FEBRUARY
The Republican.

In order to correct a misstatement recently made in the course of a political discussion, I wish to announce that the Stockton newspaper, as well as the Republican, has been true to its position from the beginning. When I was appointed to the position of Secretary of State, the Republican was the only newspaper in the state that had not been used by this administration as a tool of corruption. Since that time, the Republican has continued to be true to its position, and has supported the Republican party in all of its efforts to maintain the principles of the Constitution and the laws of the land.
