**Learned From The Chimes**

I think it's ready, olan. Mountain never water anything like it.

I'd like to know just who is the su-and-so who has been praying for rain on my off days. The weather, so far has had a tendency to be nice and pretty all week while I'm tied up inside, than the one day I can get out and go fishing it rains, done did.

Speaking of Castro and Batista — someone mentioned vaguely the old provision in the Cuba Constitution which allowed the U.S. to send troops in to take over the governing forces proved in
carrying out. Thence, over
according to Dr. Woodhouse. (Mr.) Dr. Woodhouse said that clause was amended sometime ago.

However, there is a plot underfoot in the State to send out a force against Cuba and the Castro regime, with the intention of destroying Cuba's internal setup and removing all eligible females to the United States. Solomon Lazard says the Senate is sympathetic to this move, Chapman says the "Wall Street Capitalists Plots," and I say it's Chapman. As a matter of fact, I've asked him to save me a copy of the more of the more comely chicas. Ma gusta es bien vida, Stani.

Where's Joe Garnett going to get around to air-conditioning Chat'Em Inn? Here he's been eleven years. Ten years, and still hasn't got the job done.

While you're at it, Joe, here's another little chore I'd like for you to do: hollow out a recess in the counter down at Chat'Em Inn so Bobby monroe can stand close enough

**JSC Seniors Being Honored During Special Observance**

Senior Week will be observed during the week of May 4 at J. S. C. This is an event which occurs once each semester in honor of the members of the Senior class.

During this week Seniors will be given ribbons of identification to wear which will be distributed in front of the Grab. All Seniors will be expected to wear the ribbons.

Social customs during this week will be altered slightly for undergraduates. The Seniors will be treated with respect. Undergraduates will be expected to carry books for the Seniors, to open doors when possible, and to speak to all Seniors. A section will be reserved in Hammond Hall for the Seniors, and all Seniors are urged to sit in this section. Seniors will, of course, be first in the chow line all week.

The Senior girls will be given 9:00 a.m. permission on Friday night, May 8.

The activities for this week are being planned by officers of the Seniors class, who are: Don Ford, Polly Hartley, LaRue Allen, Carolyn Williams, Bobby Brown, and Lila Akin.

**Certificate Of Achievement Is Awarded Many JSC Students Following Tabulation**

On April 29 students at Jack
sonville were awarded Certificates of Achievement and Letters of Appreciation from Dr. Cole in recognition of outstanding extra-curricular activities that they have done. These rewards were presented by Dr. Cole, Dr. Montgomery, and Mr. Miles at the conclusion of the second Religious Focus Days assembly. The awards system was started in the fall of 1958. The following is a brief outline of the way in which the students are picked for these awards:

At J.S.C. extra-curricular activities are allowed a certain number of merit points according to a scale set up by the S. O. A. At the end of each semester, the faculty advisor for each organization receives a rating sheet which lists the possible total number of merits that the members of his organization can receive. The advisor evaluates the work of the president of the organization. Then the advisor and the president of the organization collaborate to rate the other members of the organization. These sheets are then collected and reviewed by the Special Awards Committee. The total number of merits for each student is tabulated from these rating sheets, and all students who have the required number of merits are put in the class for awards.

The Certificate of Achievement is the highest award which is presented to the students in the awards class who have the highest number of merits. The second award is the Letter of Appreciation, which is presented to those who did good work, but who did not have enough merits for a Certificate of Achievement. Usually, the point between the Certificate and the Letters is the break in the number of merits accumulated by the students under consideration. There is no fixed number of merits for either award.

**Dr. J. H. Buchanan Climaxes Religious Focus Week Here**

April 28 and 29 were days of spiritual inspiration to the student body and faculty alike, at Jacksonville College. Tuesday they assembled in the Louise Cole Auditorium for the first of two speeches made by Dr. John H. Buchanan, pastor of the Southside Baptist Church of Birmingham. His topic was "Godship, Love, and Marriage." Stressing the importance of one's life companion in one's life, Dr. Buchanan included a set of 18 practical rules for success in marriage.

