Local FBLA Chapter Wins National Prize

The Jacksonville Chapter of the Future Business Leaders of America was presented the national award for the most unique and outstanding project of 1953-54 at the National FBLA Convention in Dallas, Texas, last week.

The Jacksonville Chapter, under the leadership of Miss Lucille Branscomb, introduced the Placement Bureau which select business students, during the semester, to secure employment for graduates. Shown above are Joe Lane, Collbran; Kenneth Davis, Gadsden; and Rosamond Ponder, Jacksonville, state president.

The expenses of the state delegation were paid from the state executive committee of the convention.

Dean's Record Reveals Eight With All A's

The dean's list for the spring semester has been released. Students whose names appear on it are as follows:

All A's—Mrs. Jack Barlow, Charles J. Carter, Clara G. Manners, Anniston; Kenneth N. Hitchens, Gadsden; John J. Hyde, Cropwell; Summy W. Ingram, Cropwell; William J. Norling, Crossville; Neda Jean Thomas, Nauvoo.

Annual Class Officers Dance Planned For Gym On July 14th, Semi-Formal

Student Council Considering Adoption Of New Point System

Bill Advocated To Limit Load Of Activities

The Student Council is now considering a new point system which will be designed to distribute the work load and the honors of extra-curricular activities among a greater number of students. The plan being considered has been discussed in a general meeting of the Student Council and among the committee members and students.

The sponsors of the proposed legislation maintain that it will be a great aid to students who tend to overload in extra work. The bill is designed to limit the number of offices that an individual student can hold at one time. In reducing the load on some students, the bill also will tend to give other students a better chance to demonstrate the leadership and initiative necessary to earn recognition for outstanding achievement in student activities.

More Efficiency

Advocates of the new bill also claim that it will tend to eliminate monopolies on student offices and will mean more efficiency in most of the elective and appointive offices. Arguments for the bill have brought out the fact that students who hold more offices than they can handle efficiency and initiative.

Kay Stevenson
National FTA Student Meet

Wash. D. C., June 16—Kay Stevenson, 702 Mt. View Rd., Jacksonville, Ala., will attend a leadership conference opening here on June 16 for some 53 college and university leaders who soon will be taking office in state associations or local chapters of the National Association of Future Teachers and America (NAFTA), as a unit of the National

City Plans Gala 4th: Street Party On Slate

Charles Gidley, chairman of the Chamber of Commerce’s Fourth of July committee, states that all arrangements have been completed for the celebration of the rite on July 4.

Annual Class Officers Dance Planned For Gym On July 14th, Semi-Formal

Student Council Considering Adoption Of New Point System
The First of the Weekly Parties Be assistant librarian. She had been a goodwill worker for this Mayool J. Lawler he hen enga@. Lawler was among the already engaged in the celebration of the @lo event. The students are excercw and a leader- &i- on the square ad cold a student may hold an op- opportunity to visit several eastern cities and to attend one of the biggest events in the world.

The Class Officers dance will begin with our conference in the nation's capital where they will spend two days with the President. Another of the week-get-togethers will be the Big Wednesday night. Jimmy Pullen, secretary-treasurer, hopes to continue the weekly parties throughout the summer as a part of the Student Council's effort to furnish low-cost entertainment.

The first of the weekly parties was held two weeks ago when the Student Council sponsored a combination of dance and round dancing at the gymnasium. A large group of students turned out for the first party and the Student Council officers will continue to provide entertainments. Pannell's terrace party last Saturday night was an attempt to move square and round dancing along with refreshments.

The students are busily engaged in a number of events. Each student will be required to attend at least one of the events. They will be held throughout the year and will mean more efficiency and good will, and a better atmosphere for the college.

The new point system, if adopted, will be a student's greatest asset. It will tend to eliminate any confusion in the minds of the students, and will mean more efficiency in most of the elective and ap- pointive offices. Arguments for the new system are being put forward by the students who hold more of- fices in the college and who are not re- spectively not providing the leadership necessary to build active organizations.

