JACKSONVILLE, ALABAMA, SATURDAY, JANUARY 1, 1876.
The price of St. Louis farm land has risen to an all-time high. The cause of this increase in price is due to the rapid growth of the city and the increase in population. The city of St. Louis is one of the busiest and most progressive cities in the country, and its population has more than doubled in the last five years. The increase in population has caused a corresponding increase in the demand for land, and this has led to a rise in the price of farm land.

Washington, D.C., December 31, 1875

The government of the United States has declared a national holiday in honor of the late President, Abraham Lincoln. The holiday will be observed on Monday, January 1, 1876, and will be a day of mourning and reflection on the life and achievements of the late President. The President's contributions to the country and the world will be remembered and honored.

The president has announced that he will sign the bill to extend the life of the Panama Canal. The Canal is a vital link in the network of international trade, and its expansion will help to strengthen the economic ties between the United States and the countries of Latin America.

The latest news from Europe indicates that the situation in Egypt is stabilize. The French have withdrawn their troops and the government in Cairo has assumed control. The situation is now under control and there is no immediate threat of further unrest.

The price of cotton has continued to rise, reaching a new high for the year. This is due to the limited supply of cotton and the increased demand for it. The cotton farmers are benefiting from the high prices, but the consumers are feeling the pressure of the increased cost of goods.

ONE RIGHT OF A WIFE

How Sarah Got Her Money

"John," said she one night in my presence, "I have long wished to have a few dollars to buy some things, and I have thought of a way to get them."

"What is it," said I, as I turned the page of the book on the table, "that you have in mind?"

"It is this," said she, "I know a way to get the money."

"How so?" I asked, as I turned the next page.

"I shall tell you," she said, "if you will promise to keep it a secret."

"Of course," I said, "I shall keep it a secret."

"Well," she said, "I shall tell you."

"Tell me," I said, "what is the secret?"

"I shall tell you," she said, "when I have finished."

"I shall wait," I said, "as I shall keep my promise."
