From Washington.

The following telegrams have been re-ceived:

Good news from Europe.

A letter from Lord Granville to the President of France and the President of the United States of America, in which he expresses his hope that the United States will take an active part in the proceedings of the Congress of Berlin, is dated London, 20th instant. The letter concludes as follows:

"I am therefore compelled to observe that the United States must take an active part in the proceedings of the Congress of Berlin, and that the President of the United States must be ready to take the lead in the matter."

NOTES OF A NORTHERN TRIP.

The editor of the Richmond Examiner having just returned from a Northern visit, is now preparing to give the readers of his paper, an account of his trip. The examiner says that the journey was a pleasant one, and that he had the opportunity to get some interesting information about the condition of the country, both in the North and the South. He found that the people were generally friendly, and that the weather was pleasant. He also noted that the railroad system was well developed, and that the roads were in good condition. The examiner says that he was impressed by the hospitality of the people, and that they were willing to help him in any way they could. He also found that the Northern states were in a better financial condition than the Southern states. He concluded by saying that the trip had been a valuable one, and that he would recommend it to anyone who was interested in learning more about the United States. He also expressed his gratitude to the people who had helped him during his trip.

A WAY TO GET
Corn Cheap.

J. G. Potter, P. P. C.

Corn is a valuable article to every farmer. As it is the
principal food of livestock it is essential to have an ade-
quate supply of it at all times. The following method of
procuring corn cheap will be found of great advantage to
those engaged in the livestock business:

1. Get in contact with some farmer who has a surplus
of corn. This can be done through local advertising or
by personally visiting the farmer and offering to buy
his corn at a fair price.

2. Once you have acquired the corn, store it properly
in a well-drained, dry place. This will ensure that the
corn remains in good condition for future use.

3. Use the corn as soon as possible to avoid waste
and to ensure that the livestock remains healthy.

In conclusion, by following these simple steps, you can
procure corn cheap and ensure the well-being of your
livestock. Good luck!
