Heterosexuals more aware of AIDS

By JOEY LUALLEN
Chasticleer Senior Editor

Editor's note: All statistics are from the Surgeon General's Report on Acquired Immune Deficiency Syndrome unless otherwise noted.

AIDS was first reported in this country in 1981. By 1991 279,000 cases of AIDS will have occurred with 170,000 deaths attributed to the disease. In the beginning it was thought of by the general populace as a disease confined to homosexual men and intravenous drug users (i.e. heroin addicts). However, the public is increasingly becoming aware that AIDS is not confined to these groups. According to Carol Lawler, P.N., head nurse at the student health center, IV drug users and prostitutes, many themselves IV drug users, help spread the disease to heterosexuals.

Lawler says the 15 to 25 year old age group is at greatest risk among heterosexuals. This puts most college students in the high risk group. Education is the best defense against the virus says Lawler, but prevention is her "thing." Condom vending machines are fast becoming the "wave of the future" on college campuses around the country and Lawler says she would be supportive of them at Jax State.

Jim Lance, whose firm, the Vesia Group, represents three condom vending machine companies, said surveys show both men and women prefer the privacy of condom vending machine companies, said surveys show both men and women prefer the privacy of condom vending machine companies, said surveys show both men and women prefer the privacy of condom vending machine companies, said surveys show both men and women prefer the privacy of condom vending machine companies, said surveys show both men and women prefer the privacy of condom vending machine companies, said surveys show both men and women prefer the privacy of condom vending machine companies, said surveys show both men and women prefer the privacy of condom vending machine companies, said surveys show both men and women prefer the privacy of condom vending machine companies, said surveys show both men and women prefer the privacy of condom vending machine companies.

"They also show women purchase more condoms from vending machines than men. Apparently women are more concerned," Lance added.

Lance went on to say that schools refuse to take preventive measures. "They say 'our policy is to educate the students.' I say 'Great!' But if I am educated enough to know that my car needs gas, I need somewhere to buy the gas."

There are presently no condom vending machines on campus at Jax State, but according to several administrative officials the reason is simple: It’s never been brought up. Students are more interested in getting ice machines and micro-waves (in the dormitories)," said Veda Goodwin, chairman of the Residence Life Committee.

Condoms are not inaccessible to students who live around the campus, however. They are available at the nursing center clinic, free of charge, upon request by students. Also, three local drugstores said they carried a large variety of condoms and all claimed to carry spermicides with nonoxynol-9, an ingredient that has been shown to kill the AIDS virus. The AIDS Hotline advises using a spermicide with nonoxynol-9 along with a condom.

AIDS stands for Acquired Immune Deficiency Syndrome. According to Dr. C. Everett Koop, U.S. Surgeon General, it is contagious in the same way that sexually transmitted diseases, such as syphilis and gonorrhea, are contagious. "AIDS can also be spread through the AIDS while donating blood. A person cannot contract AIDS while donating blood."

When a person contracts the AIDS virus, he can remain apparently well and may have no physically apparent symptoms of the illness. "The person can, however, without proper precautions, spread the disease through sexual contact or IV drug use."

The Surgeon General advises any-
March honors Dr. M. L. King

Students participate in march honoring Dr. Martin Luther

King, Jr.'s birthday.

By ZENOBIA FETTWAY

Chanticleer Staff Writer

On Monday, January 18, a large crowd gathered before Pannell Hall to honor Dr. Martin Luther King, Jr. The march to honor King was headed by Alpha Phi Alpha fraternity. The members, along with a crowd of over one hundred, carried candles and sang old hymns to acknowledge the late civil rights leader.

JSU graduate, says the proposal would improve in the future. He stressed that we are here.

**Board of Trustees meets**

The Board of Trustees, in a Monday morning meeting, approved a $1.6 million renovation project for Stephens Gym. The project would include a new locker room, a new weight room, and the fourth largest enrollment in the state. The transition to a fully air-conditioned facility will serve students and faculty. The project is funded from the state's budget.

**Unemployment rate down**

JACKSONVILLE—Significant progress was made in lowering Alabama's unemployment rate in the last year, according to Jacksonville State University's Center for Economic Development. The preliminary rate for October, 1988, dropped from 8.5% to 6.8% in October, 1986. The highest unemployment rate was 11.1% in February, 1988.

positive for AIDS infection and has a specific set of clinical symptoms. However, ARC patients’ symptoms are often less severe than those with the disease we call classic AIDS.

Signs and symptoms of ARC may include loss of appetite, weight loss, fever, night sweats, skin rashes, diarrhea, tiredness, lack of resistance to infection, or swollen lymph nodes. These are also signs and symptoms of many other diseases and a physician should be consulted.

AIDS

Only a qualified health professional can diagnose AIDS, which is the result of a natural process of infection by the AIDS virus. AIDS destroys the body’s immune (defense) system and allows otherwise controllable infections to invade the body and cause additional diseases. Some symptoms and signs of AIDS and the “opportunistic infections” may include a persistent cough and fever associated with shortness of breath or difficult breathing and may be the symptoms of AIDS, infection, and has appetite, tiredness, cough, night sweats, skin rashes, diarrhea, weight loss, fever that person’s body fluids. “Body Fluids” include:

- BLOOD
- SEMEN
- FECES
- SALIVA
- VAGINAL SECRETIONS

Avoid sexual practices such as: anal intercourse, “fisting,” “rimming,” etc., that may cause injury or tears in tissue. Avoid oral-genital contact.

5. Do not have sex with people who inject drugs (including prostitutes)

6. When in doubt, use a condom

FOR SAFER SEX

1. Don’t have sex with multiple partners.

2. Don’t have sex with persons who have had sex with multiple partners (including prostitutes)

3. Avoid sex with persons who have had sex with AIDs, with people at risk for AIDS, or with persons who have had a positive test for AIDS antibodies.

4. If you do have sex with a person you think may be infected or who may be at risk of being infected, protect yourself by taking precautions to prevent contact with that person’s body fluids. “Body Fluids” include:

- BLOOD
- SEMEN
- FECES
- SALIVA
- VAGINAL SECRETIONS

The Chanticleer is the student newspaper of Jacksonville State University. The Chanticleer is produced entirely by students and printing is done by the Daily Home in Talladega. The newspaper is funded by University appropriations and advertising sold by ad managers. Office space in the basement of the Theron Montgomery Building is provided by the University.

Letters to the editor, and guest columns are welcomed. All submissions must be typed, double spaced, signed and must not exceed 300 words. The deadline for all letters, press releases and columns is Friday before publication at 2 p.m.

All letters must be presented with a valid student-faculty ID card. Letters from other sources must include address and telephone number. Ideas expressed on the editorial pages are the opinions of the writers. No obscene or libelous material will be printed. The editor reserves the right to edit letters for space and for correct English.

