Freshmen welcomed

"We hope that you new freshmen will develop your talents and potentials, and to reach out as leaders in the fields of service and good citizenship." With these words Student Government Association President Philip Mcmahon welcomed the 75 entering freshmen at a special convocation held for them on Wednesday, Jan. 25. In his address to the new freshmen, President Mcmahon also stressed the freshmen that the administration and the entire student body hoped that they, the entering freshmen will help join in making Jacksonville State University the number one university in the state.

Jacksonville University is accepted by NAIA

Dr. Houston Cole, president of Jacksonville State University, recently announced that Jacksonville State had joined the National Association of Intercollegiate Athletics. This organization is composed of small colleges and universities throughout the United States. As a member of the NAIA, Jacksonville State to be eligible to play in the National NAIA Tournament to be held in Kansas City in March.

The winner of the Alabama Collegiate Conference will automatically qualify for one of the two spots in the District 19 playoffs.

Romeros to perform Saturday

The Jacksonville Community Concert in conjunction with the Student Government Association of Jacksonville State University, will present the Romeros, classical guitarists, in Leone Cole Auditorium on Saturday, Feb. 4.

Celendonio Romero and his sons, Celin, Pepe, and Angel, were the first classical guitarists to play at Philharmonic Hall, Lincoln Center, and 19-year-old Angel Romero is the first classical guitarist to perform with the Hollywood Bowl Symphony.

The father, who was born in Malaga and graduated from Madrid Conservatory, has been the only teacher of his sons. Celin specializes in romantic and modern compositions with emphasis on Villa-Lobos; Pepe, both classical and flamenco; and Angel divides his time between baroque and romantic and masters.

Since coming to the U.S. in 1957 to make their home they have given over 80 concerts a season, and have played with the

visitors, and reception area, and an apartment for the dormitory director and his wife.

Abercrombie Hall, which now houses all the athletes will be converted into a women's dorm, with space for 100 coeds. Abercrombie used to be a women's dorm and several years it was converted into an athletic dorm.

$300,000 athletic dormitory to be ready for use next fall

Bids were let out last week on the new $300,000 athletic dormitory to be built next fall on the JSU campus. This will be the first constructed at JSU since obtaining University status last fall. The new athletic

new athletic dormitory, which is to be ready by fall.
SNEA very successful on Jacksonville campus

Teaching is a profession and every profession worth its salt has a professional organization. The professional organization for teachers is called the National Education Association, or NEA. It is a profession that is a true profession. Teaching is a profession that is a true profession. The SNEA is the Student National Education Association. It is the professional organization that serves the Jacksonville State University and prospective teachers.

With a membership drive in full swing for a record membership, the JSU SNEA began this academic year with a strong membership. Under the leadership of its president, Benny Character, the SNEA membership rose to 245 members as of Aug. 28. Over the last year, a record number of 224 members was reported. The SNEA's growth reflects a strong commitment to educational excellence.

The officers of the SNEA for the first semester include a new executive committee and officers. The officers for the first semester are: President, Benny Character; vice-president, Gail Graben; secretary, Serina Maloney; treasurer, Sara Tucker; and advisor, Peggy Whitley.

The SNEA membership drive is ongoing, and the SNEA is seeking new members to join the organization.

Applications being accepted for IIE scholarships

The Institute of International Education announces that it is accepting applications for the IIE Scholarships. The IIE Scholarships are available for the 1967-68 academic year and are designed for graduate students, including teachers in universities and schools. The Institute of International Education will provide financial assistance to qualified American students who will study abroad and learn in another country. The IIE Scholarships are available to qualified American students who will study abroad and learn in another country. The IIE Scholarships are available to qualified American students who will study abroad and learn in another country.
Editorials...

Goodby and hello

On Jan. 20, 147 seniors received degrees, and left to leave their mark on the world. The world will be a little bit better for their contributions, for these 147 graduates will become the teachers, doctors, lawyers and business leaders of the future. These graduates will now have to accept the responsiblity of continuing to make this a great land. The training they received here at Jacksonville State will enable them to meet the problems of the future and come up with the proper solutions. It is with tears in our eyes that we say goodbye to these seniors, but we would like to wish them all the success in the world.

Taking the place of the 147 seniors will be around 7% freshmen who will begin their college training here at JSU. To these freshmen, the COLLEGIAN in behalf of the school would like to welcome you. The four years you spend in college have often been described as the best years of your life, make the most of them. College is a place where a person grows both emotionally and spiritually, for both are necessary in the process of growing up.