Beginning with "maintain your personal attractiveness," they included, Eliminate unnecessary irritableness and suave of antisocials; put your part

In this week of pray, talk to God daily and give him a chance to talk to you.

The second speech of Dr. Buchanan's, which took place in the auditorium the following day, was "Where Do We Go From Here", a challenging question to any college student.

Small group meetings presented by the out-of-town speakers assisted by faculty members were held both afternoons. Participation in organizing and planning the religious days is being encouraged by all the religious faculty members and students.
NEA Gives Interesting Facts About Problems Of Schools

The National Education Association (NEA) today issued some eye-opening figures aimed at one of American’s most blind spots—paying for good schools.

It’s a matter of values, rather than just talking about the NEA.

We have the money to pay for education, but we have to decide whether it’s worth as much as new sails or late-model hi-fi's.

That is the stand supported by the NEA in distributing this week to 700,000 educators as a feature in the February issue of the NEA Journal. The report is titled “Is America Afford Better Schools?”

We put more of our tax money into education 25 years ago than we do today, according to the report. In 1902, it was 17 percent, and in 1933 education’s share of all taxes was 25.5 percent. Today, with the cost of education expected to double in the next ten years, only 12 percent of our taxes go for the schools.

Right now, the federal government with its efficient streamlined collection system brings in almost three out of every four tax dollars. Yet despite the national implication of the figures, research in other nations, it pays only four percent of the cost of public education. Local and state governments pay 96 percent.

Looking over local and state tax situations, the NEA feels the ability to handle the 160 percent increase in the cost of education over the next decade. Local and state debt has risen $25 billion per cent since 1940. In addition, states are hampered by competitive tax exemptions and other devices used to attract industry. Unless the federal government assumes a reasonable share of school costs, here’s what the NEA says educators have to look forward to.

A 50 to 90 percent increase in real estate taxes in thousands of communities.

A two to four percent increase in sales taxes in some states.

An increase of 4 to 8 cents in gasoline taxes in several states.

In terms of wealth, the let: the 1970s, America can afford better schools. It points to these statistics:

The value of all goods and services produced in the United States in one year is now $40 billion per cent more than it was in 1868.

Our national income is up 63 percent since 1940. More personal incomes after taxes and our personal saving have doubled in the past 20 years. The price of alcohol in 1948, according to the test, are up 154 percent. We spend $110 billion for new and used cars, $15 billion for alcoholic beverages, $5 billion for cigarettes, and $27 billion for recreation. In the same period, we spent only 78 billion for public elementary and secondary schools.

Aptitude Tests Are Now Ready

Vocational tests, which would cost you $40.00 at a regular testing center, are available to all students are developing in maturity sufficiently to prepare for college. These tests are administered in the office of Dean Willman, the Dean of Students, Rosewood, Jacksonville, Alabama.

The vocational and aptitude tests are given to the student at times suitable to the student and are supervised by the dean’s secretaries.

The tests available for the student are Cleary’s Personality Test, Kuder Preference Record, and it tells the student his likes and dislikes in vocations. Following the seven Diversified Aptitude Tests (D.A.T.) are given. The D.A.T. tests cover the aptitudes or abilities of the student, or rather, they show if the student has the aptitudes or the ability to do what he likes to do, as suggested by the test.

The different aptitude tests identify the student’s aptitudes and abilities, Vocational and Mechanical Reasoning, Spatial Relations, Verbal Reasoning, and Clerical Speed and Accuracy. The Cleary’s Personality Test is given first, and the other six D.A.T. tests take from twenty-five to thirty minutes.

The personality test (Minnneapolis Multifaceted Personality Inventory or MMPI) is a test that is given on request. It does not show any deep secrets, as the student sets the limit to how much he desires to show. The student sets the limits of his personality. This test takes about one hour.

Originally, students are given one of two I.Q. tests on file. The most important, the WAIS, is given to the student only by Dean Willman or his two undergraduate assistants. The other I.Q. test, the Primary Mental Abilities test, is administered by other students.

