Humphrey Speaks on Viet Nam; Red Cross Awards JSU

Vice President Humphrey praised JSU along with other people and organizations who have contributed blood through the Birmingham Regional Red Cross Center. The luncheon at the Tutwiler Hotel, Birmingham, where A.Z. C. (Cubs) Edward was representing JSU as the awardee of a Red Cross award, was held in the spirit of the efforts of people in central and southern Alabama, and the rest of the country, to demonstrate their support for US troops in Vietnam.

The area of Birmingham added more blood than any other area in the United States during 1965 and 1966.

After congratulating the regional blood donors, particularly the college students, the Vice President's remarks turned from the blood program to the war in Viet Nam. He urged the listeners to remember that the United States has always had it so easy. She has had her revolutions, wars, depressions, succession, and civil wars, and even today, America is once looked on as a simple, struggling nation. Humphrey urged Americans not to view the situation in Viet Nam from their easy chairs.

After praising the progress being made by the volunteer health and medical agencies in Viet Nam, Humphrey defended these efforts with "may I point out that we are trying to bring our allies will save more lives than we lose in the war."

Excerpts from the Vice President's prepared speech included:

- "This is the most essential foundation of all for South Viet Nam. It is the means to deter war, to make it worthwhile for the United States to continue the struggle is all about."
- "Today Ho Chi Minh will not accept the world as it is, and will not go on to nuclear blackmail in any country."

Humphrey defended these efforts with "may I point out that we are trying to bring our allies will save more lives than we lose in the war."

The Vice President went on to say:

"The area of Birmingham added more blood than any other area in the United States during 1965 and 1966."

Candidates Prepare for Campus Politicking

The annual election of SGA officers will be held in the third week of April. This means that candidates must submit their applications for candidacy by April 12, Friday, April 7.

To qualify as a candidate for SGA office, the Constitution of the SGA states that "Each candidate must file with the Secretary of the Student Government Association at least two weeks before the date of the election a written statement of his intent to become a candidate, which must be signed by ten students who are regularly enrolled in the campus, and containing the name of his campaign manager and the office he seeks." (Art. IV, Sec. 2)

A candidate for the presidency must be a junior or senior, the candidate for the offices of vice-president, secretary, and treasurer must be classified seniors or higher.

All candidates "must have been in attendance at JSU three (3) semesters immediately prior to the election not counting summer sessions."

Candidates for offices "must have and maintain an overall 1.525 average for all college credits attempted... Also no candidate may be on any type of college suspension..."

The Student Senate will approve or disapprove the applications and the candidates' records will be checked.

ELECT THE BEST CANDIDATES FOR THE BEST JOB... JUST EXACTLY WHAT ARE THEIR JOBS?

The President of the SGA calls and presides over all the meetings of the Association and the Student Senate; handle all official correspondence of the Association; keep records of all secretarial transactions; serve as the social and planning chairman, as chairman of the Inter-Club Council, and above all, as President should the office of President be vacant.

The Secretary "shall keep and make public records and minutes of the Association and the Student Senate; handle all official correspondence of the Association; keep records of all disciplinary cases; serve as the social and planning chairman, as chairman of the Inter-Club Council, and above all, as President should the office of President be vacant."

The Treasurer handles the money, is responsible for filing that the account books are audited by a CPA twice a year, and, jointly with the President of the SGA, signs all checks written against SGA funds. (See the SGA Constitution, Article II, "Duties of the Officers.)"

The race for SGA president promises to be interesting. Some of the candidates will probably consist of "rivals" from last year's campaign, but more than likely, new issues will be introduced along with a new candidate.

1. SGA President Philip McManus will seek re-election.
2. Another familiar face on the political scene will be that of Jack Sanford, who also ran for President last year.
3. As the early phases of the campaign organization begin to take shape the new candidate appears to be Ralph Walker.

(EDITORS NOTE: As yet, CHANTICLEER reporters have failed to discover any students who plan to run for the other offices, and no one was mentioned, however, in connection with the offices of SGA Treasurer, but nothing came of it. "Who, me?" was the answer we got from Jimmie Goforth.)
ELECT THE BEST CANDIDATES FOR THE BEST JOB. JUST EXACTLY WHAT ARE THEIR JOBS?

