Additional Annual Dr. Houston Cole Speaks To Birmingham Teachers

The following is a synopsis of a talk given by Dr. Houston Cole to the Birmingham County Teachers on March 5.

10 Educational Commandments

Education will play a vital part in the long, hard battle with communism that lies ahead. It is no longer at the edge of the contest; it is in the middle of the fight. The ultimate outcome of this battle could well be decided in the classrooms of the nation.

During the coming years, it will become increasingly clear that the development of new knowledge and the dissemination of it through our educational system are critical factors in the survival of the country. As we well be learning a drastic lesson of the value of the intellect in human affairs, it behooves us to study the matter of national survival which, I predict, will characterize the program of education during the sixties:

1. As the fundamental need in this country today is the re-establishment of high moral standards, character development is the individual and national strength - we must seize the point of first consideration. The curriculum of heart will receive at much attention as it is the curriculum of the head.

2. The more difficult subjects in the curriculum of the high schools and colleges need greater emphasis and protection. Credits granted in mathematics, science, and foreign languages will increase and those in the "soft" subjects will diminish.

3. Home study, aided and abetted by the parent and perhaps the teacher, will become more fashionable and useful. The child who does not do well in school will attract the attention of others and in the end will be brought to the attention of the school officials.

4. Less attention will be devoted to the goals of adjustment and security and more will be directed to the development of the individual in the face of increasing competitive and organized effort. Individual integrity and fulfillment will take priority. The brighter student, our seed corn of progress, will continue to be uprooted.

5. Flexibility may be taken as an educational impetus.

Ceramic And Glass Exhibit March 14

The work of Earl McCutchen, renowned potter and ceramic artist, is being currently displayed in the gallery of the art department. The gallery hours are 10-4, Monday through Friday, and Saturday from 9-12 P.M.

NEA Meeting Set

Thursday night, March 26, at 7:00 o'clock in the Little Auditorium, the National Education Association will have a business meeting and program. All members are invited to attend.

Notice Students

If you would like to see your high school honored in the high school spotlight, write a proposal or letter to High School, Logan Hall, Jacksonville State College, Jacksonville, Ala. The largest number of postcards received will determine what high school will be honored next, so write today.

Sale To Be Held Tuesday

This week will be the final campaign of the year for those who wish to purchase a copy of the book "TALKIN'." The final sale will run only on Tuesday morning, March 30, from 7-12 A.M. As usual, the annual will be sold in front of the Grab.

All students who made a down payment on their annual and failed to complete their payments may do so at this time. Those who paid $2.50 owe an additional $2.00. Those who paid $1.50 owe an additional $2.00. Or course, anyone who wishes an annual may purchase one at this time for the regular price of $5.50. ALL CHECKS IN-OF-FACE MUST MAKE OUT TO: J. 1961 MIMOSA. NO OTHER CHECKS WILL BE ACCEPTED.

This week will be the only time that money for annuals will be accepted. All late payments must be made by noon on Tuesday. No other sale will be presented, and no money will be taken for annuals after noon on Tuesday.

Science Fair Slated Here

Final plans are being made for the annual Science Fair, scheduled to be held on this campus March 26-28. Sponsored by the Alabama Academy of Science, the fair has been endorsed by numbers of organization, including all students, and individuals, according to Reuben Bomber, coordinator of the fair, interested in the improvement of science education in the state. Dr. Harold Strickland is chairman.

The fair will consist of a display of science exhibitions which the public is invited to inspect; a tour of the Port McCutchen and the Chemical Center; and three general assemblies. The awards will be presented at the Saturday evening dinner.

Students will arrive Friday from 35 high schools in this section. Mr. Bomber said. More than 500 exhibits will be shown, each exhibit will be judged before noon and open for public inspection from 1-2 p.m. on Saturday, and from 9 until 12 o'clock on Sunday.

The exhibits will be displayed in Ayers Science Hall. One of the principal features of the fair will be the tour of the Chemical Corps School at Fort McClellan. The schools have offered their assistance to the fair and are very much interested in the success of the project, Mr. Bomber said, and you are asked to visit the school and see the exhibits.
New Books

Fleur Cowles, The Case of Salvador Dalí. This is a story of a young American artist who becomes involved in the world of art and becomes a close friend of Salvador Dalí. The novel is rich in details, painting the picture of how Dalí’s work influenced his life.

