Disc Jockeys Needed

The campus radio station is expected to be operational by the summer semester.

Work on the studios located in Bibb Graves Hall is progressing. Studio and transmitting equipment has been ordered and is expected to arrive during mid-April. The station's engineer, Larry Hughes, is making plans to assemble and install all the equipment during the last of April and first of May. Upon the Federal Communications Commission acting, the station will complete all tests and be on the air for summer semester at JSU.

This is the time schedule of events we have proposed and hope to carry out. Of course, much more work is underway in connection with the station. John Turner, station advisor, is working with Hughes in locating and purchasing "odds and ends" items needed for the station construction. Bob Waldrep, program director, is planning the programming format which will be a contemporary type, patterned somewhat similar to WERC-FM in Birmingham. He is also contacting different record distributors and having the station put on their mailing list.

Several students at Jacksonville are also making their plans for their own radio

program. These students are planning to be disc-jockeys for the all-new campus radio station. If you have a desire to be a disc-jockey at the station, you should make arrangements to attend the meeting scheduled for April 9, at 7 p.m. in Room 128 Bibb Graves Hall. This meeting will give everyone a chance to ask questions concerning the station, a chance to see the studios, and make application for a disc-jockey.

If you have doubts about whether you could be a disc-jockey, come and find out the requirements, then make your decision. The station has proposed a minimum of 113 hours of air time to fill each week. We estimate we need around 30 disc-jockeys who can work approximately four hours a week to man the station. As for the requirements of a disc-jockey, they are not difficult so come and investigate the possibility of you being a disc-jockey.

In closing let me encourage you to come and find out all you want to know about the station. Remember that the station will be student operated and the success of the station will depend on your support.

Station Director

Minimester Offers Monasticism Course

This minimester a course will be offered in the History of Monasticism, taught by John Barham.

The course will survey monasticism from its beginning with the desert fathers of the fourth century, to vatican II of the nineteen sixties. Additionally, the class will spend two weeks in two monasteries. The first monastery to be visited is the benedictine Abbey of St. Bernard, in Cullman; the second is the Trapist Monastery of the Holy Spirit, in Conyers, Georgia.

The first week of the History of Monasticism

course will be occupied with reading and lectures on campus. The second and third weeks will be spent at the monasteries. The fourth week will be on campus again, with the class developing summations of their impressions of twentieth-century monasticism, related to monasticism of old.

The purpose in the visits to the monasteries is for the student to emulate the religious life as much as possible, and to discuss and exchange ideas with the monks.

The cost of the trips to Cullman and Conyers will total approximately seventy dollars, which includes meals and lodging in a private room with bath. The class is limited to ten students. Transportation will be provided.

The History of Monasticism course is entirely non-denominational; and although both monasteries visited are Roman Catholic, students will not be required to attend any of the services.

The course will be offered from 12:30 to 2:30 p.m. daily in Room 301, Bibb Graves.

Dedication Set

Dedication ceremonies for JSU's ultra-modern Pete Mathews Coliseum will be held at 4 p.m. Tuesday.

The public is invited to attend the ceremony to honor Mathews, a long-time political leader in Alabama. A member of the University's Board of Trustees, Mathews is an alumnus of Jax State. He has served more than 20 years in the Alabama Legislature, in both the House and Senate.

Following the dedication, Jax State will host the world-famous Harlem Globetrotters in the 5,500 seat coliseum. Tickets are on sale in Gadsden, Anniston and at the Special Services Office at Jax State.

Mathews Coliseum is one of the most complete and

most inclusive health and physical fitness complexes in the entire South, according to Dr. Ernest Stone, university president.

Located on a 40-acre tract of land, the \$2.5million structure houses an olympic size swimming pool, hand ball courts, a physiology room, wrestling room, weight room, dance studio, in addition to seven classrooms and academic offices. The gymnasium floor is utilized for various activity sports as well as the court for the University's basketball program.

The acreage surrounding the coliseum is used for intramural sports programs, one of the most rapidly expanding areas of the University.

JSU Has 9-4 Victory Over Crimson Tide

Jax 9, Alabama 4

"The game was a lot closer than the score indicated."

Well, in the case of the Jax 9-4 victory over the Crimson Tide, it almost applies.

It did until Darrell Ingram blasted a grand slam home run in the seventh inning.

Roger Mayo, who stayed around for six and one-third innings, walked nine, but struck out nine and allowed only five hits. He was relieved by Steve McKee.

"Mayo pitched well when he had to. I thought we played an outstanding game in the first one (This was the

first game of a doubleheader). We got a little lax on defense, but we're a young club and we still have a long way to go yet."

Other Jax hitters who assisted in the "close" game were Wayne Ragland, Butch Lanier, Evan Edge, Mike Morrison, and Sammy Davis.

The Jax victory over Bama was the third straight.

Jax 12, Louisville 0
Fresh from victories over Kentucky and SEC champ Vanderbilt, the Cardinals of Louisville University were

burned by the Gamecocks, 12-0.

The Jax scoring came in clumps: two in the third, six in the fifth, two in the sixth and two in the eighth.

Winning pitcher Mike Galloway, who took his first win of the season, allowed three hits and two walks and fanned five.

A surprised Rudy Abbott noted, "We played about as well as we're capable of playing. We didn't make an error on defense and our hitting was just outstanding. Of course Galloway going the distance was surprising,

but he pitched brilliantly."

Not to be outdone by Galloway, two Jaxmen belted four hits each - Ron Koch with two home runs and two singles, and Ricky McCoy with a double and three singles.

The victory increased the Gamecocks' season mark to 5-1.

Baseball

Jax 7, Earham 0

Ted Barnicle, just four walks shy of a perfect game, fanned 17 batters in breezing past Earham College of Indiana, 7-0, in the second game of a rare tripleheader.

Evan Edge eased Barnicle's task with three hits - two singles and a home run - while Mike Morrison added a brace of singles. Ricky Robbins, Roger Mayo, Ron Koch, Dan Hall and Stuart French all had hits.

With this no-hit shutout, the Jaxmen extended their overall record to 7-1.

Earham College, which lost a week later to Georgia Tech (41-0), lost all three games, 7-6, 7-0, 8-1.

New Fad On Campuses: Pie-Kill

University of Minnesota (NOCR) - The University of Minnesota Student Assembly had convened to consider a motion to impeach its president. Suddenly, a darkly clad stranger dashed across the room and shoved a cream pie squarely in the

face of the student senator who had introduced the impeachment motion. In the

confusion, the pie thrower escaped, but everyone present knew they had

witnessed a pro in action. Obviously, someone had put out a contract on the student

senator; the stranger was a hit man sent by a new twin cities organization known as Pie-Kill, Ltd.

For the risky mission, the pie-Kill operative was most likely paid the standard \$35 the firm charges for a routine pie hit. A "seltzer water blitz" would have been only \$25, a combination of the two, \$50. For those fees, the firm advertises, they will cream the face of anyone, "a professor, advisor, T.A.," and the client may name the time and place.

An NOCR reporter was able to obtain a secret telephone number (from the want-ad pages of the

"Minnesota Daily") and make contact with the firm. The voice on the other end sounded calm, but very likely was disguised through sophisticated electronic devices, as it told us the Student Assembly hit was the fourth for the firm, which copied the idea from a New York group that started several months ago. The two Minneapolis Pie-Killers remain strictly anonymous but The Voice revealed that both are recent UM graduates and, for fronts, hold respectable jobs. The service will continue, according to the anonymous Voice, "as long as there is a demand."
