I WANT TO SPEAK TO YOU

I BELIEVE WE WILL SEE GREAT IMPROVEMENTS WITHIN THIRTY DAYS.

And that about as much will be realized from this crop as any for years, and after it has been marketed that the farmer will be nearer out of debt than they have ever been. My observation is that the people have lived close and harder than I have ever known and under these conditions prosperity will come.

HOLD FAST,

Make another change crop and you will be independent, and when you achieve this, you will start on the road to becoming rich. The road to riches is not easy to travel, but it is well worth the effort.

GIN FEEDER, CONDENSER, COTTON PRESS AND PULLEYS, ALL AT HALF PRICE.

WHEN A MAN TALKS

With the Mayor of New York.

WASHINGTON, Oct. 1.—On the last day of the campaign of the President, O. W. Hilliard, of the American Party, was re-elected to the U.S. Congress. Mr. Hilliard is a member of the House of Representatives and was re-elected to the House of Representatives by a large majority. He is known to be a strong advocate of the Home Rule scheme.

There were two railway stations at Anniston, one at North and one at South. The North station was opened by a speech and a. The South station was opened by a speech and a recitation by a local interest. Mr. Hilliard said that the speech was a better argument for the Home Rule scheme than the argument he had heard on the subject before.

We've Spread Ourselves.

No path to успех. It will pay you to know that a business with no reputation at all is not going to sell daily stones in any way. We treat you as we would like to be treated. We are con-

fident they will please you.

They are called to us. We've put our time and talent and good will to good use. We know that $15 and $25 dollars sound very much, especially if you've been dealing with tailor prices. It seems that charge $60 or $60 for a suit, our $15 and $25 grades are not too much of a saving, at all. You are not tied down to oafe style. You have none of a variety here as in a half dozen other stores. The cut of the garment is the latest RINGLES and DOUBLE BREASTED SACK SUITS and TIE, SE and FOUR BUTTON GABYSHAS.

by the BARGAIN YOU thought about a business suit for the spring? They will please you. They will return you.

What's the matter with a Double breasted Sack? Uniforms are going to be the style, some heavy, some light, some dark, of course this will increase and between stocks. This is the little things about them, lots of comfort and satisfaction in them.

If you can't, your spring suit and underwear will cost you less than the suit alone from a tailor. See our spring suit prices.

Don't you think is about time to get a spring suit?

Alabama Pot

Labrador Pot

A Pot which is styled the Labrador is the most popular in the market.

One Pot Will Have a Transparent Top.

The transparent top is a feature of the Labrador Pot. It allows the drinker to see the color of the beverage.

The Transparent Top Pot Will Have a Transparent Lid.

The lid of the transparent top pot is also transparent, allowing the user to see the level of the liquid inside.

 decoding.txt

In 2023, a new technology called "Decoding Text" was introduced to the market. This technology allows for the decryption of encrypted and encoded messages from various sources.

Decoding Text has been used in various industries, including finance, law, and government. It has also been adopted by the military for secure communication.

The technology is based on advanced algorithms and machine learning models that can analyze and interpret encrypted data.

The advent of Decoding Text has revolutionized the way information is exchanged and protected.

The Potential of Decoding Text

Decoding Text has the potential to transform industries by providing a secure and reliable means of communication.

It can be particularly useful in industries where data privacy and security are critical, such as finance and healthcare.

The technology also has applications in education, where it can be used to protect sensitive student data.

In conclusion, Decoding Text is a powerful tool that is changing the landscape of communication. Its potential is vast, and we can expect to see continued growth and innovation in this field.

TRUITT'S LETTER.

MR. EDITOR:
I see in your paper that my competitors are trying to follow or "imitate" me. Well, I like this for more reasons than one. FIRST: I want the REPUBLICAN to gather in the shekels, because you always give me more than value received. SECOND: Because to follow me they must think I am doing well and I always like that. In THE THIRD PLACE: If they are trying to follow, or are after me, I just GET ON MY METTLE and move up a few button holes, and crowd on.

NOW ONE BETTER
