Biggest Award Ever Made! To any one at all acquainted with the corn market, a great gain in the values of a cargo of corn recently observed. With the present abundance of corn, the demand for it is very great, and the price is high. It is expected that this demand will continue, and the price will rise, and that the corn will be raised at a considerable premium. The corn is now being delivered at the warehouse, and will be ready for shipment in a short time. The corn is of the best quality, and will be delivered in good condition.