All the test results are interpreted by Dean Willman for the students. The student’s privacy is protected, and all test results of any type are kept strictly confidential.

Woman driver to friend: "Look how close that maniac is driving ahead of me!"
Frequently in our evaluation of students and how much they contribute toward our college life, we fail to consider the honest effort and hard work undertaken. When we meet Carolyn Williams and James Kimbrough, the terms "school spirit," enthusiasm, effort, and initiative just naturally come to mind.

Carolyn was born in Cedartown, Ga. The first part of her education was obtained in a private school in Americus, Ga., where she attended school from 1943 until 1945. In high school, Carolyn was one of the more active students, and says she was in "about everything that went on." Of important significance, though, she reveals that she was president of the F. F. A., a cheerleader, and a member of the Girls' Varsity basketball team for two years.

In September of that same year, Carolyn set about to obtain her Bachelor of Science degree from Jacksonville. Her major subject is Home Economics, as she is a science minor. Here Carolyn has been an active member of the Leonce Cole Hall Economics Honor Society, being elected to A.P.E. presentative, a dormitory officer and was elected as an alternate cheerleader for three consecutive years, beginning in her freshman year. Presently she is serving as President for the Senior Class.

Carolyn's school spirit and her determination to work can be noted in the fact that she has been on the homecoming committee for several years, has worked on practically every dance that has been held since she enrolled here, and helped the Chapel Committee in its funds drives.

Carolyn's independence and her earnest desire to complete her education have been expressed by her efforts to provide for her own college career. Besides her activities and social efforts, Carolyn works a full-time job as a dormitory monitor every since she enrolled. She should be commended for her endeavors.

Jacksonville will lose Carolyn in the July graduation. About her future, Carolyn says she plans to become a high school home economics teacher (but she doesn't know where) and continue her unusual hobby—people. With her ambition and personality, she is sure to succeed.

James is a native of New Site, (That's located near Alexander City). He was graduated from New Site High School, in 1952, when he was Valedictorian of his class. To go with his academic accomplishments, James was Captain of the basketball and baseball teams, and was an "All-County" basketball star. He also served as president of both his junior and senior classes. A pretty remarkable combination.

The first two years of his college education were obtained at Southern Union at Wed-ley. While there, he served as treasurer of the SGA. Then in the spring of 1957, he transferred to Jacksonville. His accomplishments here have been numerous. He has served as a Treasurer of Kappa Phi Kappa, Secretary of Delta Lambda Phi Mu Alpha, a member of the Ushers' Club, head of the awards committee of SGA, a member of the Social Science Honor Society, and he has intramural sports program. As a conscientious B.S.B.E. student, he has served as Sunday School Representative, editor of the SBU Breese, vice-presidents in the regular term, and president during the summer sessions.

Last summer, James served as president of the SGA, and has just completed a very successful year as vice-president of that organization. (He is eligible to serve as the pen-and-pencil sharpeners and mirrors recent graduates who have purchased a dormitory permit, and is not refundable.) Her ambition and personality, she is sure to succeed.

James, too, has shown initiative in securing his college degree. He has been a faithful "line boy" and dishwasher in show halls since he came to Jacksonville. He is the nice, friendly guy who speaks to almost everybody and calls you by name as you carry your clean clothes to the wash-room. (A trait few of us can boast.)

Man-Hunting
Is Made Legal
By S-H Week

The gala week of Sadie Hawkins at J'ville campus opened intrepid opportunity to the females of the campus last Monday as they purchased their "man-hunting" licenses, thus legalizing their formerly restricted impulses.

Mrs. Marlin S. Keeler appeared Wednesday evening to present the inaugural vows to unmarried couples.

Thursday Miss Sadie Hawkins herself emerged to reign over the square dance in front of the student center. (She had been posing as Doris Quayle all this time.)

These unusual advances of the girls have now subsided, and you boys may now sigh with relief. And the girls—

They will have these moments to remember.

NOTE

Room reservations are now being made in the office of the Director of Housing, Room 204, Bibb Braves, for the summer and fall semesters.

