REPERCUSSION

December winds have... words are... the vigor of...

Within the last two weeks, there has been more cotton shipped from Charleston to Europe than from all the other ports in the United States put together.

The Passaic Panic—Whatever may have been the cause or causes of the existing monetary troubles, it is quite evident that they are attributable to no very deep seated source of disaster & danger.

The Next Congress—The elections for members to the next Congress are now so nearly over, that its political complexion can be calculated with considerable accuracy.

Not Taken Down Yet—J. W. White, side has deposited Dr. Francis' Drugstore, two other fractions of one, one of which weighed within a fraction of two points, and the two together weighed 615 1/2 ounces.

The Jenness Property—The right heir to the enormous wealth of the Jenness family has at last been found in the person of Mr. Joseph Martin.

Later from Central America—Baltimore, November 6.—A correspondent of the American, writing from Greytown, states that the Costa Rican troops under Col. Canby have bivouacked Fort San Carlos.

India—India is a country that has never been loyal to its natives. Two thousand years ago Alexander and his Greeks led dusky captives in golden fetters from them to Achaia.

to trade and strayed to India. By one Prince, threatening another, the British power presented the despoiling of the soil seems to be the underlying motive.

Star of the West and Calhavin arrived. The steam-ship Star of the West, from Aspinwall, arrived with \$1,500,000 in specie.

Election in New York. In this city the vote has fallen off immensely. The Republicans have a majority of 100,000.

Illinois Central Railroad Report. The Deput of the Illinois Central Railroad, at Cairo, was destroyed by fire to-day. Sunday car and engine houses were burnt. Loss \$200,000.

New Orleans Market. New Orleans, N. O. P. M.—Sale of Cotton to-day 2,500 bales, at an eighth advance. Middling 7-8 a 10 1/4 cents.

Massachusetts Election. The election here has been almost unanimously in favor of the Republicans.

PORTABLE
STEAM ENGINES.
The subscriber respectfully calls
attention to Southern Planters and
Mechanics to the

Portable Steam Engines,
of which he has the Agency in New
Orleans. They are so simple in their
construction that any negro of ordinary
capacity can be taught to run one in a day.
For driving light machinery, running
cotton gins, plantation saw mills, or
corn mills, pumping water, steaming
boilers, etc., they cannot be excelled.

A striking feature of these engines is that
they cost less than would mules or horses,
to do the same amount of work—
A pair of horses will readily move them
from place to place over any ordinary
road. They require no brick work to
set them up, but they are all ready to
be put in operation, with the exception
of a smoke pipe or chimney. One is
kept at work in the subscriber's ware-
house every day between 9 and 3 o'clock,
and all are invited to call and in-
spect it. The Planter, especially, should
look with pleasure upon the introduc-
tion of these Engines, to take the place
of horse power in ginning cotton and
grinding corn, as the cost of running a
6, 8, or 10 horse Engine is much less
per day than the expense of feeding the
same number of horses.

GATCHEL'S
Hydraulic Ram.
The undersigned having obtained the
patent for the State of Ala. for this valuable
invention, it being the latest and best
invention for conveying water yet dis-
covered, desires to dispose of them, and
put them in operation for those who
may want them for their individual use.
They will elevate water, to any given
point and distance, ten feet, for every
foot of head which can be obtained for
them, giving a constant and full supply
according to the amount wanted. They
are simple in construction, and not
likely to get out of repair. They
will wear for many years without wear-
ing out; and when certain parts do,
they can be replaced at a very trifling cost,
and made as good as new. They are
cheaply constructed and can be put in
operation to convey water three hundred
yards, at a less cost than an ordinary
well can be dug and furnished with a
pump; and when formed with a pipe,
they supply like a spring without the labor
of digging or pumping.

Many other advantages might be enu-
merated, but those wishing to pur-
chase can obtain all desired information
by addressing H. P. Edwards, Leeburg,
Cherokee Co. Ala., or John Reese, Rees-
es Mills, De Kalb Co. Ala.

JOHN REESE, Proprietor,
N. B. We will sell the State, or district
rights to any part of the State, or giving
our immediate vicinity. June 10 1857.
