There has been a serious epidemic on our campus since the arrival of spring. This is more commonly known as "Marriage." There have been so many marriages in the last month or so that it would be impossible to list them here. Among the recent couples are Frank Rivard and John (Jay) Jones, came through with the big surprises. I guess that they thought that it would remain a secret for months to come.

Perhaps you are wondering just exactly what a fable might be. A fable is a story that brings out some useful truth. It is impossible to go to school in the summer, that our brains just shrug and say that it would be impossible to list just exactly what a fable might be. A fable is a story that brings out some useful truth.
Class Officers Are Ready for Summer

Thirty-two new class officers have been installed for the summer session as a result of elections held recently under the supervision of SGA. The new officers and freshmen classes selected the students who will serve as class leaders during the next two months. The new officers have already begun their duties in accordance with the policies and purposes of the SGA constitution.

The president, SGA representatives, and the respective member of the junior class, was appointed by a majority vote of the sophomore class. Each class will have a president, vice-president, and treasurer, as well as four other members.

In closing, I wish to thank the officials of your school, faculty and students, for their cooperation in preparing the curriculum and for the work they have done to make this a successful term.

Sincerely,
[Signature]

Miss Wood, SGA President
A Tribute To Miss Wood

“...Miss Dora Wood has yielded her mortal place to the new. Her passing is indicative of the fact that nothing remains static; nothing is constant; things are ever changing. Yet she has left behind her evidences that are peculiarly Dora’s, so much so that she obliterates the quotation of Tennyson from his “Idylls of the King.” Dora, representing an order on our hill, may have yielded her place to the new, but she will never be forgotten, for she has forever stamped indelibly her wonderful personality on the soul of Jacksonville.

For years and years and years Dora worked for Jackson- ville. Her whole life was wrapped up in its greater glory. Hers was the true spirit. She always wanted Jacksonvillean. Her reactions could be forecast with accuracy because she understood the reduction in weight is absolutely no reflection on Mrs. McWhorter’s food. It is simply that she had had to study so hard that he just forgot to eat. Another fact that he’d like to get straight is that he is not a landlady, boy. He’s from Sando Valley and proud of it.

One thing that was especially surprising to me, although he swears he hasn’t been sensitive about it, was the getting married this fall.

One of “Evowah’s” characteristics that has been overshadowed by many years is his ingenuity. As good as the stories of the world which has

Miss Dora had no use for the strong, for they could fend for themselves. To the weak, to the underprivileged, to the unfortunate, she poured forth her own strength. Their burdens became hers and she worked until she could help them bear them.

Due to the current interest in lowering Alabama’s voting age, the Teacola has conducted a poll among students and faculty members concerning the question. The poll was conducted by Beth Taylor, and the comments follow:

‘One With God Is Majority’—Evowah

By Joanne Phillips

Dr. Cole Speaks At First Faculty Meeting Here

The first summer meeting of the faculty was held Wednesday morning. President Houston Cole appoaled to the group, giving a report of his observations as a member of the evaluation committee of the College of Education at the University of Georgia recently. Talks about higher education in Alabama as revealed in the recent study made the request of the college president to the state; and educational prospects based upon action of the legislature now in session.

The College made comparisons of faculties in other colleges and those received here, and of other conditions affecting teachers in Georgia colleges and elsewhere.

New teachers on the summer staff were introduced as follows: Perry Martin, Fort Mitchell, Mrs. J. C. Wilson, Mildred Johnston, Mrs. Paul J. Arnold, science department; Miss Margie Mahone, director of home economic service; Henry L. Green, attends service; Stevenson Barrett, Miss Robert E.
For friends Dora would go to the ends of creation to satisfy their needs. Many a student long since graduated and many a student just now graduating can testify to that. Many a faculty and staff member could remember with a soft glow her loyalty and her courage in their behalf when the going got rough.

Miss Dora had no use for the strong, for they could find their own way. To the weak, to the underprivileged, to the unfortunate, to the forsaken strength became hers and she worked until she could help the least and the lost.

Miss Dora will long be remembered going down the hall, record in hand, arguing the merits of the case pro and con with anyone she met. Always talking, always greating people, she was the embodiment of Friendliness on the campus. Turned to often because she was a virtual walking encyclopedia, she had a ready and gracious answer for all.