The new point system, if adopted, will have a maximum point limit for each of the four classes, beginning with 200 points for freshmen, 100 points for sophomores, 50 points for juniors, and 25 points for seniors. Each student office and activity will be assigned a certain number of points, and the total number of points assigned to all offices and activities in each group will be determined by the load limit for the student's classification.

For Offices

The student will go to Albany in June 29-30 to participate in a conference sponsored by the NEA National Commission on Participation. They will visit several colleges and universities and will have the opportunity to visit several eastern cities and to attend one of the biggest events in the world.

The International House at Jacksonville State College will be featured in a three-page layout in the Rotary Magazine this fall, according to information re- ceived by Dr. J. B. Jones, director of student activities. The International House was organized as a Rotary Club, and it is conducted by Mr. Houston Cole. The spirit of the program is an outgrowth of the Founda- tory's Fourth Objective of international understanding and good will, and it is conducted because of its uniqueness and effectiveness.

Karl K. Kreuger, editor of The Rotary Magazine, visited the campus of the University of Minnesota recently and reported that the program has received considerable attention from other Rotary Clubs. President Cole is a past district-governor of Rotary International, and he is the present president of the Jacksonville State College Rotary Club.

The Rotary clubs of Tampa, Ybor City and Sarasota, Fla., have had the custom for several years of entertaining the foreign visitors who come to the International House during Christmas holidays and the students present pro- fessional quality entertaining. The students also appear frequently in the newspapers and other publications before Rotary clubs.

The Rotary Magazine is cir- culated to more than 400,000 Rotarians in addition to librarians and public reading rooms has a reader circulation of 1,000,000.

B. Jones and Opal R.Lovett, the two student representatives working with Mr. Kreuger in getting the material.

City Plans Gala 4th: Street Party On State

Charles Gilboy, chair of the Chamber of Commerce's Fourth of July committee, states that all arrangements have been completed for the celebration of the gala event here in the "Gem of the Hills." The merchants of the town will offer many items of entertainment this week, showing special price this week—Monday through Saturday—It has been decided to give free admission to the people of this section of the country.

CITIZENS of this area are being given a special invitation to visit Jacksonville during the week. Merchants will give tickets with each dollar purchase, or each dol- lar paid on account, which will be good for the most valuable of all advertising. These tickets will be given away on Saturday, July 3.

At 10 o'clock today morning a Rotary Club will be opened on the square and cold horeca will be served free. At 10 o'clock the welcome address will be given by Mayor J. B. Ryan, and other speakers will give short talks.

Following the speeches a num- ber of events will take place at which prizes will be awarded the club members. These are: a square dance, a large card table, a dance and a game of blackjack.

A grand dance on the street will begin at 7 o'clock Sat- urday evening. The Jacksonville State College will furnish the music. An experien- ced band, with the help of the mayor, and a most enjoyable evening is in store for all.

A four-day celebration is planned for Sunday, the business hours are to be extended.

(Continued On Page Four)
The Point System

The Student Government Association is taking a big step forward with its proposed point system which would limit the extent of participation in extra-curricular activities for each student in school. A point system has long been needed for our campus in order to distribute the load among a larger number of students and to reduce the burden that individual students have been carrying for the past.

The point system which is being considered by the Student Council is not the first that has been proposed here, but it seems to be better planned, and probably will be far more effective than the old system which went out of existence several years ago.

A point system, such as the one proposed by the Student Council, would have several objectives. First, it would distribute student offices and honors among a larger number of students. Second, it would reduce the load on an individual student and prevent over-loading on an extent that would injure the scholastic ability or the health of the student. Third, it would mean more efficiency in the top student offices, a much-desired thing for their execution is possible when one student filled more offices that he could effectively handle.

The point system would also have a valuable in the Student Government’s special awards program. Once the student offices are distributed more evenly among the student body, the individual office holders would have more incentive to do their work well, and for awards, at that time, having “Certificates of Appreciation” for outstanding service, the student who holds only one office would not be over-shadowed by those who hold several offices.

Perhaps some objection to the point system will be raised because it would place a limit upon the services of the students who have particularly outstanding talents of leadership, initiative and character. It is true that the student body as a whole could not be limited to only a relatively small number of activities, but for the student body, it seems that a good extra-curricular program that we need not overlook.

