A STUDENT PUBLICATION, JACKSONVILLE STATE TEACHERS COLLEGE

VOLUME 12

JACKSONVILLE, ALABAMA, Wednesday, Sept. 17, 1947

NUMBER ONE

History Of Jacksonville State Teachers College

The State Normal School was established in 1883 by an act of the Legislature, through the influence and efforts of two public-spirited local citizens, L. W. Grant, in the Senate, and J. D. Hammond, in the House. The building and grounds of the old Calhoun College which cost \$16,000 were given the state by the Board of Trustees to be used for the Normal School. Calhoun College was built by the issuance of stock held by people of Jacksonville, and as far south as Selma. James B. Ryals of Macon, Ga., was the first president. He died during his second year and J. Harris Chapel succeeded him. He was president for almost three years, resigning to become president of the Girls' Industrial School at Milledgeville, Ga.

Following him as president was G. B. Gibson of Columbus, Ga., who served seven years. He was succeeded by J. B. Jarrett, who was here for one year. In 1892 Jacob Forney became president and was here seven years. During the last year of his administration the school began to grow. He rented the old Iron Queen to use as a dormitory. He resigned in 1899 to become the head of the newly-created Department of Education at the University of Alabama.

In 1899 Dr. C. W. Daugette was elected president. For 16 years the Normal's only building was the old Calhoun College, now Hames Hall. The court house had been moved to Anniston, and the county gave the old court house to the school. The enrollment continued to increase, and in order to provide more facilities, C. D. Martin and J. J. Arnold were instrumental in securing an appropriation for the remodeling of old Calhoun College. In 1916 Weatherly Hall Dormitory for Girls was built. In 1921-22 a modern training school was built known as Kilby Hall. In 1927 Forney Hall, a dormitory for men, was built.

In 1929 the Normal School passed out of existence, and the four-year State Teachers College took its place as a member of the Association of

Alabama Colleges, the American Association of Teachers Colleges, and the Southern Association of Colleges and Secondary Schools.

In 1883 there were five teachers. In 1930-31 there were 51. Students enrolled at Jacksonville from all parts of the state and from surrounding states. The buildings were not adequate for the increase. There was not room for expansion on the old campus, so the Burke property, located on one of Jacksonville's most beautiful hills in the north end of town, was purchased. On this site Bibb Graves Hall was erected at a cost of \$300,000.00. Near this administration building was begun the C. W. Daugette Hall Dormitory for girls. In 1939 an apartment dormitory, a library and a physical education building were erected on the new campus. Another unit of rooms was added to Daugette Hall and another new building was begun.

In August, 1942, Dr. Daugette passed away in his 43rd year as president of this institution. He was dean of presidents of teachers' colleges throughout the nation and was held in high esteem in his profession. During his administration the school grew from its small beginning to be the largest college of its kind in Alabama.

Appointed to succeed Dr. Daugette by the State Board of Education, with unanimous consent, was Houston Cole, a graduate of the school and one of the state's leading educators. Mr. Cole was serving in a wartime position at the time of his election. He had been granted a leave of absence from the faculty of the University of Alabama, to serve his country in this capacity. Prior to this he had served as city superintendent of schools, county superintendent of schools, and associate professor of education at the University. He was named the outstanding man of Alabama in 1942.

During Mr. Cole's administration, the building under construction when he came was completed and is now a well-equipped dining hall serving

President Houston Cole

President Extends Welcome To Students

We welcome you to the campus and another school year. Beginning this fall, you will find here an expanded college curriculum and school plant. A major in physical education has been approved and students now pursue work in this field. This is the beginning of the first full year during which students can work for the A. B. and B. S. degrees in the arts and sciences.

Plant improvements consist of two new dormitories, a laboratory high school, football stadium, heating plant, sidewalks, and the repainting of Bibb Graves Hall.

You are urged to take an active part in campus life. Football games will be played on Thursday evenings in order to accommodate those who return to their homes on week-ends. A full program of student activities has

Administrative Staff And Faculty Listed

It was announced this week that the State Department of Education has granted the college permission to offer a major in health and physical education. This gives the college authority to offer majors in secondary and elementary education, music, health and physical education, in the field of education. Degrees can now be awarded as follows: B. S. in education, and B. S. and A. B. in the arts and science.

The college faculty for the 1947-48 session has been announced as follows: Administrative: Houston Cole, president; Dr. C. R. Wood, dean; Dr. J. F. Glazner, registrar; Ernest Stone, extension director; R. Liston Crow, treasurer; Mrs. J. O. Pyron, assistant; Miss Dora Wood, assisting, certification secretary; Mrs. R. K. Coffee, publicity director; Miss Annette Turner, secretary to the president; Miss Jackie Cobb, secretary to the dean. Faculty: Dr. L. W. Allison, psychology; J. M. Anders, Dr. Charles E. Cayley, Dr. R. P. Felgar, history; Paul J. Arnold, Charles M. Gary, W. Alexander Hunter, J. A. Smoake, Dr. Leonard Winier, science; Miss Mildred Bailey, Newbern Bush, Thomas L. Hicks, mathematics; Miss Lucille Branscomb, commerce; Dr. W. J. Calvert, Miss Maude Luttrell, Dr. Frank McLean, Dr. H. B. Mock, Mrs. Alfred Roebuck, English; Miss Nan Davis, Mrs. C. R. Wood, librarians; C. C. Dillon, Donald H. Salls, J. W. Stephenson, Mrs. Doris Wemple, Ray Wedgeworth, physical education; Miss Ada Curtiss, J. E. Duncan, Walter A. Mason, music; W. H. Fearnside, Jr., W. W. Huebner, engineering; Miss Stella Huger, Mrs. Margaret Stapp, art; Dr. J. H. Jones, French; Leon McGhee,

Festive Activities Planned For Freshmen; Tests Scheduled For Thursday

Message To Students

It is the purpose of the office of the Dean to aid in every way it can in promoting the instructional program of the college. We are interested in giving assistance to any student who wishes to obtain a degree from this institution or get credit which will apply toward some specific program at some other institution, and we welcome the opportunity of serving each and every one. Please make an appointment with our secretary, and we shall try to see you promptly and give you the service desired.

We offer an A. B. and a B. S. degree in the arts and sciences and a B. S. degree in education, both in elementary education and in secondary.

For the A. B. degree, one major in social science, the division of language and literature, or psychology. For the B. S. degree, one may major in physical education, music, science, general biology, or take a composite major in the sciences. Those taking a B. S. degree in secondary education may major and minor in any subject in which the college has courses to carry a major; however, the majors and minors should not be in the same field. If one desires a major and minor in the same field, it would count as a composite major, and he would be required to take another minor in a different field. Students completing the elementary education program will not have a major or minor. They will have the equivalent of a major in elementary education and psychology, but no academic major is required.