Send all submissions to Steven Robinson, c/o The Chanticleer, P.O. Box 3060, JSU, Jacksonville, AL 36265.

Last week the Supreme Court of the United States ruled that a St. Louis high school principal could legally censor the contents of the student newspaper. Articles concerning pregnancies within the student body (no pun intended) were pulled by the principal because he felt they were too controversial. Get a real grip on life, man. It's not like you can hide the fact that you're walking down the halls of your school.

The principal said students shouldn't be reading or writing about sexual topics. Students who are pregnant are obviously, or rather were obviously, sexually active. It's evident that students don't have to read about something in order to do it. Visual aids are mandatory for hormone-induced activities of a sexual nature.

I think the Supreme Court has just opened a whole new can of worms. With this ruling, the Court has said that First Amendment rights only apply to certain sections of American society. In essence it has stated that students are second class citizens, undeserving and unknowledgeable of constitutional safeguards. Well, I guess slavery will be reinstated before long, and don't forget child labor.

A newspaper is a newspaper is a newspaper, whether it be done by students or professional journalists. They should be afforded the same constitutional rights, one and all.

I believe that St. Louis principal is doing his school a great injustice. Not only has he stirred up a national controversy, he has tried to solve a problem by hiding it. As Campus Life Editor Cyndi Owens was quoted in the Anniston Star last weekend, "...just because things are quiet, the principal shouldn't have the right to take scissors to the newspaper in hopes of ignoring a problem and having it go away."

As a student journalist, this issue is of major concern to me. Even though we on this staff have had no problems with the administration on the contents of the paper, I would hope that if something "controversial" was printed, no flack would shower down on our heads. Hopefully what is left of the First Amendment would shield us from the fiery darts of censorship.

We are a small staff doing the best we can to present as professional a publication as possible. I think we do a pretty good job of doing just that. Especially considering that this university has no department of journalism and no full-time journalism instructor. Excuse me, JSU, but English and journalism are not synonymous. Neither are print medium and television and radio. Hmm, it sure would be nice to have a new office over-in Self Hall: "...

For the record

FREE SEX!
(Just kidding, but read anyway)

That all-knowing Supreme Court has done it again. Let's pick on those who are most endangering the lifeblood of America—student newspaper reporters.

Steven Robinson
Editor-in-Chief

A nation that is afraid to let its people judge truth and falsehood in an open market is a nation that is afraid of its people.

—John F. Kennedy
Student drinking rates stay about the same

(CPS) - While anti-drinking rules cost Marquette University cheerleaders their jobs during the holiday break, could land 2 North Carolina State students in jail, a California State University (CSU) at Dominques Hills professor concluded campus attitudes still encourage students to drink.

Students, added CSU's Dr. David Nasarit in reporting the results of the University of California at Berkeley study he helped direct, seem to be drinking as much as they always have, despite intense campus efforts to the contrary.

Most schools around the U.S. have cracked up "alcohol awareness" programs since 1980, when federal law forced states to raise their legal drinking ages from 18 to 21. To enhance insurance, colleges had to demonstrate to insurance companies they were keeping their underage students from drinking.

But the Berkeley study suggested there has been no profound increase or decrease in student drinking since the new policies began.

The reason is that many schools, Nasarit said, "are lax in observing violations of the drinking minimum age." Alcohol, moreover, is often an integral part of social and athletic events, and the "awareness" programs, by not recognizing alcohol's role, are rendered ineffective.

Nasarit's search, part of an ongoing study of campus alcohol use, noted fraternities have helped keep general student drinking rates high. "Young men living in fraternities seem to drink more often and larger quantities than any other group of similar young men in dormitories, or with roommates."

"It's not clear whether that's because fraternities recruit drinkers or manufacture drinkers," Nasarit continued. "But that seems to be a phenomenon that holds true on all campuses with fraternities."

A solution, he suggested, might be to crack down on people and groups who serve liquor to students. "This has a chilling effect on individual willingness to serve alcohol."

At Marquette, however, a group of cheerleaders quit in December instead of tolerating a crackdown. Eleven cheerleaders quit the Milwaukee college's squad after school officials suspended 2 cheerleaders for swiping some leftover champagne from a private party.

"They said they could no longer cheer" with 2 members suspended for something they all took part in or knew about, said Mark McCarthy, Marquette's associate dean of students.

Former cheerleader Kim Heller, one of those suspended, said cheerleaders often took leftover champagne from parties they had worked at as hosts to save for a champagne celebration after the first basketball game of the season. However, the boat company that sponsored the party complained to the school.

At the same time Raleigh, N.C., police, charged 2 North Carolina State students with counterfeiting drivers' licenses and selling them to classmates to use them to buy alcohol.

The 2 students built a large cardboard replica of a license; they would then take photos of customers standing in front of a replica, and process the resultant artwork as a fake license.

The students, each charged with 2 counts of counterfeiting and selling drivers' licenses, could serve 3 years in prison if found guilty.

The University of Washington, however, may have been overzealous in attempts to control drinking. The school, facing a lawsuit from the American Civil Liberties Union and several UW law students, agreed not to search fans attending football games for alcohol. At the beginning of the 1987 season, university police had stepped up efforts to combat alcohol use during football games.

But administrators, heeding protests, agreed to halt the searches, at least for the last game of the season. UW officials said they will develop a revised search policy for next season.

Jamie Slatton to perform at Super Bowl XXII

When you watch Superbowl XXII, if you look closely you may be able to see a Jacksonville State University freshman performing with the American All Star Dance Team directed by Leslee Fitzmorris. Jamie Slatton was one of 50 dancers selected from a field of 3,000 contestants to perform in the pre-game festivities.

Jamie left for San Diego on January 23, and will stay through the end of the month. When the dancers aren't practicing they will visit Mexico, have lunch on a Navy aircraft carrier, tour the site where Top Gun was filmed, shop, and go to the beach.

The dance camp counselor auditioned in October, and was judged on "overall dance ability, positive attitude, stage presence, and an 'All American Girl' image," according to a Birmingham News report.

During the show, "A Salute to Bob Hope," the fifty dancers will be joined by 450 Navy men and 400 California dancers.

Jamie didn't say if she would be rooting for the Denver Broncos or the Washington Redskins.

FBI asks libraries to help find spies on campuses

(CPS) - Soviet agents are prowling American campus libraries and using American students to gather sensitive -- though unclassified -- technical information for them, the Federal Bureau of Investigation says.

The FBI, moreover, has asked librarians to help it catch them by reporting the names of foreign students who use certain books or databases.