Miss Dora's devotion, her unflagging passion for Jacksonville have now been made part of the ledger sheet; and when God looks over the permanent and earthly record of Miss Dora Wood, He will not be able to noting:

"Graduated with Distinction."

"But now farewell. I am going a long way"

With these words— if indeed they were said:

"For all my mind is clouded with a doubt—"

To the island-valley of Avalon;

When the night comes, and the snow, and the snow;

Nor ever wind blows loudly; but it lies

Deep-meadows, happy, fair with orchard lawns

And bowery hollows crowned with summer seas—

Where I will heal me of my grievous wound."

—Lawrence R. Miles

Now Is The Time For Friendship

The impressive beginning which the summer Student Government Association was able to make in its first meeting Tuesday night might be an indication of better things to come for Jacksonville students. Under the guidance of Senator Dixie Brown and Mr. Anderson, the faculty advisor, the Association initiated a social and achievement program that should go far toward developing friendship and initiative on the campus.

The social events will give the students a better chance to get acquainted and the bond of friendship is certain to speed the growth of our college. The SGA has paved the way for regular meetings of the students each Monday night, but the success of the program will depend directly upon the attitude of participants. If you students take advantage of the opportunities to make new acquaintances and friendships, who will find that campus life can be a definite pleasure.

Freshmen who entered Jacksonville at the beginning of the quarter arrived fortunate to have an opportunity to develop friendships that may last through the four years of residence here. School spirit depends upon friendship and cooperation among the students, and now is the time to give our school a boost.

Let's make this quarter a period of experimentation in order to see just how far we can progress in a campaign to develop a school spirit that will equal that of any other college in the country. The job is not impossible, if you students will support your SGA and your class officers in their effort to build the school spirit.

By Dr. William J. Calvert, Jr.

The Head of the Department of Physical Education

I have on my desk a copy of an excellent article, "Word Trap The Universe," in which Mr. Michael of his kind, dealing with mispronunciation of correct words, is viewed, and the illiterate, the ignorant, the illiterate, the illiterate, the illiterate, and the like, and it stresses the important fact that:

"Words are the tools of communication that must be understood by all men..." and so on. In this we must use the same words to mean the same thing and pronunciate them in practically the same way.

There are two implied assumptions that, to me, would make a dangerous and misleading introduction to the study of grammar. One is that words, like Alhene, have fully developed from the head of Zeus, or God, and from there on their meanings, use, and their pronunciation are fixed, without the right of appeal, for eternity. The other is that words constitute a sort of trap, a very Decoy lying in wait for the unsuspecting, the ignorant, the illiterate, the illiterate, the illiterate, and the like, and it stresses the important fact that:

"Words are the tools of communication that must be understood by all men..." and so on. In this we must use the same words to mean the same thing and pronunciate them in practically the same way.

At Graduation Service

BY DON RENDELSBY

Nina Singleton, Ralph Campbell, Eddie Cole, Davis Adcock, Robert Abney, Mary Landers, and William B. Jones.

Dr. Lund Speaks To Seniors At Graduation Service Here

Spring graduation exercises College on Friday evening May 29, at 5 o'clock in College Bowl. Degrees were conferred upon 119 candidates by President Houston Cole and Dean C. W. Wood.

During the exercises, a portrait of the late Miss Mary Forney, former students, and friends. The presentation was made by Judge G. Clyde Bishop of Anniston, who spoke of the beauty of Miss Forney's character and of the high esteem in which she was held both on the college campus and in the town of Jacksonville. The portrait was unveiled by Miss Kay Stevenson, daughter of Mr. and Mrs. H. L. Stevenson, and great niece of Miss Forney. It was accepted by Dr. C. B. Wood, on behalf of the college, and will be hung in the library.

Baccalaureate Address

Dr. F. W. Lands, president of Alabama College, delivered the baccalaureate address.

He told the graduates that "the preservation of standards is the most important problem facing education today."

He listed three purposes of education: (1) To train a person for work, which affords security; (2) to procure culture or a scale of values which offers freedom; and (3) to encourage an inward search of culture; but neither of these purposes is sufficient.

Spiritual Growth

"What I am saying is that education ultimately is an internal transformation that is fundamentally a process of spiritual growth. It cannot be based upon the legalism of democracy, namely, equality; but must be founded upon faith in individualism, as Henry Emerson Fosdick expresses it: 'Democracy is based upon the conviction that there are extraordinary possibilities in ordinary people.'"

