No money for Florida Wrestling team seeks financial aid

The Jacksonville State University wrestling team did not have the money to travel to Florida for the qualifying regionals, in spite of a special SGA senate meeting called in their behalf.

Approximately 13 wrestlers and two wrestling cheerleaders along with Keith Peinhardt, SGA president, met with Dr. Stone last Tuesday afternoon, in an effort to get the needed funds (\$1,200) for the trip.

The wrestlers presented a petition to Dr. Stone with the names of over 800 students who were in favor of the wrestling team making the trip.

Dr. Stone explained that because of the 6 percent proration by Gov. Fob James, the total JSU budget was being cut tremendously, and that there was no money

available.

"If I could get the money from anywhere," said Dr. Stone, "I would certainly do so."

A spokesman for the wrestlers commended Dr. Stone on his support of the wrestling team. "We want to thank you for the efforts you have put into the program," he said, but asked that Dr. Stone reconsider because "We feel that we have a good chance, and we want to represent JSU in the qualifying finals."

Dr. Stone again emphasized that he could not fund the trip without taking money from another department. "I'm very proud of the wrestling team's progress," he said, "and I'm one of your biggest fans, but there's just no place to get the money."

Dr. Stone suggested "passing the hat" to raise

the required funds for the trip, and said that he would contribute \$100 from his own pocket.

Keith Peinhardt then proposed that the SGA take the needed funds out of the Lyceum Committee budget to pay for the trip.

"There are over 800 students on this petition that want the wrestlers to make this trip," said Peinhardt, "whereas no more than 400 students have attended a speech sponsored by the Lyceum Committee."

He felt the SGA could possibly replace the money taken from the Lyceum budget through "profits made on the upcoming Waylon Jennings concert."

Peinhardt said that he felt, therefore, that there was a greater student interest in the wrestling team, and that he could call "a special SGA senate

meeting" that night at 6, to approve the proposal.

Dr. Stone had no objections to the idea, and he called in Dr. Montgomery, vice president of Academic Affairs, and Mr. Rowe, vice president of Business Affairs, to insure the proposal would be approved.

A special senate meeting was called for 6, Tuesday evening, and Peinhardt explained that a majority of senators would "have to be present for the proposal to be passed."

Wrestlers helped get in touch with senators, and WLJS announced the meeting over the radio.

Approximately 23 senators gathered at the SGA office, and waited for over an hour. However, a majority of senators never arrived, and therefore the budget change could not be approved.

Valentine Sweetheart Ann Seay crowned

By CEDRIC FULLER

Ann Seay, a freshman here at Jacksonville State University, is the new Miss Calhoun County Valentine

Valentine; 2nd runner-up in Miss Black Culture Pageant for 1979, and first alternate to JSU's Miss Homecoming

at Alexandria High School; 2nd runner-up was Gigi Payne, a student at Weaver High School; third runner-up

station manager for WLJS Radio.

The judges for the pageant were Ms. Ann Davis, Mr.

Art Department

Plans exhibition

By CEDRIC FULLER

Ann Seay, a freshman here at Jacksonville State University, is the new Miss Calhoun County Valentine Sweetheart for 1979. Ann is from Anniston, Alabama, and was sponsored by Alpha Phi Alpha Fraternity. She was crowned by last year's winner, Julie Van Cleave.

Miss Seay is an active young lady on campus where she is a member of the Afro-American Association. She was fourth runner-up in last year's Miss Calhoun County

Valentine; 2nd runner-up in Miss Black Culture Pageant for 1979, and first alternate to JSU's Miss Homecoming 1978.

For winning the pageant, Miss Seay received her crown, bouquet of red roses, gift certificate, Savings Bond, free portrait from Olan Mills, box of Valentine candy and scholarship to Macy's Modeling School in Anniston.

First runner-up was Charlotte Broome, a junior

at Alexandria High School; 2nd runner-up was Gigi Payne, a student at Weaver High School; third runner-up was Karen Griffen, a freshman here at Jax State from Blountsville, Alabama. Miss Griffin was also named Miss Photogenic. Fourth runner-up was Rhonda Towns, a senior at Oxford High School. Miss Congeniality was Beverly Clevenger of Wellborn High School.

Master of ceremonies for the pageant was David Driscoll,

station manager for WLJS Radio.

The judges for the pageant were Ms. Ann Davis, Mr. Tommy Lee, Mr. Maccor Howard, Ms. Brenda Childs, all from Gadsden and Miss Dorothy Tiller, who is currently reigning as Miss Black Alabama from Huntsville.

All proceeds of the pageant will go to the United Cerebral Palsy. The pageant was sponsored by the JSU Circle K Service Organization.

Art Department Plans exhibition Of Pearson works

By CHARLOTTE RAMSEY

The Art Department is proud to present the works of Dr. Clifton Pearson. Dr. Pearson has exhibited in Illinois, Indiana, Tennessee and Alabama. The pieces presently on exhibit include decorative pots, domes and figurative pieces. His work reveals an enthusiastic interest in expressing textures and intricate designs.

For those of you who aren't acquainted with Clifton Pearson, he is presently the chairman and associate professor at the Department of Art Education at Alabama A&M University in Huntsville.

He was born in Birmingham. His list of credits include a BS from Alabama A&M in Art Education and Elementary Education, and MS from Illinois State University in Art Education. He has a Doctorate in Education from Illinois State University where he majored in Studio with an emphasis in ceramics and glass, and a minor in Educational Administration.

The opening of the exhibit and lecture was Friday evening, during which Dr. Pearson talked about his interest in primitive and African art. The majority of his work reveals his concern with dual forms, and reflects the thought that any blank surface is forbidden. Many of his works are embellished with intricate detail and different faces are depicted on each side.

Dr. Pearson begins his work with hand built or

thrown forms, then he adds on slabs of clay which have been decorated with textured materials and layers of clay. He demonstrated a variety of methods such as internal modeling and adding on pieces of clay, as well as the application of textured materials to the clay. He has experimented by combining different clays, porcelain and stoneware clays, and he encouraged the participants in the workshop to experiment with these techniques.

The slide presentation included a record of his work dating back to 1973, which covered what Dr. Pearson called his "Celebrations in Clay" or "Wild Pots", some of which are currently on display at the gallery here in Hammond Hall.

Dr. Pearson explained that he had attempted to duplicate some of his earlier works at times, but it is difficult to go back and recapture a spontaneous response.

The lecture and workshop was sponsored by the Art Department and the Friends of the Arts. Those who attended the workshop expressed their gratitude for the opportunity to learn Dr. Pearson's techniques. The cost of the workshop was much lower than other ceramic workshops have been in the past. As a result, more people attended, which helped to make this workshop one of the most successful ones ever held at Hammond Hall.

Clifton Pearson's exhibit clearly shows expert craftsmanship as well as extraordinary creative ability and we hope every student will take advantage of the opportunity to see his work while it is in the gallery. The exhibit will end on Feb. 23.

Exhibit by Pearson

SGA discusses trip to regional

By JANA McWHORTER Editor

In the Student Government Association (SGA) meeting Monday night, Feb. 12, the senators discussed the prospect of financing the wrestling team's trip to the Regional Wrestling Meet.

The trip would cost \$1200 to send the whole wrestling team to Orlando, Fla., from Feb. 15-17. The wrestling team found out that morning that they would not have enough funds to finance the trip. After getting a petition of 800 names, the team members came to the SGA to see if they could finance the trip. At the time, due to the

Waylon Jennings concert having all the money tied up, the senators decided it would be best to call a meeting with Dr. Stone the next day to see if there was any possible way the University could finance the trip.

In other action that night, the senators passed a motion to have the Director of Student Opinion conduct a survey on the methods of the Student Infirmary. The cafeterias are no longer cashing personal checks and the Gong Show will be Tuesday, Feb. 20, at Mater's. \$100 will be awarded for the best act and \$20 for the most unusual act.

Guess who?

The answer to Guess Who can be found somewhere inside the Chanticleer. Guess Who this week is associated with Jacksonville State University.

Symposiums are planned

By JANA McWHORTER Editor

The Human Services Center will be sponsoring six symposiums under the cumulative title of "Threats to Humanity." These symposiums are: 1) "Drug Abuse" on Wednesday, March 1, from 2:30-3 p.m., at the Round House; 2) "Domestic Violence" on Monday, March 5, from 2:30-3:30 p.m., at the Round House; 3) "Men's and Father's Rights" on Tuesday, March 20, from 2-4 p.m., at the Round House; 4)

"Suicide" on Thursday, March 22, from 2:30-3:30 p.m. at the Round House; 5) "Rape" on March 28 from 2:30-3:30 p.m. at the Round House and 6) "Emergency" on Thursday, March 29, from 2-4 p.m. at the Round House.

"The purposes of these symposiums are to inform people of these critical issues and to bring together the talent available on campus and in the community," said Dr. Adelaide Cherry, director of the Human Services Center. She also added, "These symposiums

bring the community and faculty together in a panel discussion. The symposiums are open to the community, students, faculty and staff."

The staff of the center includes Dr. Adelaide Cherry, director; Mrs. Mary Patton, educational director; and Mrs. Joy Jay, secretary-receptionist, and they are located in Room 3 of the Stephenson Gym.

The center began last summer and got into full swing last fall aided by a federal grant and has programs with Special

Education, Adaptive Physical Education, social work and other areas related to human services. In the social work areas, students are placed in human service agencies as volunteers. From these volunteer jobs, the students are "provided with successful practicum experiences," said Dr. Cherry.

If a student is interested in working with any field related to social work, contact the Human Services Center for information on specific areas of interest.

Symposium announced

Wednesday, March 1, 2:30-3:30 p.m., Round House, JSU. DRUG ABUSE: Tim Baird of The Bridge Drug Alert Center in Gadsden will present an instructional program on drug abuse and drug related problems and ways to bridge the gap through crisis intervention and drug prevention methods.

Monday, March 5, 2:30-3:30 p.m., Round House, JSU. DOMESTIC VIOLENCE: The Sociology Club at JSU will host a panel discussion on the social and legal problems of child and spouse abuse. Guest speakers will be Judge

Jimmy Sloan, Seventh Judicial Circuit, Family Court Division; Bobby Malone, Calhoun-Cleburne Mental Health Center; Lois Seal, College of Criminal Justice, JSU; Betty Knight, Calhoun County Department of Pensions and Security; and Patsy Houston, Anniston City Police.

