Flight Training For Veterans Now Available Under G I Bill

It has been announced by Miss Lucille Britt, principal of aviation instruction and commanding officer of the Civil Air Patrol, that flight training for veterans is now a reality. The United States government has recently made it possible for veterans to receive flight training under the G I Bill. This is an opportunity for veterans to acquire valuable flying skills.

The Calhouns have been an influential figure in the news world. He is heard daily in various radio programs on the American Broadcasting Company in a program amusing to the nation's ear. In his news columns "The Washington Digest" is a unique publication by the Washington Newspaper Union, with over 1000 leading newspapers throughout the country.

During World War I Mr. Baukamp represented the Associated Press. He covered the Peace Conference at Versailles for "Stars and Stripes." When storm clouds broke in 1941, he was on the scene of the fatal Reichtag meeting, just before the war began in September. For forty years he has been on the scene of the most intricate events of war and peace.

This distinguished commentator, Robert Baukamp was master or ceremonies for the Calhouns. Calhoun speakers included Maxell Randles, Louise Gray, Harry Johnson, Bill Hubbard, Bill Hamilton, and Margie Sparks. The judges chose James Hubbard as first speaker for the Calhouns, Jack Burks, second speaker, and Harry Johnson, third speaker.

The coming debate promises to be a lively event. The Morgan will be coached by Dr. Carver and the Calhouns by Mrs. Maud Lowder. The question chosen for debate is "Resolved: That the United States, as a nation, should take armed forces around the world, and that the United Nations should be called the Calhouns to be honored by Mrs. Maud Lowder. Dean's List For Winter Quarter Is Announced

The Honor Roll for the winter quarter has been released by Dean C. R. Wood. To be eligible for the list, a student must have an average of B or better for the course in which he is enrolled. The following students met the University's requirements for the winter quarter:

See page 4 for more news from the College.
Charles Dobbs, Charles Dobbs
(Continued from page 1)
Is he satisfied with things as they
are, or does he realize the need for a change in course?
The real Southerner, Mr. Dobbs
stated, is discontented, and
doesn’t want things to stay
as they have always been in the
“dear old South”. Alabama farmers
have the lowest income among American farmers; they
do not own a competitive part
of the industries located within
its borders. Alabama faces a
crisis in education today; there
is a shortage of doctors and nurses
which threatens health condi-
tions and there is a necessity
for religious and racial harmony.
He listed education, health and welfare as basic needs.

Mr. Dobbs stated thatedu-
cation and general economic wel-
fare are so closely linked that the
economy is directly affected by educational opportunities and
advantages. During the war, Alaba-
ma men had the highest mortality
and educational deficiency of any
in the U.S. armed forces, which is
a direct evidence of the state’s
great need for better educational facilities.

There must also be a better
correlation of the advantages
enjoyed in the South and in the
sections of the country. The world
cannot progress with a half
and half starved population.
Those who have must look upon
the less fortunate as fellowmen
and share with them, help to
raise them up, do what they have
will be taken from them.
They must help to build a strong
civilization which recognizes the
different people throughout the
world. This is the only way to have
peace, he concluded.

Before Mr. Dobbs spoke, the
College Choir, under the direc-
tion of Walter A. Mason, sang
“Heavenly Light”, “Tillian Street
Song”, “Softly As In The Morn-
ing Sunlight”, and “Holiday Song”. A group of students
composed of Jimmy Simpson,
Jack Ordway, Julian Stephens,
Gene Holley, Oscar Handle, Tom
Curry, and Lunn Mulligan, on
vocals, played a popular song.

Participants In Sadie Hawkins Celebration

The Sadie Hawkins days were
officially begun by the Daisy Mae
race which took place in front of
Bible Grove Hall on Thursday
morning, February 27. A few
of the timid and more co-
operative students participated in
the chase. The boys and girls
formed two lines about six yards
apart. At the sound of the whistle
all started running marked down
the hill. After a merry chase, each
girl returned home and puffed with
pride over whom she treated with a
cake.

On the next two nights the
boys at Fawley and Weatherford
were pleasantly surprised (sur-
prised) by receiving numerous
telephone calls asking for dates.
At some time between six and
eight o’clock on those evenings
the girls came by for dates, which
usually consisted of a few minutes
to recoup their hair and
powder their noses. Almost every
girl escorted her date to the Fash-
ness Show on Thursday night and
the picture show on Friday
night.

COURAGE AND INITIATIVE WERE ESSENTIAL FOR A YOUNG MAN WHO WAS TO BE A VETERAN OF A JOURNEY THROUGH THE WAVES OF THE OCEAN. THE VETERAN, M. L. Roberts, was the only man who had ever seen the ocean, and he faced a new adventure with enthusiasm and determination.

The story of M. L. Roberts, who was the only man in the class of 1940 to have been on the sea, is one of courage and perseverance. He had been a captain in the United States Navy during World War II and had been awarded the Distinguished Service Cross for his bravery in action.