The pluses will outweigh the minuses, but at times it will seem the other way around. You can always remember that there is someone available to help you. We hope that your first freshman year here will make the most of your stay at JSU. And I hope that in four years you will be ready to go out in the world and take your place in society.

Pity the cigarette smoker

There was a time when cigarette smokers could puff away until our little hearts were contented. Many people could physically look at our flag, but to mentally grasp the history hidden between the stars and stripes and realize the torture our fore-fathers struggled through is practically impossible. Our flag has been disdanced by unpatriotic actions of many American people. We are fighting among ourselves. We must learn to wait for the community to destroy us, we will destroy ourselves.

We are slowly slipping away from our country and our God, not only the Negro and the Viet Namese, but also our hearts, too.

I wonder how many of us can really look at our flag today, I know many people can physically look at our flag, but to mentally grasp the history hidden between the stars and stripes and realize the torture of events.

Freedom

Today in our society, we hear the cry of non-violence. Today we hear the call for peace, to end all wars and stop hating each other no matter what color our skin may be. But for us to end the wars and stop hating each other no matter what color our skin may be, we must learn to accept the responsibility of being Americans.

High school students favor involuntary draft for non-military tasks

Nearly eight out of ten high school seniors favor the United States adopting a National Service Program under which students would be drafted for involuntary service in non-military activities. Of the total number of boys polled, 56 percent said they would still opt for military service; less than a quarter (23%) said they would choose the alternative service activities (such as the Peace Corps, Medical Corps, and related programs) if available; and 18 percent were undecided. Involuntary service for women was favored by 46 percent of the school's student body. Fifty-two percent of the students queried answereed “yes” to the question: “Should every able-bodied American be required to enter the armed forces for at least one year after graduation?” Fifty-two percent answered “no” and 14 percent had no opinion.

If a National Service Program were adopted, 52 percent of the boys and 69 percent of the girls said they do not think non-military service should be any longer than military service.

The poll, taken by the Institute of Student Opinion of the Schwartz Research Center, New York, involved in-depth questions on the draft, the lottery, and the feeling that a lottery is consistent with our national ideal of equality (53%) follow as possible benefits with these studies.

Syracuse Magazine's ISO nation-wide survey of 1,000 students in 84 high schools nationwide included “tasks of protecting, conserving and developing our country or those countries we wish to aid.”

Sixty-two percent of the students who favor a lottery cite the elimination of loopholes in the draft as the primary benefit from such a system. Elimination of school as a haven for those avoid the draft (60%), and the feeling that a lottery is consistent with our national ideal of equality (53%) follow as possible benefits with these studies.
Applications now offered

Students interested in a career in public admin -
istration in the nation- 
al, state, or local 
government are offered an 
opportunity to apply for a 
fellowship to study at 
Alabama, Kentucky, or 
Tennessee such as the 
University of Alabama, 
Kentucky, and Tennessee.

With one of the most 
hectic weeks in the 
semester over for the 
waiting in line, pulling 
paying fees and finally 
section to the new way 
the new semester 
the new semester 
the new semester.

Completion of the 12-months' training period by 
entitles fellows to a 
service director, Southern Regional 
Training Program in Public Administra-

tion, Drawer I, University, Alabama. The 
deadline for submitting 
applications is March 1.

To a new place and a new 
environment, but the 
transition to the new way 
of life usually takes less 
three months. The 
new setting, like all 
changes, can be 
nerve-racking.

For information and 
applications, students should write to Coleman 
P. Ransone, educational director, Southern Regional 
Training Program in Public Administration, Drawer I, 
University, Alabama. The deadline for submitting 
applications is March 1.

About the Country

“Wife”

Irv Hilton is a local wit and humorist from Winson County. He has been characterized as a Jack-of-All Trades by those who know him. Here is one of the columns that have earned his reputation.

Where do you think the beautiful word, “Wife”, come from? It is the great word in which the English and Saxon languages conquer the French and German. “Wife” means “weaver”. You married ladies must be either See Wife, Page 4

Do not read this article!!!

I have just learned that I was short of copy for this issue. Now I am writing the article for the sole purpose of filling up space. Therefore I strongly suggest that you begun to fall. What were we up to? Well, that’s a story.

Although most people picture caves as having horizontal entrances, there are many that begin as pits. To get down into them it used to be necessary to lower everyone with a winch or to make a cable ladder which could reach to the bottom. Finally rapping or hoisting was borrowed from mountaineering. Now canyons can descend to depths on a single rope without equipment.