Tuesday, March 20, 2-4 p.m., Round House, JSU. MEN'S AND FATHER'S RIGHT: The increasing need to clarify the rights and responsibilities of men and fathers in cases involving child custody and adoption will be addressed by Quinn Head and Ken Cochran of the

Men's and Father's Rights group and Gary Smallwood, Calhoun County Legal Services.

Thursday, March 22, 2:30-3:30 p.m., Round House, JSU. SUICIDE: Steve Weiss of the Cherokee, Etowah and DeKalb Mental Health Center, Chris Devine of the Department of Guidance and Counseling and Jackie Howsden of the Department of Sociology at JSU will discuss suicide—the nature of the problem, the increased incidences among teenagers, danger signals and prevention.

Wednesday, March 28, 2:30-3:30 p.m., Round House.

JSU. RAPE: Lois Seal of the College of Criminal Justice at JSU will discuss rape from the standpoint of prevention. An informative film depicting techniques in self defense and methods of prevention will be shown.

Thursday, March 29, 2-4 p.m., Round House, JSU. EMERGENCY: The lay person's responsibility and liability in an emergency will be the topic of discussion by John D. Moorehouse, MD, and Warren L. Wallace, MD, of the Emergency Department Physicians Medical Group, Inc. Emergency life-saving procedures will be demonstrated.

See Peinhardt's response, Page 2

Editorials

THE CHANTICLEER

You're doing better, students

It's hard to believe! I have seen students get really involved in two activities on this campus in one month. Are you waking up or is it finally that we found something that you really like? I sure hope so and that this involvement will continue to be a trend in the future activities sponsored by organizations on this campus.

The Rocky Horror Picture Show produced some strange happenings that have not occurred on this campus in a long time. Students sang along with the stars and whatever they did, the students throwing ice and squirting water pistols in the auditorium. It was definitely an experience!

The Waylon Jennings concert was the first concert on this campus in a long time where the students really enjoyed themselves. They screamed, hollered, waved hats, stomped feet, lighted cigarette lighters and just thoroughly had a good time.

Commendations go to the vice president, Joe Mucciolo,

for setting up such a fine concert full of big name stars to come to Jacksonville. We have to face it! Jacksonville doesn't have the money or the pulling power of the larger universities in the state so getting big name stars is almost impossible. You did a good job, Joe!

The concert was fast moving with only one short break during the whole program between Waylon Jennings back-up band and Buddy Holley's original band, the Crickets. Since Waylon was a former Cricket, he walked on stage while they were performing and joined for a couple of songs. The crowd absolutely went wild! As soon as the Crickets were through, Jennings' own band immediately came on stage with no break in the action.

So if you missed this concert, you definitely made a mistake because this concert has probably been one of the best acts we have had on campus in a while. I hope we have many, more like it. If you support the concerts, no telling who we could have on campus in the future.

President's response

Our editor, meaning mine and yours, has currently developed a bad case of "foot in mouth" disease.

I am referring to the editorial she published on Feb. 13, criticizing the handling of the meeting with the mayor of Jacksonville.

Unfortunately she was misinformed about the facts and made no effort to gather them.

Had she done some unbiased reporting, (which, incidently, is her job) she would have learned that senators were informed to attend the city council meeting in my place. I personally talked to the mayor and told him I would not be able to attend the meeting because of a flight physical. His secretary was informed of the meeting

three days earlier, and the meeting was set at the mayor's convenience, not mine.

I initially requested the Chanticleer and WLJS-FM to attend the meeting—until the mayor's office informed me no media would be allowed. He said he would not meet if media was allowed.

After the city council meeting David Driscoll and I worked for an hour composing a press release for the Chanticleer and other news medias. He agreed to distribute this for me, but evidently neglected to do so.

This is not exactly what I call "bending over backwards" to help the SGA.

I received one message from Miss McWhorter asking that I return her call. The responsibilities of the SGA president do not include

writing news releases for the student newspaper, nor clammering to every whim of the campus media.

As for the senate, I am very proud of them. They have passed over 150 motions, resolutions, bills and amendments during my administration.

Senators give from four to 20 hours of their time per week for no pay, no academic credit, and little thanks.

The attitude of the Student Government Association's leadership is very positive and will remain so until the end of my administration. It is unfortunate, Miss McWhorter, has taken a "holier-than-thou" attitude toward fellow senators.

We have supported every organization and individual on campus when requested

to do so, and will continue to do so. Through our movie program, lecturers programs, campus concerts and many other activities and projects, we have led and represented the student body with a zeal uncommon to past administrations.

This organization has over 150 students in it, who put in countless hours. Through bent facts, and darkened forecast, Miss McWhorter has discredited these people.

A student editor should write for and respect the students, not misrepresent them.

The Student Government Association has no cob webs or dust collecting around it—sometimes we barely get the coffee pot unplugged and lights cut out.

Keith Peinhardt
SGA President

This Bird's View

JACK ANDERSON WITH JOE SPEAR WEEKLY SPECIAL

Portillo's genteel slap planned for Carter visit

WASHINGTON — The United States is dangerously dependent upon vulnerable, faraway oil fields. This has been dramatized by recent events in Iran.

Only a few weeks ago, the shah was considered a solid ally and Iran a dependable source of oil. Now Iranian oil has been shut off, and no one knows whether the United States will ever be able to draw upon it again.

The same Moslem extremists who shut down the Iranian oil fields are also active in Saudi Arabia. This is our chief oil supplier. If Saudi oil should also be cut off, the United States would

more expensive than Canadian gas. This has infuriated Mexico's president, Jose Lopez Portillo.

Carter will fly to Mexico, meanwhile, on Feb. 14, for a state visit. Sources close to Portillo told us that he will give Carter a "courteous" reception. People will be based in to wave flags and cheer the American president, but the hoopla will be muted.

But two weeks later, Portillo will stage a tremendous welcome for France's President Giscard d'Estaing. The contrast will be intended, our sources, say

out of useful programs. For example, police across the country reported that more than \$4 billion worth of property was stolen in 1977. Even this staggering figure is only a fraction of the true total. Theft probably costs the American people closer to \$20 billion a year.

Of course, the loss is simply added to the price of the goods we buy and the insurance premiums we pay. So stealing is a major cost of inflation.

The stolen goods are usually sold to a middleman, known in criminal circles as a "fence." In recent years, the contributions from the

were handed out to constituents.

Football fever on Capitol Hill didn't stop with the Dallas - Pittsburgh Super bowl. Rep. Doug Walgren, D-Pa., challenged Rep. Jirr Mattox, D-Tex., to a punt pass and kick contest in front of the Capitol's botanical gardens. Walgren won and Mattox's defeat cost him not only his pride but a new Stetson hat and a dinner or the town.

Watch on Waste: In Europe, Army tank drivers are complaining that their windshield wipers don't work. It seems that a 15 cent

It just ain't fair. Three tests in one day. Why does it always happen like this? After all this time of coasting through homework assignments, every one of the divine masters cracks the whip of knowledge at once. At least you aren't alone, seems like everybody else is walking around with the caffiene quivers and red-rimmed eyes. It always happens about a month into the semester. All the professors try to get in one big exam just before mid-term. They usually act like their course is the only one being offered on campus. And even if it isn't, it's the only course that matters.

So you cram and cram. Your seat becomes one with the chair. But the end results are never satisfactory. The grade report will say three "C's" or maybe two D's and a "C". What it doesn't say is that, had the tests been

scheduled on separate days, you could have "aced" ever one of them.

Or the unfairness could happen another way. Learning of a test a week away, you bust your butt preparing for it. You just know you will get an "A" out of it. But, to your horror, the professor tests you on some irrelevant material you never dreamed would be on the test. You crawl out of the room instead of walking. It wasn't that you didn't know the material; the professor just didn't ask the right questions. Try convincing your parents that when the "D" gets sent home.

There are so many things a grade report doesn't say. It doesn't say you broke up your engagement of six months the day before the final. It doesn't mention the fact that you had to sell your book a week before the final because you didn't have

enough money to eat. Nor does it say that your next door neighbor just bought a new tuba.

It just isn't fair. But then again, it isn't fair when the highest paying position in a business goes to the president's new son-in-law. It isn't fair, either, when less-qualified people get appointed to important positions because their dad is an old school buddy of a high ranking official.

It isn't right for honest businessmen to go bankrupt because they refuse to share

kickbacks and payoffs. We college students complain and gripe about the constant injustices of our cushioned life. But the injustices of the real world are of a greater magnitude. It is fortunate that we have a chance to learn how to cope with these injustices of life in college, where all that is at stake is a grade.

It is up to us to learn to adjust to these unfairnesses of life while in school, so we may overcome these barriers when we get to the real world.

Or
the
lack
thereof

Opal Lovett-University Photographer

"I hear there was a panty-raid in the girls' dorms last night."

"Yea, you weren't there?"

Naw, I've never been to one. It all seems kind of stupid to me."

Stupid? Man, panty-raiding goes way back! I mean, it's just a college tradition! All the time I was in high school, I kept hearing about the 'panty-raids' at the university. So by golly, I started looking forward to it! I even attempted one in my high school English class once..."

"You're kidding."

"Nope. Damn near got away with some, too. The girl didn't put up much of a struggle."

"What stopped you?"

"Miss Jenkins up and asks me to explain the symbolic meaning of this fork in one of the short stories we were studying."

"Too bad. But really, what do they do during one of the raids? Just barge in a girl's room and empty their top drawer? What do the girls think about all this?!"

"No, no! The girls throw the panties out in the hall! They don't let you in the room! Well, not all of them anyway..."

"Really? But what the hell do you do with panties?"

"Forget it! I just don't think having some panties would do anything for me."

"Yea, me either. There's only one kind that I'd like to get my hands on."

"What kind?"

"The kind with legs in 'em, of course!"

off, the United States would be forced to close factories and ration gasoline severely.

Yet oil will soon be available in abundance just across the border in Mexico. These fabulous new fields could supply all the oil in the United States will need in the 1980s.

The Mexicans are willing to boost their oil exports to the United States up to four million barrels a day by 1985. But they want something in return. They need a market for the natural gas that will be unleashed with the oil.

Mexican officials reached an agreement with a U. S. consortium to pipe two billion cubic feet of surplus Mexican gas across the border every day in the near future. Otherwise, most of the gas will have to be burned off.

