Retired.

Several of the leading journals have been discontinued, and the times, the day seems to have arrived when it is necessary to make a change in the management of our health and medical literature. 

The same is true of the Kansas State Board of Health, which has been discontinued, and the times seem to have arrived when it is necessary to make a change in the management of our health and medical literature.

A Big Thing.

A large number of our medical societies have been discontinued, and the times seem to have arrived when it is necessary to make a change in the management of our health and medical literature.