Student activities are needed as a training ground for leadership, initiative, character, and personality. Without them, a student’s education is only half complete.

The point system undoubtedly would eliminate some of the best-qualified students from the positions where their experience and leadership would be of definite benefit. However, the system would place the load for a greater number of our students to gain all of our student offices. When we give these students a chance to prove their ability, we will be helping to build a greater college and state leadership, the host of combating the experience and leadership that they will need after college. Surely there are enough good students among us to adequately fill student activities needed as a training ground for leadership, initiative, character, and personality. Without them, a student’s education is only half complete.

Time For A Change

The State Board of Education has earned a vote of thanks from the students at Jacksonville and the state’s three other so-called teachers’ colleges. At its last meeting, the board agreed to study the possibility of removing the word “teachers” from the official name of our college. The same ruling, if passed, would also affect Troy, Livingston, and Florence.

When the action comes, as it surely must, a big stumbling block in the way of progress for our college will have been removed. The state board is only in agreement with the times if it approved the proposed ruling. Only two colleges, the South, outside of Alabama, still retain the word “teachers” in their official titles. The national trend is reflected in the fact that 177 colleges in the United States have dropped the word from their titles. In practically every case officials of the affected schools have reported an increase in enrollment.

During the early years in the history of our college, the word “teachers” was an apposite and essential part of the title. Then our curriculum was directed primarily toward the teaching profession. The trend has changed considerably during the past decade. Jacksonville no longer is a teachers college in the strictest sense. It is true that education is still a very important part of the curriculum here, but our college is no longer designed wholly for the teaching profession.

The administration, faculty, and students here have antagonized the fact that the word “teachers” is seldom used in conservation and is often written in all but official correspondence.

The title “State Teachers College” is misleading to many prospective college freshmen, many of whom undoubtedly decide against our college because they think that it is truly a teachers institution.

A student opinion poll has never been taken at Jacksonville concerning the change of title, but the students at Florence school indicated that the change of title has been strongly opposed, and a student opinion poll has never been taken at Jacksonville concerning the change of title, but the students at Florence school indicated that the change of title has been strongly opposed.

Religious EMPIRICAL

Dr. Cole Offers Goal In 1st Assembly Talk

Dr. Cole spoke on “God Revealed” last Wednesday morning in the Leone Cole Auditorium. Jim Reeves, the new SGA president, Dr. C. E. Wood led the invocation. Soledad on the platform form were the SGA vice-president, Travis Walker, Walnut Grove; secretary, Elaino McGraw (Campbell), Gatesville; and class presidents; J. C. Anglin, Tommy Phillips, Tommy Wallhath and Charles Lewis, and faculty advisor, Dr. Emmett Fields.

Speaker Houston Cole welcomed the new students to the campus and called attention to medicine and science promise to the remainder of the current academic session. The big party will come next month when the annual Class Ball will be held in the gymnasium. It won’t be a big affair, such as the last dances during the regular season, but it will be something special. The Social Committee, under the direction of Travis Walker, already has started planning the dance which will be held in the social room of the month.

If any of you get up early enough in the morning, you can see the ants early-risers scrawling across the lawn. They aren’t bird-watchers! They are now under a new regime, the first two social events are a most welcome change. The ANT CLUB has doubled by 1976, largely as a result of better educational opportunities. The grade is reflected in the fact that 187 colleges in the United States have dropped the word from their titles. In practically every case officials of the affected schools have reported an increase in enrollment.

Studies of the educational revolution have been “Immortal Love, forever true, was shocked by the recent Supreme Court ruling abolishing segregation in the public schools. For ever shared, for ever whole, segregation in the public schools. For ever shared, for ever whole, segregation in the public schools. For ever shared, for ever whole, segregation in the public schools. For ever shared, for ever whole, segregation in the public schools. For ever shared, for ever whole, segregation in the public schools. For ever shared, for ever whole, segregation in the public schools. For ever shared, for ever whole, segregation in the public schools. For ever shared, for ever whole, segregation in the public schools. For ever shared, for ever whole, segregation in the public schools.

