AUGUST
THE REPUBLICAN.
WEDNESDAY, DECEMBER 12, 1855.

AM Rail to Cuba!

The work on the railroad to Cuba has been resumed at Savannah. The workmen, under the direction of Mr. Macintire, have already commenced the construction of the railroad from Savannah to the Atlantic at the point where it is to connect with Mr.類's project for a railroad from Charleston to Savannah. The work is expected to be completed in a year or two, and the line will be ready for traffic in the spring of 1857. The line is to be 100 miles long, and will be constructed of iron rails and stone ties.

TO THE PATRIOTS.

The American flag has been raised on the island of Cuba, and the war with Spain has begun. The Spanish government has declared war against the United States, and the American government has declared war against Spain. The war is expected to last for two years, and will be a war of aggression.

The war is expected to last for two years, and will be a war of aggression.

Cuba.

Cuba is a Spanish possession, and is located in the northern part of the Caribbean Sea. The capital is Havana, and the island is about 90 miles long and 40 miles wide. Cuba is a major producer of sugar, tobacco, and coffee.

The war is expected to last for two years, and will be a war of aggression.

An Abolition Paper is published by Mr. E. B. O. Baker, a native of Ohio, and a member of the Ohio Anti-Slavery Society. The paper is called "The Emancipation" and is published weekly.

A Message from the President.

Mr. Lincoln has issued a proclamation declaring the abolition of slavery in the United States. The proclamation is to take effect on the first day of January, 1863.

The war is expected to last for two years, and will be a war of aggression.

Navigation-Astronomy

Upon the shores of the Chesapeake bay, there is a large and powerful ship, which is to sail on an adventurous voyage early next month. The captain of the vessel is a man of considerable experience, and his crew consists of experienced seamen. The ship is well equipped for the voyage, and is expected to reach its destination in safety. The captain has prepared a detailed plan of the voyage, including charts and diagrams of the route to be taken. The ship is expected to depart on the first of next month and is scheduled to arrive at its destination in seven weeks.

The New Steamer

On Saturday, in company with several other vessels, the new steamer, the "North Star," left the harbor for the voyage to the West Indies. The "North Star" is a large and powerful vessel, well equipped for the voyage. The captain is a man of considerable experience, and his crew consists of experienced seamen. The ship is well equipped for the voyage, and is expected to reach its destination in safety. The captain has prepared a detailed plan of the voyage, including charts and diagrams of the route to be taken. The ship is expected to depart on the first of next month and is scheduled to arrive at its destination in seven weeks.

SOME OF THE EFFECTS OF THE LAW.

The catch-curve, or "A.C.T.,"

was not a cure for the

ill effects of the

law, which

resulted in a deepening of the

welfare of the people.

The law, however, was not the

principal cause of the ill effects,

but the result of a widespread

lack of understanding and

misinterpretation of the

meaning of the law.