The reservation fee for all students for the summer session is $1.00. Present J. S. C. Students will receive a room for the fall semester for $1.00. The fee for transfer students and war students for the fall semester will be $5.00. This fee is credited to the account of the student.

In the fall of 1959 Jacksonville will see its largest enrollment. The dormitories will accommodate just so many students; and there is a great possibility that there will not be room next fall for all those who wish to stay in the dormitories. Of course, this is a matter of first come, first served.

If you lived in the dorm this semester, a room will not be automatically reserved for you for the next semester. You must apply for a room reservation if you wish to continue living in the dorm.

A service charge of three dollars which is not refundable and is not credited to the student's account will be charged to all students who apply for a room reservation during and after registration.

NOTE—INTERVIEW

College men who would like to earn $80 per week during the summer plus $100 to $500 cash bonus, should report to Bibb Graves Lounge from 1-3 p.m., today, May 4 for a ten minute interview.

Jaxmen Top Southern Union
For Eleventh Win Of Season

The Gamecocks got back on the winning road Thursday with a 8-4 victory over Southern Union. The local boys came from behind to chalk up their eleventh win of the year.

Things got off a bad start for Coach Lovrich's squad. In the first inning Yardhough, Bell and Perry collected hits off the hurling of Don Traylor. The Bisons scored two runs to go ahead 2-0.

In the top of the fourth inning the Bisons' first batter, Newton was hit by a pitched ball. Two errors and a walk gave the visitors another run.

After four scoreless innings the Gamecocks finally broke into the scoring column in the fifth. Floyd Wilkes got on base on an error and later scored Jacksonville's first run.

In the seventh the Jax men began to hit the Southern Union pitcher like they owned him. Hank O'Neil, Bud McCarley and Don Traylor all collected singles to push across two big runs. Then Southern Union still had a one run lead 4-3 going into the eighth inning.

The eighth inning was the big one for the local boys. The Jaxmen battered three Southern Union pitchers in this inning for five big runs and a 9-3 lead.

Don Traylor went the distance on the mound for the Gamecocks. Traylor gave up four runs and nine hits. The left-handers whipped five Bison batters.

Bob Ford was the big man of the game for the Gamecocks with three hits in five trips to the plate. Joe Ford had the only extra base blow for the Jaxmen. Only six of the Gamecocks hit safely.

The MAN BEHIND THE PLATE—Bob Ford, catcher for the J'ville nine, has proven himself to be one of the best catchers in collegiate baseball. Bob just doesn't mismash behind the plate and what a pay he has . . . they just don't steal bases on him either.

Regulations Are Announced
For Intramural Competition

The Jax State baseball team boasts a record of 21
victories against 13 losses—as of April 30. The J’ville nine conquered
Southern Union 8 to 4 by a diagonal 2 to 3 loss to St. Bernard.

Saturday, April 25, Jax State displayed their array of batting power...driving in 15 runs against a tough Florence State team. The J’ville batting order looked like “Murderers Row” to the Florence pitchers...Hondo Wilkes, Jim Emminger, Hank O’Neill...Bob McCarty, Don Taylor, Joe Ford, Bob Ford and Lester Bollinger.

Getting home runs for Jax State were Jimmy Emminger, Hank O’Neill and Bob Carty.

Jim Emminger is leading the Jax’s team in the home run department with 9 to his credit, and it is his total number which enabled the Gamecock to be.

Clyde Swint, a first baseman while playing prop football at B. C. Comer High School of Slidacooas and rower of the fabulous Gamecock rowing crew, is awarding a week to each player for his base run hits. Clyde should certainly be recognized for his support of the Jax baseball team.

Something probably unknown to many Jax Emminger State baseball followers, is the fact that Don Traylor, who is mostly seen playing first base for the Gamecock, is one of the best pitchers on the Jax team. Don is one of the Captains of the team and he carries a big loadforgetting about a potent job at first base and pitching.

Joe Ford, the other Co-Captain of the baseball squad has looked outstanding at third base. Joe, a senior from Gadsden, leads the J’ville batting column with a big .349 average.