HONOR GRADUATES—The six former students above graduated with honors here at the end of the last semester. They are (left to right) Nancy Wood, honors in home economics education; Mollie Sprague, honors in biology; Carol Dunn, honors in home economics; Nella Jean Thorne, honors in secretarial science; Carolyn Mayes, honors in physical education; and Jerry Smith, honors in math.

The Spotlight
Jimmy Reaves, Newest SGA President, Plans Record Year

The Teaccoli "Spotlight" has presented impressive number of outstanding students, and the tradition continues with this month's presentation of James A. (Jimmy) Reaves, president of the Student Government Association. Jimmy is a native of Anniston, and has given his hometown every reason to be proud of him.

While attending Anniston High School, Jimmy was graduated in 1951. Jimmy was one of the outstanding students. Enthusiastic in every organization and activity of which he was a part, Jimmy was also a junior guard on the Hi-8 Echo, the school newspaper. He was the admittance and appreciation of his fellow students.

Jimmy gained valuable experience while working as a paper boy, proof reader for the Anniston Star, and as a department store clerk. Not only is he well equipped with "book learning," he has an angle on the "real world" that some would describe as just good "common sense."

Attending college as a work-study major, our spotlighted classmate in, extra-curricular activities as well as good grades. He has been a member of the Student Government Association, the Honor Society, the English Honors Society, and thePhi Delta Theta fraternity. Jimmy has been captain of the football team, a member of the track team, and a member of the Debating Club. He has been a member of the Anniston High School band, and a member of the Anniston High School orchestra.

The title "State Teachers College" is a misnomer, many of whom undoubtedly decide against our college because they think that it is truly a teachers' institution. A student opinion poll has never been taken at Jacksonvile, and the school has been referred to by the title of "teachers' college" by a high percentage of them who are not teachers. A high percentage of them who are not teachers do not think.

Jimmy Reaves is a member of the Student Government Association. He is a member of the Georgia State University Honor Society, and a member of the Phi Delta Theta fraternity. He is a member of the Anniston High School band, and a member of the Anniston High School orchestra.

The State Board of Education is sure to gain approval for another bit of legislation passed at the last meeting. The board has agreed to raise a salary to thirty of the presidents of the state teachers colleges, including Dr. Reaves. However, Dr. Reaves' salary is only a token of the worth of our president.

Jacksonville students will be quick to agree that Dr. Cole has done his work well since he first came to our college in 1941. Without his leadership and financial assistance, our college would not be the third largest of its kind in the state (ranking behind Alabama and Auburn).

Few college presidents, anywhere in the nation, are as well liked and as respected as the students by the students. As the Teaccoli, Jimmy Reaves undoubtedly expresses the opinion of the vast majority of the student body when he agrees that Dr. Cole has earned every bit of his raise, and more.

Summer Faculty List Reveals New Instructors Here

Several new faculty replacements were announced at the Board of Education meeting by President Houston Cole. In the English Department, Miss Mims is replacing Miss Norma Muller for the high school year. Mrs. Olsen is also teaching in the College of Education.

Ezma Huddleston, the new principal of the high school, is teaching in the College of Education.

Mrs. Douglas Johnson, who is a member of the Writer's Club, was appointed to the staff of the yearbook. Miss Olsen is a member of the Writer's Club, and has given her hometown every reason to be proud of him.

The Teaccoli "Spotlight" has presented impressive number of outstanding students, and the tradition continues with this month's presentation of James A. (Jimmy) Reaves, president of the Student Government Association. Jimmy is a native of Anniston, and has given his hometown every reason to be proud of him.

Baptist Student Disribes Trip To North Carolina Camp

BY OMRE BARNES

"This was truly the most wonder- ful experience of my life," is the usual comment of any student who has spent a week at the Baptist Assembly grounds located in Ridgecrest, North Carolina.

