TUESDAY, FEBRUARY 18, 1846.

CHIEF-EVENTS.

The Mexican War.

The Federal Government has received official notification from the Spanish Government that it is willing to negotiate a treaty which, if it be acceptable to the United States, will put an end to the serious difficulties which have long continued between the two countries. The negotiations are to be held at Washington, and it is expected that they will be concluded before the close of the Session of Congress.

THE UNO AND THE UNITED STATES.

The United States have recently signed a treaty with the United Nations, which provides for the mutual recognition of the independence of both nations, and for the establishment of friendly relations between them. The treaty also provides for the exchange of diplomatic representatives, and for the adjustment of certain boundary disputes which have long existed between the two countries.

THE GREAT WESTERN RAILROAD.

The Great Western Railroad, which is now being constructed from the eastern to the western end of the United States, has made great progress during the past year. The line is now about one-third complete, and it is expected that it will be opened for traffic in the fall of next year.

THE CANAL SYSTEM.

The Canal System of the United States is now in a state of active progress, and it is expected that it will be completed in the near future. The canals are being constructed with great care and skill, and it is believed that they will be of great benefit to the country.

THE DIPLOMATIC CORRESPONDENCE.

The diplomatic correspondence of the United States with other nations is now in a state of active progress. The United States has recently signed several treaties with foreign powers, and it is expected that it will sign several more in the near future.

THE MILITARY OPERATIONS.

The military operations of the United States are now in a state of active progress. The government is now preparing to send an expedition to the Pacific coast, and it is expected that it will be successful.

THE INTERNAL IMPROVEMENTS.

The internal improvements of the United States are now in a state of active progress. The government is now preparing to send a large number of engineers to the western states, and it is expected that they will make great progress in the construction of roads and canals.

THE EDUCATIONAL INSTITUTIONS.

The educational institutions of the United States are now in a state of active progress. The government is now preparing to send a large number of teachers to the western states, and it is expected that they will make great progress in the education of the people.

THE TRANSPORTATION SYSTEM.

The transportation system of the United States is now in a state of active progress. The government is now preparing to send a large number of engineers to the western states, and it is expected that they will make great progress in the construction of roads and canals.

THE PUBLIC HEALTH.

The public health of the United States is now in a state of active progress. The government is now preparing to send a large number of doctors to the western states, and it is expected that they will make great progress in the improvement of the health of the people.

THE MILITARY TRAINING.

The military training of the United States is now in a state of active progress. The government is now preparing to send a large number of officers to the western states, and it is expected that they will make great progress in the training of the soldiers.

THE PUBLIC WELFARE.

The public welfare of the United States is now in a state of active progress. The government is now preparing to send a large number of officials to the western states, and it is expected that they will make great progress in the improvement of the welfare of the people.

The Mexican War.

The Mexican War has now been in progress for a month, and it is expected that it will continue for some months. The government is now preparing to send a large number of soldiers to the western states, and it is expected that they will make great progress in the conquest of the Mexican territory.

THE CANAL SYSTEM.

The Canal System of the United States is now in a state of active progress, and it is expected that it will be completed in the near future. The canals are being constructed with great care and skill, and it is believed that they will be of great benefit to the country.

THE DIPLOMATIC CORRESPONDENCE.

The diplomatic correspondence of the United States with other nations is now in a state of active progress. The United States has recently signed several treaties with foreign powers, and it is expected that it will sign several more in the near future.

THE MILITARY OPERATIONS.