A group of specific activities for the purpose of acquainting new students with the college has been planned for a few days following the opening of the fall quarter. This program of activities will make an effort to help all new students become acquainted with those who will be their associates while they are in school, and to help them secure interesting and helpful information concerning the college and the town. Although the program is being given in honor of all new freshmen, both freshmen and upperclassmen are to participate in the activities, and it is hoped that after the orientation program all new comers will have a sense of belonging and a feeling of security in their new surroundings.

The specific activities which have been planned for the program are as follows:

On September 15 at 7:00 p. m. there are to be an informal reception for students and a step-singing in front of Bibb Graves Hall with Mr. Mason and his staff in charge.

On Tuesday, September 16, at 8:30 instructions pertaining to the college will be given in the assembly room preceding registration. At 7:30 p. m. the city of Jacksonville will sponsor a program in honor of the freshmen at the Community Center.

Receptions at the town churches will be given Wednesday, September 17, at 7:30 p. m.

Special assembly for the freshmen—a musical and an address by President Houston Cole—will be on September 18 at 10:30 a. m.

On Friday, September 19, a Mixey Mixer is planned by the Physical Education Department for the students.

Religious Organizations

Baptist Student Union Wesley Foundation Christian Fellowship

Let us introduce you to the religious organizations on this campus. The three organizations are: the Methodist Wesley Foundation, the Christian Fellowship, and the Baptist Student Union. There is a place for you in one of them.

The purpose of these organizations is to sponsor voluntary religious activities of the different denominations on the campus. They are the connecting links between the college and the churches. They seek to popularize and keep vital in the lives of students the various organizations within the churches. An effort is made to keep the students interested in the objectives and activities of the churches. The organizations inform and enlist students in the various activities of their denominations as they seek to exalt Christ and extend His kingdom.

The Council members extend a hearty welcome to all new Methodists and invite them to join the Wesley Foundation which meets each Sunday evening at 6:00 in the activity Building behind the Methodist Church.

The Christian Fellowship is an organization made up of members from all the denominations except Methodists and Baptists. Every member of a Presbyterian, Episcopal, Christian or any other church is urged to become a member of Christian Fellowship. Weekly meetings are held on Thursday mornings at 10:30.

The Baptist Student Union extends a cordial invitation to every Baptist student on the campus to join in the many activities sponsored by its Council members and workers.

Each organization sponsors religious activities, socials and pro-

Churches Extend Welcome

Statement from Rev. E. S. Butterley, pastor of the First Methodist Church:

We welcome the students of J. S. T. C. to this church. We feel that the college students make a definite contribution to the church, and the First Methodist Church is anxious to serve the college students and add to the building of their character through Christian education and spiritual guidance.

For years many students have sung in our choir and at present there are several. We urge those who are interested in music to join the choir which is blessed with an excellent organist and choir director. You will not only render a great service but will receive good training.

We welcome all students to any and all services.

Sept. 12 1947

To The Students of our College:

Dear Friends,

We are glad to welcome you to Jacksonville, and especially glad to invite you to the fellowship of our churches. You are a constant challenge to us, and an inspiration.

We hope these years will stimulate growth and development of your whole personality—mind, body, and soul. Therefore we have planned for you Bible study each Sunday morning at 9:30, the worship of God at 11:00 a. m. and at 5:00 p. m., and the varied activities which unite our campus-wide Christian Fellow-

ships throughout the year, which will be a constant source of interest and enjoyment to you. We are expecting you to affiliate yourself with the organization of your choice and join with us in giving these activities first place on the campus.

ship on Sunday evenings at 6:30.

The year ahead will certainly offer you opportunities for hard work, sincere worship, and loyal service to Jesus Christ. Therefore, "The Lord recompense thy work, and a full reward be given thee of the Lord God of Israel, under whose wings thou art come to trust!"

Cordially,

James Doom,
Pastor

September 13, 1947

To The Students, Faculty
and Staff of Jacksonville State
Teachers College.

Greetings from Saint Luke's
Protestant Episcopal Church:

I, together with many of you, have the distinction of being a new comer to this so beautiful community, and I can assure you that the welcome is so hearty and genuine, as to make one readily feel at home. Be your guest or member of our "church family", a truly warm welcome awaits you at the church. For the present, we have only the morning hours of worship at 7:30 and 11, with Church School at 10 o'clock.

The pastor is ever at your service and may be found at the new rectory, 311 East Ladiga Street. May all that is finest and most worthwhile in life be progressively attained by each one of us during this present collegiate year is the earnest wish and prayer of

Yours most sincerely,

John Oldham, rector
Saint Luke's Church

Plant improvements consist of two new dormitories, a laboratory high school, football stadium, heating plant, sidewalks, and the repainting of Bibb Graves Hall.

You are urged to take an active part in campus life. Football games will be played on Thursday evenings in order to accommodate those who return to their homes on week-ends. A full program of student activities has been provided and will be revealed to you from time to time.

We feel that you have a great challenge awaiting you. Accept the challenge as an opportunity to improve your mind, your personality, and your spiritual life.

This can be the most profitable year of your life!

The Mimosa

The first JSTC annual to be published for many years was prepared last year by a very patient, hard working staff. Despite many obstacles and the seeming disinterest on the part of some students, the 1946-47 annual was completed and sent off to be printed last May. The over-worked Paragon Press in Montgomery, Alabama, has not yet completed the printing of the annuals.

We feel sure that, when the annuals do arrive, you will be able to exhibit yours with pride.

The annual was named "Mimosa." This word was chosen for its beauty, uniqueness, and significance by the annual staff and was approved by a faculty committee.

This year Marzell Culbedson, assisted by Betty Neile Adams, will edit the **Mimosa**.

The staff has not yet been chosen; so if you are interested in working with the college annual, you may contact the editors. They ask your cooperation during this school year and welcome any suggestions.

An even larger and better **Mimosa** is anticipated for 1948.

We extend to all the students of the Jacksonville State Teachers College a hearty welcome to Jacksonville and to the Madison Street Church of Christ in Jacksonville.

E. L. Dollabate
Minister

Plant improvements consist of two new dormitories, a laboratory high school, football stadium, heating plant, sidewalks, and the repainting of Bibb Graves Hall.

High School Faculty

Members of the high school faculty are Robert B. Gilbert, principal; Mrs. Reuben Self, mathematics; Miss Mary Moss Goggans, English; Miss Alta Millican, history; L. F. Ingram, vocational agriculture; Mrs. Herbert Borders, home economics; Miss Mildred Johnston, librarian; Mrs. C. T. Harper, commerce; Mrs. L. F. In-

(Continued on page 3)

House Mothers

The house mother plays an important part in the normal function and life of the school. Her task is to see that her dormitory is kept as orderly as possible at all times. She must see that the students respect and care for their particular rooms and buildings even as they would respect and care for their own home surroundings.

It is also her duty to see that each student is happy and that he has a sense of belonging. She must be understanding and capable of listening to and of giving heart-to-heart talks. She wants to make her students feel at home, and as far as possible, to take the place of mothers back home.