June 3-9 was Baptist Student Summer Class Officers

| SENIOR OFFICERS—(front row) | J. C. Anglin, president; Beth Taylor, social representative; Bob Hand, S.G.A. representative; Bob Hand, S.G.A. representative; (second row) Kay Elkins, vice-president; Verna Lathan, secretary-treasurer; and Clarence Vinson, S.G.A. representative. |
| JUNIOR OFFICERS—(first row) | Frances Hansen, social representative; Jo Ann Lewis, vice-president; Sarah Hooten, secretary-treasurer; Judy Boomer, S.G.A. representative; (second row) Tom Freeman, S.G.A. representative; and Tommy Phillips, president. |

The Social Science Club Organized For Instructors And Students

The Social Science Club, a unique organization on the campus, was formally organized February 24, 1954. This club sponsored by the Instructors in the Sociology Division, draws its members from students who are likely interested in that field of study. The purpose of this organization is to give some students and faculty members in the Social Science Division a chance to meet and discuss topics, either current, past or future, which are of interest to the group.

The regular business meeting was held on the second Wednesday of each month, and the program is presented some time during the month when it is possible for the programers to be present.

For example, the members of March 28 program were all from the three leading gubernatorial candidates, James H. Allen, James E. Folsom, and James E. Folsom. The program discussed the three remaining gubernatorial candidates, and the position of each was outlined.

On April 5, Capt. Moshem Salama, a native of Egypt, conducted an informal discussion of Egypt's problems as an individual nation, and of the problems of the Near East as a group of nations. Twenty-five members attended that meeting and were interested and served refreshments after the program.

On April 28, the Social Science Club heard an unbiased summary of the three leading gubernatorial candidates, James H. Allen, James E. Folsom, and James E. Folsom. The program discussed the three remaining gubernatorial candidates, and the position of each was outlined.

As Foreign Students Depart

The departing foreign students at Jacksonville State College had with them a momento of the International House which they will always treasure. It was a personal letter from Col. H. M. Ayers, head of the International House Department, presented to them as a gift by the International House.

Dora Miranda is spending two weeks with her classmate, Helen Jones, in Amsterdam. Helen will then go to Cuba with her sister to spend the remainder of the summer. Dora will take in Cuba this fall and will return to Jacksonville at a later time.

Mildred Fernandez has returned to Cuba for the summer but will return to her studies here in September. Ben Nodal, also of Cuba, left Miami in February, attended the American Cross aquatic school, and will be in college in August, continuing his education with the American Cross aquatic school.

The Venezuelan twins, Yvonne Goete and Roland Goete, left Miami College, and will return to their home in Venezuela. They are studying at Miami to become better acquainted with the American Cross aquatic school.

On April 28, the Social Science Club heard an unbiased summary of the three leading gubernatorial candidates, James H. Allen, James E. Folsom, and James E. Folsom. The program discussed the three remaining gubernatorial candidates, and the position of each was outlined.

The Social Science Club is yet another young organization, but it is a strong one and is growing rapidly. There is an excellent opportunity for those students in the Social Science field of study (especially majors and minors) to associate with others having the same interests. Those interested in becoming members of the club should contact Louis L. Davis, the only Social Science faculty member.
Baptist Student Describes Trip To North Carolina Camp

BY ORIBE BARNES

"This was truly the most wondrous experience of my life," is the usual comment of any student who has spent a summer in the Baptist student assembly grounds located in Ridgecrest, North Carolina.

June 22 was Baptist Student Union Week at Ridgecrest. This was the week that Miss Lula Leake, Baptist Student Union Director, and I, hapilly spent there.

The mountainous landscape was refreshingly inspiring. However, not all days were as exhilarating.

That week away from hindering things of the world was a fine decision for many students. Some surrendered their lives to God and became home and foreign mission volunteers. Others made decisions concerning vocations.

The Baptist Student Union and the members of Jacksonville's First Baptist Church made it possible for me to go to the Ridgecrest assembly, and I should like to express my gratitude for their generosity.

(Continued from the previous page)

The special awards program not only has the approval of the vast majority of the students; it also has the sanction of the administration and the faculty. In fact, several of our faculty members who are familiar with the program have expressed the hope that it might be expanded to include other colleges within the state much as Who's Who In American Colleges and Universities does now.

Perhaps our Student Government has started something that might someday be adopted by other colleges in our state or even beyond.

