WASHINGTON LETTER.

A correspondent of the Washington Press, writing from the capital of the Union, reports:

"The existence of a new and important political party, the Nationalists, in Washington, is causing much excitement among the politicians of the country. The party, which is said to be composed of a number of the ablest politicians of the country, is advocates of a strong Union, and are opposed to the secessionist movement. The party has already secured a majority in both houses of Congress, and is expected to be a powerful force in the future."
A CALHOUN FARM.

Mr. J. C. Creel and family have just completed the erection of a new two-story frame house on a beautiful lot near the Jacksonville and Tallahassee road. This house is a substantial and commodious residence, fully equipped with plumbing and electricity. The house is located on a spacious and cultivated farm, which is under the management of Mr. Creel's capable hands. The farm is well drained and fertile, and the crops are expected to be abundant this season. The Creel family is well known in the community, and their new home is likely to be a center of social and cultural activities.

JACKSONVILLE REPUBLICAN.

WASHINGTON LET;

The President's Trip to Europe;

The President's trip to Europe is expected to take place in the near future. He is to visit several countries, including France, Germany, and England. The trip is likely to last several months, during which time the President will have the opportunity to meet with leaders from around the world. His itinerary will include meetings with heads of state, political figures, and cultural leaders. The President is expected to return to the United States in November, where he will begin his re-election campaign.

OHIO ELECTION;

The Ohio election is expected to be a close race between the two major candidates. While the polls are currently favoring the incumbent, the race is too close to call. Both candidates are expected to campaign heavily in the final weeks, with the hopes of securing enough votes to win the election. The outcome of the election will have significant implications for the future of Ohio and the United States as a whole.

THE GRAND JURY.

The Grand Jury has completed its work and is expected to present its findings to the local authorities. The jury's investigation was prompted by allegations of corruption within the local government. NEIGHBORHOOD NOTES.

OUR LOCAL COLUMN.

NOTES.

Mills are well known for their ability to spin. In a recent test, a new mill set a record by spinning 1,000,000 yards of thread in just 24 hours! The incredible efficiency of this machine leaves no doubt as to why mills are such an indispensable part of our manufacturing process.

Mills also contribute significantly to the economy of the area, providing employment opportunities and driving local growth. The success of this new mill is a testament to the innovation and hard work of the mill workers and management.

The Importance of Mills

Mills are not only important for their contribution to the economy, but also for their environmental impact. Many mills are working towards sustainability and reducing their carbon footprint. This is a positive step towards a more sustainable future for our planet.

In conclusion, mills play a crucial role in our society. They are not only a symbol of our industrial past, but also a driving force for innovation and progress. Their continued success is essential for the prosperity of our communities.
WASHINGTON LETTER.

WASHINGTON, Oct. 25, 1888.

Dear Sir:

What do you mean by "an old man in grey"

I received your telegram and the letter of the 22d from New York, in which you say that I was appointed by you to the post of the Secretary of the Interior. I am grateful for your kindness, and shall do my best to discharge the duties of the office, which I accept with the greatest pleasure.

Yours truly,

[Signature]

WASHINGTON, Oct. 25, 1888.

Dear Sir:

I am glad to hear from you, and to know that you are well.

HORSEMEAT.

Great Popularities of Cattle "Steer."—In the course of the week, the Beef and Veal Markets have been in a way remarkable, the number of steers sold being far in excess of the demand. The market prices have steadily advanced, and it is probable that the surplus of beef will be sold out within the next few days. The manufacturers of beef can be satisfied with the demand, and are not likely to make any increase of prices. The supply of beef is ample, and the demand is expected to be large. The market prices are expected to remain steady for some time to come. The prices of beef and veal are likely to be higher than in the past few months. The market is anticipated with the expectation of a good harvest, and the supply of beef is expected to be sufficient to meet the demands of the market.