"What I am suggesting as an alternative for you young graduates is a philosophy of values, a hierarchy of values in which the lesser will not dominate the greater good; a view of knowledge not as a collection of discrete and disparate facts, but a unifying wisdom; and a philosophy of education which believes that the only mediocrity in life is the mediocrity of failing to develop one's opportunities and talents."

The TRACOLA

Jax FBLA Officers At National Meet

Representing the Alabama State Chapter and the Jacksonville College Chapter of the Future Business Leaders of America at the National convention of the organization held in Washington, D. C., May 28-30, were Charles Hughes, president of the Alabama State Chapter, and vice-president of the local chapter; and Jack Collins, state treasurer.

The program of the national convention included addresses by outstanding business leaders, election of national officers, presentation of national awards, group meetings to plan future activities of the organization, exhibits of scrap-books, posters, and other representations of chapter activities, sight-seeing tours of Washington, and various social events.

The Jacksonville College Chapter of the Future Business Leaders was appointed in 1960 as the sponsoring chapter to organize an Alabama State Chapter, and local college and high school chapters.

Dr. Lucille Branscomb was elected at Jacksonville in May of 1952 at the first State convention, Benjamin Medal being awarded the first state president, Miss Lucille Branscomb is the State director and sponsor of FBLA.

From the time of the first State convention to the present, the State Directors have been: Miss Lucille Branscomb, Jack Robinson, and Mrs. Annsibert. The first President of the national convention held in May of this year, the local chapters elected, in number, climbing from ten in May, 1953, to twenty in May, 1955.

The following chapters were organized by Jacksonville graduates who became members of FBLA while at JSTC: Jacksonville High School, Mrs. C. T. Harper, Officer; Jacksonville High School, Miss Raquel Nodal, Officer; Oxford High School, Mrs. Bruce McNabb, Officer; Double Springs, Miss Willeden Stephenson; the chapter at Blue Springs; Clio, and Louiville High School were organized by Mrs. Ann Sibert.

Branscomb's Girls Choose New Officers

BY BETTE WALLACE

The news from the finest side of the campus is nil. Although there could be some basis for debate on this statement, rest assured that no truer words were ever spoken. We are more or less the same as we were last summer. There are some new girls; I might add, as an after thought, that we have become the only coed dormitory at the campus, but the majority of us have been here since the Year One.

In our first house meeting of the summer, dormitory officers were elected. The campaign was reminiscent of last summer's conventions speech. The officers are: Bette Wallace, president, Ann Mann, vice-president; "Nancy" Hindman, secretary and treasurer, and Mrs. Evelyn Powell chairman of the social committee, with Mrs. And- rance Weyser and Mrs. Paul Thomas as associate members. Much is going to be accomplished under the administra- tion of these outstanding members of the "fair sex." One thing you can count on: the young gentlemen who frequent Abercombie in the winter months can be happy about it; we are helping with the cost and payments of the television. This is not due to the offi- cers but to Miss Branscomb and her foresight.

Speaking of Miss Branscomb, in addition to our "Mamie" we have another to whom we can go when the going gets rough. Mrs. Blanche Consultant. We are, indeed, in having two such charming ladies as our "Wailing Wall."

A rather unique situation exists on the campus although it isn't at all unusual. Mrs. Ernestine Nichols of Abercombie and Ann Nichols of Doughty (Mrs. N. Nichols of Doughty) is now the campus consultant, and Miss Lucille Branscomb, the new consultant.

Pledges Enter Kappa Delta

Miss Lucille Branscomb, coauthor and sponsor of Kappa Delta Pi, National honorary society in education, announces the initia- tion of some of the newest mem- bers into the Epsilon Phi Chapter at JSTC on May 29. The ceremony, held in the College Chapel, immediately following the gstra- duation exercises, was conducted by Betty Club, a 32-year president; Miss Lucille Branscomb, cousas-
Four CAP Cadets Attend Maxwell Field Training

