Forers of the sons of freedom. - The war is now in its second year, and the people are beginning to realize that the struggle for freedom is no mere局部性的 affair but a war of extermination. The freedom of a single Southern State is the same as the freedom of the whole Union. It is not a war for the suppression of the slave power, but a war for the establishment of freedom and the abolition of slavery. The war is not for the purpose of punishing the Southern States, but for the purpose of saving the Union. The war is not for the purpose of destroying the Southern States, but for the purpose of establishing freedom. The war is not for the purpose of destroying property, but for the purpose of establishing liberty. The war is not for the purpose of destroying wealth, but for the purpose of establishing abundance. The war is not for the purpose of destroying power, but for the purpose of establishing government. The war is not for the purpose of destroying, but for the purpose of establishing. The war is not for the purpose of destroying the Southern States, but for the purpose of establishing freedom.