Jacksonville has a group of house mothers who have the qualities necessary for making students glad they came to Jacksonville. Those house mothers responsible for Jacksonville's dormitories are Mrs. J. F. Rowan, Daugette; Mrs. Margaret Stapp Abercrombie; Mrs. Estelle McWhorter, Weatherly; and Mrs. Pauline Gerstlaue, Pannell, Forney Hall does not have a house mother, but is in the charge of Mr. C. M. Gary, who does a job of handling his boys that cannot be scoffed at.

major and minor should not be in the same field. If one desires a major and minor in the same field, it would count as a composite major, and he would be required to take another minor in a different field. Students completing the elementary education program will not have a major or minor. They will have the equivalent of a major in elementary education and psychology, but no academic major is required.

The first two years of all programs are alike with one exception. The A. B. degree requires that one take a foreign language the first two years. It is suggested that everyone who is preparing to get a degree at this institution take one or the other of the two programs.

Any person desiring to study medicine, pharmacy, dentistry, law, engineering, agriculture, and other pre-professional programs will be given as much help as is desired in planning all the courses which we can give him here. Please seek an appointment at an early date so as to avoid taking courses which will not transfer to another school.

When a student has reached the third quarter of the sophomore year, he should decide what his future plans are and decide upon his major and minor and the type of degrees he wants. At that time, an interview with the Dean should be held. At that time, we

(Continued on page 3)

Mayor's Welcome

GREETINGS. I, J. M. Wood, as mayor of our fair city, do hereby extend a hearty welcome to the student body and to the 65th session of our great college. We feel very proud of this institution and we feel very fortunate in having Houston Cole as its president and for the very efficient faculty. We invite you and welcome you to this historic city of Jacksonville, the gem of the hills.

We are proud of this fine little city and we point to several things with pride. One is our very pure and adequate water supply flowing from the beautiful spring with a million gallons capacity per day.

We want you to feel at home and be assured that if there is anything we can do to help you during your stay here in college we would be glad to do it.

gram in honor of the freshmen at the Community Center.

Receptions at the town churches will be given Wednesday, September 17, at 7:30 p. m.

Special assembly for the freshmen—a musical and an address by President Houston Cole—will be on September 18 at 10:30 a. m.

On Friday, September 19, a Mixey Mixer is planned by the Physical Education Department for the students.

On September 21 is White Sunday for freshmen at all churches. The girls are to wear white and the boys are to be given a white ribbon badge.

On Monday, September 22, there is to be a Tea Dance on the lawn at 7:00 p. m.

September 25 is to be set aside for freshmen tests.

For Information

Perhaps you have been wondering where you should go to get information concerning various things like credits, counselling, etc.

For registration information, schedules, catalogs, grades, credits, transcripts, and so forth call by the registrars office. Dr. Glazner, Miss Dora Wood, or Mrs. Poling will help you.

See Mr. Stone in the Extension Office about extension work and housing for married veterans. Mrs. Hodgins is his secretary.

To obtain room reservations and counselling consult Mr. Cole or his secretary Annette Turner, in the President's office.

Call by the Dean's office for bulletin board materials, counselling, and checking of credits. Dr. Wood or Jackie Cobb, his secretary, will assist you.

For any information concerning veterans, call by the Veterans Office and inquire for Dr. Self.

Pay all bills (board, room reservation, housing) to Mr. Crow or Mrs. Pyron in the Treasurer's office.

For any information concerning the **MIMOSA** (the annual or the **TEACOLA** (the paper), inquire at the Publications Office on the second floor of Bibb Graves Hall next to room 24. Marzell Culbertson is editor of the **MIMOSA**, and Elene Sparks is editor of the **TEACOLA**.

School supplies may be bought at the Bookstore on the first floor of Bibb Graves Hall. Mrs. Sargent is the manager.

On With The Dance

Shown above is a scene from a recent class dance. One class dance is held during each quarter.

Get Hep To The Jive

How many of you, especially freshmen, have ever helped to work up a class dance? It is a lot of fun, all the way through to cleaning up afterwards, if there are enough participating to keep the task from becoming work.

A group enters the gym and says: "In the next couple of days we're going to turn this place into a plantation, a circus tent, or a cabaret, and our class will give the best dance this college has had."

Everybody starts to move about amid laughter and talk. Everyone seems to be having a good time. Maybe the work moves slowly; but nobody is getting paid by the amount done; so there is no worry.

Soon the place begins to take shape. No one has had to work. It seemed more like a game.

The night of the dance arrives. One enters with his date. It is a job well done. One sees his friends having fun and he has a great sense of satisfaction.

When the student leaves school and looks back to the "old days," it is the sort of thing that will bring pleasant memories and cause a smile across the face.

As one reflects upon his high school days, what does he remember? Well, the learning was a requirement, but those bull sessions between classes, the class play, school picnics, and school dances bring pleasanter memories.

Class dances are one way in which to come to know classmates better. They are one way of becoming a part of the place and capturing that school spirit which some non-participants think doesn't exist. If one goes to a football game and sits silently on the sidelines, he can't enjoy the game much. If he yells for his favorite team, he enjoys it much.

Class Dances Tea Dances Tea Chats

The main highlights of the year are the five formal dances sponsored by and for the students. They are the Freshman Frolic, the Sophomore Hop, the Junior Prom, the Senior Ball, and the Class Officers Dance. Each class strives to have the best dance of the year. The planning and the decoration are done by members of the respective classes. This affords students an excellent opportunity of learning to plan and conduct formal affairs. It also gives students who enjoy dancing a chance to meet and dance with friends and their dates.

These dances are for your pleasure—let's ALL enjoy them.

Tea dances, so-called because they were originally at tea time, are held every Monday evening from 7:00 to 9:00 on Bibb Graves Hall Terrace or in the assembly room. Dancing instructions are given to those desiring them. Many new acquaintances are made at these friendly informals.

Tea time chats are given

monthly in the student lounge, second floor of Bibb Graves Hall. A speaker who leads a discussion on some topic of interest to students is chosen for each tea-time chat. Many minor problems which confront students may be solved in these meetings. Mrs. Stapp is in charge of the chats.

MESSAGE TO THE STUDENTS (Continued from page 1)

shall provide each student with a check sheet showing exactly what he is to take for the remainder of his time. Only one of these will be available and should be preserved by everyone.

We are trying to plan a broad program of activities and experiences for every student in addition to his regular courses. One will have the opportunity of attending social functions of various kinds throughout the year, special assembly programs, special music, and other features. We are going to give a course in modern social customs required of each freshman, giving him one hour of credit. Let me urge every student to plan to get a well balanced program without neglecting any phase which will improve his personality. Everyone should make a suitable schedule of activities for each day of the week and for each week of the year and conform to it. Let us also express the hope that each one will make the highest record possible. We have an honorary educational society here to which one may be invited when he becomes a junior provided he has made an average of B in his work at that time and has a minimum of six hours credit in education. This is an educational society and is supposed to have only future teachers as members. Music majors and minors will be interested to know that we have a music fraternity. There are various other clubs on the campus which may provide interests for you; however, let me suggest that you not get into too many organizations and dissipate your time from your studies. If you do, you cannot make a good record, and you will not receive a well-rounded development. Please feel free to call upon us any time, and if we can serve you, it will be a pleasure to do so.

