The New Departure.

In the New Departure, the editor and publisher, W. H. Mayo, introduces a new department, the "New Departure," which will be devoted to the discussion of the new ideas and developments in the field of public affairs. The editor expresses his satisfaction with the results of the recent elections, and observes that the Democratic party is in a better position than ever before. He attributes this to the fact that the party has been able to keep the issue of the campaign on the same level, and to present a consistent and well-organized program. The editor also notes the importance of the new departure, which will provide a platform for the discussion of the new ideas and developments in the field of public affairs.
