JACKSONVILLE, ALA. WEDNESDAY, DECEMBER 1, 1841.

Whitie No. 116.

ON RETIRING FROM OFFICE.

To the People of the United States:

While the present institutions of the government are in operation, and the country is happy and prosperous, it is our bounden duty to the people of the United States to support and maintain them. We have therefore, with a view to the welfare of the country, to receive the offices of the government, and to serve the people in the discharge of our duties.

The failure of the Congress of the United States to hold the meeting of 1832 was due to the fact that a number of important bills had not been enacted into law by the time the session was adjourned. The most notable of these was the Bank Bill, which provided for the establishment of a national bank. The bill was strongly opposed by a number of southern states, who feared that it would increase the power of the federal government and reduce the influence of their states. The bill was finally passed, but with many amendments, and it was signed into law by President Andrew Jackson in 1833.