The President of the Iota Delta chapter and all the officers of the chapter must be elected. The President and other officers are elected by the students for the term of one year. The election is held at the first meeting of the chapter after the fall semester begins.

The Nominated candidates must be seniors, juniors, or seniors. All elections must be completed before the end of the fall semester. The election will be held on the campus at a time and place determined by the chapter.
The present uproar over the Rhodesian situation has caused a considerable amount of activity here in the United States. This is chiefly alarming terms about the conditions in Rhodesia and the cause of the colony's"...

4-6 p.

The entries will be judged on creative ability,

success of the 2003-2004

will be selected here, and the winners

for presentation of awards and prizes

12 noon

Students remove exhibits

Some 300 projects have been entered in the North-

east Alabama Regional Science Fair. High school

students in a nine-county area are eligible, and

officials say this year's fair will be the largest since

In beginning eight years ago.

Over 60 judges, including space experts from

NASA, Ft. McClellan, and various other federal

agencies will select the winners.

Eight projects and three scientific papers

will be selected here, and the winners automatic-

ly become eligible to compete in the State

Science Fair at Tallapoosa April 6.

The entries will be judged on creativity, scientific

thought, thoroughness, skill, clarity and

dramatic appeal. The areas for entries are botany,

zoology, medicine, and health, chemistry, earth

and space sciences, physics and mathematics.

The nine counties for the Regional meeting are

Calhoun, Etowah, DeKalb, Cherokee, Colbert, St.

Clair, Clay, Randolph and Talladega.

The Northeast Alabama Regional Science Fair will

be held here at Jacksonville State, March 3 to A-

ril 1. Members of Phi Mu Chi Beta look forward to

helping set up tables, guarding doors, typing, guiding

duties, and taking the time of departure and return.

The other card file would contain a description of

the world, the state and the number of card seats

available, the destination and route, and the time of

departure and return.

The other card file would contain a description of

people who want rides, where they想去 and when.

By glancing at the cards a prospective rider or driver

could tell whether there was

no one else was

going any way.

Some camps use a

graph of information

exchange with a map and colored flags. A red

flag means I am going

to that destination.

A blue flag means I am

willing to meet you.

Complete information is, of course, kept on cards

kept in the case above.

An important name on the flag tells interested parties where

the destination is.

Rider Pool

Every weekend there are cars leaving the campus with

some empty seats. At the same time, there are riders

looking frantically for transportation to the same destinations.

How can the two be brought together? A solution has been

suggested by Pat Birchfield of New Hall. Two card files should

be kept, one for the Grab Of

centrally located place.

One file would have cards showing the number of

bus seats available, the destination and route, and the time of

departure and return.

The other card file would contain a description of

people who want rides, where they wish to go and when.

By glancing at the cards a prospective rider or driver

could tell whether there was

Take a ride on the Reading

Are you interested in speaking on the role and importance of reading? Do you want to learn more about the different types of reading materials available today? Do you want to improve your own reading skills? Our guest speaker, an expert in the field of reading, will share his insights and experience with us. This is a great opportunity to learn more about reading and how it can benefit you. Don't miss this chance to expand your knowledge and horizons. Join us for an engaging and informative presentation. Bring your questions and comments, and let's discuss the joys of reading together.

Spotlight JSU Culture on the Campus

By GAIL BAKER

The students of Jacksonville State University have got much to say about their campus life. In this series, we will explore various aspects of campus culture, from the arts to academics, from sports to social life. This series aims to give voice to the students, showcasing their stories, experiences, and perspectives. We hope you will enjoy reading about the diverse and vibrant world of JSU culture.

Haywood speaks

Food Service Director for Jackson Haywood, explains why students are eating off-campus plates more. "College food services all over the country are facing the same challenges," he said. "We've seen a decrease in the number of students eating on campus, and an increase in the number of students eating off-campus." Haywood attributed this change to a variety of factors, including the convenience of eating out, the variety of options available, and the cost. He added, "When you look at the cost of living on campus versus eating out, it makes sense for students to choose off-campus dining more often." Haywood emphasized the importance of diversity in the food service program, stating, "We want to offer a variety of options, from traditional campus dining to more diverse and international options." He concluded, "We are always striving to improve our food service program and meet the needs of our students."
Glass Menagerie hailed as stirring performance

By C. L. SIMPSON

The reading of "The Glass Menagerie," presented last evening at the Jacksonville State University, was a professional performance of the play, as is generally the case. The cast was excellent, and the acting was well done. The director, Mr. Robert M. Woods, did an outstanding job of bringing the play to life.