But college librarians generally don't want to help, saying it could scare students away from libraries, violate their constitutional rights and scuttle the librarians, own professional ethics.

"It's an unwarranted intrusion by the government," said Patrice McDermott of the Chicago-based American Library Association.

"To be told to look for foreign agents is frightening," said Jay Barrett of the Association of Research Libraries. "How do you tell if someone is a foreign agent? If they have an accent?"

"They've got no business screwing with libraries," said Quinn Shea of the National Security Archive, a Washington, D.C., group that pursues freedom of information issues.

The FBI, in turn, says its "Library Awareness Program" is legal and necessary to keep foreign agents from piecing together technical information from university libraries that could be used to harm the U.S. national security.

"We've known for years that the Soviets target university libraries," said James Fox, head of the FBI's New York office. "especially big technical libraries like you'd find at MIT or Stanford, for information.

"Soviet agents, Fox said, often hire students or professors as researchers about lasers, artificial intelligence and other technology with military applications.

Gemnadi F. Zakharov, the Soviet spy arrested in 1986 who was later traded for Nicholas Danoff, an American reporter seized in Moscow, recruited students to gather information for him, Fox said. Those students "smelled something bad" and tipped off the FBI. Other students, lured by large amounts of money, are less patriotic, he said.

The agency, he said, is not asking librarians to join the espionage business. "All we want to know is if there are Soviets coming around regularly and posting cards looking for research assistants."

Librarians, however, say the program isn't that innocent.

"What's the next step?" asked Barrett. "Classifying complex maps because they show where bridges are (See SPIES, Page 7)

Fretting about ozone, some campuses ban styrofoam

(CPS) - Spurred by recent reports that the earth's ozone layer is degrading, students at several schools are trying to ban styrofoam -- which they say contributes to the problem -- from their campuses.

Students at the universities of Minnesota and California at Berkeley, California at Santa Barbara and Colorado have mounted recent campaigns to replace styrofoam cups and utensils with other substances.

Cal-Santa Barbara's University Center Governance board last week scheduled a January 14 meeting to consider whether to get rid of the styrofoam cups, utensils and plates used in campus cafeterias, acting food services director Bonnie Krause said.

Another the University of Colorado, under similar pressure from environmental groups, stopped using styrofoam just this fall, the Minnesota Public Interest Research Group officially has asked Minnesota to quit.

Berkeley's city council, moreover, has formally resolved to ban styrofoam throughout the city. "Styrofoam doesn't decay," explained Paul Steinberg, a student trying to get Cal-Santa Barbara to stop using the stuff, "so it's an environmentally unsound. And when you pour hot liquids into it, styrofoam releases substances in the face of the drinker."

S t e i n b e r g a s s e r t e d chlorofluorocarbons used to make styrofoam "are responsible for the depletion of ozone and the creation of holes in earth's ozone layer."

Ozone protects the earth from ultraviolet radiation, a cause of skin cancer. O n e r a n t s a r e n ' t s u r e chlorofluorocarbons are the culprit.

"There are actually quite a few competing theories as to why the ozone layer is disappearing." noted Yale chemistry Prof. Robert Crabtree. But chlorofluorocarbons able to reach the upper atmosphere could react with the ozone layer, Crabtree said. "Nevertheless, even destroying styrofoam creates a hazard, George DeMartino of the New Haven Green Party contended.

Burning styrofoam releases dioxins, and these, too, attack the ozone layer, he said.

Earlier this term New Haven residents and Yale students joined in a "McProtest," picketing fast food restaurants that regularly use styrofoam- which has proven to be an effective, lightweight insulating material -- to boost awareness of the waste disposal problem in general and styrofoam in particular.

The action was part of a 16-state effort coordinated by the Washington, D.C., based Citizens' Clear-
for terrorists to blow up?"

"The whole basis of our govern-
ment and the First Amendment," 
added New York University's Nan-
ey Krannich, "is the free flow of 
information. The attempts to con-
trol "sensitive but unclassified in-
formation is so bored, it could take 
in anything." The Library Aware-
ness Program is the latest of the 
FBI's campus activities that date 
back at least to the early 1960s, 
when agents compiled information 
on students and faculty members 
they suspected were communists. 
During the 1960s and 70s, the 
bureau monitored campus anti-war 
and civil rights activists.

"It smacks of the intimidation 
of the left during the 60s," said 
McDermott. "Foreigners are an 
easy target, especially with the 
anti-Libyan and anti-Middle 
Eastern sentiments prevalent to-
day. It's easy to erode rights by 
giving after groups to whom society 
is especially unsympathetic first."

Shea argued that, "just because 
something is not against the law 
doesn't mean it's a good idea, and 
recruiting librarians as surrogate 
spies is a stupid idea. It's the 
difference between what this country 
is supposed to stand for and those 
countries the FBI is supposed to 
protect us from."

So far, the FBI has asked at least 
6 schools - New York University, 
the State University of New York 
- Buffalo, Columbia, and the univer-
sities of Cincinnati and Maryland 
to monitor who's using their librar-
es.

"In the spring of 1986, a FBI man 
came in and told me they were 
looking at the technical libraries in New 
York," recalled NVU library 
official Nancy Guzman. "He said 1 
of every 3 U.N. delegates from the 
Soviet Union are spies, and wanted 
to know if any Soviets have come in 
asking for sensitive information, 
database searches or unusual copy-
ning requests."

"I was stunned," Guzman re-
membered. "I said I can't and won't 
help them. We're not going to 
monitor library users."

Guzman's experience - and re-
ponse - is typical. "I had the FBI 
come into my office one day," said 
Charles Osburn. Maryland's former 
dean of libraries now at the Univer-
sity of Alabama. "They wanted us 
to report the names of people who 
asked for certain engineering jour-
als. They were real stony-faced - I 
couldn't make them laugh - and I 
told them we couldn't comply with 
their request."

SUNY Buffalo was the only 
school to comply. In the fall of 1986, 
explained spokesman Thave Webb, 
"the FBI came to the library and 
asked to see research reference 
requests made by a specific foreign 
student, reportedly an Iraqi 
citizen. They wanted to see library 
records, databases he'd searched. 
The university refused."

Soon after though, the agency 
returned with a subpoena for the 
information. In turn, the university 
acted opened the documents.

In other contacts, FBI agents 
haven't used subpoenas or asked 
for specific information. "The FBI is 
not conducing fishing expeditions," 
concluded McDermott. "They're not 
coming in or specific informa-
tion with subpoenas. It's uncon-
scionable."

Thirty-six states - including New 
York, the focus of the Library 
Awareness Program - have library 
confidentially laws that forbid li-
brarians to share information about 
library use.