Cordially,
C. R. Wood, dean

Informal Tea Dances like the one above are enjoyed weekly on the campus.

Spring Fiesta

High School Seniors Entertained

Each spring the college entertains hundreds of high school seniors from this district in a gay, fun-packed fiesta. Its purpose is to acquaint the high school seniors with college life in general, as well as to have them visit our campus. Each year many students who have not planned to

Summer Carnival Annual Event

Each year the climax of the summer school activities on Jacksonville State Teachers College campus is marked by the Summer Carnival. Student committees are in charge of the various booths which are set up on the campus and which make the affair a twofold

As one reflects upon his high school days, what does he remember? Well, the learning was a requirement, but those bull sessions between classes, the class play, school picnics, and school dances bring pleasanter memories.

Class dances are one way in which to come to know classmates better. They are one way of becoming a part of the place and capturing that school spirit which some non-participants think doesn't exist. If one goes to a football game and sits silently on the sidelines, he can't enjoy the game much. If he yells for his favorite team, he enjoys it much more, but if he plays he has a sensation beyond compare.

There are five class dances coming up during this year. Let's get off the sidelines and play. Let's take out some insurance for pleasant memories. Let's enter into the thing, then count our gains. We owe it to ourselves and those we shall be with when we stop living for the future and reflect on the past and what might have been.

Sadie Hawkins Week

Yes, folks, some changes are made at J. S. T. C. during Sadie Hawkins Week. For at that time the girls take over. They have an opportunity to catch that dream man—if he'll enter the Sadie Hawkins race.

Every girl has a fair chance of dating any L'il Abner on the campus—without waiting to be asked (she also has a chance of making a hole in her budget).

For three or four days the girls strive to be good "gentlemen". Each night they call for their dates, show them an entertaining

evening and escort them home, on time.

The fun is ended by the exciting Dogpatch barn dance which is planned by the girls and given in honor of the boys. Each student dresses like his favorite Dogpatch character. Prizes are awarded the ones who most nearly resemble each character.

For an exciting time watch for announcements of Sadie Hawkins Week later in the year.

To keep rice, macaroni, or spaghetti from boiling over, add a small piece of butter to the sauce pan in which it is being cooked; or grease three of four inches down from the top of the contain-

High School Seniors Entertained

Each spring the college entertains hundreds of high school seniors from this district in a gay, fun-packed fiesta. Its purpose is to acquaint the high school seniors with college life in general as well as to have them visit our campus. Each year many students, who have not planned to attend college before arriving, decide in favor of continuing their studies here or elsewhere after a more intimate view of college life.

Program, stunt, and registration committees begin preparation for the fiesta several weeks in advance. Every college student has his particular part to play in entertaining the visitors. One group is in charge of greeting and registering the newcomers; another group serves as guides to conduct the visitors around the campus. There are special concerts, programs, and skits which give the students an idea of our activities both academic and extra-curricular. The busy day is usually climaxed by an informal dance.

Some time that night the visitors and hosts return to their respective homes, exhausted but well-pleased with the day—the day of FIESTA.

The best way to keep lettuce is to wrap it in waxed paper and place it in the refrigerator unwashed. It is likely to turn brown if it is washed.

Annual Event

Each year the climax of the summer school activities on Jacksonville State Teachers College campus is marked by the Summer Carnival. Student committees are in charge of the various booths which are set up on the campus and which make the affair a typical carnival. For days before the carnival is scheduled the different committees plan and work on their booths, among which are Negro minstrels, guessing games, shows, cake walks, bingo, fun houses, exhibits, rides, and refreshments.

Also on the night of the carnival a beautiful campus beauty is crowned "Miss Jacksonville." This crowning of the campus queen is always the highlight of the evening, for until then all students are working for their candidate, and hoping against hope that she will win. There is always a mad scrambling, and last minute rushing of people to the stand with pennies for their candidate. But only one girl may be crowned and the others hold the honor of having run for the title of "Miss Jacksonville."

After the excitement of the games, shows, refreshments, and "Miss Jacksonville" contest, the group of carnival goers are furnished with good music, a large space is roped off for them, and they participate in dancing.

The Summer Carnival is one of the biggest events of the year, and one that is thoroughly enjoyed by all who attend.

FACULTY AND STAFF (Continued from page 1)

gram, piano; James Manderson, coach.

Junior High School: Mrs. P. J. Arnold, English; Mrs. J. W. Stephenson, Miss Beatrice Jones, Mrs. J. M. Anders, Louie Eiland, science; Mrs. Louie Eiland, physical education; Steve Moore, science.

Elementary School

The faculty of the elementary school is as follows: E. J. Landers, principal; Miss Louise Bullock, Mrs. C. F. Watts, sixth grade; Miss Fanny Bush, Mrs. Lois Holiday fifth grade; Mrs. C. C. Dillon, Mrs. Charles Spann, fourth grade; Miss Marietta McCorkie, Mrs. H. L. Stevenson, third grade; Miss Ferrell Bolton, Mrs. E. J. Landers, second grade; Miss Ruth Dickey, first grade; Mrs. W. M. Posey, librarian; Miss Ada Curtiss, music.

Veteran's Club

The Veterans' Club of J. S. T. C. was formed in the fall of 1945. The veterans felt that an organization all their own would better distinguish them from their fellow students and afford them a more effective organization for working as a unit with other groups. It also provided a medium for taking an active part in shaping constructive policies and in helping prevent any actions which might not be for the best interest of the school.

Because of the large influx of veterans, the club enjoys the largest membership of any student organization, and its social ac-

Denise Deraucher
Student-Instructor

French Club

You are invited to get in on the unique French program offered here. We have five native French student instructors who teach small classes of conversational French, a native French hostess who has charge of preparing special programs, a French home with kitchen and dining room where French meals are served and French is spoken.

Students of this special program are eligible for scholarships for one year of study in France. Three students will be selected next spring to spend a year of study in Europe. Similar scholarships are expected to be given annually.

Alpha Mu Gamma

Alpha Mu Gamma, foreign language society of Jacksonville State Teacher's College, gives bids for membership to those who have received twelve quarter hours credit (one and one-third years), with an average grade of "B" in a foreign language. The purpose of this society, among other things, is to recognize achievement in the field of foreign languages and to foster sympathetic understanding of other peoples.

Mlle Marguerite Pflieger, of an old Alsatian family, was born in French West Africa. Her father was a doctor in French military service. She herself, a student of several years in the medical school of the historically famous old city of Besancon, has just recently received the doctor's degree from the University of Paris. Mlle Pflieger speaks German as well as her native French.

Mlle Pflieger is hostess and also an instructor in French and German at J. S. T. C.

The Pflieger family left Alsace in 1871 in order not to become Germans.