Yet the Carter administration killed the deal because the Mexican gas is

be intended, our sources, say as a message to Carter.

Kennedy - Carter Rift: President Carter and Sen. Edward Kennedy, D-Mass., disagree strongly over how the taxpayers' money should be spent. The latest example is in the area of law enforcement.

The president wants to trim \$110 million from the Law Enforcement Assistance Administration. This is the agency that has channeled millions to help local police forces fight crime.

Sen. Kennedy contends that the savings would cause a corresponding rise in crime. This would cost the public far more, he argues, than the \$110 million that Carter would save.

It is true that the LEAA has misspent millions of dollars. But the money that Carter now wants to cut would come

windshield wipers don't work. It seems that a 15 cent part in the wiper mechanism repeatedly burns out. Unfortunately, it is an extremely technical and time-consuming task to take the mechanism apart and replace the 15-cent part. So tank drivers simply replace the windshield wipers with new ones—at a cost of \$150 each.

Headlines and Footnotes: The Government Printing Office is using private mail delivery companies instead of the Postal Service. Officials found that in some cases, it was cheaper and faster to send mail by private carrier. Prison inmates who become disabled or reach retirement age are entitled to Social Security benefits, just like everyone else. It also costs the taxpayers about \$12,000 a year to keep the typical convict in the can.

Under the Dome: Last year, it cost the taxpayers \$182,000 to publish a book called "Art in the United States Capitol." Although ordinary citizens paid for the book's publication, 90 percent of the copies were distributed to congressmen and senators to give away as they pleased. Most of them

Furthermore, in case your ignorance of parliamentary procedure is equal to your lack of knowledge of the SGA constitution, we must inform

Letters To The Editor

Reader's critique

To The Editor:

Your recent unfounded criticism of Keith Peinhardt's handling of the meeting with the mayor of Jacksonville reeks of journalistic poor taste. Had you exercised proper journalistic methods, you would have learned that Mr. Peinhardt did not deserve the criticism you gave him. Had you done enough background work, you would have learned that Mr. Peinhardt had originally scheduled a meeting he was able to attend, but the conference was changed to a time that conflicted with the president's already busy schedule. The "pilot's exam", as you call it, was an army physical scheduled two weeks in advance. And it was the mayor's office, not Mr. Peinhardt, that barred the campus press from the meeting.

It is true that Mr. Peinhardt goofed. The confusion was due to his lack of communication with his

senators. Another meeting was scheduled, and significant progress was made on behalf of the students.

If you want to dig up dirt in the Peinhardt Administration, there is plenty of dirt to dig, but at least be factual. If you dig deep enough, you can find mud to sling at any administration. How can you rap Mr. Peinhardt so harshly about that press release he wrote for you? It is your duty to write news, not the president of the SGA.

When you pointed the accusing finger at the SGA Senate because of the Feb. 5 meeting, you should have turned it around and pointed it at yourself. Your criticism not only exposes your gross ignorance of the SGA and its constitution, but also implies an unconcern of equal magnitude.

Had you ever taken time to read the SGA constitution you would have seen, in Article 1 Section 3 that,

Black Heritage

To Editor and JSU Student Body,

I would like to take this time and thank the faculty, administration, and students for coming out to hear the keynote address for Black Heritage Week. Joe Wright substituted for Congressman Conyers due to the fact that Congressman Conyers got delayed in Atlanta because

of bad weather. Mr. Wright volunteered his services 10 minutes before the program would have been cancelled. Mr. Wright did an excellent job. I hope the student body will continue to support the Lyceum program.

Cedric Fuller,
SGA Lyceum Chairman

FALSE!

Ms. McWhorter,

The editorial you wrote entitled "Problems with Peinhardt" was one which upset me very much and one which I found to be full of false and unfair statements. First of all, you stated that

in the meeting of Feb. 5, not a single motion was passed. FALSE. On the contrary, five motions were passed, while only one was defeated. Two of the motions passed

Sights, sounds 'n moods

(Editor's Note: It is nice to have a journalism class and an Advanced

Composition class to make contributions to the paper.)

Spring

Feet shuffle, bodies move hurriedly as the late Valentine shoppers move quickly through the department store.

Smiles, joys of laughter, and tears hit the faces of girls, when they receive flowers from the one they love.

A solemn face stares down at a book, while the wheels in the mind churn hard at work, trying to comprehend the material so it will bring up a mid-term grade.

Birds sing while the fresh air of spring is blowing our way.

Fire crackers popping, guys yelling, trains going down the tracks and the radio playing a soft tune. Those are the noises of the night.

I had almost forgotten what a girl's legs looked like. Today I saw a girl wearing shorts for the first time in months. Spring is just around the corner!

Spring is in the air! Folks are coming out and jumping up and down. A boy sings, "Oh what a beautiful morning, oh what a beautiful day," on his way to the cafeteria.

Tennis weather is here—yeah!

AEA is three weeks away—that's 15 days, but who's counting?

Now that the weather is perking up, we are all get-

Everyone is wearing a brighter and happier look since the semester is almost half over.

The night time activities of the boys dorms on the JSU campus are rapidly renewing their old reputations of practical jokes, panty raids and mid-term shenanigans.

Love is in the air. Touching is back. Shy smiles between young faces appear as winter thaws. Gloves are discarded as hands warm each other. Softness in clothes, movement, language and attitudes is replacing the harshness of before. Cynicism is faltering; romance has arrived.

With the fresh beginning of spring, it is hard to believe that just a few days ago a young man waited for his hair to thaw before stepping into English class.

Notice the students cramming Jacksonville Library? Term paper time has hit the campus again. What fun!

While hiking on the mountain, one can tell spring has arrived by the sounds of the jeeps racing to the fire tower, and the yells of accomplishment from the top.

As I walk down the paths of Jacksonville, I see smiles of all shapes and sizes. The busy hurrying of people as they shoop and ship to class, brings about all different kinds of smiles. You have your instructors smile with an occasional nod. You may encounter the friendly people of whom you have no knowledge. Then there, of course, is your friends. The smile and simple corner station of a friend helps us make it through the day.

Around campus

A teacher said, "Don't pay attention to the lecture you heard day before yesterday." A puppy walks down the sidewalk in front of the library and crosses the street at the crosswalk.

The malnourished apartment dwellers are everywhere on campus. They are the thin, gaunt people who live out of tin cans, frozen french fries sacks, Hardie's and mom's CARE packages.

She begins class five minutes early, so that the people on time always felt late. The little Miss Perfects have caused teacher to believe her jokes are funny. She always has you hold questions for just long enough for it to become irrelevant to the present discussion.

Quotables

Before the game Monday night against Nicholls, Bob Clements was asked if this was a big game. He said, "Yes."

A country comment from a "hillbilly" farmer: He 'as so "sceered" his eyes were big 'as eggs.

A comment by one professor quoted from

The cars look unusually dull now. None looks freshly waxed. The dirty film is interesting.

The faded denim blue sky reflects the mass of walking blue jeans in front of Bibb Graves.

Instead they sit back wait

Student teaching is the culminating experience for all prospective education graduates at Jacksonville State University. Shown here is Donna Narcarrow of Vernon, one of 200 students now engaged in

practice teaching. She seems to be enjoying these students at Jacksonville Elementary School.

Gripes

Students out here are too passive. The Student Government is very inactive. Students are unconcerned as to what's going on on campus. Immaturity is very much demonstrative in the dorms. Students have to be reminded when to be quiet. Kids go around doing stupid stuff like giving a rocker in dorms away.

It is pretty tough to drive from Martin Hall to Bibb Graves after the 2:20 class adjourns. Traffic stacks up at the light near Martin Hall and it's aggravating when folks won't pull out into the lane to gain the right of way for a left turn.

JSU students spend spring semester in practice teaching

Over 200 Education students from Jacksonville State University are spending the spring semester doing their student teaching in 37 different Alabama schools.

Student teaching is the culminating experience of the prospective teacher's program, according to Dr. Roland Thornburg, director of Professional Experiences in the JSU Department of Education.

"Student teaching is absolutely essential in

professional semester, usually their last semester in school. Each student spends eight weeks of the semester in the school system practice teaching. The other half of the semester they are on the college campus completing their course work.

A student must have a GPA of 1.25 and 50 hours of classroom observation in order to do student teaching. Application for student teaching must be made months in advance, explained Thornburg. Students

For the first two weeks, the student teacher just observes classroom procedures. He is then given several classes to teach himself.

The cooperating teacher is asked to rate the student teacher on his capabilities and performance. According to Thornburg, the student teachers generally receive excellent reports from the cooperating teachers.

The student is also under the supervision of a JSU faculty member while he is

...ing up, we are all getting Ft. Walton Beach fever!

On Feb. 14, Valentine's Day, I saw four florist delivery trucks parked in front of Rowan Hall. Three were from Anniston and the other was an FID Florist truck. All making long distance much more pleasurable.

Today there is a touch of spring in the air. The weather is taking a turn for the better. This morning there was a good clean smell in the air which has started thoughts wondering toward the coming of spring. For many people spring will not come soon enough.

One can hardly sit through a class in Bibb Graves without being optically drawn to the surface of a desk. The graffiti found on some of these ancient furnishings is living proof of the literary potential of JSU students.

professor quoted from Martin Luther King Jr. "Once you wake up, get up and do something and you can accomplish something."

A teacher once said, when questioned about all the red on her student papers, "Oh, I don't know. It seems to run through my veins and drip out my fingertips."

for a left turn. Instead, they sit back, wait for traffic to clear from the left lane, and then turn.

The diagonal sidewalks going to Bibb Graves are a round-a-bout way of getting there. They should be straightened and lead directly to the dorm.

solutely essential in preparing students to teach," he said. "It affords an opportunity for prospective teachers to apply classroom knowledge. And it gives them real experience. When our students graduate, they are in business. They are ready to teach."

Students do their student teaching during their

months in advance, explained Thornburg. Students are given a choice and may do their practice teaching in their hometowns, although most student teaching is done in schools within a 35-mile radius of JSU.

Student teachers are assigned in these schools to cooperating teachers who are normally on the master's level and have at least three years of professional ex-

...supervisor of a JSU faculty member while he is practice teaching. He receives three or four visits on the job from his supervisor during the eight-week period

Student teaching is considered to be part of the students' college course work and he receives six hours of credit for it (P. E. majors receive nine hours of credit).