One of the things librarians be-
lieve in is not attaching motives 
to requests for information. That's 
what intellectual freedom is all 
about," said Krannich. "Yet the FBI 
is encouraging us to attribute 
motives."

"We feel strongly about the prin-
ciples of confidentiality and the 
right of an individual to seek 
information," added Damita Nitecki 
of the University of Maryland library 
system. Some librarians believe the FBI 
program already had a "chilling 
effect" on students' using their li-
braries, and on the kinds of records 
libraries themselves will keep. 
"It's had a chilling effect on what 
services people will get from librar-
ies," Barrett said. "Their effort has 
been intimidating."

"It's not our job to be the po-
licemen," said an annoyed Osburn. 
"They're the policemen."

(Continued From Page 4)
Charlie Daniels Band to perform February 3

The English department and art department plan to co-sponsor a class and trip to New York during minimester. The English department’s section of the class is “Current New York Theatre,” and will concentrate on plays and musicals in current Broadway runs. The art department will visit several museums and the Lincoln Center for the Performing Arts in their section, “New York Art Museums.” The first weeks of the course will be spent in class and will orient the student to New York; places to stay, course requirements, and background study & research both art and drama exhibits and performances to be viewed while in New York. The last week will summarize the trip and the points visited. The highlight of the course will be a four-day trip to New York City. Included are seats to four Broadway shows and visits to museums. Students may receive three hours English elective credit, either under-graduate or graduate, and three hours undergraduate art credit. The courses may count toward general elective credit also. Anyone traveling with the group must at least purchase a minimum of $5 worth of New York Residents. The approximate cost of the trip, lodging, and tickets is $400. JSU students are encouraged to purchase an additional course credit. Students interested in the trip must sign up with Dr. Steve Whitton or Dr. Emilie Burns by February 15 and pre-pay $300. The balance should be paid in two installments, prior to the trip, or before March 15 and on or before April 15 so that reservations can be made in advance.

An itinerary of the trip and course outlines will be available in the English and Art Departments for students who are considering this trip.

“We must have twenty students in order to get the low group rate of $300. Get some friends together and plan for an exciting learning experience during minimester,” said Whitton. For more information, contact Whitton at 231-4412.

E'Smith: unusual name for eclectic local group

E'Smith returned to Brother’s once again with their energetic combination of heavy metal and folk music. “It was just great,” said one member of the group. E'Smith's music was described as “too country for rock and too rock for the country ones.”

The band was formed in Oxford five years ago by Steve E’Smith (bass), his brother Sam E’Smith (lead guitar) and Keith Witkowski, their aggressive drummer and resident “bad boy.” Lead singer Jeff Hicks (lead vocalist), also known as “Realist” has been with the band three years, and Scott Griffin (lead guitarist) is the newest member—he joined the band after several members of the band were re-grouped. Since then, they have played locally quite a bit, to the delight of their fans. With the heavy rock classics were several slower rock ballads, such as “Slipping Away” by Dokken, and “Sing Me Away” by Night Ranger. And what would a rock show be without a few songs by Van Halen, Lynyrd Skynyrd, Led Zeppelin, Styx, REO Speedwagon, Whiskey Myre, and Blackbird? The Doors’ “Hello, I Love You,” “Jail House Rock” (a medley), and “Living After Midnight” by Judas Priest. All these, along with a rare, early Quiet Riot rocker, “Rollin’,” (and more) kept the crowd on their feet.

Future plans for each of the members are as varied as their influences, which include: Ozzy Osbourne, Dokken, the Blues Brothers (with a touch of Mozart), David Letterman, CoverGirl eyeliner, Bill the Cat, Jimmy Buffet, and, last but not least, Bob Marley. Steve E’Smith has plans to compose and write modern digital classical music, and “have a book published before 1989.” Scott wants to be the “shortest, fastest guitarist in the world.” Keith hopes to be the richest drummer/bass player. Sam E’Smith’s goal is to be “Ozzy’s next guitarist.” Jeff Hicks says he wants to “become a gigolo.”

Each member has a unique view of the music that E’Smith plays, but all agree on their favorite things about Brother’s, “DRAFT beer, women, and draft beer.” If all this seems a little confusing, it is only in the pursuit of good music and fun. The music is unmistakably the main attraction with this group, as in any serious, hard-working/playing band.

While the music is the center of attention, Michael Kelly, sound technician, and Joey Roberts, light technician, keep the PA’s and lights running smoothly.

E’Smith will return in February, with a butt dancing contest and possibly other surprises.

Closing thoughts from the band include: “Band is fun, band is great, watch us while we master music.” Or, for the Bloom County fans, “Ach! Phntst!” from Bill the Cat. But seriously, do not miss this band.
Alpha Tau Omega

We would like to welcome all female JSU students to our spring rush Wednesday and Thursday, January 27-28.

A special congratulations is in order for the following brothers: Tim Hatchook, Brother of the Month, Doug Ford, Lil’ Sister Brother of the Month, and Jamie Statton, Lil’ Sirs of the Month.

We are sponsoring an all-you-can-eat Spaghetti Dinner on February 4, Pi Kapp on February 5, Phi Mu, Delta Zeta, and Zeta Tau Alpha on February 25 at Theron Montgomery Building. AAA will sponsor a night of entertainment, beginning at 7 p.m. Don’t be left out! There is something for everyone. Door prizes will be given away.

AAA will be sponsoring an English workshop, an honors banquet for Dean’s List recipients, Miss AAA pageant and a spring outing plus many more activities.

Ford receives doctorate

JACKSONVILLE—Doris C. Ford of Anniston, assistant professor of Nursing at Jacksonville State University, recently received her doctorate in nursing from the University of Alabama at Birmingham.

Dr. Ford received her undergraduate degree from Jacksonville State University and her master’s from the University of Alabama at Birmingham. She joined the JSU nursing faculty in 1980.

Dr. Ford is coordinator for Adult Health Nursing and the Educational Mobility Program at the JSU College of Nursing. She has conducted numerous research studies including malnutrition and self-care deficits in hospitalized patients.

Active in many professional organizations, Dr. Ford currently serves on the nominating committee of the Alabama League for Nursing and co-chairs the public education committee of the Calhoun County chapter of the American Cancer Society.

Deadline for Club News is Wednesday at 4 p.m. Late submissions will be held and run the following week.

No exceptions will be made.
April Sauceman wins title in Miss Mimosa pageant

By ELISE TILLMAN
Chanticleer Senior Editor

The Miss Mimosa Pageant was held last week to choose JSU’s most outstanding female co-ed. Contestants were judged in five categories, including personality and campus involvement.