Mlle Jeanne Bonvin, just 18, of Paris (St. Germain en Laye), has a B. A. degree from Lycee de St. Germain. This past year she was a pre-med student at the University of Paris. Her mother is a professor of art at the college Germain in Paris. Mlle Bonvin and Mlle Pflieger are first cousins. Though quite young, Mlle Bonvin has been a leader in camp work, which is similar to that of our girl scouts.

Mlle Odette Simon, 19, of Paris (Alfortville), has received the B. A. degree from College Sophie Germain in Paris. She has likewise been a student in English under Mlle Marcelle Andre.

Mlle Jeanne Renahy is assistant hostess and dietitian. She has received her B. A. degree from a lycee and M. A. from the University of Besancon. She is one of a family of ten. The past year she taught French in a secondary school.

Mlle Denise Devaucher, Paris (St. Georges Ablon), is 18 years old and has received her B. A. degree from College Sophie Germain of Paris this summer. She has been a student in English under our good friend Mlle Marcelle Andre, who is working with JSTC in the organization of our special French program.

Members of the French Club are pictured above

Kappa Delta Pi

If you plan to major in education, one of the goals for which you may strive is membership in the Kappa Delta Pi, a national education honor organization.

In 1944 the Epsilon Phi Chapter of the Kappa Delta Pi was instituted at J. S. T. C. Since that time the organization has gained popularity with the student body and has been an influence for higher goals.

To become a member of this organization, a student must be a junior or a senior in standing and must have maintained a "B" average throughout college.

At certain times of the year newly pledged members are tapped in a most impressive ceremony. Each year a banquet is given in honor of the new members.

Dr. L. W. Allison is now serving as faculty advisor for the Kappa Delta Pi. In the spring members may attend the state banquet for this organization in Birmingham. Members also have the privilege of wearing the Kappa Delta Pi pin.

Calhoun - Morgan Literary Societies

The histories of the Morgan and Calhoun literary societies are very interesting and they date back to 1883, the first year of the Jacksonville State Normal School (now JSTC), at which time the Calhoun Literary Society was organized and named for John C. Calhoun, well-known statesman.

The late Dr. C. W. Dugette, then a member of the faculty, was a teacher of science, but he spent much of his time assisting with the activities of this society. From 1883 until 1899 members of this society had no rivals and they debated among themselves. Originally these annual debates were held on George Washington's birthday, but in recent years this date has been abandoned. In 1899 Dr. Dugette became president of the school and it was at his suggestion that the Calhouns were divided because of the increased enrollment and the need for rivalry, and a name chosen for the new offspring. The name Morgan was selected in honor of the famous John T. Morgan, general in the Confederate Army from Alabama.

The question of which group would take the new name was then confronted, and Dr. Dugette settled this by flipping a coin. From that year forward, each spring there was held a debate which drew more and more people. The citizens of Jacksonville

The Student Government Association welcomes the old students and congratulates the new on their choice.

During the coming year we hope to accomplish much and have fun doing it, but your cooperation is essential.

Class Officers to Be Elected

In three weeks the elections of class officers will be held. We ask that you start getting acquainted with your classmates today so that you will be sure to elect the best people for the job.

We also request that you read your "Student Handbook". Be a good college citizen and your college career will be a stepping stone to good citizenship in your community, state, nation, and world.

Our purpose is to serve you. We can with your help. We invite all students to visit our meetings as often as they wish and we shall be glad to discuss any problems any student may have.

Thanks for your past help and your continuing support.

Solo Club

Welcome, friends, to J. S. T. C. and to the Solo Club, the most modern, best organized and by far the most active club on the campus. To those of you who are new to our fair campus we extend a cordial welcome and best wishes for your immediate success in your college work. To those of you who have returned from your vacation to pick up where you left off we say, "Howdy, friend."

(Alfortville), has received the B. A. degree from College Sophie Germain in Paris. She has likewise been a student in English under Mlle Marcelle Andre.

Mlle Jeanne Renahy is assistant hostess and dietitian. She has received her B. A. degree from a lycee and M. A. from the University of Besancon. She is one of a family of ten. The past year she taught French in a secondary school.

Mr. Jean Alhinc, 21 years old, is from Paris (St Germain en Laye). He received his M. A. degree from the University of Paris. Alhinc was in General Leclerc's army during the liberation of Paris. He was a student this past year at the University of Paris. He has an uncle living in New York who is a designer for Westinghouse.

One of the newest and most popular groups on the campus is the Civil Air Patrol. It promotes interest in aviation by offering both boys and girls the opportunity

to study pre-flight and ground subjects as well as to learn to fly. The group owns an army training plane which it uses for practical instruction in the engine, instruments, and structure of aircraft. An approved landing field and flyable aircraft are also available for actual lessons in flying. College credit is given for both phases of instruction. Ground subjects include the theory of flight, navigation, radio and Morse code, meteorology, airfield regulations, and the three subjects named above.

Officers are selected from student members and appointed by the Alabama Wing Headquarters in Birmingham, which also supplies training films, text books, and an aviation library. The commanding officer is a faculty member, assisted by former Army Air Force instructors.

students in their work in later life.

To become a staff member the candidate must have articles or editorials accepted and published in at least three issues of the Teacola. Then the writer's name is submitted to the staff for voting, and if passed on favorably, he is placed on the official staff.

The editor and assistant editor are elected by popular vote of the student body. Candidates for the office are nominated by the Council of the Student Association, in consultation with the members of the English department. All candidates must have an average of "B" in English and have completed at least one year of college work.

All of those who are interested in writing, and especially those who are planning to major in journalism, are urged and specially invited to consult members of the English Department or the editors of the Teacola about being on the Teacola staff.

ment and the need for rivalry, and a name chosen for the new offspring. The name Morgan was selected in honor of the famous John T. Morgan, general in the Confederate Army from Alabama.

The question of which group would take the new name was then confronted, and Dr. Daugette settled this by flipping a coin. From that year forward, each spring there was held a debate which drew more and more people. The citizens of Jacksonville became so interested that they even chose their favorite side and supported it in every way possible.

At the beginning, girls were not allowed membership in either of the societies and only in more recent years have they been included. However, they were allowed to choose a favorite side and support it. While most of the boys were in the service during World War II the girls took the reins and kept the organizations active for some time, but eventually society activities ceased.

VETERANS' WIVES CLUB

The Veterans' Wives Club was organized in 1946, and was first called the Brides' Club. Meetings are held in the apartments of the veterans' wives. In the meetings helpful hints as to the best methods of furnishing and keeping a house are discussed and lectured on. Some valuable information may be given to those who are inexperienced in the art of housekeeping.

and to the Solo Club, the most modern, best organized and by far the most active club on the campus. To those of you who are new to our fair campus we extend a cordial welcome and best wishes for your immediate success in your college work. To those of you who have returned from your vacation to pick up where you left off we say, "Howdy, friend. Long time no see; welcome back."

No doubt most of you are familiar with the activities of the Solo Club, but for the sake of helping you to understand more about it and to let our new friends in on something really worth while, we take this opportunity to explain its organization and purpose.