Critique

to offer your first motion on behalf of your constituents.

you that under Robert's, there is what is known as sending the meeting into a "Committee of the Whole." This is for the purpose of discussing an issue without voting on it. You would have learned this if you would have listened to the explanation of the procedure. You should have also been aware that this was the first SGA meeting that many of the newly-elected senators had attended. This "fruitless discussion" of the executive cabinet was an effort to:

1. Keep the Senate from voting on something about which a substantial portion of the Senate knew nothing;
2. Give the executive cabinet more time to get their act together and

3. Allow all senators an opportunity to discuss the pros and cons of the cabinet. During the discussion, which was quite active, you made no points on the merits or shortcomings of the cabinet. Dante once stated that the hottest places in hell are reserved for those who, in a period of moral crisis, maintain their neutrality. Aren't you getting a little warm by now?

You use the terms "them" and "they" when criticizing the SGA? Had you checked the roll sheet of the senators, you would have learned that you are a member of the SGA. The proper terms should be "us" and "we." You yourself contribute to the ineffectiveness of the SGA with your lack of participation. You have already missed two meetings this semester, and at the present you do not serve on a single committee. We are still waiting for you

You also use the cliché, "bent over backwards" in describing the way The Chanticleer has worked with the SGA. Your poor coverage of the SGA events and continued rudeness to the SGA secretary make this a false statement. You also continually leave out the names of senators that author motions at the meetings. The misleading headline on page one of the Feb. 13 issue: "Peinhardt vs. Petitioners", is a violation of unbiased news writing. Bending over backwards, huh?

We had hoped that you had learned something after that shabby criticism of the Southerners last semester. Now that you are editor, it is a shame that you didn't.

Sincerely,
Gene Wisdom, Glazner Hall Senator;

Maurice Bowles, Junior Senator-at-large

False

were very productive. One stated that senators must have a 1.0 GPA, and be able to prove it; and the other allocated money to bring Waylon Jennings on campus. The other three motions were routine business and are a matter of record in the minutes.

Secondly, you stated that the discussion of the Executive Cabinet was "fruitless." FALSE. The SGA is sorry, Ms. McWhorter, if our discussion bores you at times. However, the Senate was concerned in knowing what the Executive Cabinet has done to merit having offices in Daugette. By discussing it, feelings were aired and we realized that we need to let the cabinet have more time to get their feet off the ground.

As for the meeting with the mayor-granted, there was a

foul-up. But your statement that the SGA office was in "turmoil" when you called is FALSE. By the time you called, the meeting had been cancelled and there was no "turmoil."

Ms. McWhorter, next time you attack the SGA, kindly have your facts straight. You are not only attacking Keith Peinhardt, but you are also attacking the vice-president and treasurer who have offices there, the secretary, and all the senators who are trying to get things done for the student body. Contrary to your opinion, it is not only WLJS and Chanticleer people who "bend over backwards to help." You say the students are losing what little faith they had in the SGA. Well, if persons like yourself who the students expect to be reporting the facts accurately would indeed do that, perhaps this wouldn't happen.

Sincerely yours,
Kim Parker

Third World War

Dear Editor,
ARE YOU READY?
THIRD WORLD WAR IS AROUND THE CORNER.

All flesh is grass and all its beauty is like the flower on the field. The grass withereth, the flower fadeth, because the breath of the Lord bloweth upon it; surely the people are grass. The grass withereth, the flower fadeth but the word of our God shall stand forever.

The recent events in Iran have raised a lot of eyebrows in many parts of the world.

What we are witnessing in Iran is the preparation for the fulfillment of a Bible prophecy as found in Ezekiel chapter 38:1-23. I will try to give the essentials of the prophecy in regard to Iran without going into all the details. Gog of the land of Magog the chief prince of

Meshech and Tubal, in alliance with Persia, Cush and Put, Gomer and all its hordes will invade Israel.

Among learned and well informed theologians and Christians who have studied the prophecies of the Bible, it is a well known fact that Gog of the land of Magog refers to (Russia) USSR. Meshech and Tubal refer to other Slavic nations in alliance, with the USSA. Persia is the former official name of Iran. Cush is the ancient name for Ethiopia, and Put is the ancient name of Libya. Cush and Put are rendered as Ethiopia and Libya in (KJV) King James Version. Gomer probably refers to Germany.

I am not prophesying rather, I am laying the facts of the aforementioned prophecy on the table. In the years ahead, Iran (Persia) will either become a Communist country or become a strong Russian ally. Ethiopia used to have an emperor by the name of Haile Selassie who was

deposed in 1974. After he was deposed, Ethiopia moved left and today Ethiopia is a Communist country. On the international scene, it is a well known fact that Libya is pro-Russian and not pro-West.

In this war, God (Jesus Christ of Nazareth) will intervene on behalf of the Israelis and will miserably destroy the Russians, their allies and some other nations that will be involved in the war. I have dubbed this unparalleled catastrophic event as the Third World War but in the Bible the official and prophetic name is the battle of Armageddon.

Are you ready for death? I do not agree with your thinking that you are too young to die. God says, "It is appointed unto men once to die but after this the judgment." Jesus Christ said, "Behold I stand at the door (of your heart) and knock, if any man hear my voice and open the door (of your heart), I will come in to him and will sup with him and he with me." Seek ye out the book (Bible) of the Lord and read; no one of these shall fail.

Bob Murray.

Two cents worth

There has been a lot of criticism lately in The Chanticleer of SGA President Keith Peinhardt; and I've waited long enough to put my "two cents worth" in. Well, here goes, Keith.

A fraternity brother of mine said that he lent the SGA president a towel a while ago, and it has yet to be returned. So come on, Keith, give the man his towel back!

Cy Wagner.

Little feet muffled

Graying Society growing

By SUSAN ISBELL

Past trends in the birth rate, characterized by the patter of little feet in multitudes, are gradually being muffled by a graying society. In 1975, Alabama was ranked 19th by Census Bureau estimates in terms of the percentage of people 65 and over. What problems will surface from this extreme turn about and how can they be solved? At Jacksonville State University an Aging Studies Program has been established to educate and prepare our society for an elderly oriented world.

The program (ASP) was funded through an Office of Education Grant which was awarded to the University. This grant was designed to stimulate educational growth in areas like Gerontology that will be important in our future and is part of a large Advance Institutional Development Program at JSU.

What is Gerontology? Primarily, it is the study of aging and the economical, biological, sociological and psychological functions which complete the process. The Aging Studies Program

became operational in January 1978 offering a few courses in Gerontology. Presently, a minor and a certificate in Gerontology can be pursued. "The certificate program is a trend

electives, and practicum experiences, students are trained for the diverse areas of Gerontology. Among the required courses in the program, is the Advanced Seminar in Aging. This

ferred which provides a broader background to students in Gerontology.

In addition to these courses, the Aging Studies Program has conducted various workshops and

Other: Includes single, separated, divorced, and other.

with other universities. It will allow the student to specialize in aging within their chosen occupation whether it be business, biology, sociology or psychology," state Dr. Douglas McConatha, head of the Aging Studies Program.

Through a combination of core courses, curriculum

course examines the current issues pertaining to aging in the future.

A wide selection of electives have been approved for the curriculum. The Social Psychology of Aging, Introduction to Social Work, and Perspectives on Death and Dying are only a few of the numerous electives of-

conferences to broaden the areas resources.

An Area Needs Survey was administered by the Aging Studies Program in connection with East Alabama Area Agency on Aging. The survey's purpose was to gather data on the needs of the elderly in order to better serve this growing

Increase in membership

PBL has 'rush party'

The Jacksonville State University Chapter of Phi Beta Lambda held a very successful "Rush party" on Thursday, Feb. 8, which resulted in an increase in membership as well as an increase in membership participation.

Administrative staff members of the JSU School of Business were present at this meeting to show their support for the business fraternity and offer guidance

Richard H. Shuford Jr., dean of the Jacksonville State University School of Business, spoke to the group encouraging members to be active in Phi Beta Lambda. Dr. Shuford also stressed that the administrative staff of the School of Business place their support behind this organization. Other members of the administrative staff present at the meeting were the following:

Science Department; Dr. Latham, Marketing Department; Dr. Loftin, Management Department; Dr. Paxton, Economics Department; Mr. Floyd R. Tredaway, Accounting Department; Mr. Al Wilson, Marketing Department; Mr. William Turner, Accounting Department.

The JSU Chapter of Phi Beta Lambda holds regular meetings Thursday evenings at 6:30 in the lecture room of

interested business students are invited to attend.

Phi Beta Lambda is a national organization for all students in post-secondary schools and colleges interested in business careers.

This fraternity strives to prepare its members for careers in business, business education or secretarial programs. The goal of this organization is to develop competent and aggressive

Cadet David Thomas participates in mountaineering training (U.S. Army photograph)

What's going on in mountaineering skills?

Mountaineering skills is a time for fun, excitement and adventure. This class is designed to teach students the right way to climb and discover the beauty around us.

It takes about a month of proper training before students are allowed to climb or repel down the mountains. This year there will be eight class days starting Feb. 26-Mar. 20 of groups of 20 students that will go to Horse Pens 40, located on Chandler Mountain in Steele, Alabama. All trips are

escorted by trained men that know the right techniques. Thus, they are there to teach you the right way and to help you just in case some accident should try to occur.

At this mountain, there are three different climbs. They range from very easy to extremely hard. At one point in the climbing trip, the climbers will repel over a water fall that drops 120 feet. At all times there will be a top palayer that will help you down the mountain. He will also see that your rope is secure and holding at all times.

Float and camping trip has

been planned for March 23-24. The group of 270 people will camp in Maloan, Alabama on a camp site on the Tallapoosa River. That night there will be a hot dog roast and a nice, fun social gathering. Possibly try to have some country-western music so you can get in the back of the woods mood. Camping and sleeping equipment will be provided. Restrooms will be provided for the girls.

The next morning the group will head out down the river in RB-IS rubber boats. They will be heading down the swift moving water

to complete a 10 mile long float ride. The river has been checked out so they know there are no dangerous spots.

This trip will be one first come, first serve basis, due to not having enough boats. The students will have to furnish their own breakfast and lunch on the 24th.