Judges for the event were: Mary Stanford, assistant manager of Griffin’s Jewelers; Tammy Aveni, freelance management consultant; and Campbell Cauthen, retired Jacksonville-area realtor. Miss Mimosa Graphic and Layout Coordinator Dr. Marion Shaw of the art department emceed the ceremony, and Miss Mimosa editor Nancy Oliver presented awards.

Miss Mimosa contestants included Marianne Britz, sponsored by Delta Zeta; Stephanie Clay, sponsored by Alpha Xi Delta; Julie Durbin, also sponsored by Alpha Xi Delta; Rebecca Frost, sponsored by Chanticleer; Lisa Penny, sponsored by the Student Accounting Association; April Sauceman, sponsored by Zeta Tau Alpha; Beth Stevens, sponsored by BCM; and Lisa Urbuch, sponsored by International House.

April Sauceman was crowned the winner. Beth Stevens was first alternate, and Julie Durbin was second alternate.

“The interview scared me. I’ve never done this before. I feel really honored,” said Sauceman.

Lisa Penny, voted Miss Congeniality by the contestants, added, “I really didn’t expect to win anything. I just wanted to promote the Student Accounting Association.”

Birmingham - The community is invited to the premier of the 1988 “Mimosav. JSU’s yearbook. Also pictured with the Miss Mimosa Pageant was Beth Stevens, first alternate. Miss Sauceman are, left to right, Betty Stevens of Heflin, first alternate; Lisa Penny of Huntsville, Miss Congeniality, and Julie Durbin of Pinson, second alternate.

Aveni and Thomas set to speak in Decatur February 12

UAB features night of ‘Athens Inside/Out’

UAB Center Stage Productions, UAB Film Series, and Radio Free UAB present a night of Athens, Georgia - “Inside-Out.” This special evening begins January 30 at 7 p.m.

The college town Athens, Georgia is one of the most influential new music scenes in America. Some of the best bands in the U.S. have recently come from Athens. The most well-known are R.E.M. and the B-52’s. Others include Love Tractor, Dream So Real, the Squalls, Time Toy, The Flat Duo Jets, the Bar-B-Que Killers, and some more great acts.

The fun starts with the movie “Athens, Georgia - Inside-Out.” Directed by David Mazor, this documentary goes to Athens to explore its great new music scene. R.E.M. and the B-52’s are highlighted in the film, which also features the previously mentioned bands.

The movie shows at 7 and 9:30 p.m. in the auditorium at University Center. General admission is $2.

After the movie, two great bands that were featured in the film will perform locally. Big Time recording artists Love Tractor and very special guests Dream So Real (Arista Records) will bring with them to Birmingham their contribution to the new music in America from Athens. For an unforgettable night of progressive rock and roll this combination will provide a more than adequate dose of its great new music scene.

The concert takes place at Shutters, 115 20th Avenue, South. It begins at 8 p.m. and tickets are $8 for the public.

SBDC hosts tax workshop

JACKSONVILLE-Jacksonville State University’s Small Business Development Center will conduct a small business tax workshop from 1:00-4:30 p.m. today at the Carriage House Inn in Anniston.

An Internal Revenue Service Tax Specialist will present an overview of the Tax Reform Act of 1986 and how it will affect small businesses. In addition, a major portion of the workshop will be devoted to answering questions and addressing specific problems of participants.

Topics will include passive income, business expenses, and other business related items.

The workshop is geared to help small business people understand the many changes that will affect them. Owners of small businesses, bookkeepers, accountants, as well as individuals, will benefit from talking with the IRS tax specialist and clarifying an extremely complex set of tax rules.

Other sponsors are the Greater Calhoun County Chamber of Commerce and the U.S. Small Business Administration.
West Georgia Faculty Art Show ends tonight

By DEBRA WHITE
Chanticleer Staff Writer

According to Webster’s dictionary, art is that which is beautiful, appealing, or of more than ordinary significance. Such beautiful, appealing, and significant works by the West Georgia College Art Faculty have graced the gallery in Hammond Hall this month.

The exhibit, which opened January 12 with presentations from the artists, closes tonight. It ends with members of the JSU Art Faculty taking the works back to the college in Carrollton, Georgia, and speaking about their own works, which have been on display there since January 12.

The works displayed include two “dream masks” by Sonis Olinger, who teaches interior design. She made the masks of two of her friends with mold paper, mounted them, and surrounded them with objects and decoration conveying her impressions of her friends.

Other faculty members who contributed works to the exhibit are department chairman Bruce Bobbick, who teaches painting; Ozzie Binim, advertising design; C. Cowert, ceramics; Derrill Maxwell, printmaking; and Henry Setter, sculpture.

Artists-in-residence also had works displayed in the exhibit. Constantine Milonadis, artist-in-residence for 1986, contributed a kinetic sculpture, and Shiro Otani, a Japanese master potter and artist-in-residence for 1987, contributed a piece of stoneware which was fired in a massive woodburning oven constructed during Otani’s stay at West Georgia.

According to Karen Henricks, who teaches art here and handled the publicity for the show, such exchanges are intended to provide students with greater exposure to the work being done in art departments at other colleges.

Future shows at Hammond Gallery include the Juried Student Exhibit, February 2-26; Youth Art Exhibit, March 8-25; Senior Show, April 5-26; and the Tenth Annual Miniworks on Paper Exhibit, May 1-23.
Lady Gamecocks upset Delta State

By JEFFREY ROBINSON
Chanticleer Senior Editor

The Jax State Lady Gamecocks are for real.

Much has been said lately about how much improved the team is this year. The Lady Gamecocks took one step in the direction of proving that they are, indeed, a team to be reckoned with.

Riding a five-game winning streak, the Jax State women upset No. 3 ranked Delta State by a score of 75-74 to prove that the basketball team is more than a fluke. They are for real.

This was the first time in the 14-year history of the Jax State women’s team that they have defeated Delta State. The victory improved the team’s overall record to 9-3 and 5-1 in the Gulf Conference South. This was a game that proved the women’s team has made great strides under first year coach Mathis.

Delta State’s game was cimbing the walls with elation over the win.

“We figured if the guys could do it two games in a row, we could, too. I don’t know how many big games they’ve ever had, but this has to be one of the biggest. They did a very good job tonight,” said coach Mathis.

Palmer said that this was a game that the Lady Gamecocks were determined to win.

“We wanted it really bad. We just had to win. We were definitely up for this one.”

Shelley Carter had 17 points and six rebounds on the night. Evette Palmer had another strong game for JSU with 10 points and 5 rebounds. Palmer also hit 6 of 6 from the line, including one with just a few seconds left to ice the victory for JSU.

Palmers tied the game at 74-74 with 4:46 left in the game, but the Lady Gamecocks took a lead that evening. The upstart Lady Gamecocks missed three straight opportunities to tie the game. Fortunately, Delta State was able to score.

