April 1st for the May issue.

J. E. BRYANT, Proprietor.

POTTER.

SONS OF THE AMERICAN EAGLE.

The following paragraph is inserted for the benefit of the editors of the various weekly papers in the State of Florida.

To the Editors of the Jacksonville Republican:

We are aware of the existence of a rule among the editors of Florida papers, that, whenever a paupercumbe becomes necessary, it is the duty of the editor to announce his intention of publishing a public pauperism. We are also aware that this rule is not without its advantages. It is, indeed, a means of preventing the diffusion of disease among the people, and of saving the public from the horrors of a pestilence.

But we do not think that this rule is consistent with the principles of the American Eagle. We believe that the American Eagle should be free from all such regulations. We believe that the American Eagle should be free to publish the works of the best authors, and to give the public every pleasure within its power. We believe that the American Eagle should be free to publish the works of the best authors, and to give the public every pleasure within its power.

We therefore recommend to the editors of the Jacksonville Republican to observe these principles in their future publications. We believe that the public will be the better for it.

J. E. BRYANT.

POTTER.

EXTRA.

A new discovery by John H. James, Esq., was patented in St. Louis, Missouri, on the 1st of this month. The discovery is a new and important invention in the art of manufacturing paper. It consists of a process by which paper can be manufactured from the bark of trees without the use of water. The discovery is of great importance, and will probably be of great value to the manufacture of paper in the State of Missouri.

The price of 50 cents weekly.

POTTER.
THE JUNGLE FOWL OF BENGAL.

A new book on domestic poultry, and the poultry industry in general, is just published. It is entitled "The Poultry of the World," by Mr. W. H. G. Williams, and is a valuable work.

THE FACTS OF THE CASE.

The facts are as follows:

Two of the present owners of the poultry farm at Franklin, were killed by the wild animals. Where the farm is located, there is a dense growth of trees and underbrush, and the animals are unable to get at the poultry. The owners' body was found in the woods, and the interest of the public is excited.

We have heard on other occasions of the wild animals being killed by the poultry, and the interest is excited.

At the request of the owners, the poultry was held in quarantine for six months, and during this time it was killed by the wild animals.

The wild animals are not only a pest to the poultry, but they are also a danger to the owners. The owners have made a complaint to the authorities, and the matter is now under investigation.

We have heard the owners say that they will not allow the poultry to be killed again, and they are now considering the best course to take. The matter is now under investigation.

We are told that the poultry will be held in quarantine for six months, and during this time it will be killed by the wild animals.

We have heard that the owners will not allow the poultry to be killed again, and they are now considering the best course to take. The matter is now under investigation.

We have heard that the poultry will be held in quarantine for six months, and during this time it will be killed by the wild animals.

THE GENTLEMAN OF THE DAY.

Mr. J. P. Morgan, the wealthy financier, has been appointed as a director of the New York Stock Exchange. He is one of the wealthiest men in the country, and his appointment is expected to make a considerable difference in the business of the exchange.

OUR FEMALE ACADEMY.

This institution under the management of our Correspondent will probably be
sufficiently known to our readers. We have received several complaints that the
change in the officers has so m"j'dly retarded the progress of the school, that it
might be advertised in an even more:
