

## Elaine Haver places fifth in competition

Miss Elaine Haver, business administration major at JSU, won fifth place recently in the National Miss Future Business Executive of America competition held in San Francisco, Calif.

The daughter of Mr. and

Some 1000 students from colleges and high schools from across the nation attended the national convention, where they heard outstanding speakers from the University of California, University of Washington and the business world.

Miss Haver received the state title of Miss Future Business Executive at the Alabama convention, which was held in April on the JSU campus.

The Jax State chapter of Phi Beta Lambda has ranked high in the annual convention for the past several years.

At the 1966 convention in New Orleans, La., Miss Alice Walker placed fourth in the Miss Future Business Teacher of America contest.

The preceding year in Washington, D. C., Robert Dalton won fifth place nationally as Mr. Future Business Executive of America.

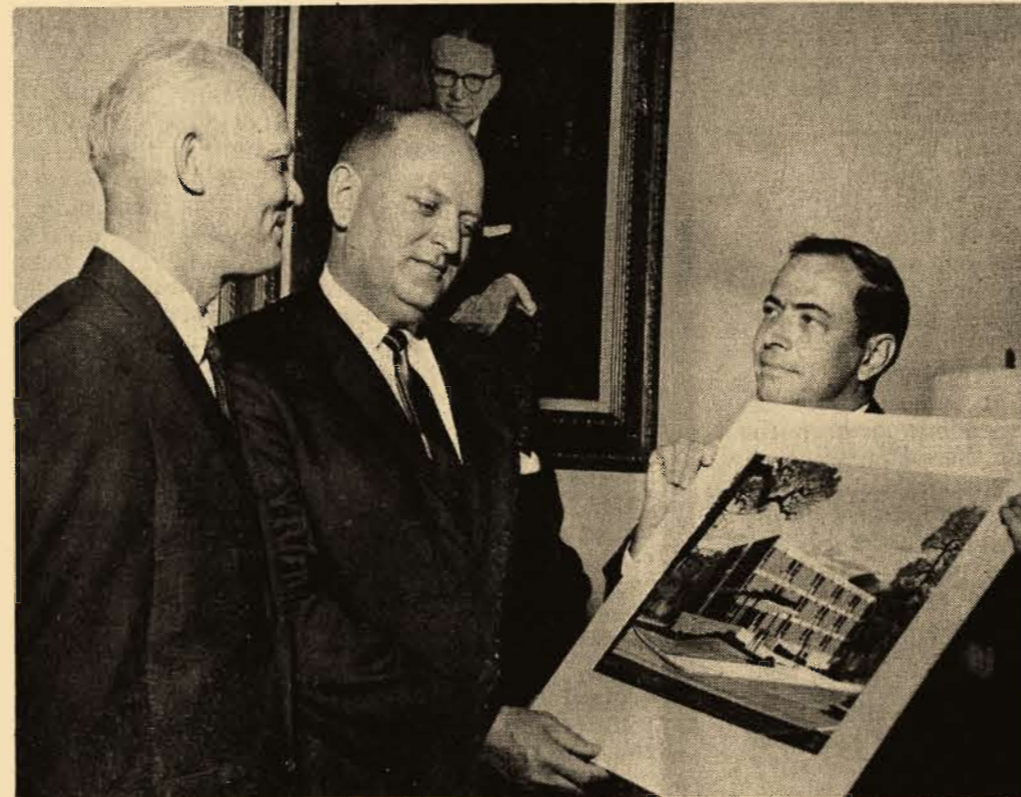

Numerous other awards have been won over the years by Jax students. The chapter itself has also received numerous awards.

ELAINE HAVER

Mrs. A. C. Haver of Wellington, she is a graduate of Alexandria High School and is a junior at JSU.

AREA PRESIDENT VISITS JAX STATE, EXPRESSES OPPOSITION TO EDUCATION APPROPRIATIONS BY LEGISLATIVE COMMITTEE -- From left, Dr. Greene Taylor, head of department of education, Dr. Crews, and Dean Theron Montgomery.

### President of AEA speaks here

## AEA "strongly opposed" to budget, says Crews

The president of the Alabama Education Assn. said Wednesday his organization "is strongly opposed" to the recommended \$277 million educational appropriation and has asked for a public hearing before a joint senate-house committee.

Dr. Alton Crews said at Jacksonville State University the legislative committee of the AEA met last weekend and strongly disagreed with the proposed budget on two major counts; all conditional appropriations and any appropriation for private institutions.

"We are against any conditional appropriations," he said. The joint Senate Finance and Taxation Committee and the House Ways and Means Committee recommended a \$22,177,315 conditional appropriation -- if funds become available -- to various institutions.

"Also the AEA is against any appropriation to a private institution," Crews said. There are three private institutions included in the proposed budget--Marion Institute, \$75,000; Walker Junior Col-

we believe the entire \$22 million now set up as conditional will be available" for absolute appropriations.

"We have requested public hearings before the joint Senate Finance and taxation committee and the House Ways and Means Committee to discuss our complaints," he said.

He said the AEA will ask the joint committee to specify also that none of the education budget "be earmarked for capital outlay" from the Educational Trust Fund.

He made the remarks following his speech to all education majors at Jax State.

In his prepared test, Crews said Alabama had many problems to solve in its public school system and offered four starting points to the future teachers:

1. Systems should reward its best teachers

with challenging ideas. "Put them in special projects during the summer, creating new ideas for the classroom."

2. Utilize academic competition more in public schools. He mentioned science fairs, band days, art contests, or anything that would make the students competitive against each other.

3. A need to expand pre-school system in state. He said remedial reading, remedial spelling and remedial math should be taught students at an early age.

"Why they drop one letter grade in a basic course they should receive special help," he said.

4. Improve our vocational program. He said this is one of the most outdated programs in state. "Teach the children something they can use in industrial jobs of the area," he said.

## Hamrick appointed Mimosa editor

The Publications Board at Jacksonville State University recently announced the appointment of Jeff Hamrick, as the Editor of the Mimosa for the school year 1967-68. Jeff is well qualified to handle this job as he served as Activities Editor for the past year book.

member of the Law Club, has served on the staff of the Student Conference on American Government, 1966-67, was the student chair-

## Roten resigns as BSU director

Mr. Leonard A. Roten resigned as director of the Baptist student work at Jacksonville June 18, after almost 10 years of service. He is leaving his position to accept directorship of student work in a pioneer Baptist area of the Midwestern states.

Mr. Roten came to

## David Cory meets with Jacksonville Jaycees

On Monday night, June 12, David Cory, who is presiding as SGA president for the summer semester, attended a Jack-

This becomes effective Wednesday night, June 28, at 7 p. m. On this opening night, refreshments will be served by Mr. Haver.

ington, she is a graduate of Alexandria High School and is a junior at JSU. Miss Haver represented the Alabama chapter of Phi Beta Lambda at the convention. She has been elected to serve as president of the Alabama chapter of Phi Beta Lambda for 1967-68, and is also an officer of the Jax State chapter.

The JSU co-ed placed in the top nine in competition with 48 contestants who were given the National Business Entrance Examination. She was then interviewed by a panel of California businessmen.

Winners in the contest were announced on the last day of the convention by Hollis Guy, director of the NBEA.

Numerous other awards have been won over the years by Jax students. The chapter itself has also received numerous awards.

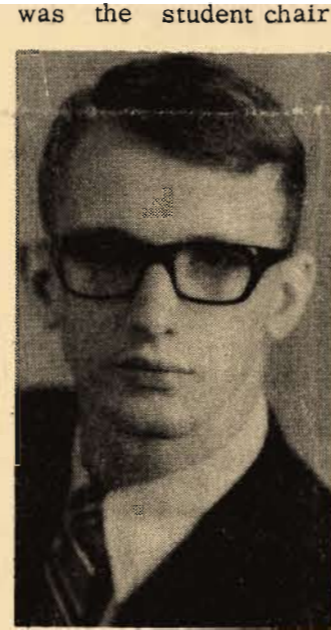

### SGA social calendar

- June 26, Tuesday, Dance.
- June 29, Thursday, Dance.
- July 3, Monday, Speaker, Douglas Edwards.
- July 4, Tuesday, Independence Day, Holiday.
- July 11, Tuesday, Dance.
- Swimming every Monday, Wednesday and Friday nights. M-W. 7-10, Friday, 6-10. Admission 25¢ and an I. D. card.

the Editor of the Mimosa for the school year 1967-68. Jeff is well qualified to handle this job as he served as Activities Editor for the past year book.

Jeff is a native of Spring Valley, New York and entered Jacksonville State in the fall of 1964. Since coming to Jacksonville, Jeff has been active in many clubs and organizations here on campus.

His freshman year saw Jeff serve as SGA Representative for his class, while in the SGA, Jeff received the Outstanding Service Award and also received a letter of Appreciation. Jeff has served as an officer in the Circle K Club, been a

JEFF HAMRICK

man for the 1967 Cancer Drive held on campus this year, and received another Letter of Appreciation for his hard work this past spring.

Upon graduation from Jacksonville State, Jeff hopes to go into the Foreign Service.

Here are a few of Jeff's comments about the 1968 Mimosa. "The 1968 Mimosa will be one book that everyone will be proud of. We are going to shoot for an "All American" book next year. There will be more color pages, more write ups, etc. in the 1968 Mimosa, all for the same price of \$6.75."

Working with Jeff next to make the 1968 Mimosa the best ever are: Don Hillard, assistant editor; Bill Hedges, business manager; Maynard Baker, assistant business manager; John Fowler, circulation manager; Nancy Simmons, executive secretary.

Diane Elam, secretarial staff; Bill Melton and Bob Lawson, activities editors; Sherry Hampton, beauties editor; Laura Acker, senior class editor; Gloria McDonald, junior class editor; George Haynes, music editor; David Bryan, ROTC editor; Janice Boyd and Lou Botta, sports editors; Administration, Lanita Wilson, Bob Whiteside, student index; John O'Brien,

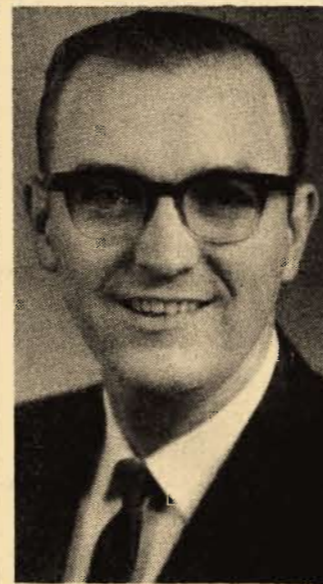

(See HAMRICK, Page 2)

was the student chair-  
 after almost 10 years of service. He is leaving his position to accept directorship of student work in a pioneer Baptist area of the Midwestern states.

Mr. Roten came to Jacksonville State as BSU director in October, 1957, after having served for two years in the United States Army. He is a graduate of Joplin High School, Joplin, Mo., and Southwestern Baptist Theological Seminary at Fort Worth, Tex. Under his leadership, the BSU program on campus has experienced phenomenal growth along with the university. At the time of his resignation, the organization was ministering to 2,224 Baptist students - approximately 52% of the enrollment of the university.

Achievements made under his direction include new programs and organizations, such as the Life Service and, an increased participation in the missions program and nightly vespers. The students purchased a bus in efforts to extend their ministry to worthwhile needs such as the Anniston Nursing Home.

Those who were closely associated with Mr. Roten are confident that his enthusiasm for, and devotion to student work on campus shall be influential for many years and be built upon by future groups of students.

LEONARD ROTEN

against any appropriation to a private institution," Crews said. There are three private institutions included in the proposed budget--Marion Institute, \$75,000; Walker Junior College, \$44,460 and Southern Industrial Institution (Layman Ward) \$42,617. The three also are recommended for a \$50,000 conditional appropriation each."

Dr. Crews, superintendent of Huntsville City School system, spoke at Jax State as part of its monthly Educational Forum.

Crews said his 24,000 member organization has made detailed research of all revenue sources in the state" and

## Douglas Edwards to speak in LCA

Douglas Edwards, CBS news correspondent, will speak at Jacksonville State University on July 3 at 10:30 a. m. in Leone Cole Auditorium.

His visit to Jax State will be a nostalgic return to the town where he attended elementary school. His mother, Mrs. Alice Edwards taught at the Jacksonville Training School, a part of the university system, when Doug was in school here.

His speech topic will be concentrated upon patriotism, and this makes the third year Jax State has had a well known speaker on campus to help celebrate the true meaning of July 4th.

Edwards worked for a brief period at radio stations in Troy and Dothan before joining the CBS Radio News Staff in 1942.

Since that time he has been covering the world scene for CBS, both on radio and television. He is a winner of the highly cherished George Foster Peabody Award for outstanding reporting and for 14 years was anchor man on "Douglas Edwards with the News" on television.

Gaining his popularity back during World War II, Edwards was the origina-

## with Jacksonville Jaycees

On Monday night, June 12, David Cory, who is presiding as SGA president for the summer semester, attended a Jacksonville Jaycee meeting. You might think this rather unusual for a JSU student to attend a Jaycee meeting, but this was the first step in promoting better relations between the city of Jacksonville and the University. The most important issue at the meeting -- at least to we students -- was the exclusive use of the city pool granted to JSU students by the Jacksonville City Recreation Board.

This becomes effective Wednesday night, June 28, at 7 p. m. On this opening night, refreshments will be served by Mr. Haywood. In the future the pool will be open on Monday and Wednesday nights from seven until ten p.m. and on Friday nights from six until ten p.m.

There is a small admission charge of twenty-five cents and one must present his ID card to be admitted. Also a concession stand will be open. The money received from these help to pay the six lifeguards who are also JSU students.

Students! How many times has each of us heard the old familiar phrase -- "There is no place to go and nothing to do around here!" THERE IS a place to go and something to do if you would only take advantage of it. If the opening of the pool, exclusively for students proves successful, it could mean more activities, in correlation with the city, available to all of us. So go swimming and have a good time!

Christina Hill

DOUGLAS EDWARDS

tor of such programs as "Report to the Nation," and "The World Today."

He was the first major radio newsman to make the transition to television in 1947. He has covered conventions, elections, inaugurations, coronations, floods, and has scored several new beats -- including at-the-scene reports on the attempted assassination of President Truman in 1947 and the sinking of the Italian liner Andrea Doria in 1956.

## Federal grant to aid library

Jacksonville State University has received a \$23,567 federal grant for purchase of library books and other library educational material.

The grant comes under Title 2, Part A of the Library Resources Program of the Department of Health, Education and Welfare.

Thirty-three institutions of higher learning in Alabama received funds under the program of which Jax State's was the second highest amount.

All those planning to return in the fall must come by the office of admissions and file a permit to register. Fall schedules will be mailed to those who have a permit on file.

