SEPTEMBER
SCOTTISH COMIC SONG.

The Gooch, Gooch Wife.

(Verse 1.)

When I was a young apprentice, and had little to do,
I was looking out of the window, and looking out for a beau.

(Chorus)

Gooch, gooche, gooche, gooche, gooche, gooche.

(Verse 2.)

But when I got to be a journeyman, and could earn my own,
I was taking a likely husband, and looking out for a town.

(Chorus)

Gooch, gooche, gooche, gooche, gooche, gooche.

(Verse 3.)

And when I made a rich surveyor, and was worth a fortune,
I was taking a rich husband, and looking out for a fortune.

(Chorus)

Gooch, gooche, gooche, gooche, gooche, gooche.

(Verse 4.)

But when I married a great lady, and was worth a fortune,
I was taking a rich husband, and looking out for a fortune.

(Chorus)

Gooch, gooche, gooche, gooche, gooche, gooche.

(Verse 5.)

And when I married a rich husband, and was worth a fortune,
I was taking a rich husband, and looking out for a fortune.

(Chorus)

EDUCATION OF DAUGHTERS.

The care of a young woman who has been brought up in a gentlemanly family, must be in the hands of a person who has received a liberal education, and who can command the respect of the world. What is the best way of doing this? To send her to a female seminary, or to a college? Or to a private teacher? Or to a boarding school? The question is often asked, and it is of great importance to make a careful choice. In deciding on the best method of education, it is important to consider the character of the young woman, her age, and her capacity. If she is a delicate child, and has not been exposed to the fumes of society, it would be better for her to be sent to a private teacher. If she is a strong child, and has been exposed to the influences of society, it would be better for her to be sent to a college. If she is a weak child, and has not been exposed to the fumes of society, it would be better for her to be sent to a female seminary. If she is a strong child, and has been exposed to the influences of society, it would be better for her to be sent to a college. If she is a weak child, and has not been exposed to the fumes of society, it would be better for her to be sent to a female seminary.

THE HOUSE OF REPRESENTATIVES.

From the Wachovia Advocate.

What is the best way of providing for the education of young women? It is a question of great importance, and one which should be carefully considered. The best way is to send them to a female seminary, or to a college. If they are well educated, they will be able to support themselves, and will be able to do good to themselves and to others. If they are not well educated, they will be unable to support themselves, and will be unable to do good to themselves and to others.

PREVENTION OF STEAM BOAT RIOT FROM EXPLOSION.

Dr. Williamson, of the University of Oxford, has discovered a simple and safe method of preventing the explosion of steam boats. The method is as follows: The boiler is to be provided with a safety valve, which is to be set at a pressure of two pounds per square inch. The valve is to be adjusted so that it will open when the pressure reaches this amount. The valve is to be connected with a pipe, which is to be immersed in a vessel of water. When the pressure reaches the amount set by the valve, the water in the vessel is to be flashed off by the steam. This will prevent the explosion of the boiler.

THE BRITISH NORTH AMERICAN CONFEDERATION.

The movement commenced in Lower Canada, and has now spread to the British colonies in North America. The British colonies in North America are already nearly or quite independent of the power of the British government. They are united by a common interest in the prosperity of the country, and by a common desire to maintain their independence. The British government is unable to prevent the development of the colonies. They are a powerful body, and are able to maintain their independence.

FROM LIBERIA,

By the arrival of the vessel on the 10th of March, we had the honor of receiving an account of the arrival of the vessel in Africa.

The arrival of the vessel in Africa was most important, as it marked the beginning of the work of colonization. The vessel was dispatched to Liberia, and was expected to bring over a large number of settlers. The arrival of the vessel was eagerly awaited, and was received with great joy. The settlers who were brought over by the vessel were received with great affection, and were treated with great kindness.

From the British West Indies, we have the news that a boat has been wrecked on the coast of Africa. The boat was carrying a large number of settlers, but all the settlers were lost. The news was received with great sorrow.

A TREATY THAT MUST BE KNOWN.

The news of the treaty between the United States and Mexico, as announced by the Southern Republican, is cause for great rejoicing. The treaty, which has been signed by the two Governments, provides for the cession of the province of Texas to the United States, in consideration of the payment of $15,000,000. It is a treaty of peace and amity, and it is hoped that it will be the beginning of a new era of prosperity and contentment for the people of Texas.

The treaty provides that the United States shall have full and complete control of the province of Texas, and that the people of Texas shall be entitled to all the privileges and immunities of citizens of the United States. The treaty also provides for the establishment of a permanent boundary between Texas and the United States, and for the establishment of a system of government for the province.

The treaty is a great victory for the United States, and it is a great blessing for the people of Texas. It is a treaty that must be known, and it is a treaty that will be remembered for all time.