Because Among the group with whom I stayed was the Rev. Siysay Sirutinta of Thailand, to be their guest for the summer. "Steve," as he is called, came to the U.S. last fall to secure his education and he plans to be here for 10 years. Only 16 years of age, this college was chosen for him because of his international outlook. Although he is very different from the other students in background, religion and race, they have taken him to their hearts, and he has adapted himself well despite his extreme timidty.

right to be heard. They are more concerned with their right to be heard than with their responsibility.

"If life has taught us anything, it is that you must believe in something; there are many things to believe in despite the teachings of the intelligentsia and the cynics. Young people should anchor their belief in the existence of the human spirit and of God, and chart their courses from there," he concluded.

Nowadays 'roughing it' means driving a car without an automatic gear shift.

Sixteen: "Have you ever been kissed?"

Seventeen: "Only by a three-D movie."
Two Jax CAP Cadets Attend Air Training

Two members of the Jacksonville (Fla.) Air Force Junior ROTC Squadron of the City Air Patrol have returned from a nine-day encampment at Maxwell AFB, Ala.

They are: James David Smith, college student from Jacksonville, and Mr. Landers, director of the Women’s Department of the Birmingham News, James McAdory, feature writer and Bob Mixler, police reporter, of the Birmingham Post-Herald.

The guest speaker was Edward Madison, of Augusta, Ga., who is a distinguished author, playwright and lecturer.

Mr. Marshall delivered an inspiring address about his experiences and opinions conceived during the writing. Some of his best-known works are, “Gandhi,” “Zanadu,” “The Vikings,” and “The Scarlet Letter,” which he considers here recently as a movie.

Friday’s activities came to a close with a reception given in honor of Mr. Marshall.

Saturday’s program featured a “Poet’s Round Table,” planned by work toward his Ph. D. at Columbia University. He did work toward his Ph. D. at Columbia University and Peabody College.

In the rural schools of Randolph County, Mr. Landers began his teaching career. He taught science at Wedowee High School, after which he was principal of Clanton High School.

In 1925, Mr. Landers moved his family to Jacksonville, where he had taught in the summer prior to his return to the regular faculty. He was an eventful year in Mr. Landers’ life, for it was in this year that he married Pearl Badders, from Rowan County.

They now have seventeen children, a son, Mr. Landers, and two daughters, Mr. Jack Rowland, and Mrs. Allen Shelton, principal of the Junior High School and Mr. James Smith, assistant principal, all of the Jacksonville College unit.

Capt. Jack M. Williams, commandant of cadets; Capt. J. W. Hawkins, communications officer; 1st Lt. L. Paul Wilks, engineering officer; 1st Lt. O. B. Hedge, operations officer; 1st Lt. William Bennett and Gordon Wood, officers of the week; and other staff members of the Jacksonville College unit.

As graduating class of 1953 are: James David Smith, college student from Gadsden, and Senior Member of the college CAP squadron. These two CAP members participated in various aviation and military activities with 20 other boys and girls from all over Alabama. This included flight in Air Force planes on local and cross-country cruises; instruction in navigation, weather, reading safety, theory of flight, effects of atomic weapons, physiology of flight, and military courtesy.

The camp ended with graduation ceremonies in which the cadets received certificates of accomplishment and awards for outstanding accomplishment.

G. G. Bennett, communications officer; Ables, Corbin, Smith, assistant supply and college unit.

Mr. Landers Contributed Much To The Spirit of Jacksonville

GRAND OLD MEN

Mr. Landers Contributed Much To The Spirit of Jacksonville

(EDITOR’S NOTE: The following article is one in a series of articles which will appear in the Teacola during the summer season, featuring Mr. E. J. Landers, Dr. J. E., and Coach J. J. Stephenson. The three retired instructors contributed a great deal to the growth and spirit of the college during their long service here.)

... By Judy Trotter

Mr. E. J. Landers is a native Alabamian. He was born and raised in the northern part of Randolph County, where he attended county schools and Clanton High School at Clanton, Alabama. He received his A. B. Degree from the University of Alabama and his M. A. Degree from Columbia University. He did his Ph. D. at Columbia University and Peabody College.