Two good reasons why the baseball team has been doing so well defensively are Floyd (Hondo) Wilkes, second base, and Hank O’Neill, shortstop. Before coming to J’ville, Hondo and Hank thought they would give up baseball a try. They...spent the 1954 springing on a try-out basis with the Chattanooga Lookouts. Before signing with them, Hondo and Hank decided to finish their education but they still say that what baseball they have learned in the past, they really learned it that spring.

In closing, Craig Copland, the tall and handsome basketball player, has been seen working hard on his hook shot...he wants a starting position on Coach Robertson’s quintet next winter.

Don Traylor

SPORTS SHORTS

The students at Jacksonville State College are proud of the 1959 baseball team. This bunch of boys have played tremendous baseball this year. Any of the ardent Gamecock fans will tell you that a large part of this success goes to the catcher for the Jaxmen—Bob Ford.

Bob is a man with powerful arm which he uses to throw that little white ball like a bullet. Many would-be base runners can wince for this, Mr. Barb, is also a powerful man with the stick and has sufficient proof of this.

Bob went to high school at Gadsden where he participated in football and baseball. Even though he was outstanding in both sports, baseball was his favorite. Bob graduated from high school in 1952.

High school Bob went to Statesboro, Ga., to work. In Statesboro he also played baseball and was rated among the top baseball performers in that section of the county.

Bob later went to Ft. Bliss, Texas on a vacation with his Uncle Sam. Though playing soldier a lot of the time Bob often found his way to the baseball diamond. Playing in Fort Bliss he squad that won the 4th Army championship. He was also on a championship football team while stationed at the same base.

After serving his time in the Army, Bob continued playing baseball.

This time at Kokoma, Indians, where he got many hits, scored a lot of runs and even knocked a few

Jax Netters Are Facing Tough Going

April 22, the Jax State netters dropped a nine puck match to their No. 6 team, 9-0. The College Town’s best two girls playing for Florida State University, Marilyn Voges and Betty Buhl, were ranked among the top amatu-

The Jax netters dropped another match, April 29...but by a close margin, to St. Bernard. Joe Ford, 6-2, and Judy McNeel for Jacksonville were Mike Livingston, Joe Coudrens, Don Nix, and Livington.

Stacy Shaw double team.

The Jax netters have had rough going all season and it seems as though the bad luck has ridden Jax players in every match.

Buddy Patsy, a senior from Gadsden, has moved up from the Netters’ bench to the last two years’ team. No. 3 man playing in his playing has improved 100% this year. He should be congratulated for the effort he has put forth.

LIVINGSTON junior from Chickamauga, Ga., is one of the top players on the Jax squad. Stacy’s record certainty does not reveal his talent and ability.

Joe 4

Single: Joe 4 (SB) 6-1, 6-2, 6-1, 3 loss to St. Bernard.

Davey (SB) defeated St. Bernard 6-1, 6-2, 6-1, 6-1.

Lynch (SB) defeated Jax 3-6, 2-3, 4-6, 5-6.

McDougalls (SB) defeated Wayne 6-2, 6-1.

McDougalls (SB) defeated Way 6-2, 6-1.

Oenbrink (SB) defeated Atkins 6-1, 6-2, 6-1.

Double

Livingston-Shaw (SB) defeated Lynch-Dover 6-1, 6-2, 6-1.

Dogan-Oenbrink (SB) defeated Pattys-Nix (SB) 6-4, 5-7, 6-3.

Tennis Tourney Now In Full Swing

The Omega Delta Pi tennis tournament was held on April 15. The tournament, divided into two divisions, SB, 6-1, 6-2, 6-1, 6-1. The boys’ division had more than forty entries, while the girls’ division had seven. There are six clubs representative of the organization division of the tournament.

In the boys’ division most of the top interclub games have been played. However, there is no indication as to who may be the winner of the tournament.

The strongest entry in the competition is the University of Alabama.

The favorite in the girls division is Mary Livington.
All Heavy Smokers Face Lung Cancer, Surgeon Declares

A world-famed chest surgeon makes a grim prediction in the March Reader's Digest. Says lung cancer — unless heart disease or other illness claims him first — of every 100 persons who develop the disease, only five will be alive five years later.