GEM OF THE HILL--Anyone for ice cream? Pretty Miss Kay Fulton, our Gem of the Hill for this issue, prepares one of her summertime favorites. Kay is a sophomore from Birmingham.

# I Speak for Democracy

By ELIZABETH ELLEN EVANS

I am an American.  
 Listen to my words, Fascist, Communist.  
 Listen well, for my country is a strong country,  
 and my message is a strong message.  
 I am an American, and I speak for democracy.  
 My ancestors have left their blood on the green  
 at Lexington and the snow at Valley Forge  
 . . . on the walls of Fort Sumter and the fields  
 at Gettysburg  
 . . . on the waters of the River Marne and in  
 the shadows of the Argonne Forest  
 . . . on the beachheads of Salerno and Nor-  
 mandy and the sands of Okinawa  
 . . . on the bare, bleak hills called Pork Chop  
 and Old Baldy and Heartbreak Ridge.  
 A million and more of my countrymen have died  
 for freedom.  
 My country is their eternal monument.  
 They live on in the laughter of a small boy as  
 he watches a circus clown's antics  
 . . . and in the sweet, delicious coldness of the  
 first bite of peppermint ice cream on the  
 Fourth of July  
 . . . in the little tenseness of a baseball crowd  
 as the umpire calls "Batter up!"  
 . . . and in the high school band's rendition of  
 "Stars and Stripes Forever" in the Memorial  
 Day parade  
 . . . in the clear, sharp ring of a school bell on  
 a fall morning  
 . . . and in the triumph of a six-year-old as he  
 reads aloud for the first time.  
 They live on in the eyes of an Ohio farmer  
 surveying his acres of corn and potatoes and  
 pasture  
 . . . and in the brilliant gold of hundreds of  
 acres of wheat stretching across the flat  
 miles of Kansas  
 . . . in the milling of cattle in the stockyards of  
 Chicago  
 . . . the precision of an assembly line in an  
 automobile factory in Detroit  
 . . . and the perpetual red glow of the nocturnal  
 skylines of Pittsburgh and Birmingham and  
 Gary.  
 They live on in the voice of a young Jewish boy  
 saying the sacred words from the Torah: "Hear  
 O Israel: the Lord our God, the Lord is One.  
 Thou shalt love the Lord thy God with all thy  
 heart and with all thy soul and with all thy  
 might."  
 . . . and in the voice of a Catholic girl praying:  
 "Hail, Mary, full of grace, the Lord is with  
 thee . . ."  
 . . . and in the voice of a Protestant boy sing-  
 ing: "A mighty Fortress is our God, A  
 Bulwark never failing . . ."

An American named Carl Sandburg wrote these words:

"I know a Jew fishcrier down on Maxwell Street with a voice like a north wind blowing over corn stubble in January.

He dangles herring before prospective customers evincing a joy identical with that of Pavlova dancing.

His face is that of a man terribly glad to be selling fish, terribly glad that God made fish, and customers to whom he may call his wares from a pushcart."

There is a voice in the soul of every human being that cries out to be free. America has answered that voice.

America has offered freedom and opportunity such as no land before her has ever known, to a Jew fishcrier down on Maxwell Street with the face of a man terribly glad to be selling fish. She has given him the right to own his pushcart, to sell his herring on Maxwell Street,

. . . she has given him an education for his children, and a tremendous faith in the nation that has made these things his.

Multiply that fishcrier by 160,000,000—160,000,000 mechanics and farmers and housewives and coal miners and truck drivers and chemists and lawyers and plumbers and priests — all glad, terribly glad to be what they are, terribly glad to be free to work and eat and sleep and speak and love and pray and live as they desire, as they believe!

And those 160,000,000 Americans — those 160,000,000 free Americans — have more roast beef and mashed potatoes,

the yield of American labor and land;  
 . . . more automobiles and telephones,  
 . . . more safety razors and bathtubs,  
 . . . more Orlon sweaters and aureomycin,  
 the fruits of American initiative and enterprise;  
 . . . more public schools and life insurance policies,  
 the symbols of American security and faith in the future;  
 . . . more laughter and song —  
 than any other people on earth!

This is my answer, Fascist, Communist!  
 Show me a country greater than our country,  
 show me a people more energetic, creative,  
 progressive —  
 bigger-hearted and happier than our people,  
 not until then will I consider your way of life.  
 For I am an American, and I speak for  
 democracy.

Compliments of The Firestone Tire & Rubber Company, Akron, Ohio

## New recreation available

# Summer can be fun

With summer and hot weather upon us, people all over the country are beginning to select many different forms of recreation. Men and women, boys and girls are choosing from over a hundred different types of exercise that they enjoy.

To some men and women a round or two of golf a week, or several hours of tennis is both relaxing and good exercise.

Some people who exercise who do not like these forms of exercise will find things like swimming or hiking more enjoyable. Or most men will enjoy the quiet and peace on their favorite body of water trying to catch those big fish.

Children have the best opportunity to receive both enjoyment and good exercise. Today, parents send their children to some type of summer camp, where they will be exposed to such sports as, baseball, hiking, swimming and many other forms of good exercise.

Boys have such organizations as Little League, Pony League Babe Ruth and American Legion to keep busy during the summer. These baseball programs reach the boy from age eleven to nineteen. These programs teach the individuals the value of team play plus teaches the importance of winning and losing.

For the college students, golf, tennis and swimming provide the exercise necessary for the body. Here at Jacksonville State the intramural program

The festival of Whitsun, or Pentecost, falls on the seventh Sunday after Easter. The English celebrate Whitmonday with games, sports, dancing, ale-quaffing and general springtime revelry.

throughout the year offers many different types of recreation. Touch football, basketball, volleyball, softball, horseshoes and sometimes tennis are just some of the sports offered for the students.

So why not get out and get some exercise.

## SGA meets

David Milam, vice-president called the first meeting of the summer to order, and David Cory gave the invocation.

Roll was called, and the minutes of the previous meeting were read and approved.

Summer replacements for the executive officers were named and the S. G. A. gave its approval. The summer replacements are:

President, David Cory  
 Vice-president, Kenneth McMahan, Treasurer,  
 Mary Burkhalter.

David appointed a committee to take charge of the Freshman Election of class officers which will be held on Monday June 19. Kenneth McMahan will be in charge of the committee and his assistants will be: Jan Helsley, Mary Burkhalter, Larry Luedenburg, Shelia Rayfield, Jeff Hamrick, Carol Harris, Dianne Elam, Phyllis Pearson, and David Goldman.

David Cory made a suggestion that we have movies shown on campus this summer, and that a committee be appointed to check into this matter. After much discussion David Goldman made a motion that the S. G. A. take a poll in the Chow Hall to see if the students would support the movies if shown. The motion was seconded and approved, and Kenneth McMahan will be in charge of the poll.  
 David Cory told the

NEW DOCTOR ON CAMPUS--Students and faculty welcome Dr. Folo, newly-appointed school physician. Here Dr. Folo, with the aid of his nurse, Mrs. Phyllis Helms, examine one of the many students on campus who seek their professional attention.

## Book Review

### The Tolkien books

by: VIRGINIA OVERTON

There are two books which have been sweeping the world with overwhelming popularity. These books are known as the Tolkien books. The two of them run in a kind of pattern. The first is entitled "The Hobbit". In this book, the story only starts. It is continued in the next volume, thus ending in the section of the second entitled "The Return of the King".