In the rural schools of Randolph County, where he taught in the summer prior to his return to the regular faculty. He was an eventful year in Mr. Landers’ life, for it was in this year that he married Pearl Badders, from Rowan County. They now have seventeen children, a son, Mr. Landers, and two daughters, Mr. Jack Rowland, and Mrs. Allen Shelton, principal of the Junior High School.

SUMMER WORKSHOP (Continued From Page One)

Mr. Landers could always find time to help his students outside of class. As long as he taught he encouraged his pupils and helped them in every possible way. The only payments his students were given were that they helped someone else when given an opportunity.

For twenty years, his chief recreation was croquet. Mrs. Landers joyfully referred to herself as a ‘croquet diva’ and Mr. Landers as a ‘croquet divo!’

SUMMER SGA OFFICERS—Three of the five Student Government Association officers are shown above. Travis Walker, left, is serving as vice-president, and the student government.

Writer’s Conclave—A distinguished author, playwright and lecturer, of the Birmingham Post-Herald, delivered an inspiring address about his experiences and opinions conceived during the writing. Some of his best-known works are, “Gandhi,” “Zanadu,” “The Vikings,” and “The Scarlet Letter,” which he considers here recently as a movie.

Friday’s activities came to a close with a reception given in honor of Mr. Marshall.

Saturday’s program featured a “Poet’s Round Table,” planned by Dr. Calvert reviewed R. P. Blackmur’s “The Melody of Chaos,” in the “Atlantic Monthly.”

The week-end activities came to a close Saturday night with a banquet based on the “Spanish Fiesta” theme.

College Faculty to Have “Faculty House”

The new club is headed by Dr. Calvert, who is a member of the executive board.

MIMOSA BONEST—Work on the 1956 Mimosa is now under way as Editor, J. J. Lewis and Business Manager, James Royal direct the operations on what should be another great yearbook effort. These two students were elected to their offices by the student body during the elections in April.

Two Local Students in Writer’s Conclave

On June 11-12, Dr. William J. Calvert and two members of the Writers Club, Betty Wade of Birmingham and Marian Mima of Anniston, attended the thirty-sixth annual session of the Alabama Writers’ Conclave, held at Alabama College, Montevallo.

Two highlights of the Friday agency were: a journalism panel and a special panel on the use of the good speaker. The panel featured Alyse Willings Walker, director of the Women’s Department, and Fred Taylor, political writer of the Birmingham News.

The Campbell Foundation Officers of the Jacksonville College, elected for the year, are: Mr. Smith, president; Mr. T. E. Montgomery, vice-president; Mr. Bobby Landers, secretary; Mr. Ernest Jones, treasurer; and two members of the executive board.

The three retired instructors contributed a great deal to the growth and spirit of the college during their long service here.

... By Judy Trotter

Mr. E. J. Landers is a native Alabamian. He was born and raised in the northern part of Randolph County, where he attended county schools and Clanton High School at Clanton, Alabama. He received his A. B. Degree from the University of Alabama and his M. A. Degree from Columbia University. He did work toward his Ph. D. at Columbia University and Peabody College.

In the rural schools of Randolph County, Mr. Landers began his teaching career. He taught science at Wedowee High School, after which he was principal of Clanton High School.

In 1925, Mr. Landers made his way to Jacksonville, where he had taught in the summer prior to his return to the regular faculty. He was an eventful year in Mr. Landers’ life, for it was in this year that he married Pearl Badders, from Rowan County.

They now have seventeen children, a son, Mr. Landers, and two daughters, Mr. Jack Rowland, and Mrs. Allen Shelton, principal of the Junior High School.

SUMMER WORKSHOP (Continued From Page One)

Mr. Landers could always find time to help his students outside of class. As long as he taught he encouraged his pupils and helped them in every possible way. The only payments his students were given were that they helped someone else when given an opportunity.

For twenty years, his chief recreation was croquet. Mrs. Landers joyfully referred to herself as a ‘croquet diva’ and Mr. Landers as a ‘croquet divo!’

SUMMER SGA OFFICERS—Three of the five Student Government Association officers are shown above. Travis Walker, left, is serving as vice-president, and the student government.