Music Major And Minister Share College’s Spotlight

The curtain opens and Miss Lillian Howell makes her entrance in a new spotlight. Lillian graduated from Fleming High School, Jacksonville, in 1956. While attending Jacksonville High School, she was a member of the Kappa Delta Sigma sorority. She presently holds the position of business manager at the school paper for two years and was vice-president, then entered Canisius Theological School at Syracuse University in September. Upon conclusion of her work there, he plans to become a chaplain in the U. S. Air Force. He recently presented his first sermon at the First Methodist Church of Jacksonville.

During his college attendance at the college, he has been active in the Wesley Foundation, serving as president and in other capacities. He presently serves as the director of Freshman Hall for men.

James L. Keith

Dean’s Office

Is Busy Place

Many and varied are the invaluable services offered to students of Jacksonville State.

Jeanine Conried, 4, and her roommate, 5, have been chosen for the Spotlight. They are two students who have been active in many campus activities.

Science Fair

(Continued from Page 1) Graves at the Saturday morning meeting of the College of Education, the 2004 newspaper columnist and lecturer indicated that there is a need for the career in the arts to be explored by women. The awards will also be handed out at this assembly.

Mr. Boone also explained that an effort is being made to put the fairs on a self-supporting basis and for this reason, contributions are being solicited from clubs, organizations and individuals. Contributions are coming in and it is hoped that others will follow.

The fair is part of the College’s attempt to attract hundreds of students and interested citizens, in addition to those who enter exhibits, and interest in the regional fairs is expected to increase from one year to the next, Mr. Boone pointed out.

Rules Concerning Overcuts

The following are the school rules regarding cuts and overcuts in classes.

1. If a student in Jackson State College

Published semi-monthly except August by the Student body of the State College, Jacksonville, Alabama, and entered as second class matter at the post office at Jacksonville, Alabama under the Act of March 3, 1879.

A Word On Crips

One of the first questions asked by some new JSC students is, "What are the best "crip" courses here?" The best answer to this question—Always usually—at least—is, "Dear friend, you’ve come to the wrong place.

Students attending Jacksonville in the past few months may have noticed the utter lack of "crips," some approving and some loudly protesting the change. However, it is certainly a change for the better, and almost everyone agrees that we will be better off without "Underwater Skateboarding" and the other failed crops. About the only easy ones left are the two popular non-credit courses, "TV III" and the "Creativity" series.

This weeding-out of crop classes has, of course, tended to raise the academic standards of the college, which has been one of the primary aims of the administration and faculty, and we are all very pleased that Jacksonville State College is now rated one of the best institutions of higher education in the state.

At any rate, the final word is that if you have come to Jacksonville State College, you’ve come to the wrong place! —Holmes

A Short Walk...

"Life is a short walk along a narrow thread...beginning and ending in a mysterious unknown. Hope keeps us balanced as we walk the narrow line. Life is as real as we make it...never ends—and, long or short, it is all that we have."

Life is all we have. There are times when we would like to keep it as it is, or freeze it, in a sense. We would like to keep it from changing at times when we have our families and friends around us, when we have enjoyed some success, or when we are in heights of happiness. There are lovely days and lovely hours which we would like to keep behind, but even more we are aware that we cannot hold on to any hour.

Sometimes we have regrets, and wonder what would have been had we lived differently. Thank God we can’t turn the clock back. We must move always—with some problems, with some unanswered questions, with some uncertainties, with some seeming injustices. Often we feel we would like to see the future, and often we would like to change the past.

There are some experiences we would like to elimate from us, and some we would like to live again, or to rerun a part of the picture. But as to the whole picture, we are in no position to appraise it. We see only a short segment, and must learn to live with the facts and solid assurance that the record and account are being kept, that the books will be balanced, that all will receive all they are entitled to, and that no one will be unjustly dealt with in the eternities that follow time.

Life is all we have—a life of endless length—and there is a great purpose and meaning and reason for living, and reason for learning, for trying, for trusting, for improving. We must appreciate the importance of principles. We must have a great compassion for people and their problems, and we must always do our best for life is all we have. —The Improvement Era

Rules Concerning Overcuts

The following are the school rules regarding cuts and overcuts in classes.

1. If a student in is a class, he will be expected to make an application for an extended absence in Dean William’s office, Room 304, Bibb Graves, NO LATER THAN ONE WEEK after the last day he returns to class.

2. If illness in the family is given as the reason for an absence.

3. Excuses will be given for death in the immediate family as usual, but if the death is outside the immediate family, Dean William will consult with the student and the student and his family and see what can be done.