Before I go on, I'd better give a little background about the story itself. You see: Once long, long ago before the big people took over the earth, there lived deep in Middle Earth a race of people known as hobbits. Hobbits were known for their ability to do great deals of nothing

volcano where it was made. The volcano is in the heart of Mordor, the land of the enemy. The book ends with the cosmic War of the Rings, in which the forces of good and evil have a battle. The forces of good triumph and the ring is destroyed.

The writer of these books is as different as his writings. At the age of nine, Tolkien invented his own language, but his mother disapproved so he destroyed it. He was a scholarly man and at Oxford he studied philology, especially Anglo-Saxon and Scandinavian, and became interested in the technical side (etymology, phonology, semantics and the rest) as well as esthetics (beauty and form) of languages

# Take a ride on the Reading

Are you interested in the people around you? Do different types of people arouse your curiosity? Just imagine the great varieties of people in the world today. The best way to learn about them is to read about them. Contemporary authors provide insights into the lives and activities of people of every kind.

Now that you know how to learn about people, you might want to know what to read about them. For realistic fiction, read EVERYTHING THAT RISES MUST CONVERGE. Not a book for people who are easily shocked, this is a collection of short stories concerning today's South. The book firmly explores the dilemmas of people who to maintain bygone values. A mean old man adores his young granddaughter; it is not until she attacks him in the woods that he discovers how much they are alike. A "good, church-going woman" learns about her true self from a hysterical young girl in a doctor's waiting room. This collection provides a penetrating study of very human people.

MR. SPIELBERGER, known to us as being in the Sociology Department, read of a new society in Israel that engages in the practice of communism without guns or force. Melford S. Spire, the author of KIBBUTZ -- VENTURE IN UTOPIA, gives interesting facts about the society.

The people of Kibbutz are Jews who have sought refuge from persecution and have decided that equal sharing of work and rewards will be their salvation. The Kibbutz infants leave the family and are raised by nurses: the family sees

the child for two hours at night and on holidays. At age 18, the youth is required to leave the Kibbutz for at least one year to see if he wants to live in the society or elsewhere. This is an interesting study of people trying to cultivate the not-as-yet-successful society.

Speaking of noticing different types of people, have you been reading about the crime activities in the United States? What makes up a criminal? How does his mind work?

These questions must have led SIMONE SUD-DUTH, a sophomore and a member of the American Reading Public, to look for fuller accounts of crime and reasons behind violence. Then she found a Truman Capote's IN COLD BLOOD, a non-fictional report of the brutal murder of a mid-

### SEND HOME A BOX TOP

Marine S. Sgt. Tony Salazar was on field duty from a source of stationery.

On one side of the box top received by Mr. and Mrs. J.M. Salazar was written: "Meal Combat, Individual, Ham and Eggs, Chopped, B-3 unit."

On the other side was this message: "Doing fine, am out in the field. What do you think of my writing gear..." and the Albuquerque street address of his parents.

In our college post office, a collection box appeared marked: Help the Blind Fund. It filled up rapidly with small change. One day it was replaced by a card which read: Thank You for Your Contributions. The Venetian Blinds for Our Dormitory Room Have No Been Purchased.

western farm family.

The family was a model family with no enemies, possessing no unusual wealth. The killers were a Mexican and a half-breed having no intent to rob -- only to kill. They brutally murdered the father, the mother, and two teenage children. Each murder is clearly and horriably described. Capote's interviews with the two murderers in prison reveal their individual motives and reactions.

The purpose of this column is to find out what the students of JSU are reading. I know that once in a while you enjoy escaping the pages assigned to you, and read a bit for your own interests. If you have recently read a contemporary novel, let me know. So, what say we curl up and read?

Peggy Crowder

After a swim in the pool at the University of Berkeley campus, a professor found that his shoes and socks were missing from the locker room. Since the weather was mild, he decided to walk barefoot to a nearby shoe store, attired in a business suit, white shirt and tie. He was somewhat disappointed when no one gave him a second glance. The climax came, though, when the clerk, after fitting him with shoes and socks, inquired coolly, "Would you like to wear them, sir, or shall I wrap them up?"

Expenditures by all travelers in Alabama in 1865 rose to \$360 million, and expenditures by out-of-state tourists hit \$222 million—both new highs.

There are 31 moons in all within our solar system. Earth has only one, but many planets have multiple moons. Jupiter wins top honors with a total of 12 moons.

# Desperation

Shadows fall deep and all around  
Wants are stars - but high and very far away  
The glimmer of hope is as the receding  
Comet - seen small and fading gradually  
The years are heavy and never lighten.

Feet stop in the doorway and pause - and  
Decide not where to go.  
Hands grasp, pulling for reality, but  
Finding it not - neither find fantasy.

Life is barely here, barely there.  
Never stable - always weaving back and forth;  
Evil calls, and I listen, but never do I answer -  
Why invite?  
Why laugh? Why cry?  
Why love?

### THE STUDY OF KISSING

AHMEDABAD, India (AP) - Information Minister K.K. Shah has offered to organize seminars on kissing on the screen.

Shah told a meeting here that the government wants to ascertain the views of the public before permitting kissing in films.

Kissing is taboo in Indian films and western films are mercilessly pruned to avoid kissing scenes. Where they are permitted to be shown, only adults are sold tickets for such shows.

Even King Charles of England advertised for his lost dog back in 1660. The classified ad read: "We must call upon you again for a Black Dog. . . It is His Majesty's own Dog, and doubtless was stolen, for the Dog was not born or bred in England, and would never forsake His Master. Who-soever finds him may acquaint any at Whitehall for the Dog was better known at Court, than those who stole him. Will they never leave robbing His Majesty? Must he not keep a Dog?"

the students would support the movies if shown. The motion was seconded and approved, and Kenneth McMahan will be in charge of the poll.

David Cory told the S. G. A. that he was to attend a meeting of the City Recreation Board after this meeting to see about the possibility of having a pass to the city pool for the students, and would make a report at the next S. G. A meeting.

Larry Luedenburg moved to adjourn, and since there was no further business to be discussed the meeting was closed.

Respectfully Submitted,  
Theresa Caretti, Secretary

# Hamrick

clubs and organizations editor, and John Coleman, as the monster man.

Anyone interested in working on the Mimosa, please contact Jeff for there are about twelve positions still open, including: Art Editor, Copy Editor, and many assistant editors and general workers jobs.

## Do you know how to restore the breath of life?

1 Place one hand under victim's neck and lift. Tilt head back as far as possible by holding the crown of the head with your other hand.

2 Pull chin upward until the head is tilted back fully. This is essential for keeping the air passage open.

3 Place your mouth tightly over victim's mouth. Pinch nostrils shut. Breathe hard enough to make the chest rise. For babies and very young children, cover both nose and mouth tightly with your mouth. (For an adult, breathe vigorously about 12 times a minute. For a small child, take relatively short breaths, about 20 per minute.)

4 Remove mouth. Listen for sound of returning air. If you don't hear it, recheck head position. Breathe again. If you still get no air exchange, turn victim on side and slap between shoulders to dislodge foreign matter. Repeat breathing, removing mouth each time for escape of air. Don't give up. If possible, call a physician.

before the big people took over the earth, there lived deep in Middle Earth a race of people known as hobbits. Hobbits were known for their ability to do great deals of nothing in particular and do it very well.

