IN THE WHEELHOUSE.

"I've just been on a visit to the south, and the pilot told me a remarkable story about a man who was lost at sea. He said that the man was sailing in a small boat, and suddenly a storm arose. The man tried to navigate his way through the rough waters, but he was unsuccessful. The boat started to take on water, and the man knew that he was going to die. He knew that he had to do something, so he grabbed a piece of wood and began to make a life preserver. Finally, after a long struggle, he was able to stay afloat and was rescued by a passing ship. This is just one of the many stories that pilots tell to entertain themselves on long voyages."

ON VARIOUS TOPICS OF CURRENT

The leading illustration of the files of the press which have come out today is the storm of the night. The city has been thrown into a turmoil by the sudden and unexpected downpour. The rain has come in force, lashing the streets and causing widespread flooding. The streets are now a quagmire, with water covering nearly every street corner. The public is urged to take necessary precautions to avoid accidents and to be careful while traveling. In addition, the city authorities are working to clear the streets and return to normalcy as soon as possible.

OOSA VALLEY DISTRICT

Sawmill Dam

Sawmill Dam has been constructed in the Oosa Valley, providing water supply for the surrounding area. The dam has been designed to provide irrigation for agriculture and to improve the local waterway, thus enhancing the region's economy. The construction process has been carried out with great care, ensuring the safety and well-being of the local community.

STATE NEWS

Coosa River Floods

The Coosa River has caused flooding in the area, with water levels rising sharply. Local authorities are monitoring the situation closely, and residents are advised to remain vigilant and take necessary precautions. The river authority is working to ensure the safety of the public and to minimize the impact of the flood.

W. C. Cox, manager of the Coosa River, has been performing a crucial role in coordinating the response efforts. The manager has been closely monitoring the water levels and ensuring that the necessary measures are taken to protect the community. The situation is under control, and the authorities are working to maintain the safety of the residents.

Potts Hill.

The prospects for the growth of Potts Hill, one of the most promising locations in the county, are very encouraging. The recent influx of settlers has been substantial, and the new arrivals have brought with them fresh ideas and energy. The establishment of a school and a church will soon follow, and the development of a supply of timber and water is also well underway. The community is making rapid progress towards becoming a flourishing center.
