FARM AND GARDEN

FORAGE PREPARE

The season is approaching when the farmers should be thinking about the forage crops they will plant. A good stand of hay is essential for a winter's supply. It is recommended to plant a mix of grasses and legumes to ensure a good yield. The soil should be well-prepared and the seeds should be planted at the proper depth. Regular watering and fertilization will also contribute to a successful harvest.

GARDENING TIPS

1. Water in the early morning to avoid evaporation and reduce the risk of disease.
2. Use compost to improve soil fertility and structure.
3. Rotate crops to prevent soil-borne diseases.
4. Prune fruit trees regularly to promote healthy growth.
5. Cover crops to protect them from frost and diseases.

FIREPLACE HINTS

When creating a fireplace display, consider using a variety of materials such as logs, branches, and cones. The use of decorative items can enhance the aesthetic appeal of the fireplace. It is also important to ensure that the fireplace is properly maintained to prevent fires and smoke issues.

FASHIONS

Spring is approaching, and with it comes the need for new outfits. This season's trends include pastel colors, floral prints, and lace. Fashionistas can experiment with bold accessories and statement pieces to create a unique look.

Constitutional Convention.
The question of holding a Constitutional Convention is one of the greatest necessity to this, the most important interest, in this State. It is, therefore, not a question of whether we should have a Convention, but the question is, shall we, or shall we not? The Convention is necessary for the peace and welfare of the State.

This Convention was approved by the people, and it cannot be altered by any other action. The Convention is now in session, and it is the duty of every citizen to support it. The Constitution is the foundation of our government, and it is the duty of every citizen to support it.