Hobbits were invented by a man named Professor J. R. R. Tolkien. He pictured them as being very small, with furry feet and a love for peace, quiet, and good things to eat. The hobbits all lived in an imaginary glen called Shire. Of course there were also dwarves, elves, and fairies in Shire, but these were the lesser inhabitants. The hobbits, you see, were the RESPECTABLE folk. It was forbidden for hobbits to be adventurous. The very thought of an adventure sent any half-way decent hobbit into hiding for at least a month - that is, most hobbits. There was one hobbit who always seemed to find adventures, whether he wanted them or not. This hobbit's name was Bilbo Baggins. In the story, Bilbo goes along with thirteen dwarves and a wizard named Gandalf to help recover a treasure stolen by a dragon centuries before. Dragons were notorious for stealing in those days and what they stole, they guarded in a cave until they died, which was forever, because dragons never die. In the course of his adventures, Bilbo finds and brings home as a souvenir a magic ring that can make its bearer invisible.

Part of the story of the ring is told in "The Hobbit". It continues, then, in "The Lord of the Rings." This section opens some sixty years after the events in "The Hobbit". During this interval in time, Bilbo has been in Rivendell with some elves. The ring, which carries evil, has been passed from Bilbo to his nephew Frodo. The second book tells of an attempt of Frodo the Hobbit, Gandalf, and a company of Elves, Dwarves, and Men to destroy the power of the Dark Lord by taking the ring to the

especially Anglo-Saxon and Scandinavian, and became interested in the technical side (etymology, phonology, semantics and the rest) as well as esthetics (beauty and form) of languages. He has invented such languages as Elvish, for Quenya, Sindarin, Gray Eleven and other tongues of Middle Earth.

At first glance, these books would seem to be merely a series of children's stories. But as you read these books, it becomes apparent that they are more than an enchanting collection of bedtime stories. The characters in the books come to symbolize kinds of people who are content with life as it is; those who are afraid to change their comfortable life for fear they will upset their lukewarm situation. The dwarves represent those people in our society who are willing to risk a little for the sake of making life

a little better. Gandalf seems to represent a cross between a universal temptor and a lifelong friend. Bilbo, himself, is an example of what all the lukewarm conservative populations of the world could do if they just had the initiative.

The Tolkien books are truly delightful light reading and are enjoyable I think, to all ages.

UNIQUE DOUBLE BALTIMORE (AP) - Louis J. Schaefer holds the distinction of being the only man to ride and train a Preakness winner.

# Mother, daughter attend JSU

"You and Mike stay home and batch it this summer, and Jan and I will go to college and live on the Jax State campus," said Mrs. Billy Rains in a family discussion of family plans earlier this year at Sardis.

Her husband - - Bill Rains, principal of Sardis High School in Etowah County - - and the two children agreed. It happened. Jan and her mother now are college students, and Rains and his son are living at home.

A report can't be made from this end on how the two male members of the family are combating dishes and the many other menial tasks of house work, but Mrs. Rains and Jan are doing well at Jacksonville State University.

Mrs. Rains, also a teacher at Sardis, is doing advanced work in library science and Jan, although a high school junior, is enrolled in college English and European history under a unique course of study.

The mother of two says she is confident her husband and son are "doing very well" at home because this type summer arrangement isn't very unusual in their case.

Jan, the daughter, has been involved in college life since she was in kindergarten. While her father attended graduate

MOTHER AND DAUGHTER TEAM-UNIQUE STUDENTS AT JAX STATE THIS SUMMER--Jan and Mrs. Billy Rains of Sardis meet other students, Amelia Watts, Talladega and Ted McDow, Piedmont, between classes.

school she stayed in kindergarten and since her mother started college she has been on the Jax State campus quite frequently.

"We go home every weekend and see about the family," said Mrs. Rains. "They have to do the best they can while we are gone, but so far no trouble."

Mrs. Rains drove 80-90 miles roundtrip to Jax State for the past two semesters for night

classes, but as she says, "I had much rather live on campus. It makes it easier for everyone."

Mike, the son, is enrolled in junior college and is away from home each day but is a lot of

help around the house at night, according to his mother.

Jan's first taste of college studies is "very enjoyable," the 16-year-old said. By taking college courses now, she is getting a tremendous head start on other students her age for the future.

## Courageous woman attends university

JSU has many types of students from many different places, but we have one particular student that we would like to extend an extra special warm welcome.

This student is Mrs. Sara Carmack. Sara has a very strong desire to obtain her degree for

said that she managed fine except the many sidewalks sometimes led her down the wrong way.

She was quick to add that there was usually a helping hand to lead her back.

She thinks that "JSU is a very good school and

## Trivia Quiz

See if you can guess the answers to these simple questions. See our next issue for the answers and some more questions.

1. For what outfit did Steve Wilson work in BIG TOWN?

2. What was Lee Marvin's name in M-SQUAD?

3. In what century did Buck Rogers operate?

4. What was the SAINT'S real name?

5. Who starred in the television series RANCE

## Student Suggestions

Here are a few of the suggestions which are submitted to the school newspaper, in hopes that something might happen.

1. I would like to suggest placing napkins in the tv room of the Grab.

2. I would like for the faculty members to wear name plates and the department in which they teach. I see people who look like teachers, and I wonder if they are, and if they teach.

3. The weather is very nice, and I would like to enjoy it. However, the benches surrounding Jax State University are cruddy. Cruddy means they are: unpainted, splintery, and ruin nice summer clothes. So I suggest you fix them.

'Want to go over to the bridge and play Grab?'

### The Middle East: an evaluation

By MICKEY CRATON

To us in America it is perhaps inconceivable that anyone would fight a war over religion in modern times, yet the recent middle East conflict resulted in large part from just that. It certainly wasn't the only cause of the difficulties, but it was definitely an important factor. Infact, it was for this avowed reason that the Arab people in general wanted to go to war. They called it, you remember, a "holy war". Their leaders, especially Nasser, obviously had other motives in precipitating the situation, but they played upon the religious beliefs of their masses to gain support for the steps they took against Israel.

The Arabs, as you probably know, are largely Moslem in religious belief. To those not familiar with this faith, it might come as a surprise to learn that almost above all else, this major world religion does NOT believe in religious tolerance. In the past, they fought some rather bloody wars to "convert" others to their faith. The "conversion" was usually made as a part of a choice consisting of either accepting the Moslem faith or being killed. To further strengthen this hostile tendency, it was a part of their faith that if anyone was killed in religious battle, they would be rewarded with "heaven". The Moslems were a little more tolerant of Judaism and Christianity, since they recognize Moses, the prophets, and Christ as prophets of their own faith, and since they are also descendants of Abraham.

However, this semi-tolerance of these two faiths is quite different from the Christian tolerance of, say, Buddhism, and when the Jews came in the '40's and took

astrous effects, yet he still has the following of the people. We wonder how this can happen, but we in America aren't accustomed to thinking in terms of thought prevalent in a dictatorship, and neither are we largely illiterate or poorly educated, as is the case in Egypt. The situation is still ripe for Nasser to remain in power.

Nasser is an intelligent man, but is certainly short of being brilliant. He also seems as firmly convinced as ever that he can still be what he desires, though all indications point to a distant date for any sort of effective Arab unity. To keep his power, he has, like many others, played the major powers --the U. S. and Russia-- against each other to gain what he needs namely military material and prestigious showcase projects such as the Aswan Dam. Since the Russians have supplied more arms than the U.S. has food--he has painted himself into a corner with the Russians. The two countries are unlikely bedfellows, for Egypt does not allow the existence of a Communist Party, and Russia has gotten burned at the hands of non-Communist dictators it has befriended several times (notably at the hands of Hitler), but surface anomalies don't keep the two apart. A dictator thrives on power, and this Russia gives Nasser, so he accepts Soviet friendship. The Russians, on the other hand, are after a sphere of influence in the middle East, and aren't particular about how they get it, as long as they don't have to do the fighting (as the Arabs learned so painfully).