An active wing of the U. S. Civil Air Patrol is in existence on this campus under the very efficient command of Miss Lucille Branscomb. Anyone who is interested in becoming a member of the C. A. P. should see Miss Branscomb today. The only requirements for a student to become a member is that he register for Elementary Aeronautics, listed on your schedule under the Science Department. This course given in aeronautics consists of the fundamentals of flying, such as the theory of flight, aircraft structure, engines, meteorology, navigation and instruments. While taking this course in aeronautics, students who wish to fly are put on a schedule and sent to Lane Air Service at Oxford, Alabama, and there they are actually taught to fly. Veterans who take aeronautics can secure flight training under the G. I. Bill of Rights.

Some time ago a few of the more industrious members of the Aeronautics class got together with Miss Branscomb with the idea of organizing a new club known as the Solo Club. Qualifications for membership in this club are that a person must take aeronautics and flight training to the extent that he can, alone and unassisted, soar forth from the earth in an airplane and upon completion of flight, land the airplane in the same field from which he had taken off, thus completing a solo flight.

The Solo Club was organized on May 5, 1947, by charter members Bill Bennett, John Morrow, John Pruett, and Edward McKimm. Since its organization, fourteen new members have been added.

The Solo Club has sponsored many fine and worthwhile events. It has just begun to show its importance. We welcome you to J. S. T. C. and to the SOLO CLUB.

WE SHALL HAVE MUSIC

MEMBERS OF THE MUSIC FACULTY

Johnny Long

Radio Program To Be Given Twice Weekly

Beginning this quarter, the student body and the faculty of J. S. T. C. will present a radio program twice weekly over stations WHMA in Anniston and WGAD in Gadsden. They will be broadcast from Bibb Graves auditorium by remote control. This project is sponsored by the music department under the direction of Walter A. Mason.

Opera To Be Presented

The music department plans to present an opera during the 1947-1948 school year. The opera "Carmen" by Bizet is among the ones being considered for production. With our expanding music department and growing interest in music, this undertaking should prove very successful.

College Chorus and Ensemble

The College Chorus is open to all students interested in singing or in learning to sing. An exceptional voice or previous experience is not necessary for membership. The chorus presents several programs throughout the school year, and the student is given the opportunity to gain experience in all types of choral literature. One hour's credit per quarter is given for participation in the chorus.

Various vocal and instrumental ensembles, such as the String Quartet and the College Ensemble consisting of eight singers, have been organized. Many of these groups make concert tours to high schools in the state.

Students not majoring in music may take advantage of the private instruction offered in voice, piano, and all types of instruments. Those interested in a major or minor in music may now get an A. B. or B. S. degree.

Our able music faculty includes Walter A. Mason, J. E. Duncan, Miss Ada Curtiss, and Miss Elizabeth Roberts.

Concert Series Sponsored Each Year

Each year the Fine Arts Department sponsors a series of entertaining concerts for the students' enjoyment. Most of the

JSTC Boasts Two College Orchestras

J. S. T. C. proudly boasts two excellent dance orchestras. The director and the majority of the players in each are students here.

Jimmy Simpson's orchestra became a part of S. T. C. when he and his pals transferred here from the University of Alabama last fall. Jimmy and the original members of his orchestra are from Anniston and are products of the Anniston High School Band. Jimmy's orchestra played for most of the college dances and programs. We are looking forward to enjoying, and dancing to his music again this year.

Likewise Johnny Long transferred from the University of Alabama to S. T. C. last winter. He and his trumpet soon became an active part of the college band. He was also student director of the Jacksonville High School Band. His orchestra was first introduced to us this summer. Most of the members are boys from Johnny's home town of Gunterville.

If Johnny is practicing anywhere in the building you'll know it because he is blessed with a remarkable power.

We were delighted by the performances this summer and hope that he will persuade his friends to enter school here this fall.

Music Fraternity

Duncan Directs College Bands

The college band was first organized during the fall quarter of 1946 by J. E. Duncan, director. It soon boasted twenty-eight members, most of whom are products of various high school bands.

During the year the band obtained recognition in the school and elsewhere. The band played for the J. S. T. C. Alumni Breakfast at the A. E. A. in Birmingham, various assembly programs and school activities, and presented a spring concert.

A much larger band is expected this year. It will play at the football games and will probably make a concert tour in the spring.

All students who are interested in playing in the band are urged to see Mr. Duncan on registration day.

Let's have a band that will give honor to our school!

NOTE: Due to so many schedule conflicts the band rehearses at 12:30 on Tuesday and Thursday. Arrangements will be made for band members to have lunch at either 11:30 or 1:30. Be sure to arrange your schedule so that one of those hours is open.

The college orchestra was organized last summer. The department is working toward a concert orchestra to play concert music, light classical music, and dinner music. This orchestra expects to work with the choral department.

Simpson's Orchestra

Simpson's Orchestra

College Band

The picture above is a scene from the annual Calhoun-Morgan Banquet and dance. It was held at the Community Center this past year.

THE HUB AND COLLEGE BOOK STORE

The Hub—an ideal place for eating a snack, catching up on “ye gossippe”, learning bits of news, and making new acquaintances (especially of the opposite sex)—is located on the first floor of Bibb Graves Hall. It is easily located by the varied noises issuing from it, and the person you may have been hunting can usually be found there.

The college book store is located in the rear of the Hub. Exchange of both old and new books may be carried on as well as the purchase of other school supplies. By the time you have obtained your school books (after standing in line an hour or two), you will have become well acquainted with the store.

The Hub and bookstore are under the management of Mrs. Sargent, who accepted this position last spring.

Dry cornmeal used in the same manner as soap provides an easy way to remove sticky dough from the hands.

If Johnny is practicing anywhere in the building you'll know it because he is blessed with a remarkable power.

We were delighted by the performances this summer and hope that he will persuade his friends to enter school here this fall.

Music Fraternity

Alpha Sigma Nu

The men of the Music Department have organized a music fraternity to foster music on the campus among the men students. It is their plan to affiliate with Phi Mu Alpha, a national honorary music fraternity, in the near future.

due connects the band rehearses at 12:30 on Tuesday and Thursday. Arrangements will be made for band members to have lunch at either 11:30 or 1:30. Be sure to arrange your schedule so that one of those hours is open.

The college orchestra was organized last summer. The department is working toward a concert orchestra to play concert music, light classical music, and dinner music. This orchestra expects to work with the choral department in the production of operettas, musical comedies, and oratorios.

All types of instruments are needed at present but the most pressing need is for violins, cellos, string basses.

If you are interested in any way, please contact Mr. Duncan.

A. B. or B. S. degree. Our able music faculty includes Walter A. Mason, J. E. Duncan, Miss Ada Curtiss, and Miss Elizabeth Roberts.

Concert Series Sponsored Each Year

Each year the Fine Arts Department sponsors a series of entertaining concerts for the students' enjoyment. Most of these concerts feature nationally known guest artists. Some of them are presented by faculty members and students.

A very excellent series of concerts is anticipated for this year. It is hoped that students avail themselves of the opportunity of hearing those selected.

