THE AMERICAN STATESMAN.

WASHINGTON, D.C., June 21.-The President this evening vetoed the provisions of the Tariff Bill and signed it in that form. The Customs House at New York is still in operation, and all the revenue-collecting offices of the United States are working under the provisions of the new tariff act. The act also provides for the payment of the debt of the United States, and the money is now being paid into the Treasury for that purpose. The President has signed the act, but the Congress has not yet voted the necessary appropriations for the purpose.
