TO THE VOTERS OF BUTLER.

Dear Sirs,

The people of this county are now divided as never before, and there are two courses open to them, one follows the other, and the other will lead to ruin. The former, and the one that will lead to ruin, is to follow the course of the present Administration. The latter, the course that will lead to safety, is to follow the course of the President of the United States. The former will lead to the destruction of the Constitution, the latter will lead to the preservation of the Constitution. The former will lead to the destruction of the Union, the latter will lead to the preservation of the Union.

TO THE CITIZENS OF THE STATE OF FLORIDA.

To THE CITIZENS OF THE STATE OF FLORIDA.

This is a time of crisis for our state and its citizens. The current situation has led to a significant economic downturn, affecting not only businesses but also the lives of many individuals. It is essential that we come together as a community to address these challenges and work towards a solution.

Our government has implemented several measures to stabilize the economy and ensure the well-being of our citizens. These include financial aid packages, emergency response plans, and public health measures. Despite these efforts, it is evident that more support is needed to overcome the current crisis.

We are facing a critical period that requires collective action and proactive measures. I urge all citizens to contribute to these efforts by following health guidelines, supporting local businesses, and engaging in community activities that promote safety and unity.

Together, we can overcome these challenges and emerge stronger. Let us unite as one and work towards a brighter future for our state.

Sincerely,
[Your Name]
Governor of the State of Florida