4. The same policy concerning absences for health reasons will be used in the case of those for whom reasonable reasons will be included an attachment note from a doctor, college nurse, parent or guardian.

5. Let it be emphasized once again that the college expects every student to attend every class. Cuts are to be made and saved for emergencies. The student has no obligation whatsoever to use his allotted cuts.
Dr. Choi Visits Son in Korea

The work of UNESCO came closer home this week to a group at the International House, Jacksonville State College, who met and talked with Sung Jun Choi of Seoul, Korea, who was here to visit his son, Suk Won Choi.

Mr. Choi is Director of the Fundamental Education Center of Korea, Seoul, Korea, which is supported by UNESCO of the United Nations Organization.

The faculty of the school is composed of teachers from many nations who are engaged in the task of training young Koreans to be teachers and leaders in the rural communities of that country. This is part of UNESCO's program to combat communism and to raise the standards of underprivileged people.

For several weeks Mr. Choi has been studying at Peabody College, Nashville, Tenn., and later this month he will leave this country and will visit in England, Denmark and France before returning to Korea. He will confer with the President of UNESCO in Paris, and will hold discussions with other UNESCO leaders in those countries.

Before being appointed director at the center, Dr. Choi was professor of economics and business education at the University of Seoul.

Pi Gamma Mu To Have Program

Tuesday evening, March 15, at 6:30 in Room 217, Pi Gamma Mu, national social science honor society, will present an interesting program. Current questions of a challenging nature will be discussed and everyone present will be given an opportunity to contribute to the discussion.

Special guests at the meeting will be second semester history majors who have a 2.0 or better over-all average and upper-classmen who are now qualified to become members of Pi Gamma Mu.

After the program, there will be an informal social hour in the lounge. Refreshments will be served.

SGA Report

The regular meeting of the SGA was held on Tuesday evening, March 8, in the Homecoming assembly. Guest speakers were SGA officers, Mr. and Mrs. Friendt, and the cheerleaders.

The SGA election and the selection of Mr. and Mrs. Friendt will take place on Thursday, April 7. All qualification blanks must be turned in by 2 o'clock on Friday, March 25, for candidates in both contests. Each class is expected to nominate a candidate for Mr. and Miss Friendship. The campaign will get under way at noon on Sunday, March 27. Campaign speeches will be made on April 5.

The cheerleader election was deferred until later in the semester.

Don McMillan was appointed chairman of a committee to study the SGA Constitution and to bring all amendments up to date. He will be assisted by Horace Lipscomb, Joan Smith, and W. D. Watson.

Scott Williams will serve as chairman of the election committee, assisted by Tressie Pass and Gloria Schilling from the SGA council, and three other students will be chosen from the student body.

Chuck Cagle has been appointed president of the senior class to succeed Chuck Swears who is now in law school. Chuck was formerly social chairman of the class.

It was announced that Awards Day will be held on April 6.

Students interested in running for office in the SGA are requested to get qualification blanks from an SGA officer.

Delta Omicron Has Busy Month

The Delta Omicron Chapter of Delta Omicron, a music fraternity, was honored with a visit from the national president, Mrs. Grace Montgomery of Birmingham, on February 17.

On Monday night, February 22nd, Carolyn Hamilton, Jean Davis Harris, and Alice Wilkerson presented the monthly musical. Featured was Puccini's opera, "La Boheme."

Officers elected for the next year were Linda Sparks, president; Bonnie Bartrum, first vice-president; Dorothy Powell, second vice-president; Alice Wilkerson, secretary; Virgil Wills, treasurer; Carolyn Hamilton, feature; Edith Smith, program chairman; Frances Mose, character; Marlene Atchison, historian; and Rosanne Love, publicity.

TALLADEGA HIGH SCHOOL

Collegian Turns Spotlight To Talladega High School

by Wallace Johnson

Talladega High School is located about 30 miles south of Jacksonville in one of Alabama's most progressive areas. Talladega High School is honored to have the highest accreditation offered to high schools in the Southern Association of Colleges and Secondary Schools. The school at present has an enrollment of 900 students which includes the grades nine through twelve.

Talladega High School is one of the few schools in Alabama which offers three basic curricula including college preparatory, general courses for non-college students, and a commercial course.

A new building program has just been completed for the high school. The new additions include a bandroom, lunchroom, auditorium seating 3,000 people, new classroom wing that is composed of twelve classrooms, library, physics and chemistry laboratory, and biology laboratory.

The school has put new emphasis on an improved science program for the school. Besides the new physics, chemistry, and biology laboratories, a science laboratory has been modernized and fully equipped to serve the ninth grade.