In an article condensed from a publication of the American Medical Association, Dr. Ochsner states that the physician must accept the odds that face lung-cancer victims. Of every hundred cases, 65 are so ravaged by the time they see a doctor that surgery is a waste; 10 simply refuse to even die on the operating table. Then there are 6 or 7 who die without further surgery after inspection shows them to be inoperable; they die within a few months.

The remaining 22 face one of the most difficult surgical operations performed in the usually delicate surgical state. Even worse, every patient must endure at least 9 months of excruciating suspense before he can be considered cured. Only five of these 22, even in the best of conditions, survive these five years.

The rapid growth of lung cancer is very imperative. Every heavy smoker over 45 owes himself the minimum protection of having a chest X-ray at least every 5 years; preferably every three months. With such precaution lung cancer might become 50 per cent curable, instead of 95 per cent only.

The conference was a discussion of Religion in Schools. Father D. Ratcliff, recently inaugurated President of Howard College, was guest speaker. The topic of his speech was "Service Above Self." His message was perhaps one of the most inspiring we had heard.

On Saturday, the conventions were in full swing. Among others gathered ideas on possibilities of finance, and the true meaning of student government. Fay, Jim and I were busy discussing problems of newspaper publication with editors from Auburn, St. Bernard, Troy, Florence, Howard, and Birmingham-Southern. Fay served as leader of this discussion group. Such items as copy, editorials, finances, deadlines, staff members, and selection of editor and staff were discussed and samples of papers were displayed by each college.

When time came for the panel on yearbooks, "Tooby," our discussion leader and advertising manager for Auburn's GLOMERATA, took us into the yearbook office and opened the supplies and storage rooms to workshop procedure. Freely and informally we discussed our problems and procedures and looked over some 1960 yearbooks for ideas and possibilities. Meanwhile, the rest of the Jacksonville delegation were enjoyed conferences on school spirit and activities, and college publications.

Here they are — the newly elected SGA officers who took office on May 1. They are left to right: Joe Garner, president; Don McMillian, vice-president; Brenda Smith, secretary; and Bob Taylor (candidate in runoff for the treasurer who was defeated); and Bill Laney, treasurer.
Students Honored—Students receiving Letters of Appreciation or Certificates of Achievement in recognition of outstanding work: First row, left to right: Louise Pickens, Fay Blackwood, Jerry Sue Hicks, Janine Williams, Joan Swimney, Barbara Lowe, Betty Sue Williams, Lila Akin, Sarah Johnson, Shelby Chandler, and Betty Cooper. Second row, left to right: Don Smith, Sandra Davis, Gall Burgon, James Keith, Robert Barnard, Hal Butler, Bill Lavenby, and Harold Summerville. Third row, left to right: Jim Bennett, Don McMillan, and Kilgore. Fourth row, left to right: "Happy" Tinsley, Bobby Brown, Clark, "Peanut" Sherrell, Horace Harvey, Jerry Clark, and Gary Gregg.

AWARDS

The following received Certificates of Achievement for this Spring Semester, 1959: Richard Belcher, Roanoke; James Kimbrough, Dadeville; Mela Young, Crossville; Charles McCall, Roanoke; LaRue Allen, Lanett; Joe Garner, Hartelle; Sandra Davis, Crossville; and Fay Blackwood, Hartelle.

Letters of Appreciation were presented to the following students: First row, left to right: Danny Tinsley, Bobby Brown, Clark, "Peanut" Sherrell, Horace Harvey, Jerry Clark, and Gary Gregg.

BIOLOGY NOTES—Parthenogenesis—that part of the story of creation which was written by the Parthenians. Be Valve—an emergency valve to be used in the case the regular one fails. Arthropodes—a disease which attacks one joint. Thank you, Dr. Mann.

Mr. Albert Singerman, professor of music at J. C. S., will be presented in a faculty concert in the Leone Cole Auditorium on May 7. This concert is the last event scheduled during National Music Week.
