JACKSONVILLE REPUBLICAN
VOLUME 30
JACKSONVILLE, ALABAMA, SATURDAY, FEBRUARY 20, 1875.

TIMELY TOPICS

The interesting subject of the 'Tariff of 1875' came up for discussion in Congress, which the annual session has been called to consider. The main points of the bill are: the abolition of the protective system, the reduction of duties on manufactured goods, the increase of duties on raw materials, and the establishment of a uniform tariff throughout the country. The bill will come before the House of Representatives for consideration, and it is expected that a vote will be taken on the second day of March. The bill is opposed by many members of the Senate, who believe that it will not be of great benefit to the country.

The bill has been introduced in both houses, and is likely to be discussed at length. It is expected that the bill will be passed by the Senate, and that it will pass through the House of Representatives. The President is likely to sign the bill into law, as it is one of the most important measures of the session.

The bill is opposed by many members of the Senate, who believe that it will not be of great benefit to the country.

OUTSIDE OF THE COUNTRY

The provisions of the new law are expected to bring about a great change in the country. The bill will come before the House of Representatives for consideration, and it is expected that a vote will be taken on the second day of March. The bill is opposed by many members of the Senate, who believe that it will not be of great benefit to the country.