College History

(Continued from front page)

students at Daugette Hall and Abercrombie Hall. Eventually it will be used for the entire campus.

At the present time, a new high school building is under construction which will be used as a laboratory for the college; a dormitory for men to be called Pannell Hall is going up near Abercrombie Hall, and an addition to Daugette Hall, which will be known as New Hall. Contracts have been let for a football stadium to be located south of Daugette Hall and for a new heating plant. Plans were drawn for a new president's home, but because of excessive building costs will not be built at this time.

The administration has taken advantage of army surplus sales and has acquired much valuable equipment and some furnishings for the new buildings. Furniture from the Guest House at Fort McClellan has been given to the college by a group of Anniston citizens who had donated it to the Guest House.

The college alumni association presented the college with a Hammond electric organ during the 1945-46 session which is used for assembly and other special programs. Several handsome pianos have been purchased for the new music department.

In addition to the many physical improvements to the campus, great strides have been made in the courses of study offered at this institution. In 1929 when the school became a four-year college, courses of study leading to bachelor of science degrees in education were set up. During the past year, the curriculum has been expanded to include courses leading to A. B. and B. S. degrees in the arts and sciences. Pre-professional courses are also available for all professions, and students may take two years of study here before transferring to other colleges to complete their majors. The health and physical education department was recently authorized to offer a major in the field of physical education.

The French department is also attracting attention with its unusual program. Last year four French students and a hostess came over from France to study at the college and to assist with teaching American students to speak French. A

dining room was set up in Graves Hall where the French and American students ate two meals together every day and only French was spoken. French holidays and feast days were celebrated in the traditional manner, and a first-hand knowledge of French people and their customs was received by the American students. This year five new students and a hostess have come over and last year's have returned to France. The same procedure will be followed. Scholarships have also been secured to send American students to France to study, and the plan is for the first ones to be chosen next spring.

The athletic program is likewise being expanded with the addition of new coaches and the football stadium. It is thought by those in authority that the new stadium will increase interest in football which will help develop a stronger team and greater school spirit. Five or six games will be played on the local field this fall, and enthusiasm is mounting. The college has always had a winning basketball team and last year lost only one or two games. Tennis is also a popular sport and new courts were added the past year.

The war made a difference in the college as it did in all institutions of higher learning. By 1942 the enrollment was showing signs of decline because of the large number of men students who entered military service. The local company of national guardsmen was made up almost entirely of college students, and 83 of those left at one time. After V-E Day, veterans began to return to college, and after V-J Day, the enrollment increased steadily. The government's plan to assist veterans to get a college education has caused a great influx of students all over the country and Jacksonville has been no exception. All housing on the campus was brought into use, and the government supplied trailers, and apartments for veterans and their families, which were erected on the campus. The increase in enrollment necessitated a larger faculty which had diminished during the war years, and several former professors were called back and new ones added. This fall will see several others added to take care of new classes and courses.

Sports At Jacksonville Have Wide Range

Intra-Mural Sports

The enrollment of hundreds of boys at J. S. T. C. last year brought about a new field of activity. That activity, intra-mural sports, far exceeded the expectations of its founders in its initial year. Intra-mural sports at this school are directed by the Athletic Club of J. S. T. C. Coach C. C. Dillon is the supervisor of the club and is assisted by three officers appointed by the student body. Officers last year were: Nip Posey, president; Charles Patty, vice-president; and Bill Hamilton, secretary. All the officers are retiring this year.

This year finds the organization better prepared to direct this type of activity and everyone expects intra-mural sports to improve. All the students cannot play varsity football or basketball, but everyone can participate in intra-mural sports of all kinds.

Intra-mural sports are divided roughly into three phases. Each quarter a major sport is introduced. The sport is the dominant sport of the season. Other sports are played during this time, but are not played on as large a scale. Teams are picked from each floor of every dormitory, a team from town and a team from the barracks apartments. Each team may select its own captain, map its own strategy, and have a free hand in every way. The Athletic Club makes up the game schedules and the rules governing the organization, and all teams are expected to adhere strictly to these rules.

In the past, volleyball has been the leading game for the first quarter. This year, however, it is hoped that an intra-mural tag football league can be instituted. If this is to happen, it will have to be on the initiative of some of the boys who are not connected with the regular college team. The advisor and officers of the Athletic Club are all with the

varsity and cannot find the time this endeavor would demand. The volleyball teams will be selected from all dormitories, and volleyball will be played the whole year. It is also a sport in which the girls can participate, and all the girls' dormitories, clubs, etc., are urged to enter a team. If everyone who is interested in the first quarter sports will work together, intra-mural can get off to a quick start.

The second quarter introduces a sport with a large following—basketball. Last year this sport enjoyed a season which witnessed several excellent teams and some keen competition. The seven teams that participated last season built up an interest that rivaled the varsity following. The teams played a regular season schedule among themselves and then held a one-game elimination tournament. The interest, competition, heated rivalry, and hard-fought games were proof of a successful season. The girls also have one team from each dormitory and play to a campus championship. During the second quarter, volleyball moves indoors because of bad weather conditions. The second quarter is an exciting quarter in intra-mural sports.

Just as football rules the first quarter in intra-mural sports and basketball demands attention during quarter number two, so does the third quarter have a king. This time it's a softball demand. Intra-mural softball affords some of the school's richest entertainment. In softball there are two teams from each dormitory, a J-Club team, and a town team. The teams play a regular season schedule made up by the Athletic Club and then a play-off. A college team is selected from all the intra-mural teams and it plays outside competition. The college softball team is supervised by Coach Stephenson and plays all

summer. During the third quarter there is a tennis tournament which is open to all. Last year's tennis won wide recognition around the campus. This year it is hoped that a horse-shoe elimination contest can be arranged. Any student who has a sport in mind and thinks it will make a good intra-mural game is urged to present his ideas to the Athletic Club.

Our intra-mural sports have been invited to extend into Anniston in the form of membership in a bowling league. The bowling league would meet two nights a week—Tuesday and Thursday. Four teams are wanted from J. S. T. C. and may consist of either boys or girls teams. If anyone is interested in a bowling league, he should contact Nip Posey at the earliest possible date. It is also desired that some student with experience in forming, handling, or participating in a bowling league contact Nip.

It is hoped by all that the college can organize a baseball team next summer. There is now an available field on which to play and it is common knowledge that there is an abundance of baseball talent among the student body. All who are interested in baseball, let it be known.

The intra-mural sports will enjoy a more successful season with the cooperation of all the student body. It is your field of activity; it was literally made for you; so we hope to see everyone participating in it.

Plans have been made to give each member of the winning team in each major sport an intra-mural medal. The winning teams will also be feted by the losers. Everyone may participate, everyone may enjoy his favorite sport in intra-mural competition. Boost your team, your dormitory, your school.

BATTER-UP

Pictured above is a game scene from intra-mural softball. This sport enjoyed a successful season last year with numerous teams participating. Softball, as it is played in intra-mural competition at Jacksonville, proves to be a highly interesting and fast game.