This class is there to teach you skills and also how to get along with others. If you would like any other information about this course, just get in touch with an officer in the Military Science Building.

fraternity and offer guidance for the members. Dr.

Looking for a job?

Job editor gives tips for summer

Looking for a summer job? While there are more summer jobs this year, even more people are looking for jobs according to Barbara O'Brien, editor of the 1979 Summer Employment Directory of the United States (Writer's Digest Books; paperback, \$5.95). O'Brien warns, "If you really want an interesting summer job, apply before the end of February. The exciting jobs go fast." Even though the 1979

Summer Employment Directory of the United States lists over 50,000 summer jobs, O'Brien says there will be several candidates for each job, and many candidates for the more desirable jobs. Getting a summer job often depends on learning the special things summer employers look for in a job candidate, O'Brien says. "You're in a better competitive position for a summer job if you know in

advance what your interviewer wants to hear, or what an employer would like to read in a letter of application." She compiled the following list while surveying the employers who seek summer workers through the 1979 Summer Employment Directory of the United States.

1. Summer camps, for example, want people with leadership personalities. Be attentive in a personal interview. Show energy and enthusiasm. Asking questions shows you're interested.

2. Places like dude ranches and national parks hire people who look and act healthy. Be careful about your appearance in a personal interview. Stand up straight, sit up straight and don't slouch.

3. When you apply for a summer job by mail, watch your presentation, not only appearance (of course, you should type neatly) but also content. Don't say, "I want to spend the summer in Maine." The employer will

think you care more about the scenery than about his summer theater.

4. When you get an application blank in the mail from an employer, respond immediately, and fill out the form completely. Employees are looking for people who get the job done fast and thoroughly.

Lou's
On The Square
Jacksonville

Headquarters**

**Bob's
CAMPUS
SHOP**
On The Square
Jacksonville

**We Now Have Spring
Tennis Ware In Stock**

5. Don't apply for a job if you can't stay for the whole season. Employers expect you to keep your contract commitments. Many employers will pay you a bonus on your base pay throughout the summer only if you stay past Labor Day. If your school starts before Labor Day, maybe you should talk to the administration about the problems that creates for you and for everybody else who wants a summer job. Or you could investigate late registration.

6. If you have good speech and communication skills and an outgoing personality, you'll have a better chance in a summer job interview. An articulate person has a definite edge over someone

who's more reserved and shy.

7. If you want a high-paying position in an expensive resort, you must bring some professionalism to the job. That means experience in a similar job and it also means a professional attitude. Professionals don't just work from 9-5 o'clock, and they don't have to be told what to do; they show initiative and imagination on their own.

**Health field wide open
for interested JSU students**

By PAUL MERRILL
Almost anything that you read nowadays that mentions health professions says that the field of health is wide open at this particular time and will, more than likely, remain open for some time.

If you're at all scientifically oriented, and enjoy working with people (this is not the criteria for all health jobs, but the majority) then the field of health could definitely be for you.

Each year the University of Texas Medical Branch conducts a survey of personnel salaries in hospitals, medical schools and medical centers. Following are selected occupations, ranked according to average monthly earnings for experienced employees:

- Nurse anesthetist, \$1,697;
- pharmacist, 1,593;
- clinic manager, 1,501;
- clinic nurse specialist (high level patient care, MS degree), 1,477;

(See HEALTH, Page 5)

If you don't look out for your future, it won't look out for you.

Time waits for no man's budget. So right now's the time to look out for your future and buy U.S. Savings Bonds. You see Bonds always pay off. So they're one of the best ways to save for your future.

Just sign up for Bonds through the Payroll Savings Plan at work or through the Bond-a-Month Plan where you save. Either way you'll start saving automatically.

So look out for your future.

Start buying U.S. Savings Bonds today. You'll have a lot to look forward to tomorrow.

Series E Bonds pay 6% interest when held to maturity of 5 years (4 1/2% the first year). Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

Take stock in America.

A paper service effort published by the Advertising Council

Gallop polls U.S. youth

Question: "Which were the two last states admitted to the United States?" Answers: "Florida," "Mexico," "Canada."

Question: "What nation in the world has the largest population?" Answers: "United Nations."

Question: "If oil tankers cannot use the Suez Canal, by what route do they get from Saudi Arabia to the United States?" Answers: "the Panama Canal," "I-95."

According to an article recently published in The Anniston Star, these are some of the answers George Gallup Sr., received when he polled one thousand 17- and 18-year-olds across the country last year. Gallup spoke of the "tremendous political illiteracy" among the young, but he said he was

particularly shocked by the young people's basic ignorance of geography. Gallup noted that even though the world had become smaller with advances in transportation, and the United States had become more important, geography had been dropped from the curriculum of the schools. For example, 93 percent of the students tested could name their state capital, but only 23 percent had any idea of the distance between New York and San Francisco. A quarter don't realize that New Jersey is on the East Coast, Oregon on the West.

Closer to home, work is in progress at Auburn University to determine entering freshmen's abilities in using geographic skills. Through informal testing in

his classes, Dr. Gregory Jeane found that even students well informed in current events could not locate on a map the place of occurrence. There was little or no working knowledge of geography. After his findings were picked up nationwide, he was persuaded to do a more formal study, in progress now.

Dr. Jeane, along with his colleague, Dr. Emily Melvin, is conducting a study now of entering freshmen in Alabama universities to see how well our educational system is geographically educating our young people. Five areas were chosen in which students should have skills if they were educated according to the guidelines stated in the State Curricula Guide. Map orientation, ability to make inferences

from given data, ability to deal with abstract concepts, ability to read and interpret graphs, and map interpretation were tested with surprising results. An overall serious lack of ability to deal with basic geographic skills was found. The majority of students had either one or no courses in geography before and of those having previous geography courses, the exposure to geographic skills didn't have lasting effects. These findings, although preliminary, indicate a definite need to incorporate more geography into elementary and secondary curriculum in the state of Alabama. Hopefully, the status of geography will improve in the current re-examination of the State Curricula Guide.

If you're interested, the complete study—"1977 National Survey of Hospital and Medical School Salaries"—is available for \$15 from: Personnel Office, University of Texas Medical Branch, Galveston, Tex., 77550.

If you don't know what all of these health jobs do, or would like to know more about any one of these occupations, or any occupation, for that matter, chances are good that we will have that information at the Career Development and Counseling Services (CDC-S). Explore many occupations—don't merely study about one. You may find that you are well qualified to do a number of things.

Gray

(Continued From Page 4)

population. The results of the survey were based on 236 interviews conducted in the 10 counties of the Northeast Alabama Regional Planning and Development Commission. The areas of possible needs were: 1) legal services, 2) economics, 3) health, 4) transportation, 5) recreation and education, 6) personal needs, 7) housing, and 8) a well-known older scholar in aging to speak on campus to the student, faculty and administration. These seminars are educational as well as entertaining. Professor Emeritus at Converse College, Spartanburg, S. C., Dr. Rosamonde Boyd, spoke at the University last fall, and Dr. Nathan Shock, Scientist given rise to a myriad of problems. With an easily accessible public transportation system, those elderly persons living in small rural communities can commute to and from the grocery store, their personal physician or health clinic, and drug store. These common trips are necessary in maintaining health as well

The small American farmer may feed the bulk of the world but Wagner and Gay Hinton feed their worms, seven million of them.

Located on approximately 100 acres just south of Huntsville, the Hintons have become part of a new breed of farmer.

Worm farming is not a new idea, but with low overhead and a large profit margin, it is becoming more popular than ever before. With new developments for the use of

as a possible food source, the future looks quite promising for the worm industry.

Wagner Hinton graduated from JSU in 1975 with a degree in biology while Gay completed her degree in sociology in 1976. Besides the worms, the Hintons also have 6,000 laying hens for egg productions and several horses.

Wagner stated, "I always wanted to be a farmer so I could be a man who was outstanding in his field." His hero is the comic strip

When asked about the feeding of the worms he replied, "Worms will eat almost anything that won't bite back, but their main diet consists of organic waste."

Gay's main interest includes working in their garden and raising her horses. "It is peaceful and quite without all the hustle and bustle of city life. The work is hard but the rewards are great. My dream is to raise beautiful horses."

Gay and Wagner are pleased with their worm

bait contract along with another contract for feed worms to a zoo in the Midwest.

When asked is all the hard work worth it, they agreed that it was hard work but the fun side of farming is the main reason they stay.

After watching the movie, "Gone With the Wind," Wagner commented, "That old man is right, the land is the only thing that is permanent and to quote Aristotle, 'the earthworm is the intestines of the soul.'"

and education, 6) personal needs, 7) housing, and 8) crime. Recreation was ranked number one in the needs area. Fifty-eight percent of those interviewed list recreation as an important need. Nutrition followed with 43.0 percent responding of the expressed needs.

A Nutritional Workshop for Senior Citizen Center Site Managers was presented at the University. This informative workshop aided managers of local nutrition sites. This program consisted of several enlightening lectures which provided the managers with information on a variety of subjects.

The ASP also co-sponsored a one-day regional conference with Gadsden State Junior College. The conference was concerned with sharing resources which

Department of Pensions and Security. These programs were geared toward working with elderly who are suffering from hearing and visual losses.

Perhaps the most involved program developed by the ASP is the Rural Aging Workshops. This program is being conducted in connection with the University of Alabama in Birmingham's Center for Aging. The rural workshops for the elderly cover a 10-county area and concentrates on smaller communities within each county. These workshops are formulated to provide information to the rural elderly.

A series of Distinguished Senior Scholar Seminars have been established by the program. This program is fundamental in that it brings

Dr. Nathan Shock, Scientist Emeritus at the National Institute on Aging in Baltimore will be on campus in March.

Although the reasons for studying aging are vast, the primary reason stems from the fact that the proportion of elderly people is growing and the birth rates are declining. The post World War II baby boom gives rise to the strains of elderly population in the future. By the year 2000, these baby boom children will be entering their later years. At this time, there will be a greater need for services and programs to provide help.

Transportation and nutrition have been described as the two major problems among the elderly. The lack of public transportation in rural areas has

in maintaining health as well as nutrition.

Nutrition was considered a minor problem when people produced their own food, but, now, due to the rise in fast foods, the elderly population is not aware of the nutritional value and often are not able to meet their nutritional needs.

