FELT ROOFING

The Board of Directors of the Alabama Light and Power Company, recent improvements in their plant, and the necessity of securing additional power, have caused them to issue a new stock of 25 cent shares, paying 15 per cent dividends per annum. This stock is payable in cash or in gold, and will be held and transferred without any restrictions.

R. D. RAMOS, 

S. W. RAMOS,

In the interest of our readers and the general public, we have prepared the following tables for the use of those who may desire to use them. These tables contain all the necessary information for the purpose of computing the duty on goods imported into the United States from foreign countries. The tables are arranged in such a manner that they can be consulted with ease and convenience. They will be found to be of great value to those engaged in the business of buying and selling goods, especially in the import trade. We trust that they will be of service to you, and that you will keep them on your table, that you may have them at your command when you need them.

THE SUN FOR 1872, to all who can read.

The N. Y. Weekly was devoted to Miss Willet's turn in its price.

With the beginning of 1872, the Weekly passed into the hands of the New York Sun Company, which took over the publication of the paper. The Weekly continued to be published weekly, with a circulation of several thousand copies.

The Weekly continued to publish articles on a variety of topics, including business, politics, and entertainment. It also featured advertisements for various products and services.

HUMAN MISTERY.

The Weekly also contained articles on human interest, such as "Human Mistory," which featured stories about people and their experiences.

BREAD PREPARATION.

The Weekly included recipes and tips for preparing bread, as well as other food dishes.

Mackerel, Dried Beef, Want Beeswax, Beeswax and Clean Cotton Bags.

The Weekly also featured articles on cooking and food preservation, such as "Mackerel, Dried Beef, Want Beeswax, Beeswax and Clean Cotton Bags."

For Cash.

The Weekly concluded with a section on how to make money, including tips on "For Cash."

WHOLESALE

J. B. GRAY & CO.

MILLSHUR TO
case of the cloth wove and the color of the fabric.

To the right, the cloth wove is seen. The fabric is made of three different colors: red, blue, and white. The red color is woven into the warp, while the blue and white colors are woven into the weft. This gives the fabric a striped appearance. The red color is woven into the warp at a density of 30 warp threads per inch, while the blue and white colors are woven into the weft at a density of 30 weft threads per inch.

The fabric is made of cotton, as indicated by the appearance of the fibers. The fibers are short and straight, and have a slightly rough texture. This is typical of cotton fibers, which are short and straight with a natural shine.

The fabric is likely to be used for clothing items, such as shirts or dresses, due to its softness and breathability.