Just over six minutes left, when Shelley Carter hit two free throws, and then stole the inbounds pass and scored to take a lead, to 68-67 in favor of JSU.

Jax State would lead throughout the first half until 7-15. Delta State’s offense on track, and outscored 11-6 in the second half. The Lady Gamecocks found a “Bright” spot as Jana and Dana both started hitting from the outside.

Jax State would lead throughout the first half until 7-15. Delta State’s offense on track, and outscored 11-6 in the second half. The Lady Gamecocks found a “Bright” spot as Jana and Dana both started hitting from the outside.

“Tammy Broom (30) plays tough

The victory put the Lady Gamecocks in second place in the GSC, and it was an important win as far as the conference game goes.

The game will be an important GSC game against North Alabama on January 30. Tipoff is at 5:15.

Big games coming up Saturday night for JSU

Some very important GSC games will take place at Pete Mathews Field on the coming Saturday night, January 30.

The JSU Lady Gamecocks are now tied for the first place in the Gulf South Conference with North Alabama. With Troy State’s win over UNA last Saturday, the stand has been cut to one game that will determine first place in the conference.

The ladies will take on North Alabama in the first game of the evening. The upset lady Gamecocks have come out of the GSC cellar this year, and they are proving that they are contenders for the conference title.

The Lady Gamecocks’ team also has an important conference game against UNA Saturday evening. The game will be an important conference game again.

These games are very important ones for both teams, so let’s get our Gamecocks on Saturday night. The game will start at 5:15, and the men play at 7:30.

The teams deserve our support so we get an show that JSU spirit. Go Gamecocks.

Entire women’s team named ‘Player of Week’

BIRMINGHAM–It’s common practice for a student-athlete to earn the honor of “Player of the Week” honors. But when 13 players from the same team reap the award, it’s something special.

Palmer, who led the team with 21 points as the Jax State Lady Gamecocks lost at LSU last week when GSC Commissioner Sonny Moran named Jacksonville State University’s women’s basketball team as the league’s “Player of the Week.”

The honor was given to the entire Lady Gamecocks basketball team after their impressive 75-74 victory over No. 3 ranked Delta State on Monday. It was the first time in school history that the Lady Gamecocks had defeated the Delta Statesmen, but more importantly, it gave Coach Robert Mathis’ club a six-game winning streak, a 9-3 over all record and a 5-1 slate in the GSC.

“This was a very, very big win for our girls and our program,” said Mathis, who came to JSU this summer after a highly successful career in the Mississippi Junior College ranks. “We’ve been preaching to them that there wasn’t a whole lot of difference between their team and ours. After 5 or 10 minutes of the game, and there wasn’t much difference in the score, our girls started believing it. They thought from that point on that they could beat Delta State.

All you have to do is check Jax State’s record since the 1983-84 season to see what kind of job Mathis has done in only his first season. In 1983, the Lady Gamecocks went 6-21 overall and 1-9 in Gulf South Conference. They followed that the next year by posting a 2-2 mark and were winless in 11 GSC games. In 1985, Jax State was 7-20 overall and... (See PAGE, Page 13)
Jones is a winner for Jacksonville State

By JEFFREY ROBINSON
Chanticleer Senior Editor

Attaining lofty goals is nothing unusual for Coach Bill Jones. JSU's head basketball coach has led his team to a Division II Postseason Championship, was named Division II National "Coach of the Year" for 1984-85, and has seen his team win numerous conference and GSC tournament titles.

Jones has now added another honor to his list of achievements. With the Gamecocks win over West Georgia week before last, Coach Jones became the all-time winningest coach in Jax State history. Jones now has 232 career wins, which surpasses the mark of 251 wins set by former JSU Coach Tom Roberson.

Achieving this honor means a great deal to Coach Jones, but he is quick to give credit to many who have helped him achieve this goal.

"I think the biggest thing (that means the most) is that it means many players who have been through here have taken part in it. The administrative staff has also been invaluable. Coach Robbs has been with me for over ten years now, and he deserves a lot of credit. So, breaking the record has definitely been a team effort," Jones said.

Jones has compiled a record that is very impressive during his four-year tenure at the helm of the Running Gamecocks basketball program. His teams have won four Gulf South Conference Championships (1974-75, 1979-80, 1980-81, and 1984-85) and won the GSC Tournament Title in 1982-83 and 1984-85. JSU's players have also participated in the NCAA playoffs five different times, and twice they have won the Region Title (1982-83 and 1984-85). Jones also led his team to the 1985 NCAA Division II National "Coach of the Year."'

"The first stop in Jones' coaching career was North Alabama as assistant in 1977. The next year, he became the head coach of UNA, compiling a 28-17 record during two years in that position. "Mama called" in 1974, and Jones returned to JSU as head coach. He had a 16-10 record of wins over 14 years here, and has an overall head coaching record of 203-134.

It is ironic that Jones helped complete the record he broke, which was held by Coach Roberson. Jones played for Roberson in the mid-60's, and is very fond of his former coach. Roberson himself presented Jones with a plaque after the West Georgia game in honor of his achievement.

"I was very appreciative of the fact that Coach Roberson was on hand to make the presentation to me," said Jones. "I always regarded him as an extremely fine human being. He was a father figure to so many of us that were playing here at the time I was. He was someone we could always go to in time of trouble when we couldn't be with our families or needed someone besides our family to talk to. I feel very close to him.

Jones says that he hopes that he can have the same kind rapport with his players as he and Coach Roberson had.

"If some of my players can remember our staff with the same kind of admiration that I remember Coach Roberson with, then I would be happy.

Jones says that his career in coaching has not always been easy. Perhaps the persons who have sacrificed a great deal of time in that position.

"I have had to put up with his being away from home most of the time. They've been working hard just like the rest of them and they deserved the chance," Jones said.

The Lady Gamecocks put their seven game winning streak on Wednesday night to 21 victories, the NAIA power Shorter College. Tip off is set for 7:00 at Pete Mathews Coliseum.

All but one reserve scored for the Lady Gamecocks.

"We need a game like this," said Mathis. "We've been involved in some very tough, close games lately and it's nice to win one way. I was also pleased that we were able to get so many people in the game. They've been working hard just like the rest of them and they deserved the chance."

The Lady Gamecocks got another outing promising performance from forward Shelley Carter, who led the Jax State with 21 points and nine rebounds. Tammy Broome, has compiled a record of 1-20 points. Dana Bright and Kim Welch also added eight points to the Gamecock victory.

Coach Mathis thought that it was the defense that was the determining factor in the ball game. "We're really proud of our defensive effort tonight. We opened up in a man-to-man and got our men from the opening buzzer," Mathis said.