Is there a stone doctor in the house? If so, will he be gone over the summer, as campus to Bar- racks Apartment Number 27 and will be in town. In the bathroom, where you can tie a "Bunny" and Mary moved into their apartment with hopes and expectations running high, but they didn't stay that way for long.

What happened? Their story is one of the most moving I know that this is the end of this story, you won't believe it. The "Bunny" kept the boys at Ponca awake every night for a week by occasional wakings. It's a sad tale, after a week of constant disassembling and assembling, "Bunny" decided that it was fixed; so he turned the oil on and struck a match. "Germination! It works!" said Mary. "It's not long after, one night after "Bunny" awoke, the boys were awakened with a loud BOOM! You'd better. It blew up. The next day the boys asked what happened. I asked the colored boy if he would carry off my trash. He said, "Colored boy my trash! This is 'Bunny' down under the seat, I'm too big to carry him out." If you think that story is just round the corner, you may be right but it is one that is sure to be big, sooner or later. You may have to hold your hands behind your back and be a grasshopper hop, and hear the cricket crack, but we set a bet on it and we're still hoping that you haven't dropped that sweater yet and we'll bet on it. We've had a long run, and have been doing quite well.

We have just received word from the news room that Vincent Gasser has a new pipe and long handles, and is coming in style.

Pres. Cole Stresses Need For Balanced Education Program

Speaking at a recent dinner meeting of the Anniston Exchange Club, President Cole declared that federal aid and diversion of Alabama income tax funds to schools will be necessary to put education in the state and in the South on a sound foundation.

Stressing the need for a balanced program of education, Mr. Cole cited figures quoted by an associate editor of the New York Times that said a study shows “20 per cent of our people moron; another 20 per cent are ignorant with no capacity for learning; 40 per cent have good will to learn; and only the remaining 20 per cent are informed and intelligent.”

Federal aid for education was emphasized by the speaker as the only means of providing a program of balanced education in the South, a higher standard of pay and the employing of better qualified instructors in the schools. He then cited trends in education and the requirements needed for well rounded school programs.

Speaking of the proposed $100,000 yearly minimum pay for Alabama teachers, Mr. Cole said the proposal is receiving income tax revenue to teachers’ salaries last during the past session of the legislature, will come up again in the regular session.

“This money has been declared, ‘in necessary if our teachers are going to receive more money and if we are to have improved educational facilities in Alabama.’

“Mighty Morgans” Determined To Gain Permanent Possession Of Loving Cup

Winners in the last two Morgans—Calhoun counties, the mighty Morgan—appear this year determined to gain permanent possession of their coveted award, the Loving Cup. If a Literary Society wins its second debate three times in succession, then the society is awarded permanently the cup. The prospects of another Morgan victory this year are, without a doubt, exceptionally good.

When the debate tryouts were held on March 11, the Morgan counties forth with an unusual number of talented speakers. Three members of the college English faculty were present, and they chose the three Morgan speakers. But when, president of the Morgan Society, was chosen as first speaker, Adrian Chandler, second speaker, and Billy Collier, third speaker. By having these talented speakers represent them, the members of the society are confident of another debating victory.

Mr. Calvert, English faculty head, was unanimously chosen by the literary group as its sponsor, and he generously consented to go as such. The fact that the organization was fortunate enough to secure the services of Mr. Calvert as coach and advisor is another reason why the Morgans are confident of another victory.

No definite date has yet been set for the annual “battle of words”; however, it has been tentatively set for the last week in April. The traditional banquet, which is held in honor of the winning team, will take place in May. The selection of the team and the determination of the date will take place at the last meeting of the club.

Of Basketball Season

A full schedule of thirty-two games of basketball was played during January and February between nine capable teams of boys representing the three floors of Forney and Weatherly halls and the Trailer Camp and two teams.

After eight games were played each week, for the most part they were close, interesting, well-played games. All through the schedule two teams stood out above the rest. They were Mar- can's top team and Forney Second Floor team. When they finally met neither had lost a game. In their championship game, the town team took the lead and held it almost the entire game. But in the final quarter the Forney boys gradually made headway, and finished about six points in the lead. The victory gave the Forney Second Floor underground basketball, with six games won and none lost. But in the following week's games they, in turn, were defeated in an upset game, which tied them again with the town team, each having seven games won and one lost.

The town team was for the final play-off between these two teams, the Marcan and Weatherly at home, and the Forney Second Floor players from competing that they found it necessary to forfeit the contest. Spring football practice and exam week postponed a postponement of the game. And so Marcan's town team was declared the winner. That was one of the best intramural schedules the college has ever had, Close to 100 boys took part in the play.

As soon as the weather warmed up, it is planned to begin a full schedule of basketball games among the same teams, to give the boys plenty of recreation and pleasure during the months of April and May.