So three forces on the Arab side led the the

raeli shipping for food for Egypt from America. Immediately, the rest of the Arab world had to heel to Nasser's call or face a loss of face (and possibly power) from their Moslem subjects. It is difficult to conceive of Saudi Arabia and Jordan siding with Nasser for any other reason than to preserve their own power. They began preparations for war, but the way things rocked along seems to bear out that the Arabs didn't seriously entertain the thought of attacking Israel.

While the rest of the world urged restraint on her, Israel seems to have decided that things were going a little too far. While seemingly willing to wait and talk the situation over, they mobilized their forces for war with the Arabs. To the surprise of most of the world, Israel attacked her Arab neighbors (there seems to be no serious doubt that Israel actually started the shooting).

Many in the Western world, so accustomed to turning the other cheek, or at least waiting until slapped to slap back, were amazed at the brazenness of the Israeli attack with few holds barred. To Israel, it was only logical to do what she did. To have waited until the Arabs were fully mobilized and had started their attack on her would have meant almost certain defeat, owing to the vast numbers of her enemies and the smallness of her own country; Israel's military strategy has always been built on offense rather than defense, which is imminently logical (and successful) because of the special situations she

leading China authorities, identified the book **QUOTATIONS FROM CHAIRMAN MAO TSE-TUNG** as "the principal textbook for the massive indoctrination campaign" currently being conducted by Mao forces in Communist China.

The Professor and author says that the book "is probably the world's best seller today", explaining that "Peking has flooded the country with literally tens of millions of copies. . . in an effort to deify Mao and all of his works. Because the book contains the essence of Maoism as now officially defined, it has become sacred scripture for one-fifth of mankind."

Barnett also answers a question that many may ask -- "Even though millions of Chinese are now reading these extracts from Maoist dogma, why should Americans bother to do so?"

"There are good reasons. For the foreseeable future, how to cope with China will be one of the most difficult problems for U. S. foreign policy. To deal with China successfully, we must clearly improve our understanding of the forces now at work there.

And to achieve this improved understanding, some knowledge of the "thought of Mao Tse-Tung" is essential. For these reasons, the non-communist world cannot afford to ignore Mao's writings on subjects such as class struggle, the "mass line," and "people's war," as summarized in this volume."

**QUOTATIONS FROM CHAIRMAN MAO TSE-TUNG**, also known as "the little red book" because of the bright red cover on the Peking edition, capsulates Mao's thought in 33 separate areas.

--**QUOTATIONS FROM MAO TSE-TUNG INTRODUCTION BY A. DOAK BARNETT (PZ-3608. \$1.00. 192 pp. Banam Books, Pub. Date: Feb. 27, 1967.)**

She was quick to add that there was usually a helping hand to lead her back.

This student is Mrs. Sara Carmack. Sara has a very strong desire to obtain her degree, for she has been totally blind all her life. Sara was born in Birmingham, and worked there prior to her education. She was educated (through high school) at Alabama Institute for the Deaf and Blind in Talladega. Sara now makes Talladega her home.

Her one ambition in life is to be a teacher and to be a good one. She believes that she will obtain her degree, "I am not one to start something and not finish it."

When asked about her courses, she began to display all the equipment she uses in her studies. As an entering freshman she is taking English 101, psychology 201, and history 201. She thinks that her three professors, Dr. Stokes, Mr. McCool and Mrs. Goggans, are all very helpful.

When asked about her hobbies, her face lit up and a very happy smile spread across her face. "Oh, my hobby is sewing. I make practically all of my clothes." She then showed some of her beautifully tailored dresses. She learned to sew at the age of 12 and has been sewing since. Housework is also another favorite of hers, she does all of her housework alone. She mentioned cooking, and when asked how she could tell when the food was cooked properly, she said it was a special insight called "smell - a-vision". She has a very strong sense of smell for knowing how long to cook food.

Another favorite past time is reading. Sara reads books in braille, also current magazines come in braille and on records. When asked if anything about the campus confused her, she

She was quick to add that there was usually a helping hand to lead her back.

She thinks that "JSU is a very good school and everyone has been so thoughtful and nice--it is really a gratifying experience to me."

When asked if being blind bothered her, she answered, "The problem of seeing is the least worry I have, the Lord had a purpose for this. There is a lot of joy in life and I grasp all I can of it."

Can we say that?  
--Marilyn Waldrep

3. In what century did Buck Rogers operate?  
4. What was the SAINT'S real name?  
5. Who starred in the television series, RANGE RIDER?  
6. What did OLD KING COLE call for?  
7. What was CHEY-ENNE'S last name?  
8. Who married LI'L ABNER and DAISEY MAE?  
9. Who was janitor at the Mystic Knights of the Sea Lodge Hall?  
10. Who starred in the movie, LOST WEEK - END?

The first historic site to be established by any state was George Washington's headquarters at Newburgh, N.Y. It is the farmhouse from which he directed troops during the final 16 months of the Revolution. It was there too that he rejected the suggestion he become king of the new country and that he established the Order of the Purple Heart.

## Quotes

Q: "What do you think about LSD?"

A: "Oh, I don't know... I think he's a pretty good president."

Q: "Coach, what am I going to do? I made four 'F's' and one 'D'."