The Lady Gamecocks put their seven game winning streak on the line Wednesday night against the NAIA power Shorter College. Tip off is set for 7:00 at Pete Mathews Coliseum.

The ladies are pleased with their success, but they are not looking too far down the road.

Player - (Continued From Page 12)

Gamecocks posted three impressive wins, a 92-43 thrashing of Alabama A&M, an 87-79 league victory over Livingston and the win over Delta State.

A defense against cancer can be cooked up in your kitchen.

There is evidence that diet and cancer are related. Some foods may promote cancer while others may protect you from it.

Foods related to lowering the risk of cancer of the larynx and esophagus all have high amounts of carotene, a form of Vitamin A which is in carrots, broccoli, spinach, dark all green leafy vegetables, sweet potatoes, carrots, pumpkin, winter squash, and tomatoes, citrus fruits and broccoli, brussels sprouts, kohlrabi, cauliflower.

Fruits, vegetables and whole grains such as oatmeal, bran and wheat may help lower the risk of colorectal cancer.

Foods high in fats, sugar or nitrated foods such as ham, and fish and types of sausages smoked by traditional methods should be eaten in moderation.

Be moderate in consumption of alcohol also.

A good rule of thumb is cut down on fat and don't be fat. Weight reduction may lower cancer risk. A 12-year study of nearly a million Americans uncovered high cancer risks particularly among people 40% or more overweight.

Now, more than ever, we know you can cook up your own defense against cancer. Eat healthy and be healthy.

The Chanticleer, Thursday, January 28, 1988 13
Ladies turn Tiger into ‘Frosted Flakes’

By Earl Wise

Chanticleer Staff Writer

The Lady Gamecocks, coming off a 92-65 victory over Alabama A&M, also had four game winning streaks on line. Saturday’s contest against a talented 6-5 Livingston team, was not going to stop the determined Lady Gamecocks. They pounded the Lady Tigers 87-79 and increased their record 8-3 overall, and 3-1 in GAC action.

The Lady Gamecocks got a balanced attack from the team’s leading scorer Shelley Carter, who had a game high 25 points and 10 rebounds. Also, Dana and Jana Bright contributed 18 and 17 points respectively.

However, Coach Mathis stated it was the overall play of Freshman Evett Palmer that was the determining factor.

**JSU rifle team defeats Kentucky**

Jacksonville State University, Saturday, January 16, the JSU rifle team posted their best effort ever, compiling a score of 4775 to defeat the Southeastern Conference champion Kentucky Wildcats. Led by Steve Gary’s personal high of 1133 and Marla Bajljung’s 1130, the Gamecock shooters completely dominated their foe. JSU stomped the Wildcats by 165 points, as well as squeaking by in the air-rifle competition 1492 to 1462. Other successful shooters were: Steven Chew, 1123 smallbore; Jason Pyle, 1080 smallbore; and Ed Hess, 371 air-rifle.

“…When Evett plays like she played tonight, it takes a lot of pressure off of Carter and it allows her to play a relaxed ball game,” said Mathis. Evett Palmer scored 12 points and pulled down 8 rebounds.

The Lady Tigers jumped on the Lady Gamecocks early. They took an early 7-4 lead, but with three consecutive baskets by Jana Bright and Shelley Carter gave the Gamecocks a slim 10-7 lead.

With 9:15 left in the first half, the Tigers caught the Gamecocks and took a 20-19 lead. The Gamecocks wasted no time in regaining the lead. Shelley Carter hit a five foot jumper that gave the Gamecocks 21-20 lead. From there, the Gamecocks never fell behind again. They went into the locker room with a 39-30 halftime lead.

The Lady Gamecocks jumped on the Lady Tigers early in the second half. Two quick baskets by Lucky Cabrera, one basket by Evett Palmer, and a free throw by Dana Bright gave the Lady Gamecocks a 48-29 lead. The Gamecocks held off a late Tiger rally and defeated them 87-79.

The Lady Gamecock’s next game is Monday against Delta State, currently ranked third in Division II women’s basketball.

“We have nothing to lose and everything to gain. We are going to give it our best shot,” commented Head Coach Richard Mathis. The Lady Gamecocks, however, have a five game winning streak and a five game home winning streak on the line in Monday’s confrontation at Pete Mathews Coliseum.

John Pelham directs Gamecock offense

Hughes’ three-pointers shoot down Livingston

**By JEFFREY ROBINSON**

Chanticleer Senior Editor

Talk about close.

Lately, the Jax State Gamecocks have been making a habit of playing games that go right down to the wire. For the second game in a row, the Runnin’ Gamecocks played a nailbiter as they knocked off conference foe Livingston by a score of 77-76.

It took two last-second three-point shots by Mokey Hughes to pull off the victory. After the game, Hughes, who had a career high 22 points, said, “We just didn’t quit.”

Coach Bill Jones, who has had some tense moments during the last few games, had a look of relief after the game.

“I hope our fans don’t expect games like that all of the time because we don’t want to have to play them. We had a lot of luck tonight. Of course, we make a lot of luck at times.”

Whether it was by luck or not, Jax State managed to come out on top of a game that stayed close throughout the contest. Livingston jumped out to an early lead and showed that they were going to give the Gamecocks a fight. After being tied at 2-2, Livingston reeled of eight straight points to take a 10-2 lead. Jax State refused to stay down, however, as they then scored nine straight to cut the lead to one at 10-9.

The game stayed close as Livingston stayed in no more than four points. LU did take a six point lead at 25-19, but JSU then reeled of six straight points to tie the game toward the end of the half. The game would be tied two more times before the half.

It appeared that the Tigers would take a lead into the lockerroom as they lead 35-31 with a minute left. John Pelham cut the lead to two when he hit both ends of a one-and-one.

Hughes’ three-pointers then hit a three-point jumper with seconds left to give the Gamecocks a 36-35 halftime lead.

The Tigers jumped out to a 42-41 lead two minutes into the second half and then hit a scoring lull. JSU scored seven straight points over the course of two minutes to take a 48-42 lead. The Gamecocks maintained a lead until Livingston brought the contest again at 63-63 with 7:56 left in the game.

With Jax State leading 71-70 with only a few minutes left, Livingston came back to take the lead. JSU’s Charles Page missed the front end of a one-and-one, and Livingston took the rebound and score to take the lead. Livingston went up 74-71, when Mokey Hughes come to the rescue for Jax State.

After LU’s Robert Bendolph missed the front of a one-and-one, Hughes hit a three-pointer to tie the contest at 74-74. Theotis Harris hit a jump shot at the other end of the floor to put Livingston up 76-74. Hughes then brought the ball down and threw up a jumper from twenty feet away that banked in as time ran out. JSU had held off a stubborn Livingston team for a 77-76 win.