In Calhoun County alone 11.3 percent of the population are 65 or older. This fast growing number of people will require much attention and services in the future. The problems which surround the elderly world are mounting. The solutions to these important issues are not concrete, but, through programs and personal action the required research can deliver some answers to ease sociological and psychological stress surrounding the elderly population.

JACKSONVILLE BOOK STORE
"Up Town On The Square"

REMEMBER THE MEN

Arbitrio

by our SGA office and letting them know what kind of acts we'd like to see.

As one SGA official put it, "That's just all that is available." If this is true, then MY BROTHER'S BAR must have some really heavy contacts. In just a couple of years, BROTHER'S has brought us such names as Gregg Allman, Wet Willie, Cowboy, and many other major music figures (as far as music that young people generally like to hear). Put this record, that of a privately owned night club against that of Jacksonville's, a large university. JSU has recently brought us Dolly Parton, Jerry Jeff Walker (which the SGA tells me only about 575 showed up for, compared to the nearly 3,000 that came to see Wet Willie during their three night gig at BROTHER'S), and now they give us Waylon Jennings. Not that these are not also major music figures, but think about what kind of acts you prefer to see.

And don't you believe it's because we can't afford better, because we can.

We're spending "probably around \$16,000 by the time it's all over," one SGA official said. Superstars like the BLUES BROTHERS are only about 25,000 big ones. I believe that for around or under 16 grand we could get a popular rock act that the students would turn out for.

But Waylon and the Crickets are only costing the SGA approximately \$10,000.

Our SGA used to bring us acts like Linda Ronstadt, Kiss, Seals & Croft, and the Atlanta Rhythm Section. Now we have country. As I said before, I'm not against that style of music, but I for one would like to see JSU get back into rock, at least in part. That is the major preference on any given state-college campus.

Our SGA is spending over 15,000 clams for him. The

extra five is for, "expenses," according to Joe Mucciolo, SGA vice - president.

As I said in the beginning, I am not placing blame on our SGA. They've done a fine job in all other areas. But I don't think they are aware of how much support the students would give for a rock act (although DR. HOOK drew over 3,000 in Gadsden's Convention Hall, and that is a pretty good gauge). So drop by their offices and let them know how you feel. If we lose money on this concert Friday, it could be a long time before we see another one. And the same SGA official tells us that the advance sales are looking rather discouraging already.

Even if you're a dyed - in - the - wool rock fan, turn out for the Waylon concert . . . for JSU concert activity's sake. We don't want to lose our rock any more than we wanted to lose our grass.

National top ten

By MICHAEL REAVES
Entertainment Editor

Since I goofed and printed this week's Hot Ten last week, and there have been no changes, the attention will fall on new entries in the mainstream.

Entering at number 90, STONEBOLT, who had the smash hit, "I Will Still Love You", gives us yet another goldbound single off the same LP, "Love Struck." THIRD WORLD comes to the charts at 89 with "Now That We've Found Love." CHIC'S latest to be looking

for at the 88th spot is "I Want Your Love," co-written by Nile Rodgers and Bernard Edwards. BOB WELCH fills number 87 with "Precious Love" followed closely behind by TOTO's newly released single from their debut LP "TOTO." EDWIN STARR, who has been dominating the disco charts for several weeks, lands in at number 84 with "Contact." LINDA RONSTADT, who gave us "Ooh, Baby, Baby," just a few weeks back from her "Living in the USA" LP now gives us "Just One

Look," coming in at number 80. CHER offers a new start back with "Take Me Home", this week's number 75. SISTER SLEDGE eases in at 69 with "He's the Greatest Dancer." It's been a great deal of fun mining the riches of BILLY JOEL'S "52nd Street" LP, and from deep within that mine comes his latest, "Big Shot," weighing in at number 67. Last but not by any means least, DIRE STRAITS enters the charts at number 47, higher than almost any new entry, with their overnight success of

"Sultans of Swing." Not much happening in album action, except that ROD STEWART'S "Blondes Have More Fun" LP and the BLUES BROTHERS' "Briefcase Full of Blues" switches places, putting Rod on top. Any of you statistic nuts might be interested in this: SATURDAY NIGHT FEVER SOUNDTRACK is ranked number 36 of the nation's best selling LPs on the charts, and has held that position for over three (See NATIONAL, Page 7)

Backstage

... At recent performances

By PATTY JOHNSON

This past week Jacksonville State students had the chance to see two plays, "The Women" and "Twelve Angry Men" but what they did not get a chance to experience was the feeling of being backstage. Sitting in the audience chairs and sitting in the backstage chairs are quite different. At 7 p.m., everyone is at the theatre dressed, made-up and waiting for curtain? Wrong! At 7 p.m. the actors and actresses are arriving. At 7:15 they are beginning to

remember things forgotten. At 7:30 a shoe is lost amidst the piles of shed clothing, and there is a frantic search for the right color lipstick. Hair starts falling from beneath the bobby pins and hair spray. At 7:45 everyone is listening and trying to estimate the size of the audience. Then above the excited whispers and "Break a leg's" the stage manager's voice sounds, "Two minutes! Places for Act I, Scene I." A hush falls over backstage as the first scene actors and

actresses prepare for their entrance. Curtain time—8:00. Butterflies are rampant.

Things start out smoothly and there is a sigh of relief. The crowd laughs at a line, and you know it is going to be a success. Then there is a silence on stage and everyone agonizes. Is a line forgotten, or is there supposed to be a pause? Ahh! There's the line. All of a sudden a very contagious case of ticklish throat spreads.

Scene one is over, and the hustle-bustle of changing clothes starts again. Scenes are changed, and in two minutes the next scene begins.

Sometime during the show someone must run into a table, knock a chair over, or break a glass. Time flies by and the last scene is here. It is performed splendidly and last of all is curtain call. The applause gives a sense of accomplishment and makes the weeks of hard work worth it all.

Critic's choice

By MICHAEL REAVES
Entertainment Editor
SPIRITS HAVING FLOWN—Bee Gees, RSO Records, produced by the Bee Gees, Karl Richardson, Albhy Galuten in association with the Robert Stigwood Organization.

PERSONNEL

Barry Gibb, guitar and vocals-Robin Gibb, vocals-Maurice Gibb, bass and vocals-Dennis Bryon, drums-Blue Weaver, pianos, ARP synthesizers, and vibes-Alan Kendall, guitars.

Although many people think that the BEE GEES were an overnight success (no such animal) with Saturday Night Fever, they have been recording for over 22 years.

Driven by their brilliant composer - arranger Barry, the Gibb Brothers have had staying power enjoyed by no one else short of Elvis or perhaps the BEATLES.

The first cut on the first side entitled "Tragedy," is a high powered number characteristic of their style since the early-to-mid '70s.

The CHICAGO brass section (Lee, Jimmy and Walt) puts the finishing touches on their only real disco cut on the LP.

The smash release of "To Much Heaven" brings reminiscent thoughts of the BEE GEES earlier style, when they were making such hits as "To Love Somebody" (get THAT all you old BDB members), "Massachusetts", and "I Started A Joke." The mixing on this cut is superb, with a heavy bass line, subdued guitar tones and the technician has brought out those beautiful RHODES tones for fill-in. The only

disagreeable sound I could find on this cut was a somewhat irritating lead vocal towards the end of the piece. Definitely a milestone for the Gibbs.

"Love You Inside Out" is just now being released as a single and shows promise of going just as far as the first two.

Basically a one-chord funk through the verse, it quickly changes to a mellow feel during the bridge and flows into a steady-metered string-filled chorus. During the course of the song, it moves to a definite disco feel, to funk and then to mellow. It could be confusing to the dancers, but certainly pleasing to the listener. Blue Weaver once again gives some nice Rhodes overtones.

If I didn't know better, I'd swear that "Reaching Out" was recorded 12 years ago. Back to their old style, this starts out with some nice acoustic work by Barry Gibb and Alan Kendall. It stays slow throughout, and has a MANILOW stepwise key change that changes the feel just a little, and the beat becomes heavier. Chart bound for sure.

The title cut is not going to make the disco floors, but it won't be because the song has no promise. It has a nice salsa feel from the beginning, again with great acoustic work at the edge. A most interesting progression. Herbie Mann gives us some simple but nice flute lines in the break section and again at the end. Good lyrics, well constructed, and some nice vocal arrangements. Would make a beautiful 'sunny day beach' song to hear when you're feelin' good.

The first cut from side two was not nearly as awesome as it's cousin on the flip

'Spirits Having Flown', the BEE GEES latest LP is this month's best album bet

force behind the superficial melodic lines, mixing some excellent trap licks in with the mellow feel this song seems to have. Nice horn, string and harmony arrangements is "Stop's only salvation.

Great horn and string work at the beginning of "Living Together." It turns quickly to funk and stays there for the most part. A brier shift to an upbeat thing after each chorus which could really throw dancers.

"I'm Satisfied" is a low-beat Latin, and has decent horn work throughout. Much simpler progression makes this song sound very unlike the BEE GEES style and usual musical genius. This one probably won't make the charts, but I do like the way everything is carried into from the verse to a completely different mood at the chorus.

"Until" is a well-put-together piece, but alas, is too short. No given tempo, an ad lib feel, and lots of reverb make this one a real tear-jerker, definitely something to play when the lights are

"Spirits Having Flown" is well-constructed if you look at it as two different albums, sides one and two. They are different as night and day, but your money is well-spent if you invest it on this, the BEE GEES newest work, (but not quite their best). "Spirits Having Flown" is this month's best album bet. In fact, the whole second side is not as impacting nor as high in caliber. A short of in-between beat keeps this one, called "Search, Find" from being categorized. Really too slow for fast dancing, but a high-spirited slow number. The horn section, the BONEROO HORNS, gives this number the extra punch it needs. Not characteristic of the Gibbs at all, but pleasant enough for the listener.

"Stop (Think Again)" smacks of an old B. B. King blues number, in the traditional 6-8 tempo. Lead vocal is a little weak, but the Rhodes and the BONEROO HORNS come to the rescue. Really nice horn work in this one, but Dennis Bryon is the only driving

Journey's new LP going platinum

Success stories

By MICHAEL REAVES
Entertainment Editor

TOTO

Members of TOTO are studio veterans who have appeared on countless hit albums recorded in LA. But that fact, and \$1 will buy a group a copy of ROLLING STONE. Lots of groups with similarly impressive credentials never even get to

force, all for the love of rock and roll. It didn't take too long before his songs and style impressed enough people to get him a record contract, followed by an album FM'ers couldn't get enough of, followed by a hit single "Baby Hold On" . . . and the rest is on-going history. The first LP is approaching platinum, and his brand new second album is

has also added fuel to the fire of the "Rocky Horror Picture Show" cult. That, of course, is where the Big Guy got his big break. Isn't pop culture a glorious thing?

