## Interview

My interview with Pat Brooks was very interesting. Although I am her son I learned a great deal about her life that I never knew about before this interview. She seems like a person who cares for children a lot, and she is interested in sports mainly because her two children are boys that have been very athletic since they were kids, but she is very interested in sports anyway. Her major accomplishments were sending her two sons to college. She is an Anniston resident and has lived here all of her life. She has one brother. She loves to decorate houses, and one of her hobbies is just sitting around twirling her baton while dreaming of her high school years when she was the feature twirler of the band. Her advice to young kids today is to stay away from drugs and alcohol because it causes lots of tragedies.