“It was real early in the year for us to have three of our four conference losses, so that makes this win even more important,” said Jones. “It could have severely hurt our chances to get a Gulf South Conference Championship. It took a gallant effort by our team to beat LU. They played well from start to finish.”

Jones also said that these games was very big for the team’s confidence, having pulled out two close wins in a row. Their confidence may have been built up, but the team’s desire is already evident.

As Coach Jones put it, “We’ve got some players who didn’t want to lose.”

**Planning to Hang Out At the Beach this Summer?**

**You just can’t hide it at the beach. All those extra jumps and bulges you’ve kept concealed all winter are now on public exhibit.**

**Before you head to the beach, head to the Jacksonville Health & Fitness Center.**

From basketball to birthdays

The basketball race is tightening in the Gulf South Conference, and both the men’s and women’s team are in the thick of things. This weekend has some very important games on tap, including two very important ones here at Pete Mathews Coliseum. Jacksonville State will take on long-time foe North Alabama on Saturday night. The women will tip-off at 5:15, and the guys begin at 7:30. The women’s team currently finds itself in a somewhat strange but very desirous position. The ladies are currently tied for the GSC lead with none other than UNA. It is strange because the women’s team has never had this much success. But you won’t catch them complaining at all. This makes Saturday night’s game between the Lady Gamecocks and Lady Lions all the more important. The winner could take sole possession of first place. The ladies overall record is 9-5, 5-1 in the GSC.

The men’s team will be looking to rebound from a disappointing loss to Athens State last Saturday. Coach Jones squad, currently 11-6 overall, 4-2 in the conference, are also in the thick of the race. The home games that the Gamecocks are currently playing are games they need to win badly since they have a number of road games down the stretch.

INJURIES BOTHER TEAM

The JSU men’s team is currently playing with some injuries they could do without at this crucial time in the schedule—or at any time for that matter. In last Saturday’s game against Athens, both Mokey Hughes and Robert Lee Sanders sustained injuries. Hughes went down in the first half with an injury to the foot. X-rays were scheduled to be taken Saturday night after the game to determine how serious Hughes’ injury is. He was walking on crutches immediately after the game. Sanders will require some dental work to continue playing. An injury to Hughes’ injury is. He was walking on crutches immediately after the game. Sanders will require some dental work to continue playing. An injury to Sanders could do without at this crucial time in the conference.

Gamecock luck runs out against Athens

By JEFFREY ROBINSON
Chanticleer Senior Editor

Jacksonville State has lately made a habit of playing close games right down to the wire and pulling them out in the final seconds.

Things did not go according to script, however, last Saturday night against Athens State. The Gamecocks failed to get another Cinderella performance as the clock struck midnight and the game turned into a pumpkin with a 71-68 score in favor of Athens State written on it.

The Bears avenged an early season loss to JSU that went down to the wire last second. Jax State won in Athens last December when Robert Lee Sanders hit a three-pointer as time expired to pull out a nail-biter. The Gamecocks would not be as lucky this time around.

Jax State had a very lackluster performance throughout the entire game. The offense never seemed to get on track as the Bears did a good job on defense, especially on the inside. The Gamecocks shot a miserable 32% from the field on the night. They also hit only 4 of 16 three-point shots for 25%. The one bright spot for the offense was the 77% shooting from the free-throw line. Coach Bill Jones was disappointed by the fact that even though JSU kept the score close, they could never overcome the Bears.

"It was a frustrating game because even though we were in it according to the score, we never really got things going," said Jones. "We never seemed to be in it offensively from the start. We got beat by an Athens team that really played hard."

The loss was hard on Jax State from a physical standpoint. Mokey Hughes went down in the first half with an injury to the foot. Jones said after the game that the extent of the injury was not yet known, but x-rays would be taken after the game.

Robert Lee Sanders also sustained an injury to the mouth that may require special protective measures to enable him to play.

"It was a physical game, a rough game, and we took the worst end of it. It really hurt our offense. We couldn't get a couple of guys to do what we wanted them to do."

It was obvious from the tip-off that the Gamecocks were a little flat on offense. Athens got on JSU early as they jumped out to a 6-2 lead. The Gamecocks took the lead 7-6 on a Hughes three-pointer with 17:05 on the clock, but that lead would not last long. The Bears reeled off nine straight points to go up 15-7.

Jax State cut the lead to 30-17 with an 11-4 run in which they out-scored Athens 8-3, but the Bears would gradually pull away again. The Gamecocks tied the score at 31-31 with fifteen seconds left in the half when John Pelham hit both ends of a one-and-one. Leroy Boyd then hit a jumper to give Athens a 33-31 lead at the half.

The second half play of the Gamecocks got no better than the first. JSU jumped out to an early lead, but Athens came back to tie it at 44-44 with 10:52 remaining. The lead would flip-flop, and the score would be tied five times between that point and the 5:41 mark.

After being tied 56-56, the Bears went on top to stay for good. Athens went up by as much as eight points, including leading 71-63 with only a minute left. Athens missed early shots from the charity stripe, but hit the ones it had to down the stretch. Boyd hit a straight free-throws with under a minute left to put the game on ice. The Gamecocks tipped the ball in from under the basket to cut it down to 71-65, but they couldn't get the important shots when they needed them. Nothing they threw up seemed to find the basket. Instead of getting into the defense on several occasions, JSU threw up three-pointers who being patient would have been better.

Pelham hit a three-pointer as time ran out, but it was not enough as Athens took the 71-68 victory. Jax State was lead in scoring by Rodney Stallings, who had 18 points and 10 rebounds. Pelham was second with 16, while Doc Hicks pumped in 12 and pulled down 12 rebounds. Robert Lee Sanders added 10 points. Sanders, Hicks, Stallings, and Williams were also plagued with foul trouble, each having four or so on the night.

Athens was led by Marvin Hughes' 15 points and 13 rebounds. Carmen Givens tossed in 15, and Keith Malone added 15. Leroy Boyd also placed in double figures with 12.

Jones said that the injuries sustained occoured at a very inopportune time for the Gamecocks since they have a tough GSC run before them.

"The loss of Mekey definitely hurt our offense. But what concerns me now is that we've got three or four guys in that lockerroom who are questionable going into next week's game's."

The only consolation that comes out of this game is the fact that is was not a Gulf South Conference loss. JSU will resume its ever-important GSC schedule Monday against Mississippi College. Jones said that the Athens game, however, will hurt for a while.

"It's gonna be tough to forget this game because we've got one player on crutches and one who has to have a plate put in his mouth so that he can play," said Jones. "We weren't ready to play tonight, but I don't know exactly what to attribute that to."