Four Civil Air Patrol high school school C. A. P. Cadets sampled nine-day rearing operation in an Air Force base June 18-21 when they joined with seventy-five other cadets from the state to participate in the annual CAP summer encampment at Maxwell Field Air Force Base in Montgomery. They were Jerome Couch, Route 1, Jacksonville; Arthel Parker, Village; Nina Demos, Big Spring Industrial School, Jacksonville; and Phillip have put aside some-
ROTC Cadets Set For Summer Camp

Fifty of Jacksonville's advanced cadets have been selected at various Army camps over the past six weeks to attend field training. The first group left six days ago at Fort Sill, Okla., for summer training in artillery. Jacksonville Cadets also are attending the Chemical Corps at Fort McClellan and the Ordnance camp at Aberdeen Proving Grounds, Md. Cadet Darwin Miller of Anniston will attend the Ordnance summer camp at Aberdeen Proving Grounds, Md. Cadet Louis Rutherford of Taladega and Clayton D. Vann of Anniston will attend the Chemical Camp at Fort McClellan. 43 Jacksonville Cadets will go to the Field Artillery Camp at Fort Still, Okla.

James T. Smith, Edwin J. Corborn, Alexander, William G. Ward, John W. Sparrow, Robert P. Wilson, Atallah, J. C. Anglin, Huntsville; Russell W. Avant, Tyler; Harold L. Barnard, Arab; Joel O. Bemfitt, Normans, Alabama; Richard H. Brown, H. Groov, Eastaboga; Robert B. Bright, Opelika; Wesley H. Brown, Glasgow; Henry L. Crowson, Wellington; David R. Crawford, Rockford; James A. Hardie, Tuskegee; Joseph A. Ivory, Grenada; Durley F. Ferguson, Oyster Bay, N.Y.; James C. Oates; Bains, Arie L. Gunter, Gadsden; Bobby M. Harris, William S. Sudett, Oxford; John J. Hyde, Gadsden; H. L. James, Vienna; Curtis W. Mitchell, Bessemer; Eugene E. Kite, Jr., Davieville; Stewart W. Connick, Bessemer; Bobby M. Knight, Robb; Donald G. McElvñ, Hope; J. M. Moore, Jacksonville; Curtis B. Loy, Adison; David E. Newport, Rocky Ford; John Henry Patterson, Meridianville, Ivan P. Smith, Clanton; Walter H. Smith, Byrd Tucker, Collinwood; Travis L. Walker, Atmore.

These cadets will join others from all parts of the U.S. for a six-weeks course in military education. At the conclusion of the course, they will receive their commissions at the Army camp.

After May, 1868, Alabama was overcrowded with home guards and those by whom means had managed to stay out of active service in the war time. Soldiers in the army of northern Virginia, which had sur-

Enrollment Figures Set

Latest figures on summer school at Jacksonville State College show no decrease in comparison with last summer's enrollment, according to Lawrence R. Miller, registrar.
For Summer Play

With Barbecue Pits

The Masque and Wig Guild is tentatively planning a summer show. Nothing definite has been decided upon but the play and the cast will be announced in the near future.

Mr. Dudley Hunt is to be the director this summer because Mr. Miles will not have the available time. Mr. Hunt was the production manager of 'The Silver Cord,' the show which was produced last summer, the centers of which won Governor Watts was captured in which did much to bring out the best in the cast. Nothing definite has been announced about the show. Those who saw it will remember the excellent lighting which did much to bring out the highlights of the entire production.
NEW FACULTY MEMBERS—Seven new faculty members have been added to the college teaching staff for the summer quarter. They are (first row) Mrs. P. R. Felgar, Mrs. Paul J. Arnold, Mrs. Douglas Johnson, and Mr. Perry Martin. (Back row) Mr. Henry Greer, Mr. Steve Barrell, and Mr. Milton Wallace.

Jacksonville's summer school faculty has presented several new members who will instruct regular classes in the various depart-ments. Several of the instructors who have taught here previously. Mrs. Douglas Johnson has joined the number of students this year by being a student in the Jacksonville High School, where she has taught for several years.

Perry Martin has also rejointed the science department. He has taught half the summer in the past four years. During the winter, he teaches at the University of Kentucky. He received his masters degree in the University of Florida where he majored in physics and minor in math.

At Jacksonville, Mrs. Johnson majored in science and minor in math at the present time. The Jacksonville High School is teaching algebra, trigonometry, and applied math. The music department has added two new instructors. Mrs. Robert P. Felgar, former head of the history department, is teaching several courses in music. She has previously taught at Atlantic and is a graduate of the University of Florida.