JOURNEY

JOURNEY started off with a great first album, and a built-in following for the individual members (all were from successful

and energy of a hit LP, and radio stations were all over it from the day it was born.

Now MOTHER'S FINEST is the fastest-growing band of its kind in the country, and the stage is set for MOTHER'S FINEST to become the all-format monster group that they deserve to be.

No static at all

...individual members (all were from successful groups). Then, which each LP, they fined-tuned their sound and solidified their musical direction. Each album sold better than the last with "Infinity," their fourth and best, effortlessly going platinum without a national hit single. If this keeps up, JOURNEY'S potential is indeed infinite. And their fifth album is anxiously awaited by all.

...brand new second album is even more captivating than the first.

MEAT LOAF

Well, you'll soon be able to get the entire MEAT LOAF LP on individual singles. But you know what? Every MEAT LOAF single adds new momentum to the MEAT LOAF "Bat Out of Hell" album. His album is well past double - platinum, and it remains one of the hottest, most consistent sellers in the U. S. It's also the hottest international debut I've seen in many moons, with another two million selling outside the U. S. MEAT LOAF'S success

MOTHER'S FINEST

Atlanta's finest funk-rock band released their third album in 1978, and all the pieces fell into place. "Mother Factor", their newest work, had the sound

BOB JAMES

And to cap it all off, he released his own "Touch-down" album . . . the hottest sounding (and selling) BOB JAMES LP yet. Two weeks after release it was topping the jazz charts, bulleting up the national charts, and heading for gold.

By MICHAEL REAVES Entertainment Editor

The main advantage to FM radio stations is because they offer static-free reception. The main advantage to WLJS-FM is because they offer more music . . . and because it is OUR radio station.

True, it is OURS. But we don't ever use it. I see posters put up, announcements made through this paper, word - of - mouth rumors, and everything else. But no one seems to utilize this facility that is available to us all for the asking.

WLJS-FM, more widely known as 92-J, is a 10-watt station located at 91.9 on your FM radio dial. You can usually find it around 92. It plays solid music, public service announcements and school - affiliated announcements. That's all. No commercials, no stupid, boring shows discussing such "interesting" subjects you can hear on these "morning shows" that appear on local commercial stations.

Station Manager Dave Driscoll urges JSU students and organizations to use the

station. Says Driscoll, "We're an album - oriented station. We play songs you might not hear on 'Top 40' stations." And how many times have you wanted to buy an LP, but been unsure of what it might sound like.

Say you were a big Boston fan. That group has a new LP out. But many people say that it sounds too much like their first album. Why waste six or seven (or probably more) bucks to find out when you can hear many of the cuts not played on commercial stations, even one as popular as WQEN-104 FM. 92-J has an album feature

nightly, and you can hear what you're getting before you get it (the shaft, that is, by some record-pushing salesman).

So use your radio station. And listen to it. Many of your friends and fellow students are the dee-jays that run the shows, not to mention some pros from Q-104. Many of the students that work there go on to become popular and highly successful jocks at large commercial stations in the Southeast. Don't waste the talent that comes over the airwaves from the 'J'. They depend on you for an audience.

EDDIE MONEY

So you want to be a rock and roll star, 1978. EDDIE MONEY turned his back on a career handing out parking tickets for the NYC police

Potpourri

way through, characteristic of RTF's style. Keep your ears open especially for "The Musician" and "The Endless Parts 1 & 2."

Watch for two new super comedies coming up, a new JOHN BELUSHI film due in the spring and STEVE MARTIN'S film debut coming up sometime this year.

I hope all you caught BROTHER BILLY'S TV debut Saturday night called "Flatbed Annie and Sweetiepie: Lady Truckers." It was aired on CBS, and was one of the worst things to happen to Jimmy' second term campaign.

Speaking of Billy, the King of Beer was scheduled to be on "Face the Nation" (until his famous airport scene). The producers of the show cancelled, for fear Brother Billy might try to "Moon the Nation."

And, as long as we're on a political subject, the new hit single in Tennessee is a number entitled "Pardon Me, Ray," recorded by WNGE-TV's singing weatherman, BRIAN "BLUE" CHRISTIE. Ever since Gov. Blanton's courageous pardoning act, T-shirts bearing a "Pardon Me, Governor" sign on it, and this new hit single. And the lyrics cut to the core:

"Pardon me, Ray—are you the cat the signs the pardons?"

"Cause you're an old friend of mine, Just put your name on the line.

Double murder and rape—that's all the jury put me in for.

And I'm sure you'll agree, They took advantage of me."

The song was an apparent rip-off of the "Chattanooga Choo-Choo" standard—a fact that didn't escape the notice of United Artists Music, who claimed the song was an unauthorized parody and amounted to a copyright infringement. So back to the studio went "Blue" Christie and the Gitch Yore Own Band. They have released their remake—same words—same meaning—different melody.

The latest in clubs, and perhaps the ultimate in night time entertainment is San Francisco's newest disco called "OZ". Perched 30 floors above the bay, "OZ" is located in the penthouse of the St. Francis Hotel. "OZ" has the classiest interior in the country, including live foliage and entire forests of trees.

Sonny Paine, long-time jazz drummer with such names as Harry James and Count Basie died at the age of 52 with an apparent heart condition Jan. 29 in L. A.

Watch out for CINDY BULLENS, who the New York Times calls "a real talent for upbeat rock and roll." Her debut LP, "Desire Wire" on United Artists records and tapes.

Cincinnati has also opened up a new disco. Though not quite as classy as Frisco's "Oz", "TOMORROW'S" cost over 1.2 million dollars to build. Their lighting system alone cost \$250,000.

Anyone who thought the LETTERMEN were gone from the music scene, look again! For those of you too young to remember, these three guys from the USA are beginning their eighth tour of Japan and had the hit, "Can't Take My Eyes Off of You."

One last thing, a very reliable source tells me that MY BROTHER'S BAR (201 S. Pelham in J'ville) is going to be hosting LOUISIANA'S LE ROUX sometime this spring. Details are unavailable at this time, as are tickets. But you can believe it, BROTHER'S has brought many large-name acts to this area; this one doesn't even surprise me. How come we can't get acts like that? Don't tell me that they're not available. Watch this column for any further info, and look for an advertisement any day now in this paper.

(Continued From Page 6)

weeks. Big deal, right? It has remained in the top 40 LPs since its release 64, yes 64 weeks ago. Also, the VILLAGE PEOPLE's "Macho Man" is holding at 102 after being on the charts for 47 weeks. But the ones that have them all beat are these: BILLY JOEL holding spot 28 with his "Stranger" LP, for 71 weeks, MEAT LOAF holding 43 with "Bat Out of Hell" for 68 weeks, FOREIGNER at 136 on 99 weeks. VILLAGE PEOPLE and BARRY MANILOW, on the charts for 72 and 51 weeks respectively raised five spots, STYX holding at

145 after 81 weeks, and CHUCK MANGIONE maintaining spot 188 with "Feels So Good" LP. But here are the clencher. FLEETWOOD MAC, due for another LP soon, is holding number 111 after 103 weeks on the charts (only a week shy of two years) and PINK FLOYD, who hasn't had a big hit since the early 70s is finally dropping from 194 to 195 after being on the charts for 245 weeks. Talk about 'staying power'.

These figures are according to BILLBOARD Magazine.

SPORTS

Pinning it down By Allen Clark

Steve Ingram On Bottom

Waiting For The Whistle

My regards go to the Jax State wrestling team who has worked so hard and diligently the entire year only to have the "welcome mat" pulled out from underneath their feet.

The wrestling team was just notified that they will not compete in the regional tournament to qualify for the nationals. The reason: no funds to send them.

Let me clarify that statement for you. The new state administrators have hit Jax State (along with every

areas," as University President Dr. Ernest Stone terms these departments. Dr. Stone, one of the most avid sports fans at Jacksonville, tried to do everything in his power to work the budget in favor of the wrestling team and the blame most definitely cannot fall on his shoulders.

Due to the short notice, the SGA did not have sufficient time to gather all the senators and members, hold an organized meeting, and decide on where to get such a

GSC Votes To Remain In NCAA Division II

The nine-member Gulf South Conference will be reduced to a seven-member conference this year but the seven remaining members agreed unanimously to continue the conference's status as a NCAA Division II member.

The unanimous decision came in Jackson, Miss., as the member schools discussed a ruling by the National Collegiate Athletic Association (NCAA) to cut division members' football scholarships from 60 to 45, effective in 1982.

Southeastern Louisiana and Nicholls State, anticipating the NCAA

decision, resigned from the conference last year.

"It seems impractical at this time for the conference to apply for Division I status and play a (Division I) AA schedule," said Jacksonville State University athletic director Jerry Cole. "It's not just a matter of saying, 'We're going up,'" Cole said. "There is certain criteria we've got to meet."

Cole said that Division I-AA schools had to play at least 50 percent of their football games against other Division I opponents and in basketball, 85 percent of the schedule had to be against Division I opponents.

"It is particularly hard to

adhere to in basketball because none of our conference schools are in Division I basketball," Cole said.

Cole added that the conference has appointed a committee of three member schools to study the possibility of certain individual schools in the conference retaining their 60 scholarships in football instead of reducing as ruled by the NCAA.

"The consequences of that, we feel, would be that the schools who do not adhere (to scholarship reduction) will forfeit the right to participate in the Division II football championships,"

Cole said. "But it would preserve the right hopefully of our other sports to be able to compete on the Division II level for national titles. In football, dual members (NCAA and NAIA members) could play for the NAIA (football) championship. The schools in the conference which did reduce scholarships, could play for the Division II football title."

Cole said that the committee, comprised of Troy State, Delta State and Mississippi College, will report back to the conference at the June meeting with an opinion from the NCAA on whether the schools could remain

members in Division II if they did not reduce scholarships.

"We're not sure if the NCAA will go along with this and allow us to retain our membership," Cole said. "But according to the rule book, they will."

