EVEN EVERYTHING IS IN PERFECT READINESS.

The betterment of every other season—over every other store—is plainly apparent. You can see it if you come in a hurry. The goods are of better quality, afford better choice. The better values give greater satisfaction. You can buy quick here because there is not a traitor in the stock.

We have studied to make this the ideal store—when everything that Men, Boys and Children wear can be bought.

The paper has declared that only the hardiest and best-grown goods are in our selling, but our head house is not to be excelled. We have a footing in the market that can look to the goods. By this we mean, 'Buy the goods.'

In Agony

By Dean Grady, M.D.

In the other of my series, I alluded to the various evidences of the presence of disease in the chest and the throat. There are other evidences of disease in the chest which are equally significant, but which are not so easily recognized. One of the most common is the cough. It is a common complaint, but it is often neglected or misdiagnosed.

The first step in the treatment of a cough is to determine its cause. A cough may be due to a cold, a throat infection, or a more serious condition. It is important to identify the cause in order to provide appropriate treatment.

In the treatment of cough, it is important to identify the cause. If the cough is due to a cold or a throat infection, the treatment will be supportive. For example, if the cough is due to a cold, the patient should rest and drink plenty of fluids. If the cough is due to a throat infection, the treatment will depend on the severity of the infection.

For more serious conditions, such as asthma or bronchitis, the treatment will be more aggressive. It may include the use of medications to improve breathing, and in some cases, hospitalization may be necessary.

We are happy to announce the opening of our new office in the City Drug Store. This location will allow us to serve our patients more efficiently and conveniently. We look forward to continuing our work of providing quality care and health services.

The Plan

One way to reduce your monthly expenses is to simply keep a few pounds off. This can be achieved by following a healthy diet and exercising regularly. This will not only improve your overall health, but also help you save money on medical bills in the long run.
