer quarter, with the arrival of new students, has created new interests in the field of sports.

The intramural softball teams are now in the process of reorganization because of the loss of players who graduated or left school temporarily.

The softball league for the summer will consist of three teams under the management of Kermit Young, Gilbert Adams, and Orson Sharp.

We expect to have some local intramural competition as soon as the weather improves and the grass dries. Games have also been scheduled for Friday night and Saturday evening.

The college softball team was defeated three to one in a game played with Piedmont recently. In a return engagement, the team, inspired by the pitching of Mose-
As the teams become well-organized, games have also been scheduled with outside teams to be played in the near future.

The college softball team was defeated three to one in a game played with Piedmont recently. In a return engagement, the team, inspired by the pitching of Miss Lovelady, a newcomer to school, came back to win in a thrilling game by the score of 10-6.

On Thursday night and Sunday the pool will be divided. Other measures are being made to maintain the sanitation of the pool and to protect the health of the users of the pool.

A small charge for the use of the pool by the public is being made. The college will not assume responsibility of the pool while it is being used by the public.

Monsieur Humbert is a former student of Lycée Claude Bernard and Lycée Janson du Sailly. He volunteered for the army in September, 1944, and participated in the resistance and liberation of Paris under the French General Leclerc. He was later in the battle for liberation of Alarre-Lorraine with the Third American Army under General Patton and in Germany with the Seventh American Army under General Patch.