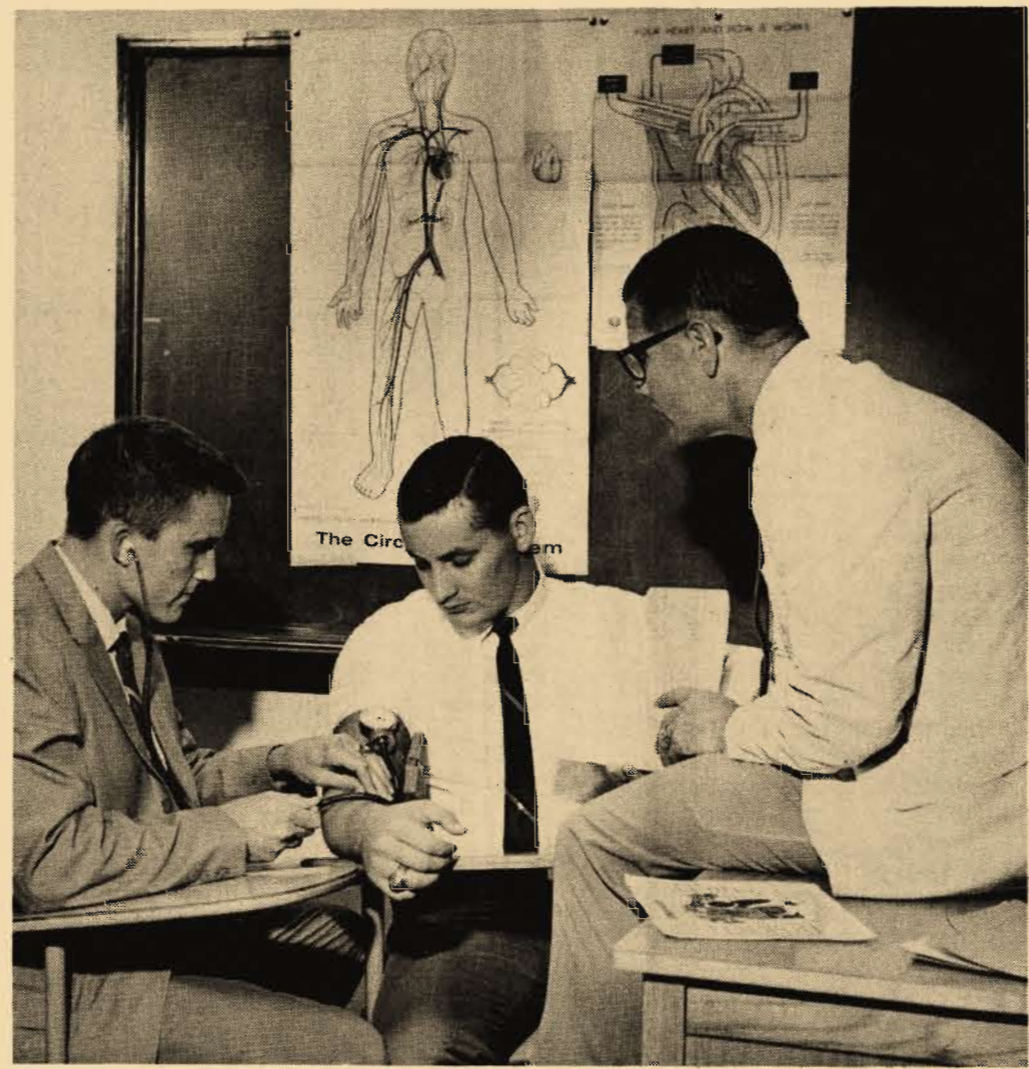

A: "You're concentrating too much effort on one subject."

Q: "What do you think of the new name for the newspaper?"

A: "What was the old name?"

Q: "What do you think about free love?"

A: "Well, my pappy always said that you get what you pay for."

**PHYSICAL EDUCATION GRADUATE STUDENTS LEARN MEDICINE** -- All graduate physical education students at Jacksonville State University are taught to take blood pressure, and utilize the advantage when teaching physical courses. Dr. Don Salls, right, is professor of all P. E. graduate courses. He is of the opinion that correct blood pressure is necessary for all participating in physical exercises, and especially of those students lacking proper medical records for courses. Shown, from left are: Steve Ellard of Mundeford, Jerry Edmonds of Jacksonville and Dr. Salls.

However, this semi-tolerance of these two faiths is quite different from the Christian tolerance of, say, Buddhism, and when the Jews came in the '40's and took Palestine from Arab peoples, it was a little too much to bear. Since that time, this hatred has been stronger than any desire for coexistence. The Arab world's avowed purpose is to get rid of the Jews in Israel and restore the country to the Arabs. This desire is on the whole quite apart from any thoughts of economic gain, for Israel is hardly an economic plum. True, the Israelis have set up a productive economy, but it is highly doubtful that the Arabs could do as well. Then again, it isn't because Israel poses any threat to the Arab world's existence. Granted, the Israelis could probably pretty well wipe the Arab lands off of the map, as the brief conflict just concluded so aptly demonstrated, but Israel has no desire to do this, or she would have already done so. Israel has made many efforts to enlist the cooperation of the Arab world for mutual benefit economically, and Israel still has this desire, but Arab hatred has so far been a greater force that a desire for economic gain.

However, this religious prejudice, even though stronger than any rare prejudice in America, must be viewed in the context of two other forces -- Nasser and Communism. It is doubtful if their religious differences, if left alone, would have precipitated the three conflicts fought between the Arabs and Israelis in the last 20 years. It was a force that needed guidance and it has gotten it in the form of Nasser.

Nasser, the Egyptian dictator, is simply a man looking for power. He has envisioned a unified Arab world with himself as leader. Like all successful dictators, he has a powerful personal charisma for his followers, as we see today. He has led his people into a war with dis-

ways been built on offense rather than defense, which is imminently logical (and successful) because of the special situations she

So three forces on the Arab side led the the hostilities -- Moslem religious hatred of the Jews, which was harnessed by Nasser, who was given arms to start some kind of trouble by the Russians. But the Israelis did some fighting too, and their force that drove them into the conflict can be summed up in the simple desire for their own continued existence.

Tracing back over the events themselves that led to the conflict, we begin with the Egyptian blockade of the Gulf of Aquaba. Why did Nasser do it? Well, things were going badly for Nasser-- he never had done anything notable for the people, who had been fed often by American food, and so he had some internal trouble. In addition, he was badly at odds with much of the rest of the Arab world, being in a sort of war with Saudia Arabia in Yemen and calling for the overthrow of all monarchies remaining, especially the westward leaning King Hussein of Jordan. Also, his continued desire to rule a united Arab world could not go too well with the leaders of the other nations that he desired to rule. Nasser needed a little action. Their religion being the only effective unifying force in the Arab world, he revived with force the old cry of a "holy war" against the Israelis by blockading the Gulf of Aquaba, and the Israelis made it clear that they considered maritime shipping was necessary for their existence, and therefore they considered this an act of war. Using our hindsight, it seems likely that Nasser never seriously entertained the idea of going to war with Israel. He, with the encouragement of the Russians, was engaged in a little brinkmanship to build up their image and possibly, as many have suggested, trade free passage in the Gulf of Aquaba for Is-

ways been built on offense rather than defense, which is imminently logical (and successful) because of the special situations she faces. Having taken enough from the Arabs (mainly the blockading of the Gulf of Aquaba and having the troops mass at her borders), Israel quite naturally decided that its only hope was to attack with full force. They did. The results are history. The Arabs were caught flat-footed (again which seems to indicate that they didn't seriously contemplate war) and were out of the war in the first hours when Israel assumed air supremacy.

The reasons, then, for the war seem reasonably clear. But three wars have already been fought, and is there yet any real hope of there not one occurring again? Not yet. As someone pointed out, the Arab world can loose a number of wars and not be destroyed, for Israel, and world opinion, are not out to conquer the Arabs, but if the Israelis loose once, they loose everything, for the Arabs have made it starkly clear that the conquest of Israel is exactly their purpose.

What will prevent another war then? Some things must be accomplished, but I offer no plan as to how. The foremost issue is a settlement of the Palestinian refugee problem. After that, it seems clear some border adjustments need to be made to remove the temptation, as it were, of the countries raiding one another so frequently, and some plan must be worked out for the free passage of people to the Holy Shrines in Jerusalem. Other problems include the issue of free passage in the Gulf of Aquaba and the Suez Canal, and just a general acceptance of the idea that all of the countries have a right to exist. Egypt's rejection of Nasser would be a good first step in settling these problems.

### Baseball and the American language

Baseball has had a powerful effect on the American language and vividly demonstrates how much baseball affects the everyday conversation of people who may never have attended a professional game. For instance:

What we like is called A HIT. The man who fails has STRUCK OUT, or at best DOESN'T GET TO FIRST BASE. A person who is indiscreet is WAY OFF BASE and may end up being CAUGHT OFF BASE. When we are unprepared, we are sometimes CAUGHT OUT IN LEFT FIELD. Our salesmen make PITCHES. When we understand a situation, we GET THE PITCH. Otherwise, we DON'T CATCH. The opponent in an argument who makes an extreme statement to retrieve a lost point is REALLY REACHING FOR IT. An unfortunate mistake is A REAL BLOOPER. A person who behaves eccentrically is A SCREWBALL -- one not to be trusted is A FOUL BALL. When we refuse to be discouraged, it's because WE'LL GET OUR INNINGS.