Writer’s Conclave—A distinguished author, playwright and lecturer, of the Birmingham Post-Herald, delivered an inspiring address about his experiences and opinions conceived during the writing. Some of his best-known works are, “Gandhi,” “Zanadu,” “The Vikings,” and “The Scarlet Letter,” which he considers here recently as a movie.

—MADE LUTRELL DAY—

Tuesday, June 29, 1954
FBLA (Continued From Page One) 
employment preference. From this information, a card file was set up on each business student who was aiming at that business occupation.

Letters were sent out to various business students with the request that they contact the placement bureau for prospective employment and informing them of the availability and talents of this year’s graduates. Similar letters were also sent to school systems in the interest of students graduating in business teacher-training.

Businessmen Askill Bureau Personal contacts were made in various ways; for example, the Association and Gundermann branches of the National Diet Accountants Association were invited to send a detail of discussion of what the accounting field has to offer.

STATE COLLEGE—Landers was selected business graduate as well as what is expected of them by their employers. The members of the Nursing Core offered to assist the student’s placement Bureau in making the task of placing nurses feasible. As a consequence, a series of open forums were called to visit the site of the leading banks in Birmingham to present business graduates in high schools.

FUGU-DRIVER 
Friends of Miss Evelyn Driver of Philadelphia will be interested to learn of her approaching marriage which will take place on Friday, June 25, at the First Baptist Church in Atlanta.

A worker in Germany’s Russian zone was paid when he showed up at work on time. He was actually using an American watch.

Women wouldn’t wear slacks if they had any right.

Mary B. Williams, McKenzie; Ruth W. Hardrick, Birmingham; John W. Womack, Muscle Shoals; Davis, Ralcan; Mary Green, Blue Mountain; Hattie D. Allen, Austin; Boaz; John D. Dunn, Cheyene.

The washday program will have four areas of study and two weeks will be devoted to each area. They are: (1) group processes—sociograms, role-playing, group dynamics, human relations classes; (2) personality development—school success, goal-setting, achieving status; (3) the emotions; (4) mechanics of speech and achieving status.

The washday program will involve each procedure as follows: floor talk, reading, group work, written reports of readings and experiences, audio-visual lectures, lectures and lecture demonstration, evaluation and construction projects.

Kappa Phi Kappa Active in Summer

By Thomas Freeman

There are perhaps many who are unfamiliar with the Kappa Phi Kappa fraternity on our campus. Founded in 1918, it was organized several years ago.

Kappa Phi Kappa is a professional educational fraternity, the purpose of which is to promote the cause of education by encouraging men of sound moral character and recognized ability to engage in the study of its principles and problems.

Kappa Phi Kappa’s regular meetings are held on the first and third Monday evening of each month. Each year this chapter’s projects have been designed by some deserving male freshman who is interested in the teaching profession. This scholarship pays for materialization fees and books, and is renewable to the same individual after completion of two semesters.

Stansel Cole is president of the local chapter, which is sponsored by J. W. Stephens, student body president, and Dr. Ernest Field, instructor.

Members of the Beta Xi chapter are proud to be a part of the national fraternity. These students planning to make education their profession should make themselves known to the fraternity. As one of their goals, it would be a worthwhile attainment indeed.

WHAT'S THIS—Dora Miranda and David Lacey look as if they had just stepped out on Al Capp’s comic strip for the annual Sadie Hawkins Day celebration, sponsored by the Civil Air Patrol last month.

GAMECOCK BASEBALLERS—Jacksonville’s 1954 baseball team, which completed a full spring schedule last month, is shown with Coach J. W. Stephenson. Included in the group are (front row) Freddie Hall, Virgil Holder, Buddy Hayes, Ernest Munn and Larry Larry. (Second row) Wayne Allen, Buddy Miller, Paul Quin, Harrison Gooch, and Coach Stephenson.

Miss Luttrell HONORED—Miss Maude Luttrell, Jacksonville’s beloved English Instructor, received a surprise gift certificate for local students and faculty members for her trip to Europe this summer. Awarding the gift is Neil Lefon (right), while Mr. Miles enjoys the ceremony. (See story, this page)