Athletics is always a major factor in any high school and Talladega High School takes pride with the time. The football team had a record of six wins, three losses, and a tie under coach Norman Wesley. The basketball team is inching up a successful season with the present record at twelve wins and six losses.

Coach Charles Johnson is the basketball coach, the ninth grade baseball team under Coach Ted Missildine is also having a very successful season.

Coach Missildine also handles the cross-country team.

Coach Frank Wagner's tennis team, after a winning season last year, looks forward to another promising season.

Coach Johnson also coaches the football team which should have a good season, losing only four starters from last year.

Talladega High School is a member of the Alabama Association of School Councils. The student council officers are: Bobby Reeves, president; Mary Jean Thiels, vice-president; George Wallace Johnson, secretary, Walter Belt White, treasurer. The sponsor of the Student Council is Talladega High School Mrs. W. B. Caldwell.

The school paper staff consists of six members. They are Zemm Lanier, Carolyn Orr, Brenda Wesley, Emily Shaddix, Glenda Cosby and Carolyn Vinson.

The yearbook staff produces a book every year. Their officers are Don Phillips, editor; Brenda Johnson, assistant editor; Hugo Murchie, business manager; Carolyn Vinson; secretary; Miss Zora Ellis, sponsor.

The senior class at Jacksonville would like to commend the administrators of Talladega High for the good work they are doing there. Talladega High School is one of the most progressive high schools located in one of Alabama's most progressive regions.

We grant no discounts to the newspaper. We hold like, rights and shall.

We hold like and shall.

Weather Has Played Havoc With JSC's Spring Practice

Percy Powell

Weather Hinders Jackson's Spring Baseball Practice

The cruelly joke of spring: "Hey, Coach Lovrich, how do you like this weather?" "This weather's a real player with us," commented Jackson coach Frank Lovrich Thursday, "we've only been able to go outside two days in four weeks we've been in training. I surely hope there's a break in the weather in the next week or we'll have 11 practice days before we open our exhibition series with Alabama College." The Gamecocks, forsoaking their Alabama neighbors' season because of lack of funds, engage always-alleged College of Alabama in a 5-game exhibition slate which opens Monday, March 28, at Alabama, perennial powerhouse of the strong Michigan Intercollegiate Athletic Association, will be going into northern tour when they drop in on Gamecock for a 5-day visit. According to Coach Lovrich, April 7, when Troy State visits for a 2-game tilt.

Looking ahead to the '60 campaign, Coach Lovrich commented: "I feel we'll have a good defensive nine to throw into the lineup, and we'll have the hitting we need, but right now our hitting and pitching remain the big questions. Of the two, I'm more interested in the idea of what we're going to do in the field. Face Alabama, Jackson, we're supposed to have one of the best defenses in the entire midwest."

In concluding the interview, Coach Lovrich disclosed an unexpected change in the '60 baseball schedule. The Athens-Jackson Coaches' meetings. The Bears will visit here April 4 and play a 2-game series with the Jacksonville State May 16. -H.R.

Garnett New Tennis Coach

Jerry Garnett, one of Florida's all-time predecessors, has been named head tennis coach at Jacksonville State College for the 1960 season. This announcement came from the office of W. B. McColvert, head of JSC's physical education program, Thursday afternoon.

The new mentor, a graduate of Defuniak High and JSC, dis- covered in his first year with the Bears that the '60 Gamecocks would not improve. He was like the manager of the 1959 season opponents. He also stated that the Bears would play Redstone of Huntsville in two exhibition games.

Coach Garnett is a veteran of some 26 seasons, having been with the Dixieland Classic in Birmingham, Ala., as well as the National Invitational Tournament in Beaumont, Texas. Florida's tennis team won the state tournament event during Garnett's final season in the opposing team. He is married to the former Barbara Lacy of Jasper and the father of one son, a year old Steve. The Garnetts make their home at 1300 Moun- tain Lake Drive in Jacksonville. -H.R.

We educators must rededicate ourselves to three basic objectives: we must see that there is purpose and direction in education, we must see that there is value in education, and we must see that there is a substitute for hard work in our society of easy-obj ectives. We succeeded in realizing these three objectives, we will become obvious to the young students that education is no longer a can-sell-an or a manicure. Mg.

Today the deep calls to the deep and the profound calls to the profoundness. The answers are no longer to be found in the superficial. We must now dig deep to find the answers to these questions, or it might be said of us in the future that we fledged while Rome burned.
