The New York Times was "sincerely" criticized by a letter writer, who said, "The New York Times is no longer the newspaper of the people. It has become a newspaper of the rich and the powerful, of the politicians and the industrialists. It is no longer a newspaper that speaks for the people."

The letter writer went on to say that the New York Times has become a mouthpiece for the rich and powerful, and that it has lost its voice for the people. He said that the newspaper has become so biased and so one-sided that it is no longer a fair and accurate reflection of the opinions of the people.

The letter writer called on the New York Times to change its ways and to once again speak for the people. He said that the newspaper has a responsibility to the people, and that it should not be allowed to become a tool of the rich and powerful. He ended his letter by saying that the New York Times should be held accountable for its actions, and that it should be made to serve the people, not the rich and powerful.