If you're getting pressure from both sides, you may be the victim of a SQUEEZE PLAY. Until you get going, you're just WARMING UP. After that, you're RIGHT IN THERE, PITCHING. When you cover every contingency, you TOUCH ALL THE BASES. But when you compete outside your class, you're NOT IN THE SAME LEAGUE.

The man who is ready to cooperate is WILLING TO PLAY BALL WITH US. The fellow who operates against big handicaps has TWO STRIKES AGAINST HIM. The one who does something purely for effect is making A GRAND STAND PLAY. And the one who tries to refuse an invitation gracefully, asks for A RAINCHECK.

## From the sidelines

... with Lou Botta

Before I get into my subject matter this issue, there are a couple of matters that need to be cleared up.

First, the entire staff of the CHANTICLEER would like to extend to Coach Beard and his wife our congratulations on the birth of their baby son. It looks like Coach Blevins will have a fine prospect for the football team in about 20 years.

Next, I would like to retract a statement made about Coach Rankin's team in last spring's intersquad game. I made the statement that Coach Rankin's team had the best players, but Coach Rankin assured me that the squads were equally

divided.

My subject matter this issue is baseball, in the South. This traveling typewriter has made trips to Birmingham and to Atlanta and has seen a great contrast in the type of play. I first intended to discuss these differences, but instead I decided to tell about my adventures on these trips.

Along with my baseball associates, Raleigh Jay Brock, Jim Kirkland, Joe Hutto and Glenn Ferguson, we set out for Birmingham to see the exhibition game between the Kansas City A's and the Birmingham A's. The trip started out normal we got lost on the way to pick up Joe and left An-

niston around 5 p.m. and arrived in Birmingham around 5:45, just in time to eat at the A-1 Cafe.

Then it was a quick trip to Rickwood and an enjoyable evening of baseball. At the ballgame it was our pleasure to be entertained by a couple of highly spirited fans, who got half the stands drunk off the fumes. Feeling no pain after the game it took us no time to get back to school.

The next day part of our merry band made the long trip to the capital of Georgia, where we enjoyed the Atlanta Braves play and defeat the San Francisco Giants. It seemed that these drunk fans who were in Birmingham were also at Atlanta. The only sour note of the whole night was the constant complaining of two little boys sitting behind us. These boys were the leaders of the anti-Denis Menke Fan Club. They didn't have a kind word for the Braves' shortstop, even though Menke did drive in the winning runs. The return to school was uneventful and when we arrived back at home it was just in time for the party behind held at my house.

Yes, we are going to return to Atlanta, so watch for further adventures.

See you next issue.

## Sports quiz

Here are the answers to the questions which appeared in the last issue of the paper. Also here are

# Intramural games begin at Jacksonville State

The boy's intramural softball season got off to a fast start as all eight teams saw action in the opening week, with a close race predicted this season.

In the opening game, Jerry Johnson and Jimmy Ellis of the Nameless 9, combined to no-hit the Coxmen in a 5-1 win for the Nine. Johnson pitched five innings, and Ellis

finished up with two perfect innings of relief.

Leading the attack for the Nine was Richard Ellis, who had two doubles in three bats and Rudy Bramlett who cracked a long home run to center field.

In the second game the Cobras, (formerly the Go-Hards, who were IM champs last summer) blasted the Cherries by the score of 9-2, making them a strong contender for the title. Pacing the Cobras were Terry Smith, Jackie Brown and Dwight Holcomb.

Last semester's IM champs, the Creekmen, picked up where they left off bouncing the Combinations 5-2. The Creekmen look as strong as they did at the end of last semester and they could be the first team to capture two softball titles in quite a while. Standouts for the Creekmen were Glenn Ferguson, Freddy Bobo, Neal Elrod, Ken Elrod, and Brice Rumsey.

In the final game of the week, historic news was made when Ralph Taylor talked Lee Man-

ners out of retirement, but it seems that Ralph needs to patch up his outfield, as the Gashouse Gang overcame a four run deficit to defeat the Ridgerunners 5-0. Leading the way for the Gashouse Gang was Richard

Cochran and Sonny Harwell, while Ralph and Randy Taylor had two hits apiece for the losers.

After almost a delay of a week, the girl's softball season got underway. Rain forced the postponement of the schedule opener, where Joe Hutto was supposed to toss out the first pitch. If the game had

In the only girl's action of the week, the No-Gooders, (who are really good) downed the Rowan

Runners by the score of 22-2. The Runners were playing without the services of outfielder, Marilyn Waldrep who jumped the team to join another team, it was rumored the new team is the Nameless 9. The Runners fell behind six runs in the first innings and could not catch up. Leading hitter for the No-Gooders was Jesse Schaeffer who blazed three home runs. Cricket Crumley, went the distance for the No-Gooders

### SCORES AND STANDINGS

Nameless 9	5
Coxmen	1
Cobras	9
Cherries	2
Gashouse Gang	5
Ridgerunners	4
Creekmen	5
Combinations	2
Coxmen	12
Combinations	7
Nameless 9	5
Cherries	1

### STANDING THROUGH JUNE 20

TEAMS	W	L	GB
No-Gooders	1	0	-
Curtis Cadeletts	1	0	-

## Marc Calton plays in county golf tournament at Anniston

MARC CALTON  
... to play in tournament

Marc Calton, who served as golf coach this past spring at Jacksonville State has gained one of the spots in the final of the Calhoun County Golf Tournament, being conducted at the Anniston Country Club. The final round was Sunday June 25.

Calton qualified for the tournament by shooting a round of 72, and has defeated several top golfers in the county to gain finals. In the first round, Calton defeated John Sellers. Marc shot a 71 and Sellers had a 75. In the second match, Calton defeated Dick Beckman, who shot a 69, in the qualifying round. Calton shot a 67, and Beckman shot a 72. Last Sunday Calton shot a 69 to beat Charlie Wilson who had a 72.

If he wins the tournament, he will win a new set of Arnold Palmer irons and a years free membership at the Anniston Municipal Course. If he finishes second he will win a set of Arnold Palmer woods. Calton, a student-coach at JSU guided

## quiz

Here are the answers to the questions which appeared in the last issue of the paper. Also here are some more questions.

### ANSWERS

(1) .406

(2) Ralph Branca, Brooklyn, threw a home run ball to Bobby Thomson, N. Y., in the last of the 9th third play-off game; it won the game and the pennant for the giants.

(3) Ty Cobb, most lifetime hits

(4) They all do, we didn't say, "only one leg".

(5) He hit .438

### QUESTIONS

1. Why was Thom Zachary, Washington Senator pitcher, unhappy with Babe Ruth in 1927?

2. Billy Wambsganss (that's right), Cleveland, has something to so with a triple play in the 1920 World Series. What was it?

3. Test your grammer: Which is correct: Paul Waner were a Tiger outfielder, or Paul Waner was a Tiger outfielder?

4. His nick-name was "Twinkletoes." He replaced Babe Ruth in right field for the Yankees. Who was he?

5. Who was the pin-chitting terror for the Giants in he 1954 World Series against the Indians?

the Gamecock linkment to a 5-4-1 record, in their first year of competition in many years. The Gamecocks also finished third in the Alabama Collegiate Conference Tournament. Other Jacksonville students who took part in the tournament were Larry Hudson, George Veitch, Rick Kelly, Sonny Harwell and instructor Don Salls.

Thurs., June 29	IM	Nameless vs. Gashouse G.
Fri., June 30	BB	Ridge Runners vs. Combinations
Wed., July 5	BB	Creekmen vs. Cherries
Thurs., July 6	IM	Nameless vs. Ridge Runners