So we have come to this quarry to practice climbing down its walls. David and Ralph began to use one method of rapping. One of them would straddle the rope, hanging upright, and would put the free end over his left shoulder, across his chest, and would hold it in his right hand behind his back. Then he would step backward over the cliff, letting the friction of the rope against his body control his descent. Alvin, when it was his turn, wound the nylon rope around a large steel ring attached to his belt, gripped the free end in his hand, and slid off the cliff. In this case the rope was controlled by friction against the ring.

We started on a 25-foot drop that required a 30-foot rope. At each place Alvin and Ralph (who were the last of the rapping) gave several leads they could stop. On the 40-foot drop they used the ring to descend an anchor. And at all these places they had a sliding Prusik in case they should lose control. This device is a simple, slipper-like, rope switch which can hold the rope whether the climber falls, several feet or miles. For instance, if a climber were hanging from a climbing rope and the rope breaks, the prusik would hold the rope and the climber. If the climber slips, the prusik will tighten like a nese finger trap to stop them. Several climbers begin to fall. What were we up to? Well, that’s a story.

Among the “sports” enjoyed by the “guy-who-got-kept-busy-on-Saturday-group, some are, or seem, more dangerous than others. That “sport” was one of them. I was barely perched on the edge of a 60-foot limestone cliff and was slowly sliding off. Above, David Corry was playing my ropes and calling me an idiot. Below, Alvin Tidwell and Ralph Walker were standing back to keep clear of the falling rocks, but were ready to rush forward if I should fall. What were we up to? Well, that’s a story.

The Collegian Spotlight is shamed by the very brilliance of its editor, Miss Sharon Elizabeth Lindsey, daughter of Mr. and Mrs. J. W. Lindsey of Carrolton, Ga. Miss Lindsey, a senior at Jacksonville, has music in her blood. As a member of the A Capella Choir since her very first semester, she has aligned her own interests with those of her school. She has sung with the Madrigalians. She has served as second vice president of Delta Omicron, an international music fraternity; she has marched in a Gudion-Bearer with the “Southmen”; and, if she could not march enough to deserve a position as a member of SNAE, Sigma Tau Delta, and was the Miss Mimosas candidate for Wesley Fellowship in 1965.

Sharon, who majors in mathematics and minores in music and English, still finds time to form very strong relations with the world. She is a member of the 54 students at camp. Presenting the award is Col. Walter Ogilvie, chairman of the awards committee. Ogilvie is a professor on the JSU faculty.

ROTC Cadets honored at Awards Day ceremonies

First Retired Officers Award Presented-- Cadet Col. John Patterson has been selected as the most outstanding Jacksonville State University cadet for his leadership in Summer camp last year. For this devotion to duty, he received the first annual award from the Northeast Alabama Retired Officers Association. Patterson, of Anniston, ranked number one of the 54 students at camp. Presenting the award is Col. Walter Ogilvie, chairman of the awards committee. Ogilvie is a professor on the JSU faculty.

Highest Scholastic Average Honored-- Cadet Col. Peter Eschrig, the graduating brigade commander, was presented a saber by the Jacksonville State University ROTC Association.

Politics and students

Registration

By: HIRAM COGANHEIMIER

Registration is not so easy for a freshman. In fact, it seems that the whole setup is designed to confuse even the most organized individual. Of course, no one thought there was any simple way to register 4000 people who all wanted the same class under the same teacher at the same time.

Since we are talking about the fall or a typical freshman, the feature editor asked me to write my impressions of my first registration experiences. Here they are.

All first-time freshmen were supposed to start registering at 2:30 Wednesday afternoon.

Although the schedule said it would do no good to come early and that only those persons who were scheduled to register at a certain time would be allowed to register at that time, I decided to go early anyway. Instead of waiting until 2:30 when I was supposed to go, I went at 1:30. It’s a good thing that I went early because when I got there the line extended only to the front of Rowan Hall. For a first-time registrant I was lucky because by 2:30 it would become much longer.

Anyway, when we got pretty close to the door, this guy stood up and told us to sit down and not get in line. As we were the last of the line extended only to the front of Rowan Hall, I felt really lucky because I was sure that by 2:30 it would become much longer.