The town team won the play off last year but was hard pressed throughout the season by teams from both Forney and Weatherly Halls. This year the sport will have even a larger following.

Jacksonville State Teachers College FOOTBALL SCHEDULE

1947 Season

- Oct. 2—Gordon Military College at Jacksonville
- Oct. 9—Open
- Oct. 18—Troy State Teachers at Troy, Ala.
- Oct. 24—St. Bernard College at Cullman, Ala.
- Oct. 30—Austin Peay State Tch. at Jacksonville
- Nov. 7—Marion Institute at Marion, Ala.
- Nov. 13—Pembroke State College, N. C. at Jacksonville
- Nov. 20—West Georgia College at Jacksonville
- Nov. 27—Norman Jr. College, Ga. at Jacksonville

Freshmen To Play

COACH DON SALLS GREET'S 100 PROSPECTS; WORK-OUTS NOW IN PROGRESS

JACKSONVILLE HIGH EAGLES

Coaches Jim Manderson and Elbert Couch will take their Jacksonville High School Golden Eagles to Gadsden on Thursday night of this week to meet a strong Emma Sansom team. The game is the season opener for both schools and will be played in Murphree Stadium. Coach Manderson's team has been working hard for the past two weeks and is expected to be in fine shape.

A fleet of swift backs should afford Jax Hi plenty of scoring, punch and the defensive play by Gunter and Meadows has been outstanding in the line.

Jax Hi will play several games at home this year. The games will be played at night in the new stadium, which will be lighted. The homecoming game will be played on November 14, at Jacksonville, against Alexandria.

The high school schedule is as

Coach Don Salls and his two able coaches, Ray Wedgeworth and C. C. Dillon, were all smiles after the first football practice sessions for the 1947 Jacksonville Game Cocks. Coach Salls announced that 100 men reported for the largest squad in the history of the school. He was pleased with the number of men turning out for a school this size. After several workouts the men were in better shape than anticipated, so pads and plenty of rough work were ordered.

Fifteen lettermen returned from last year's squad: Center Lewis Jones; guards, Ernest Newman, Bill Cassidy, Jessie Carter, and Irby Cash; tackle, Charles Patty; ends, Charles Sprayberry, E. C. Wils'n, Joe Barnes, and Sam Heaton; quarterback, John Smith and Hubert Brugge; full back, Nip Posey; left half, George Heath; and right half, Bruce Chase.

Two practice sessions have been held daily during the past week at 9:00 a. m. and 3:00 p. m. with

CURTIS JOHNSON

The one-hand shot artist pictured above is Curtiss Johnson, a regular forward on last year's varsity basketball team. Curtis is a native of Jacksonville and played basketball with Jacksonville High School. A good eye, a sturdy hand, plus the will to win made Curtis a dangerous foe for J. S. T. C. opponents last year. Curtiss will be back this year to help J. S. T. C. maintain its high basketball standing.

Nov. 7—Marion Institute at Marion, Ala.
Nov. 13—Pembroke State College, N. C. at Jacksonville
Nov. 20—West Georgia College at Jacksonville
Nov. 27—Norman Jr. College, Ga. at Jacksonville

Freshmen To Play

The college freshman football team will open the season Saturday night, September 27, in Rome, Georgia. The fresh will tackle a reportedly strong team from Darlington School for Boys. This game will give Coaches Salls, Dillon and Wedgeworth an opportunity to pick outstanding talent from the freshman squad.

GAME SCENE

This year's Game Cocks will have several advantages over the Game Cocks team pictured above. This year J. S. T. C. gridgers will have a new stadium in which to perform. This is a great forward step in Jacksonville football history. The college team will perform before local fans five times this season and all the games will be at night, thus assuring better attendance.

The scene above is on the old college field, which is located south of the gym. It is an action shot of last year's Marion-Jacksonville game. The Game Cocks were victorious, 12 to 0.

TIP-OFF

In addition to the fact that our girls play a very excellent game of basketball, there are other points of interest as evidenced by the picture to our left. High into the air go two girls while four others stand expectantly by. The scene is from a game played last season between Daugette Hall and Abercrombie Hall. The girls displayed rare form at all the games and, of course, had a large following. The college team won decisive victories over out-of-town teams last season. The team has shown signs of great possibilities and is looking forward to a more active season this year. The players are, reading from left to right, Bernice Patterson, Doris Chumley, Louise Williams, Frances Thomas, Kathryn Shehane, and Sue Bryant. The lucky umpire is Ray Collins.

You can prevent heavy blankets and rugs from creasing and matting after laundering by hanging them dripping wet, rather than attempting to wring them out.

When pressing net or veils, place a piece of wax paper over the material to restore stiffness.

The "J" Club

The "J" Club is one of the strongest organizations on the campus. Interrupted during the war because of the lack of boys in school, the club had to start anew last year.

Shown above are members of the "J" Club. Reading from left to right (first row), they are Jesse Morton, Paul Adams, (second row) Jack Stewart, Louie Eitson, Charles Sprayberry, Byron Shipp, Marion Bennett, Gilbert Ayers, Niles Graham, Blackie Heath, (third row) Edgar Payne, Joe Barnes, "Brick" Jones, Sam Heaton, Jimmy White, "Banty" Newman, Bill Farrell, (fourth row) E. C. Wilson, John Smith, James Haywood, Hubert Brugge, Bruce Chase, Clyde Driskill, Neil, Posey, Ray Carter, and Elbert Couch.

YE OLDE SWIMMING HOLE

A fleet of swift backs should afford Jax Hi plenty of scoring, punch and the defensive play by Gunter and Meadows has been outstanding in the line.

Jax Hi will play several games at home this year. The games will be played at night in the new stadium, which will be lighted. The homecoming game will be played on November 14, at Jacksonville, against Alexandria.

The high school schedule is as follows:

Sept. 18—Emma Sansom at Gadsden. Sept. 26—Ochatchee at Jacksonville. Oct. 3—Hokes Bluff at Jacksonville. Oct. 10—Oxford at Jacksonville. Oct. 17—Southside at Jacksonville. Oct. 24—Piedmont at Piedmont. Oct. 31—Munford at Jacksonville. Nov. 6—Anniston at Anniston. Nov. 14—Alexandria at Jacksonville. Nov. 21—Susan Moore at Jacksonville.

last year's squad: Center Lewis Jones; guards, Ernest Newman, Bill Cassidy, Jessie Carter, and Irby Cash; tackle, Charles Patty; ends, Charles Sprayberry, E. C. Wils n, Joe Barnes, and Sam Heaton; quarterback, John Smith and Hubert Brugge; full back, Nip Posey; left half, George Heath; and right half, Bruce Chase.

Two practice sessions have been held daily during the past week at 9:00 a. m. and 3:00 p. m. with plenty of rough work on the menu. Workouts will continue until October 2, when the Game Cocks tangle with Gordon Military College here on the new college field at 8:00 p. m.

Fullback John Williams from Gadsden, Tackle James White, and End Lamar Phillips, Anniston, caught the coaches' eye in practice and received much praise for their performances.