Cole said that "at least three schools" in the conference will "make every effort not to reduce scholarships in football and still maintain the relationship with the conference." Those schools, Cole said, are Jacksonville State, Troy State and the University of Tennessee - Martin.

The Gulf South Conference members are Jacksonville

State, Livingston University, Troy State, Delta State, Mississippi College, the University of North Alabama and Tennessee - Martin.

"The conference (GSSC) is not resolved for just one year," Cole said.

"Hopefully, it is resolved from now on. We made an effort to keep the nine schools together but after they (Nicholls and Southeastern Louisiana) explained their situation everyone agreed it was in the best interest if they (Nicholls and Southeastern) left the conference."

Larry Wilson Beats Jax State

With 40

state administrators have hit Jax State (along with every other state controlled or financed school) with a 6 per cent proration, or to put it in straight terminology, a 6 percent cut in school funds.

Since the school cannot function without a maintenance crew or utilities, the budget in these departments cannot be touched. The salaries at the University will not be cut. Several other departments cannot be cut for the sake of all students, that is in terms of student activities and everything included concerning the majority of the student body.

People, that doesn't leave very many departments to cut, and out of those departments must come a total of 6 percent from all departments combined and it ends up being about a 30 percent cut from the "soft

an organized meeting, and decide on where to get such a large amount of money. Please do not think that the SGA would not have helped the wrestling team, they would have if only they had had a little more time.

If anybody really wants to complain to somebody who could possibly make sure that this doesn't happen again, then write to Montgomery, Alabama. I think I could find the exact address for you.

We who care hope that this setback will not dishearten you to the point of not wanting to continue wrestling for Jax State next year. You're a great bunch of guys and the people here have a world of faith in you. Think about next year and know that then it will be better planned.

Thank You.

With 48

Tuesday, Feb. 12, is a day that Head Coach Bill Jones will not forget for a long time, because of one person, Larry Wilson. Wilson put up 48 points out of 88 for the Colonels of Nicholls State as they put Jax State out of the Gulf South Conference running with the 88-83 victory.

After the game was over, Coach Jones' straight forward comment was, "We just couldn't stop him. We tried everything in our defensive arsenal and we still couldn't stop him."

Jax State's plan was to keep the ball away from Wilson, but every time he

touched the ball, Nicholls' tallied points on the scoreboard

"We went to the floor with about as much desire to win as a team could have," said Jones. "But we were up against probably the best player in Division II basketball and maybe even higher than that. He is just a super player and has been a super player since he's been in the conference."

Wilson's 48 points in the game was a new GSC individual scoring record for a single game. His reason, "I just felt good tonight and I was very relaxed." There's not much anybody can say

against that, he made it to the record book.

High scorer for Jax State was Tommy Bonds with 19 points followed by Al Lankford with 16, Todd Smyly with 16, Bob Clements, 10; Tommy Keith, 8; Van Davis, 8; Ronald Towns, 4; and Larry Blair, 2.

One last comment from Coach Bill Jones that really is worth repeating was: "I'd like to attend Wilson's graduation at the close of this semester. I'd love to go down there and hand him his diploma, just to make sure he won't be coming back."

Hey Tommy! You Forgot Something

Lady Gymnasts Take U. Of Florida And Miami Dade J.C.

By KATHY SHEEHY

The Jacksonville State women's gymnastics team added to its list of victories this season by taking first place in a tri-meet with the University of Florida and Miami Dade Junior College on Saturday, Feb. 10, in Gainesville, Fla.

"It was by far one of our better meets," remarked Coach Robert Dillard who went on to say that he felt the women showed much improvement on vaulting, floor exercise, and balance beam, the latter of which will be the team's "key to future strength" in the upcoming Regional and National Championship meets.

Competing without their top all-arounder, Susan

Puckett, who is recovering from an injured ankle, Jacksonville came out ahead with a final total of 127.45. The second place team was the University of Florida with 121.00 and Miami scored 89.75 for third.

Being a junior college, Miami is unable to travel out of state to compete and is therefore lacking in needed experience. Their team usually participates in as few as two to three meets each year, yet despite this fact, they had a fairly good meet and won the uneven parallel bars event.

Jacksonville's Leslie Hill shared the honor of first place all-around with Alexander of the University of Florida as each scored a

total of 32.35. Florida's Kathy Gordon (31.90) was third, and JSU's Susan Balk was fourth.

This meet was Leslie's first time to take first place all-around since she began competing for Jacksonville. In Coach Dillard's words, the all-around scores are "a clear indication of how hard both Leslie and Susan have been working in the past few weeks."

Credit must be given to JSU's Cindy Frank for her accomplishments in this meet. Unable to compete earlier this season due to an injured foot, Cindy could perform only her bar routine in the team's last few meets, yet this time she showed her beam routine for the first

time and scored in the high 7's.

Vaulting was dominated by Jacksonville as three JSU women placed in this event. Kathy Balk received the highest score of 8.65 for her half on-full twist off. There was a tie for second between JSU's Lynn Bruce and Karen Alexander of Florida as each scored an 8.5 for their handspring fulls, and JSU's Susan Balk performed her tucked Tsukahara for an 8.35 and third place.

Uneven parallel bars proved to be the weakest event for each team. Lobatosh of Miami Dade won the event with an 8.45

(See FLORIDA, Page 10)

Ladies Catch Livingston On A Tiger Hunt,

109 - 43

By JEFF HUBBARD

The nets are still burning at Pete Mathews Coliseum where the Lady Gamecocks burned the Livingston Tigers 109-43 Tuesday night.

There was no contest involved for JSU except to see how many records could be broken. In the first half they scored the most points in a half (75), allowed the fewest (19) and had 3 players in double figures.

However, Livingston didn't throw in the towel, although it looked like the

game was thrown away, and JSU broke the magic 100 mark with 8:17 left in the game when Gail Umphrey tipped in a rebound.

JSU's record improved to 17-4 while Livingston ends up at 4-17.

Vickie Holmes scored 27 to lead the Lady Gamecocks. Holmes had 21 in the first half to set a team record. Others in double figures includes Felicia Kendrick with 12, and Jill Collins, Willene Chatfield and Kim Sewell with 10 each.

New Coach

Jack White New Offensive Coordinator

Jacksonville State University head football coach Jim Fuller announced this weekend the hiring of Jack White as offensive coordinator.

White, 29, comes to JSU from the University of Kansas, where he coached four years.

"Jack played quarterback in college and has a rich background in athletics," Fuller said. "In addition to being a fine coach, he is also an excellent recruiter."

White will replace Watson Brown, who resigned last summer to take a job at Texas Tech. Brown is now head coach at Austin Peay. Fuller did not hire a replacement for Brown last summer, deciding to wait until after the 1978 season.

White coached the defensive secondary at Kansas two years and the junior varsity two years following one year at East Carolina.

Jacksonville State's new coach was introduced to athletics at an early age as his dad, Jack White Sr., worked for the New York Yankees baseball team 15 years in the front office and also served as general manager for the San Francisco 49er football team. He retired in 1975.

"I'm excited about working with the offense again and joining the Jacksonville staff," said White. "Jacksonville State has a rich tradition in football and I'm anxious to get started."

Weekend results:

Jacksonville lady gymnasts win

Mid-South against Louisville (2nd),

LSU (3rd), Indiana State (4th),

Texas A&M (5th).

Ball Up For Grabs, Van Davis Looks On

In India, owl's flesh is regarded as an aphrodisiac, but eating it will turn a man into a fool!

Lady's Track Team Place 6th At Auburn

Jax State's ladies track team was down at Auburn again on Feb. 3, and picked up sixth spot out of nine teams. Auburn's women ran away with the contest and took most top honors.

Scoring for Jax State were: Georgia Barkett, 3rd in long jump and 5th in the high jump; Kay Tingley, 4th in the two mile run and Synthera Bruner placed fifth in the same event. The two mile relay team, consisting of Synthera Bruner, Connie Swain, Shirley Looney and Becky Threatt, placed sixth in the meet. The mile relay team placed sixth with Georgia Barkett, Coco Collins, Jan Roberts and Becky Threatt.

The teams placed as follows: Auburn, Florida A&M, Tuskegee, Alabama State, Hillsborough College, Jax State, Alabama A&M, Troy State, and Georgia last.

Men's Tennis Team

..From left, Terry Turner, Robert Marmann, David West, Mitchell Walters, Jim Beene. Second row: Dennis Bryant, Benji Spann, Jack McClanahan, Paul Gore.

Third row: Glenn Roswal H.C., Jerry Giles, Steve Machen, Mike Weckworth, Matt Holaday.

Jax 75 - UAH 60

By RANDY COLEMAN

Tuning up for state tournament action this week at Troy State, Jax State's Lady Gamecock basketball team swept past UA-Huntsville 75-60 in Huntsville and returned home to plaster Livingston 109-43. The ladies now boast a 17-4 worksheet and should be the favorite to win the state tournament. Their toughest competition should come from Troy State and Tuskegee.

Feb. 9—It was a sluggish Jax team which rallied from behind in the final three minutes to post a convincing win. Forward Jill Collins banged in 20 points to lead the way. Collins also hauled down 15 rebounds to pace Lady Gamecock board domination. Willene Chatfield scored 14 and pulled down 7 rebounds for runner-up honors. Co-captain Felicia Kendrick knocked in

12 points and had 7 rebounds, while Vickie Homes and Sharon Armour each scored 10 points. Karen Mitchell scored 8 points, all in the second half, and Cheryl Van Pelt tallied 1 point and 6 rebounds for the victors. Pam Duggan scored 20 to lead UAH.

Florida

(Continued From Page 8)

followed by JSU's Leslie Hill (8.0) and Florida's Kathy Gordon (7.95).

Florida's Karen Alexander won the balance beam competition with a score of 8.25. JSU's Leslie Hill finished second with an 8.15 followed by Kathy Gordon of Florida (8.1).

On floor exercise, Kelly of Florida was awarded an 8.3 for first place just ahead of JSU's Leslie Hill (8.25) and Linda Gordon (8.1).

The JSU women will host Eastern Kentucky University and Auburn University on Feb. 24 here at Stephenson Gym at 1:30 p.m. Everyone is invited to come out and support the great JSU team which, incidentally, is currently ranked 18th in the U. S. in Division I.