We started on a 25-foot drop that required a 40-foot rope. At each place Alvin and Ralph (who were the last of the rapping) gave several leads they could stop. On the 40-foot drop they used the ring to descend an anchor. And at all these places they had a sliding Prusik in case they should lose control. This device is a simple, slipper-like, rope switch which can hold the rope whether the climber falls, several feet or miles. For instance, if a climber were hanging from a climbing rope and the rope breaks, the prusik would hold the rope and the climber. If the climber slips, the prusik will tighten like a nese finger trap to stop them. Several climbers...
I have just learned that for this issue so I am writing the article for the article for the sake of filling up space. Therefore I strongly suggest that you do not read it, it contains absolutely nothing of any lasting or permanent value.

But you know I have always been amazed at the fact that an individual (including myself) will quite often, in its entirety, something that says absolutely nothing and fall to read something that is right to the side that it is chocked full of good things. Well, that is exactly what you are doing right now.

But it is not too late you can still preserve your power over the written word. You can still cease and desist from reading this article right now. It will take fortitude, it won't be easy, but you can do it. Why don't you stop.

Of course there are several things that will drive you on. There is always the fear that the article might prove meaningful after all. There is the drive that everyone has to do exactly the opposite of what you are widely advised to do. And of course there is always the possibility that one might gain new experiences.

This article is more than just an exercise in trying to say all the things I know about the article. It is also an attempt to provoke some thought about the nature of writing and the way we interact with the written word.

By: DAVID CORY

Most Northerners find humor in our way of speech. Likewise, we joke about the way the Yankess speak. From both sides of this seemingly innocent pastime, no doubt are perpetrated many injustices at the expense of better understanding. This article is an attempt to correct an injustice done the "Drawers," and perhaps, will occasion a reply from the "Twangers" aling some object of their outrage. The appropriateness of the northern ear to distinguish the differences in the Southern pronunciations of "oil," "all," and "law," this writer has foregone his foremost, grape, and chosen another almost as bad, but at least different in some degree. The final selection for treatment is the mixture of these words "you" and "all." The northern-born these two words are used together when addressing only one person, and in perfect imitation of the southern way. Bynum "Hiram" Cellingham of Third Switch, while on a recent tour of the north, reacted naturally to this perculiar manner of address. Each time somebody called him a "you-all," he turned to see who he was with. "Durnest fool way o' talking to a body" he had ever seen.

Well, to the point. In the first place, the expression is not pronounced "you all" with or without a drawl, it is most commonly pronounced "yaw" as in sailing, though sometimes we bear an "L." creep into form "yaw," still as in sailing. In the second place, "yaw" is never meant to represent only one, but several. This procedure very logically differentiates the single

Sharon feels that she is obligated to Alabama for her education, but insists that she wants to teach in Ohio. In fact she just wants to be.

On being questioned about her love affair concerning the present needs of Jacksonville.

European tour planned

We are now approaching that time of year when students wisely ad to day dream a little of traveling, especially to Europe.

But day dreams don't have to be day dreams. This summer on July 31, Capt. Maj. Thomas Monroe, Maj. Mascalin, and Capt. Pvt. Leonard Measner, MIS, will be heading off to Europe. The column will do everything that is expected of it, try to objectively consider the situation and offer a plausible (though not by any means the only)

By: JIMMY NICHOLS

To paraphrase an oft-quoted statement, "Politics and the college student make strange bedfellows," and the JSU campus harbors no exceptions. Increasingly, political activity here at Jacksonville has become a part of most everyone's thinking as the SGA has grown in both prestige and power, and with it has grown the amount of "politicking" necessary to win election to any one of its offices.

This article is dedicated to those who don't have anything to say about the SGA administration or no one person. It does try to objectively consider the situation and offer a plausible (though not by any means the only)

Dedicated SGA president who spent more time in the SGA office than he did in his dorm room. At present probably all SGA officers would readily admit that with greater demands placed upon them than ever before, their schoolwork has at times suffered and a reduction in class load would have been a welcome relief.

And not to overlook the expanding student population, it goes without saying that representing a student body of 900 entails much less responsibility than representing one with 4,000.

But increasing demands place greater demands on the SGA officers' time and energy. As The Journal of 1964, I can remember a most

first-time freshman was more important than the

Cadet Commander honored at Jax State -- Cadet Col. Peter A. Lenkis was awarded a special saber for having served as Brigade Commander of the 1,400 ROTC unit at Jacksonville State University during the ceremonies here this week. Presenting the award is Col. Harry Cottingham (ret) of Jacksonville.