Eighty-eight students and classroom teachers are being held in the summer music workshop, according to Walter A. Mason, head of the division of arts. The workshop is designed to help teachers with the music in their own classrooms and is of a practical nature. Mason pointed out that it is their first with Mr. Robert P. Felgar, who teaches in the Alexandria High School and who has had wide experience in classroom music.

In the course, several demonstrations and special clinics will be held by guest conductors, including Mrs. Dorothy Davis of Boston, Miss, representatives of the local music industry, and the Smokey Mountain Band. A wide variety of materials is being used and exhibits are planned especially for the teachers.

Zola Bullock, Deatsville; Flor-ence Callahan, Florence; Mr. Thomas, and Jackson;/ion Couch, Cleo Hawkins Union Grove; James Carvass, Mr. Cordell, and Mr. Whilte, Mr. Callahan, Jennifer Robinson, Mildred White, Dutton; Agnes T. Campbell, Mr. White, Woodville; Herries Carnell, Holy Tradition, and the students.

Mr. H. L. Greer, another former student, is now with the P. R. department. He is instructing classes in driver education, and one in camp leadership. A course of for the first time at the college. He attended the University of Alabama, and he attended the University of Florida where he received the maste's degree in the School of Administration. In the fall he will return to Ohio, Green, University School of Music.

HOME ECONOMICS GROUP—The group of students pictured above was able to receive their training in the American Home Economics Association and the Alabama Home Economics Association. They are (left to right) Jo Barr-ber, (standing) Elia Sackett, Carolyn Buckner, Ava Nicholas, Peggy Bailey, and Vinnie Cockrell.

Many Signed for Summer In Education

A large number of students and classroom teachers are taking directed teaching in the laboratories this summer—a new element in the public high school.

These taking training last year's high school training are: Joseph L. Kellett, William Isbell, Crossville; Redmond C. Carlton, Alexander City; Niles H. Graham, Centre; Paul W. Slevec, Oatesville; James B. Johnson, Arab; Mary K. C. Cains, Anniston; Henry B. Terrell, Collin; James L. Lewis, Katie Mae Smith, Tru-ty Anderson, Margaret Mc- Guire, Gladstone; Marvalena Reynolds, Greenville.

Many signed for summer in education.

Art Courses Keep Rating In Popularity

The art department is establishing an unique record for Jacksonville. A list of popular art courses was the first that the students entered in the art department, and it has grown steadily in appeal to the students until it is now one of the few depart-ments from which every type of student chooses for a minor, the work done by the art department maintains its popularity.

Despite the fact that no elective hours of art are required, students continue to choose art as a means of expressing their creative ability. The art room is a place where they can release their pent-up emotions and their feelings into constructive work. A key to the training is the idea of creating art for the enjoyment of others.

In the Music Department, there have been several new courses in music. The students have been taught to appreciate and respond to music through participation in vocal and instrumental music.
Mr. H. L. Green, another former student, is now with the P. E. Department. He is instructing the boys in driving the school bus.

The Music Department has added two new instructors. Mrs. Robert F. Frech, wife of Dr. Frech, former head of the history department, is teaching several courses in music. She has previously taught at Attalla and Alexandria. She received her B. S. degree from Jacksonville.

Mr. Stevens, director of the Civic Music Association in Gadsden, is offering several courses in music, including piano and conducting.

Mr. Barrett has many years of experience in the profession of music. He has worked as both conductor and accompanist. He attended Stanford University for two years and graduated from the Eastman School of Music with a Bachelor of Music in Composition.

Mrs. Paul Arnold is teaching a course in English Literature during the summer months. She received her B. S. degree from George Washington University and her masters from the University of Pennsylvania. In the fall she will return to Jacksonville.

MISS MARGARET GRIFFIS is THIS GRADE SUPERVISOR

Miss Margaret Griffis, Anniston, is first grade supervisor at the elementary school during the summer quarter. Her duties include not only the instruction of the first grade students, but also instruction of the preschool teachers from the college department of education.

Miss Griffis attended the University of Alabama and received her master's degree from the University of Hawaii.

After the summer she will return to the Woodstock School in Anniston, where she has taught for a number of years.
