OCTOBER
ALICE GROVE.

The old man's spirit was gradually returning to him. When we called, he was sitting in a corner of the room, with a look of contentment on his face. He had just taken his evening meal and was now ready to go to bed. He asked us to stay and talk with him a little longer. We complied and he told us a story of his life. He had been a farmer and had worked hard all his life to provide for his family. He had lost his wife and children in a fire some years ago and had been living alone ever since. He had been a very kind and gentle man, and we all felt a deep sense of sympathy for him.

A specimen of the grammar. I have been looking over the grammar that was sent to me from the printer, and I am pleased to say that it is correct. I have read it carefully and found no errors. It is well written and well printed. I am satisfied that it will be a valuable addition to the library.

One way to Fight a Dust.

It is well known that dust is a great enemy to health. In a dusty room, the air is filled with particles of dirt, which can enter the lungs and cause disease. To prevent this, it is recommended to keep the room clean and dry, and to use dust cloths and other devices to capture the dust. It is also important to wear a mask when working in dusty places.