Woods was able to capture the essence of the characters in "The Glass Menagerie," and the audience was able to connect with them on a deep level. The play was well received, and the audience was applauding at the end.

Death of a salesman

Willie Loman, a Salesman for 40 years, died today of a heart attack. He was 62 years old. Loman had been with the company for over 20 years, and he was well respected by his colleagues.

Loman's death came as a shock to his family and coworkers. They were all very sad to hear the news. Loman was a hard worker and a dedicated employee. He was always willing to go the extra mile to help his customers.

Loman's family and coworkers have set up a memorial fund in his name. They plan to use the money to help those in need.

The company plans to honor Loman at a special ceremony next week. They will also be planting a tree in his honor.

The company's CEO, John Smith, said, "We are all devastated by this loss. Willie was an integral part of our team, and he will be deeply missed."
Gamecocks take Alabama College; McCool stars

Who in the heck is Pete Mathews anyway? This question has been going around campus for months -- even since the "Pete Mathews File" sign was erected.

Pete Mathews, who should know who Pete Mathews is, was Representative Mathews, a graduate of Jacksonville State, and presently Chairman of the Board of the Alabama Means Committee, who threw the first pitch.

It was Jeff McCool of Fairfield who really stood out in Monday's game. McCool pitched two perfect innings of relief and drove in the winning runs with the bottom of the ninth inning.

Bernie made a perfect follow-up to Jeff's start, striking out all six batters he faced.

For the Falcons, Bob McQuirt pitched seven outstanding innings, and Mike Haynes pitched out of a 2-out, runner on third jam in the eighth and was riding high until McCool singled and drove in Larry Blackstone.

Blackstone reached first on an error in the top of the ninth and raced to second on catcher Ken Adams' bunt, setting up the winning run. Even though the Elvis single didn't bring it home.

Gamecocks defeated Alabama College 4-1, giving 19-17 over the year. The high-scoring McCool hit a double and scored a run. Pete Mathews was walking, and Pete Mathews is, of course, perfect in every respect.
 Saints stop Gamecocks 99-77 in semi-finals

The St. Bernard Saints played the devil for the first five minutes in a game with the Gamecocks in the semi-finals of the ACC Tournament and then played 11 minutes of defense and trailing by two points, until pulled off one of their own, comeback to the Saints 99-77.

Has-Beens win Intramural Tournament title in context

The Has-Beens, faculty entry, capture Intramural basketball title

The Has-Beens, the faculty entry in the Intramural basketball tournament, captured the 1966-67 Intramural Basketball title. The faculty team, which finished out the regular with a 7-1 record, got off to a great start with a 52-50 win over the rival faculty team to take home the championship.

In the opening round of the tournament, the faculty team played strong defense, holding the opponents to just 27 points in the final. The Has-Beens were led by Mark Washington, who hit for 14.

Walters Golf season opener

Jacksonville State's golf team got off to a good start with a 275 on Wednesday, March 10, at the Alabama State College. The team scored 286 at the State's last home tournament, while Alabama State shot 296.

This spring marked the Has-Beens' next match will be on April 3, when they travel to Tallahassee to play St. Bernard.

Hustlers; Buck Atkin, Logan - A - Go - Go, Honorable Mention All Tournament. Coach Marc Calton and Has-Beens: Mr. Gary Faulkner, Beena.

Jax State lose pair to Alabama

Joe McCain hit two runs in the first inning, and Linn Artss to lead off the second. In another run in the first, Ken- nelle State stood three home runs in the second inning. Joe McCain followed with a home run in the third, and Linn Artss finished the first game with three runs.

Jax State loses in the second game with a strong firstinning. George Johnson hit a home run while scoring for the day.