CADET COMMANDER HONORED AT JAX STATE -- Cadet Col. Peter A. Lenkis was awarded a special saber for having served as Brigade Commander of the 1,400 ROTC unit at Jacksonville State University during the ceremonies here this week. Presenting the award is Col. Harry Cottingham (ret) of Jacksonville.
The Jacksonville State University Physical Education Department held an entertainment exhibition on all phases of its gymnasium. The exhibition of "Tinkling" was a sample of the fine work being done in the Physical Education Department of the school. This exhibition of Free Exercise was just one of the many events included in the program.

### Registration

**Cost:** From Page 1

A fact that my name is Goneghineh, at least when I come to determining what will be registered first. By 3 o'clock I was at the door. The man called for me in Calculus or something like that which I understood just enough of to realize that I would not be taking any math or science this semester. About that time the PA system again echoed through the auditorium. Closed: English 201, Section one, two, three, four; ROTC 101, section 14, 26, and 18; math section, 2 and sociology 226 (I looked in the catalog and 226 doesn't even exist in first place.)

For several hours I ran around and around trying to find some class that I could take. Then it was just another example of being a student. The next time I went to the auditorium, I saw two boys and a girl carrying a microphone and a bottle of oxygen (the air gets a little thick sometimes). And by the way, be sure to turn in your religious preference card, otherwise the Bible is delivered to your room. A sleeping bag and box of Bibles are also given to each person registered.

### Politics

Cont. From Page 1

I decided that my English class had gotten mixed up with the microscopes and I decided to look for something that the school had given to me. I went over to get a notebook and was told by the class teacher that I should find a way to register when it comes to determining what I will be doing first. I decided that the only way to do this was to register for the course that I would be taking next semester. By 3 o'clock I was at the door. The man called for me in Calculus or something like that which I understood just enough of to realize that I would not be taking any math or science this semester. About that time the PA system again echoed through the auditorium. Closed: English 201, Section one, two, three, four; ROTC 101, section 14, 26, and 18; math section, 2 and sociology 226 (I looked in the catalog and 226 doesn't even exist in first place.)

### Gamecocks rip Livingston 120-93

The Gamecocks who are averaging 99.9 points a game travel to Birmingham where they will play the rubber game against the Sanford Bulls. Jacksonville State won the first game between the two schools, 95-88, in overtime and the Bulls defeated our Gamecocks 97-87 in the finals of the Southeast Tournament over the Christmas holidays. After the game in the Physical Education Department.

### Gamecocks down Panthers 119-109

The Jacksonville State Gamecocks received a 34 performance from Paul Trammell, and the Gamecocks defeated the Birmingham State Panthers, 119-109, in a game played in Birmingham. Trammell, who has been plagued all season by a rash of minor injuries, finally put forth his best output this season to spark the Gamecocks to their ninth victory this season against three losses. The win also gives the Gamecocks the lead in the two game series against the Panthers this season. Quadroarchs for the Gamecocks were Bill Branchley who cut for 10 points, Buddy Cornelius (7 points), Steve Copeland (3 points), Randy Byars (2 points), Fred Lovorn and Craig Helms each with seven points and Gary Angel (4). The Panthers who fell to Jacksonville State with a score of 99-88, in the opening game of the season, will be in the contest as the Gamecocks build up a 17-point lead by halftime.

### Tennis announcement

Anyone interested in playing on the tennis team this spring, there will be a meeting Tuesday, Jan. 31, at 4 p.m. at the tennis courts.
Wife

Cont. From Page 1

housedwes or house-moms, in the deep sense of the term, you must either weave men's fortunes or feed them and leave them to their own device. Wherever a true wife lives, home is always around her.

Matthew Henry said, "Woman was taken out of man; not out of his head, but out of his feet to be trampled under foot, but out of his side to be equal with him, under his arm to be protected and near his heart to be loved.

"THE CASH WORTH OF A WIFE!" How much is a wife worth as a cash proposition? The question was put by the "American Agriculturist" (N. J.) which compares a few estimates on the value of a wife's service as a business asset. Some of the answers would seem to be protected and near of his feet to be tramp of his other side.

A wife should receive a stated salary is met with band and contrast. The following is an example of a wife's value, according to Matthew Henry.

"The thirty years I have been married, I have prepared 235,425 meals, made up to top, made out of his feet to be trampled under foot, but out of his side to be equal with him, under his arm to be protected and near his heart to be loved.

I got my lemonade stands, chew-

TENNIS PRO? -- Cisco Gonzales', the No. 1 Tennis Pro at 36, shows some of the form that made him the champ that he is, and shows the racket he has used in his last 200 matches.
